Some secret Earth organisations negotiate with small groups of '**space pirates**' - rebellious ETs that may have been ostracized from their native civilisations. Space pirates visit star systems looking for valuable resources. [9](#)

Some **'service to self'** ETs began **secret contact** with some Earth governments in the late 1940s. These ETs demanded that their presence not be revealed to the public. [7, 10](#)

Andromedans have helped prevent nuclear disaster on Earth several times since 1945. They've been visiting for thousands of years via a wormhole/stargate/portal from the Andromeda Galaxy to Antares. [5,9](#)
Antares is home to high density beings and a gateway to other galaxies. [9](#)

The Galactic Federation is approved to intervene to stop humanity from destroying itself. Steps are taken to prevent disaster caused by atomic testing, nuclear accidents, rogue use of WMD, and the triggering of cataclysmic earthquakes and volcanoes. 5, 7

In the mid 1990s a new Galactic Treaty began that resulted in star races originally opposed to the Galactic Federation transforming their societies, and in many cases joining the Federation. 7

A few 'service to self' ETs conned governments to do their bidding. This deception was strengthened when governments continued to deal with ETs in secrecy. Some organisations are still complicit in this secrecy and deception. Some governments and groups are slowly working towards '**disclosure**' however not everyone agrees that this is a good idea. Various human-alien **hybrid programs** have been operating for millennia and particularly from the 1940s to the mid 1990s. **Hybrid children** have been growing up on motherships orbiting Earth as well as on Earth itself. [5, 11](#)

Some 'hybrids' born on Earth often have ongoing contact with hybrids and star family beings on motherships. Other hybrids may not be aware they are hybrids until contacted by star family beings later in life or 'awakened' through personal experience. [11](#)

Hybrids interviewed over the last two decades often have a common mission on Earth

- To help anchor higher 5th density frequencies on Earth and aid the evolution of consciousness
- Act as a bridge between ETs and humanity – to act as ambassadors
- To be of service to individuals, humanity and Mother Earth [11](#)

Close Encounters of the 5th Kind: Contact Has Begun

Many groups around the world are using a **CE-5 contact protocol** to initiate contact and communication with ETs. Some believe this contact process forms an increasingly large and meaningful part of a current alien disclosure to humanity.
