Myths

- We can't burn calories if we don't exercise.
- Eating more is the only reason for weight gain.
- Exercise is the only way to burn calories.

Facts

- Body burns 80-90% of calories without our knowledge.
- When body can't burn 80-90% calories due to bad digestion and slow metabolism, body stores unused calories as fat.
- By improving digestion & metabolism, body burns maximum calories.

@foodandbodyfacts

As vezes recebo algumas perguntas do tipo (você é satisfeita com seu corpo ?) aprendi a me amar do jeito que sou com vários defeitos mas não seja por isso que não possa melhorar ainda mais... Eu quero sempre dar o meu melhor para alcançar meu objetivo , um corpo perfeito sei que não existe mas eu me conheço e sei dos meus limites, sei que ainda tenho muito a melhorar. 😊☐☐😊☐☐
