

# HOW TO ACCESS TPLINKWIFI.NET ADMIN LOGIN?

---

- Establish the connection with the TP-Link router.
- You can make wireless or wired connection with router.
- You may access the web-based [tplinkwifi.net](http://tplinkwifi.net) admin login after you establish the connection with the router.
- Noticeable point is that you do not need to have access to the internet to log in to web-based management page of TP-Link router.

- TP-Link routers have built-in web server that lets you log in without internet.
- After connecting your computer to the router-
  1. Launch the web browser.
  2. Enter `http://tplinkwifi.net` in the address bar of the browser. You may also use default IP address to access the admin log in page of TP-Link router, which is `192.168.0.1`.

TP Link Admin log in window opens.
