

ArchiTech3

A Carbon Negative Social Enterprise

Build Everything*!

Verner Panton's Visona 2 Room , 50 years ago...

VIDEOCLIPABLE BUILDINGS AND INTERIORS!

FIND PEOPLE TO DO YOUR PROJECTS WITH!

BUILD

EVERYTHING!

OPEN SOURCE COLAB PLATFORM

- 3D MODELERS
- CONCEPT DESIGNERS
- CIVIL ENGINEERS
- ARCHITECTS/INTER
- CONCEPT WRITERS (IDEA GUYS)
- ARDUINO HOBBYISTS
- MAGIC SECRETARIAT

NEW ERA OF ARCH AND

ArchiTech3

ViralSpaces3D

1st World-Sourced Tech&Art Fusion Lab!

the 1st Livable Art Niche!

A Work-Wiki in the form of a Tech Tree and more!

Techy "3Dprinted" Buildings/Interiors with Tailored Wall stories to Save the 🌍 and beyond!

Imagine, Boxed Living Spaces Everywhere , with 4 Walls and a Ceiling Everywhere...

**In An Ever more gridded World that Doesn't Respect
Nature and Neither honors the Human being...**

Welcome to the Aquarium
Age of today...

Imagine all Art, Tech and Solutions to save the world ...

That get lost in papers, in thoughts, from people who think that they CAN't change the world...

And give to the World?

What if we can Map all these ideas...

**How many Genius could there
Be in 8 Billion people...**

**That Will Write and work out Future Tech on the Tech Tree
to impulsionate humanity forward?**

A New World (Really well thought-out) TechTree
(as in a videogame techtree)...

To map all imaginary/existing tech for future prototype development and for Clients or
Crowdsourced funding and to be used in ViralSpaces3D and Beyond!

3 Trees to Innovate The Planet Earth

The Tech tree can be organized differently, in 2D tech tree, in 3d tech tree, in an inverted pyramid, in hexagons, by projects to be funded, by time, by evolution, etc, and it reorganizes itself according to the filters and Majorform!

There are links and images from the project tree on the tech tree, that incorporates the tech. Every Tree is related and you can jump from tree to tree.

(maps All Tech in the end but 1st it's ViralSpaces3D applicable Tech - Xelements)

(Maps all projects from ArchiTech3)

(Maps all Architecture and Sculptoric research -Modules)

Inventors and Creators can quickly find willing teams to do the work!

Clients can find projects, Tech and Art to finance , or the creators can send automated or personal msgs to them , or make a crowdsourcing video !

Contests are the Key

- With my Magic Guidelines and the Client's plan we can Assemble a Viral Videoclipable Techy Place that will Unleash creativity from the norm and completely change the economy of the city the establishment is in!
- Later , Open Collab Contests will become the Magic Way to make Big projects.

A new Global Niche awaits financiers...

Unleash the
Cube out of it's
boundaries...

• Help me Create a New Niche
of Infinite possibilities...

And a Tech Tree* that
Will absorb Genius Content
to Save the World and
propel us beyond!

Ps*:The Tech Tree will be like a videogame tech tree, but really well thought out and planned and gamified like this was the videogame itself!! have some specs!

PS2:We can also have continuation of new product development of arduino and raspberry pi project prototypes of hobbyists on the Tech Tree

New Sculptoric Places await to be Envisioned...

Spaces/
Sculptures can
be inspired
and extruded
from 2D
drawings like
this one...

**Or Build totally
new spaces with
Magic Contests...**

High Ceiling of a soon to be
place...

**That defy all Previous
notions of Architecture,
Art and Technology...**

To bring all realities into synphony and save the world!

Benefits (To B2B Customers)

- New Experiences will attract a new revenue from better spending customers to the B2B clients that will purchase the ViralSpaces3D.
- Establishments will get Viral and change the tourist affluence to the city they are repinned IN. We'll change the city's ecosystem!
- Videoclipable means that they will attract a lot of Artists to shoot at the place: from Musicians to Filmdirectors to common photographers , everyone will want to share and tell they were there.
- They will probably have the place booked for life.

Benefits (To B2C Customers)

- They can totally personalize Their homes in any direction.
- They get an Unique place that will never be reproduced again, worth in Gold because it's Art.
- It will be the wonder of their rich friends, No Place is the same, unlike most interior decorated homogenous places.
- They Will have the Comfort of All the New Tech and New Forms to live in.

Benefits (Creators - non Developers)

- They can Write tech and be payed by it once it has been funded.A ""
- They can be reckognized by what they do.Their creations can be seen by a lot of people
- People can "1Up" on their creations and developed them to new planes, Techwise, Formwise or Archwise.
- They can receive several prizes, Status and Bonus for Helping in projects or creating new ones.

Benefits (Tech Tree and Project Tree and Form 🌲)

- They Will be the World's defining edge in Tech and Form.(They are the first thing in the world that resembles Isaac Asimov's *Encyclopedia Galactica*)
- Easy to see Dynamic BigData Mindmap/techtree with all the Inventions(Tech Tree) and Projects(ProjectTree) and all forms (FormTree).More Trees can Arise to Map Sounds (MusicMaps) and to map All Living species (SpeciesTree).We can then do A Big Mopa, a big relating Map of all trees.with 5G this will not be a problem to host on a website.
- Inventions have Price over quality rating, and more ratings by mods and users to define it`s uses and quality/development, etc...
- The Tech Tree and the others will be gamified and be incorporated into the TechAlchemists's Game.

Competition (Or Partnerships)

- There are Set Designers, Theme park designers, Architects, Tech Inventors, Interior Designers, Festival Designers, but none of them are like us (Viral&Videoclipable (Collab) Contest and Magic Internship Based), and that's why we can do partnerships with normal companies that want to tag along with a decentralized Green and Humane Social Enterprise.
- Artstation.com will be a key Partner to get to work with, Vital for our Viral Marketing through our Viral Portfolio.
- Future CopyCats (复制ネコ) will be an honor to have, and they will help us grow too, We will have people specialized to see improvements in our future competitors and to integrate them in our work. We will have links to them to honor the competition.

We're Hiring!

Magic Internships
&
Co-Founders!

For a Negative Carbon
Footprint Company

UiralSpaces

- Vision Architects
- Interior Designers
- Concept Artists
- Skilled Hybrids
- Electronical Engineers
- Arduino/Raspberry lovers
- Entheogenic researchers
- Light Designers
- Sound Designers
- Texture Researchers
- Paintors
- Magic Secretariate
