Introduction PES 2013 (Pro Evolution Soccer 2013)

Pro Evolution Soccer 2013, also known as PES 2013, is one of the most famous soccer sports games in the game industry. It was announced in the autumn season of the year. Nintendo 3DS was launched on platforms like PSP, Playstation 2, Playstation 3, Wii and Xbox 360.

Every game enthusiast who is interested in sports will undoubtedly play this game. This game is also known as World Football: eleven winners in Japan and South Korea. This is an association football game developed and published by Konami.

After the success of this game, the next version, Pro Evolution Soccer 2014 or PES 2014, was released.

About the graphics in the game, the game so far most available in this game is

about the graphics in the game, the game environment available in this game is based on sunny bright days, even sunny and dark days.

PES 2013 provides a TV-like viewing experience while playing the game. Looking at the negative parts, the movement of this game sometimes feels a bit wavy, the players' body sometimes looks very steep for an athlete playing on a field, and also some variations in the gun movement may have given this game a little good touch.

This is not a very different factor to view this game as bad, but these flaws can be noticed during the 2013 shoot. But the emphasis and existing shadows show the game well, we can see breathtaking scenes in Pro Evolution Soccer 2013.

The faces in the game are quietly well done, we have to say that the details and skin on the faces are appreciable and give them a pleasure to look at, but besides that, the faces don't always look the same as their real characters. Some of these players' faces can be seen in the game:

- Ronaldo de Assis Moreira AKA Ronaldinho
- David Silva
- [Cristiano Ronaldo \(https://tr.wikipedia.org/wiki/Cristiano_Ronaldo\)](https://tr.wikipedia.org/wiki/Cristiano_Ronaldo)
- Carlos Tevez
- Wayne Rooney

Now that we are talking about the game, we know that protecting the ball and passing it to the right player is very important in any football sports game. The disadvantages mentioned above hamper the gaming experience to some extent, but the game wants you to forget the flaws and play more. It is a strategic game where you have to synchronize with other players of the game.

The more he plays the game, the more he has an idea of whether he should defend or push forward. The specific player ID feature is really useful in adopting new moves and giving each player their own tactics. As we know that player identity is made specifically to create new tactics and skills in players, players like Real Madrid goal machine, Cristiano Ronaldo have signature qualities, skills and tricks, and they also act as they do in real life. celebrities have their own talents. Goalkeeping is said to have a new life with new animations and graphics in this version of the game.

The dynamic first touch is also one of the key features that improve the game, the first touch determines how the players get the balls, the R2 button (on PlayStation) can kill a pierced transition, or use momentum to turn the defender.

The R2 button inside allows the player to change the dribbling speed and move within 360 circles. Since we have full 360-degree control, double-tapping x starts a challenge, and we can also use R2 and X to slow down an attack while defending. The goalkeeper now has a strength indicator when he throws a ball and so we can trigger a quick counter attack.

The dribbling feature is a very important feature that every player learns while playing. This PES 2013 version of the game offers better control of the game over firsts and dribbling. Players can now cope with passes in a very different way, such as using the ball's momentum to reduce the speed of the ball and fight other players. Pes 13 download is full and let the fun begin.

The key features of this game such as dribbling, shooting, rust and defense have been studied and developed, which allows players to better deliver and customize the game and the field.

It should also be noted that the production team works with fans to develop the overall team and works with artificial intelligence to remove unreasonable behaviors and movements that make a game irrelevant.

Celebrities like John Murphy (European PES team leader) said, "It was an exciting time to be a part of the PES community, and PES 2013 has released a truly new level of gameplay with key control and the return of our freedom and soccer method, it's all about skill and precision, and this the game really shows it. For first-time players and beginners, there is a training mode mainly divided into two parts: Performance training and Free training. And if it's a rookie, someone should go for it. Talking about the sound effects in this game, real game sound effects are extremely good, but sometimes the sound of the crowd is irritated. But besides that, when we play in different episodes, we hear different kinds of cheers and drum sounds that give this game a very nice touch. We can also listen to some comments in this game given by Jon Champion and Jim Beglin.

In the end, it can be said that he was at the heart of football in the history of sports play. Also, as said by some celebrities, this game is all about skill and practice and how players use skills. The fresh and famous faces available in this

game give players more attention to it, and the new graphics and skills added to this game make this game one step ahead of its competitors.
