Westinghouse

BAR FRIDGES

Here are just a few reasons why a Westinghouse bar fridge or freezer would be a great addition to your home:

Great combination. Combine the bar fridge and freezer to make a 'Pigeon Pair' or stand alone.

A perfect hideaway. Hides neatly under benches or doubles as a handy table top for additional workspace.

Mix 'n' match. Reversible doors let you choose which direction the door opens to fit your space better.

Fingerprint-resistant. Classic white or mark-resistant stainless steel door to help maintain that sleek look.

New refrigerant. Westinghouse refrigerators have started converting over to the more environmentally friendly R600a refrigerant. That means every day, your refrigerator can play its part in reducing the household's impact on the environment.

Bring home peace of mind. When you buy one of our fridges you know you're buying a highly trusted brand.

We back it up with dedicated customer service, so whatever your family throws at your fridge, our family can fix it.
