Document text in message:

Declaration on the application of Global Collaboration Government's and International Right's group's against International Terrorism which surpasses the value of the sum of the worst crimes in the history of the existence of the human race.

Global Declaration against World Economy Crisis 2008,
The Most Biggest and Global Crime in Human History

Tuesday, April 12, 2016

Part of Terrorist Activities, The Czech Government

The Global Economic Crisis in 2008 and a real relationship with the principles of International Law and incident's and legitimate sovereignty declaration of the International Alliance World Diamond replace the Czech Republic as the beginning of such activities of Common Global Sovereignty against Global Terrorist Regime of The Czech republic government.

Signature Author of Global Declation
The King of The ID's & WD Government's

Expressing just a part of a terrorist incident in the size of the planned activities of the Government of the Czech Republic, Global Economic Crisis 2008:

The government of the Czech Republic, in pursuit of a strategy to influence the nation's Czech country and International policy, therefore, planned to complete disinformation, isolation and personal financial and social crisis and instability against the person of The King of The Federal Government Imperium of Diamond's so direct Czech Governemnt founding the terrorist activity of this type since year before 2005 until 2008 and prevent against Imperium of Diamond's cooperation against treaten of Global Financial Bancrupt.

The activity of such terrorism and violation of International Law's took place because of espionage activity knowledge of the Czech government about the capabilities and intention's of the Imperium of Diamond's direction's of political, trade, development and humanitarian effort's and activities to ensure full International cooperation for the development of the World Economy, Civilization foreign countries and interest's for Global

Support Cooperation. Values activities Imperium of Diamond's under the confirmed ability to build project's and development plan's and cooperation that is full capacities to ensure the removal of all threat's to the global economic crisis and the bankruptcy of activities of many civilization's in the world, so too the ability to prevent all act's and consequences of the Global Economic Crisis in 2008.

Development plan's of the Federal Government Imperium of Diamond's were and today still is, initiate development of enterprises, to create a civilization structure of the market's of all peoples and countries, eradicate any form of famine, shortages of medicines and medical help extend human life, eradicate poverty and at the same time eliminate unemployment. The Federal Government Imperium of Diamond's confirm's that it is the ability to achieve development for each country's Government in the World to value ratios today the most important civilization's 2000-2016. These are and have been proven, confirmed the plan's and the interest's and abilities of the Federal Government Imperium of Diamond's.

Construction of advanced cities, significant today as the most modern types of Skyscraper's, strong construction and Smart Infrastructure, mass population and material Global Transport's the strength of the speed of several hundred's of million's of kilometer's per hour, Industries with a High Quality Automation, large-scale values of Agricultural Enterprises with the ability to use special form's of technology for High Production of Food and Raw Material's, many other form's of „Legal Market's" are learner's to enhance the ability of raw material's and economic budget's each country at least more than 100% of GDP.

Establishing International Cosmic Civilization's in the dimension's of the Galaxy with a workforce of more than 15,000,000,000,000 new planet's, in the beginning 2000. Many form's of civilization center's that can reach the level of advanced form's of civilization than our planet Earth, with an economic value that exceed's the budget's of the Earth and so certainties in maintaining security before the financial crisis and any consequences of the financial crisis in 2008.

So there are still many other form's of economic and development cooperation on behalf of Diamond's Imperium, with the ability to surpass all the activities of the financial crisis in 2008.

The Czech Government has since 1998 operated activity in the form of apartheid against The Federal Government Imperium of Diamond's, blocking road's and the possibility of political relation's with the world's hard infringe the right's to education and the use of any form of human right's or most of the values legal system's application, slavery, rape and public damaging to the honor and values, blocking contact with decent society, blocking the possibility of health claim's, corruption in government and state or social company, and the manipulating the court's, with the activities of the police investigation, falsifying testimony about criminal activities, expansion of corruption against justice and the enforcement of claim's under International Law, many form's crime, International Crime and once again crimes in the form of International Terrorism, violating important principles of the UN Charter and relevant principles of Multilateral agreement's and Declaration's of the United Nation's organization, the world's terrorist activities that lead to the violation of all legally eligible value of Bilateral and Multilateral Government relation's Czech Republic and simultaneously with act's in the form of Media Censored Genocides that hard outstrip statistic's of World War II be Global Character, the refusal of obligation's in the form of a Declaration to Prevent the Genocide, in which formal and legal value deductible as implementation support other group's of International Character as an Alliance of Government's in the form of Organized International Crime is systematically caused the Genocide against today 300,000,000 people dead form of genocide that was committed in a systematic terrorist activity European alliances, as well as more than 2 miliard people by mean's of such terrorism must live in disallowing an awareness of their own right's and International Politic's legally recognized claim's, live under silent occupation and often stealing the identity and other threat's silent genocide. Today's 5 Miliard people who are lost through terrorist mean's of bludgeoning damage to the natural values of annual growth from 2000 to 2015. Thus, while support and implementation of many form's of International terrorism silent and censored media activity, terrorism against more than 180 government's UN the extent of the known world, as well as tarrorism against for more than Two Hundred Microstates, so too against terrorism more than 50 million Merchant's & Businessman's Worldwide.

The Czech Government therefore since 1998, and than matter of this Document by the Global Economic Crisis in 2008, mainly from 2003 and 2005, perform's and promotes crimes in the form of hypnotic manipulation King Federation Imperium of Diamond's, as well as blocking the freedom's and Internationally recognized rights, apartheid, blocking communication in society, murder, tyranny, disinformation, hypnotizing for supporting organized crime and drug stores, misinformation and hypnotic manipulation's in order to develop strategies for blocking the ability of the claimed activities in society, many form's of crimes that lead to isolation and loss of possession's or the ability to legally defend themselves.

Crimes Czech government made mainly because the King of the Federal Government Imperium of Diamond's unable to carry out using their own plan's and legal claim's because it could be used report on threat's to the Economic Crisis and Securing Global Cooperation with other Nation's and Government's as co Imperium of Diamond's, in which, the ability to ensure the prevention of the Global Financial Crisis in 2008, and such option's and the possibility of applying Legal Right's and entitlement's of International Policy for making Global Cooperation which mean's the ability to Liquidation of all sizes Terrorist Regime of the Czech government, thereby ensuring the safety and function of International Politic's by all principles and obligation's.

Through the exercise of crimes Government of the Czech Republic were created activities as The Biggest Terrorist in The History of Human Existence, causing hard financial crises of a Global nature, causing

famines, threat's, destruction and bankruptcy for some civilization's, the performance of hard activities and form's deliberately and consciously systematic step for the Global a crime that overtakes criminal values fascist regime of World war II, or the crimes of Osama bin Laden's attack on the World Trade center in NY, terrorism, other group's of International Organized Crime which has in term's of basic statistic's similar nature of criminal activity always automatically and naturally loses all value claim's political recognition, political right's, and also demand's for political, media, business and social communication or representation or activity, or any other similar form of recognition.

Each policies of the Government of the Czech Republic and a person of such scale terrorist alliance must be INTERNATIONALLY BEARING the same value as the FASCIST REGIME in Germany after the Second World War, as well as the value of Adolf Hitler that a rogue character could not reach even half the value of the crimes of the Czech Republic, as well an obligation for designation and legal action as a person of International Terrorism, Osama bin Laden who failed to reach even 1% of the total value of the Global Dimension of Terrorist Crimes, the Government of the Czech Republic. The Czech Government is again All Principles of International Terrorism as the Greatest Actor in The History of All Mankind.

Regime of The Czech Government is therefore historically as the Biggest Traitor, a Dissident against Your Government, against Your Civilization, against the Peoples of Your Sovereignty and Jurisdiction, against All People who live on the planet Earth, and thus The Greatest History Traitor's and Dissident's against all International Organization's Political, Economic and Security dimension's of the character in the Whole World.

World's own obligation to learn the value of such a crime because so nobody could possess the courage to repeat a similar crime, cooperation for disposal and Global Activity against the terrorist regime is therefore the duty of a political nature.

The United Nation's was based beginning a full function mean character on the prevention of crime and especially against the values of International Crimes and Genocide in the same and similar form of Fascism Adolf Hitler during the Second World War. Adolf Hitler and his fascist regime because of it's inherent value legally recognized as the largest dissident and criminal, against all mankind. The government of the Czech Republic many times and rapidly overtook the worst crimes of fascism, World War II and so is legally again confirmed that the government of Czech Republic carried out by organized terrorism against all Nation's and Government's Worldwide. The Czech Government is therefore much worse Criminal and Traitor body of the Human World, rather than as Adolf Hitler and his fascist regime during World War II. Therefore, the necessity that Each Government country in the world to respect the obligation's and principles of World Politic's, and take such step's for disposing of such arrangement's for the Government of the Czech Republic, due to outshine all the values of the history of World Crime and Violation of Political Principles and Rules.

The value of the human population is 7,2 miliard people, because of the inability of European terrorism and application of Legal Principles, justice and Political Responsibilities, can therefore create the First Global War can to exterminate through more than 5 miliard people in the entire range today known world. If Diplomatic Agreement's and Principles losses on value, today there is a full right for the possibility of an immediate liquidation of European states through weapon's of mass destruction, nuclear weapon's, reactionary weapon's, chemical weapon's, other weapon's of other version's that are designed for the mass Destruction of the Terrorist Organization's and their State System, the nature of Global Threat's.

In case of exceed certain limit's it is an opportunity to confirm that there are group's which do not possess the right value for their own human existence such recognition.

The Federal Government Imperium of Diamond's is not any value in contravention of the UN Charter and not exercised any activities that might be inconsistent with the UN Charter and other Legal Principles of standard Multilateral Agreement's, Peace, Security, Policy and Cooperation. The Federal Government Imperium of Diamond's fully Legal association without the risk of any form of political conflict.

Government of Czech republic and the Czech State took place organized crime activities that are at a level sufficient for the demand for the implementation of UNSC obligation's in the form of immediate destruction of the state of the Czech Republic through it's nuclear weapon's. That is also the liquidation of every entity that support's the activities of this terrorist entity Czech Republic.

In this case, due to security duties, the „State Czech Republic“, confirmed as a „Terrorist State“ in cooperation with the Government of the Czech Republic, because as a state that loses the right to claim any form of self-determination of sovereignty and decision's by election government. Terrorism not have right for use of right's because duties of prevention against Organized Crime.

Therefore they are entitled to assert a claim in the form of destruction regime, the Czech government and the formation of a New Government as the International Alliance World Diamond sovereignty over the territory of the Czech Republic through form's of Democratic Alliance of Government's from around The World and thus ensure the function regime, a just and safe nature, as well and qualify for the possibility of applying the step's that signify support for the development of World Politic's and providing immediate stability and development. The system of the body of the International Alliance World Diamond is legally and strategically more valuable than the importance of the UN, therefore, is the responsibility of the UNSC in order principles of the UN Charter to UNSC confirmed the exercise of sovereignty International Alliance World Diamond as the Main Strategy for UNSC, and therefore the creation of such right's on a claim of the Czech nation for self-determination only by a decision of this document and it's legal form's testimony.

So sovereignty is recognized by International Obligation's and strategies through Multilateral Rules and

Treaties UN Declaration as well as under the UN Charter or Political Nature of Justice or prevention against bankrupt of civilization.

Any person who was in any way in opposition to these principles, and through support for the activities of International Terrorism in accordance with this wording because a person always loses any right to defense and movement, every person of this nature must be located, arrested, punished, located, arrested, punished, located, arrested, punished. Must be punished in the same way all those who support terrorist activity or person's in contact with a terrorist group. Twenty year's in prison, then it will be decided on the execution, Captured. Any such person is therefore becoming a citizen of the Government of Diamond's Imperium, like the Statute of Prisoner's. Prisoner has the right to change citizenship until terminated the validity of the court decision on the sentence. So the natural form of policies supported by natural and legal principles of the UN Declaration, also with obligation's.

Declaration for confirmation of the liquidation arrangement's for the government of the Czech Republic, and thus the foundation of the Legal form of Sovereignty through the International Alliance World Diamond

The government of the country which supported it's own document recognition by signing a declaration therefore confirmed on respect for their own right's and obligation's of an International character. Therefore, the document is automatically acknowledged as valid.

The country's Government that refuses to support the document through it's own Signature and Legal Declaration that recognizes a claim and the performance of International Law's which imply recognition of the Government of the Czech Republic as a body without a claim for political, business, media, social activity and existence, because it mean's that the Czech Government and a form of terrorism alliance must be disposed of in the size range around the world by applying the principles and demand's of International Right's and Obligation's, in this case, for the full extent of the territory and the resolution of the UN Declaration and the validity of the UN Charter. Refusal to perform Declaration is right for abstention and without notice to terminate it's own International obligation's of a political nature and therefore is a valid recognition of International rules that dictate requirement's for the disposal of entities in the form of terrorism, the Government of the Czech Republic, and such Terrorist Alliance.

The Government of the country which explicitly refuses to sign the document and it's declaration to form intent to support terrorist regime of the Czech government and such form's of Terrorist Alliance therefore affirm their own testimony to halt the appreciation of International Law's and the principles of political responsibility and therefore the implementation of activities which mean's support for „this format" of „World Terrorism Government of the Czech Republic", the desire for cooperation on Global Terrorism and organized crime, therefore autonomously perform blocking and loss of legitimacy of all form's of claim's and the validity of it's own political, business, media and social activities. A body that expresses the full rejection of a legal obligation to carry out cooperation against the terrorist regime of the Czech government and because of effort's to promote such a crime, therefore create right and duty of Representatives around the dimension of World Politic's to launch a full liquidation of any movement of the body which has become the format of World Terrorism.

Political person in the interest of the Government which refuses to sign this document and support document through Legal Declaration with an explicit declaration of rejection of that measure therefore expresses that it is aware of this paragraph, which also follow's refer's to the right's of other seat's and future Mandates of Government, right's of existing Political Parties in the opposition, on the right's of General's and Representatives of The Armies of the regime, on the right's of Representatives of the Security Department's and also on the right's of any other National Communities and Movement's, so the Legal Right to International recognition through Multilateral Declaration's World Policy which ensures qualify for activity in the form of dropping all those political nature which express They refused to confirm The Declaration of Global Cooperation against International Crime regime of the Czech republic. The person,

group or movement that will act as an active body for the overthrow of the political parties Terror Alliance because their own are entitled to create their own regime so because the claim's made the previous group terrorism by The New Regime as Government and State Federalised in the interest of the Imperium of Diamond's or performance full synchronization with the system of governance of the International Alliance World Diamond.

Any activity that is able to ensure the elimination of the existence of any similar format terrorist regime by the Government of the Czech Republic, such activities by all International Law's and Principles fully not punishable and without any form of claim's of any State for the execution of the sentence for opposition group's in the world of crime and terrorism. Cooperation can begin each clause applicable and in any way that not destructive or violence against „another entity without a personal relationship with terrorist activity and crime”.

Person as an Active Opposition against Global Terrorism, the Government and the Regime and Opponent's of crime in the form of additional Mandates the Government, the current Political Parties in opposition, General's and Representatives of the Armies of the regimes, Representatives of Security Department's, and also any other National Communities and Movement's that creates a New Regime of Government and State through success in removing the Terrorist Regime of the previous Government, therefore, automatically gain's the right to ensure their ability to gain it's own territory in the range of planet's in Outer Space, The Cosmo and the principle of self-rule as part of the Federation of Diamond's Imperium. Group which replaces a terrorist entity therefore acquires the right to establish their own sovereignty on the territory of the other planet's in the Universe, and thus the creation of joint membership in the Federation of Diamond's Imperium. Federal Government of Imperium of Diamond's support be all option's technologies for Universal travel in Cosmic Space.

Furthermore, the Government that carries the signature of this document and the declaration therefore expresses about His own knowledge of the Information in this document represent's so well understand's and respect's the demand's of such right's and political duties.

This gives rise to International Decision's, through the Signature and Declaration Document and the principles of International Political Right's and Principles, also in the interest of the basic format of the natural text of the Constitution of the International Alliance World Diamond, with the resolution of this document in the territory of the Czech Government therefore legitimately decide on Global Cooperation as an obligation for the transformation of the sovereignty of the Czech government to format the territory and sovereignty of the Government of the International Alliance World Diamond.

Under International principles, an appeal can not be applied in any case.
