ABOUT GEETANJALI UNIVERSITY

Geetanjali University (GU) is located in Udaipur, Rajasthan, surrounded by the range of Aravali Hills. The University was founded by Shri J. P. Agarwal in the year 2011 with a vision to promote quality in education and excellence in research which will benefit the society. The University is spread over an area of around 35 acres and having a prolific & state of the art infrastructure. GU is showering and enlightening a huge mass of students from different cultures and serving the humanity by providing education to them under one roof. In the first phase of development, the trust offers the graduate and post-graduate programs in the field of Medicine, Pharmacy, Nursing, Physiotherapy, Biotechnology and other health sciences.

ABOUT GEETANJALI INSTITUTE OF PHARMACY (GIP)

Geetanjali Institute of Pharmacy (GIP) was established in the year 2006 while considering the ever demanding requirements of the well qualified pharmacists in the nation. GIP has consistently rated as one of the top pharmacy institutes in Rajasthan and is a part of the most comprehensive academic health sciences centre. The Institute is owned & managed by Geetanjali University, Udaipur and approved by Pharmacy Council of India (PCI), New Delhi. The college imparts education leading to two years Diploma in Pharmacy (D. Pharm), four years Bachelor of Pharmacy Degree (B. Pharm), two year Masters Degree (M. Pharm) in Pharmaceutics, Pharmacology and Quality Assurance branches and Ph.D. (Pharmaceutical Sciences).

ABOUT THE CONFERENCE

Recent Advancement in Drug Discovery and Development, scheduled to be held on 04th-05th February-2017, will bring together world's leading scientists in the field of drug discovery and therapy to discuss their latest researches. The conference should provide an occasion for the participating scientists not only to present their researches and interact with eminent colleagues but also to enjoy the intellectually stimulating environment of Geetanjali University.

Drug discovery and development is the process by which new candidate medications are discovered. It is the process through which potential new medicines are identified. This Conference will provide a multi-disciplinary forum for industry and academia colleagues together and explore the changing landscape of drug discovery in emerging target classes and chemical biology approaches for discovering new medicines. Leaders in the field will deliver presentation on hot topics such as protein-protein interactions, overcoming resistance in drug design, kinase inhibitors, target identification & validation, target activation/inhibition, computational chemistry, and many more.

ELIGIBILITY

Academician/ Scientists/ P.G. & U.G students from any Pharmacy/ Medical/ Nursing/ Physiotherapy/ Science academy.
