PRESS RELEASE

Rsignia Inc., announces Strategic Partnership with the University of Central Florida

Rockville, Maryland, February 25, 2015: Rsignia Inc. announced today that it has entered into a formal partnership with the University of Central Florida (UCF), formalizing teaming efforts focused on research and development in the critical cyber security domain. The newly signed agreement provides Rsignia and UCF with a framework to work and collaborate on task orders related to big data visualization efforts.

By establishing this broad partnership with UCF --which is recognized as an academic and research leader in numerous fields such as optics, modeling and simulation, engineering, digital media, and computer science-- Rsignia welcomes the opportunity to enhance its innovative, mission-oriented cyber social media initiatives.

About Rsignia Inc:□□ Rsignia is a leading provider of cyber security solutions and services, to include detection, mitigation, countermeasures, and forensics. In support of National Cyber Security Initiatives, Rsignia is developing some of the most innovative next generation cyber and forward thinking capabilities available to the marketplace today. As a mission and engineering-driven company, our main goal is to provide purpose-built cyber security solutions that proactively defend against potential threats and provide maximum data and network security to address those threats. Our continuing research and development efforts in behavioral analysis and modeled intelligence have great potential to become an ubiquitous security model in the cyber security domain. The unique combination of thought leaders from disciplines such as engineering, physical science, social science, and computer science make Rsignia's ideas and technology the best-of-breed in the cyber arena.
