# SILENT PARTY

## CHOOSE YOUR MUSIC!

For those who don't know, a Silent Party is a party where each participant wears a Bluetooth headset connected to the DJ, and parties without a single noise. We grant you, it can give a strange impression to land in the middle of a Silent Party without expecting it and see everyone shaking in silence! But the concept is very popular.

Big advantage: no more noise pollution, the neighborhood won't jump up and down in anger. And the participants let themselves be carried by the music of their choice. The helmets change color according to the chosen DJ (blue, red, green). The result is there: contrary to what we think, the interactions are numerous between the participants, even equipped with a headset (which will be provided at the entrance). The experience is worth the detour.

# HOLLYWOOD NIGHT

The Hollywood-themed evening will carry you away in a most grandiose gala. Choosing this Hollywood-style party is to give your guests the best.
