

How To Keep Grill Cover From Blowing Off

<https://isre2005.net/securing-grill-cover/>

Securing The Grill Cover

There are 4 ways to secure your grill cover:

But keep in mind that buying the right size grill cover makes everything easier.

- Wrap the covered grill with bungee cords
- Tuck in the cover under the grill lid
- Use a strong magnet to secure the cover
- Use the Gust Guard to secure the cover

Bungee Cord Method

- Find one long or several shorter bungee cords.
- Tie together several short bungee cords so that you have one long cord.
- Wrap the long bungee cord around the grill and cover.

Tucking In Method

- Place the cover on the grill as you normally do.
- Lift up the sides of the grill lid a little bit and tuck in the edges of the cover.
- The tucked-in part will keep the cover secure.

Magnet Method

- This method works with small and light covers (Weber Q Series and such)
- Cover your grill as you normally do
- Put the strong magnet from old audio speaker or hard drive on top.

Gust Guard

- Start by wrapping your grill in the cover.
- Attach the Gust Guard clamps on to the cover.
- Fasten the bungee cord or rope under the grill.
