

THE TRUSTED RESIDENTIAL AND COMMERCIAL PLUMBER IN BIRMINGHAM, AL

Get the peace of mind you deserve by calling on a trusted and skilled local plumber in Birmingham, AL, from Plumbing Professionals for residential or commercial plumbing needs. We're proud to be a well-respected full-service residential and commercial plumbing company that's been providing reliable plumbing services throughout the Birmingham area since 2007. Whether you need water heater repair, basic plumbing repairs, emergency plumbing service, or drain cleaning, we're ready to get the job done promptly, affordably, and correctly.

OUR COMPLETE RANGE OF SERVICES

The team at Plumbing Professionals has extensive experience with a wide range of plumbing needs, from emergency plumbing solutions to large-scale residential and commercial plumbing projects. We're committed to providing exceptional service while also offering convenient scheduling options when any of the following plumbing services are needed:

- **Plumbing:** Our home and business plumbing services include routine issues with leaks, clogs, and drips. With residential plumbing, we also handle issues with toilets, dishwashers, gas leak detection and repair, and tree root removal along with the set up of whole home water filtration systems and other projects involving plumbing additions and installations or replacements. We provide similar commercial services.
- **Drain cleaning:** With thorough drain cleaning in Birmingham, our goal is to use the most appropriate methods to get water flowing the way it's supposed to. It's a good idea to have your drains professionally cleaned if you are noticing slow drains, frequent water backups, or unusual drain smells or sounds. With drain cleaning, our skilled technicians use a variety of techniques, including hydro jetting.
- **Water Heater Repair:** We realize water heater repair is something our customers need taken care of ASAP, especially if there are leaks or a complete lack of hot water. We service both traditional and tankless systems. As our trained technicians are adept in repair services, we'll let you know what's going on with your water heater so you can understand what's best for your needs. We can also take care of new water heater installations.

RELY ON PLUMBING PROFESSIONALS

Keep in mind that DIY plumbing has the potential to contribute to more expenses and headaches if mistakes are made and details are overlooked. With drain cleaning, for instance, we use techniques that most homeowners or business owners aren't able to take advantage of easily. Our trained team also knows how to spot potential plumbing issues at a time when they can be corrected with only minor repairs or replacements.

You'll also definitely appreciate not going the DIY route if you are planning plumbing updates or dealing

with leaks or clogs that don't have an obvious source. What's more, professional plumbing that's done right often saves you money in the end.

CONTACT US TODAY
