Dear Lawyer's & Advocates in the World

Good Day, my name is Gottwald Peter King of the Federal Government Imperium of Diamonds, King of the government of the country with legally owned territories and register its economy, legal entitlement population registry, policies, and intelligence state jurisdiction, the planned development of civilization forces and growth, as well as their own political activities and communications relationships or legal format.

Imperium of Diamonds federal government as a legitimate political entity with their own territories registered since 1998, North East Africa Bir Tawil, The ID's Diamond Oasis, with a capacity of 2 060 km square area and plan 102 330 km square on civilization recovery and development plans high-capacity towns for a population of 10 milion people, and the ability development at the level of 150 milion people. Imperium of Diamond's as well as a legal manner a legitimate claim to the North Atlantic Rockall reefs as Rockall Diamond with the submitted plan for development of underwater civilization in the form of state sovereignty Invitation bilateral relationship Imperium of Diamonds Federal Government and the United Kingdom of Great Britain and North Ireland. Imperium of Diamonds as the government of a country with a fully legitimate claim, and for its sovereignty and the ability to accessibility standard in the territory of the other planets in the Universe, 1 000 000 000 000 000 000 planets, Star systems, Galaxies and Super groups of galaxies. Unlimited territorial force.

Today, the greatest value of the territorial capacity at the level of the whole human world and with own possibilities for develop The Civilization's.

The Federal government Imperium of Diamonds as an entity which is based on its own register claim a population of not less than 2.1 miliard people, according to the principles entitlement system of International laws recognized by the vast majority of global democratic governments around the world, Imperium of Diamonds and simultaneously qualifying for population register as claimed in ensuring the return value of the benefits to the natural population increment for that period of sixteen years of statistical growth should reach dimensions of over 5 miliard people. Imperium of Diamonds as the country's government with demands for further statistically registry without full disclosure, the population in the form of an autonomous cloned members, other forms of technology forms the intelligent android intelligence, forms of population size as Biodroid, other forms of intelligent beings by nature scientifically feasible, today population claim register in power of 3 000 000 000 000 000 000 000 people, and to today, some of milions of claimed prisoners from Europe and foreign.

Today, the greatest value of the population registry in the level of the whole human world. Legal claims register according all International rights.

The Federal government Imperium of Diamonds as an entity which is based on its own register of economic values by size of GDP and legally claimed investment assets now primarily a claim for recognition of the debt of the European countries, the market value or the value of the legal form of development projects. Projects, plans, technological intelligence, civilization, knowledge and legal forms of claim for the recovery of the outstanding value of the damage to development, now mostly a form of legally owned mansions and estates, and civilization on the foundation of the Stellar Cities with hundreds of civilization planet in a star system, further galaxy, civilization infrastructure at super clusters of galaxies. Economy Imperium of Diamonds is therefore based on the legal form of forces at a strategic computing mathematical line with a fixed value stable and sustained growth as „annual GDP as a force of every one second 845 000 000 000 000 000 000× times repeatedly annual economic value of the planet Earth by year 2015". Imperium of Diamonds, today's economy to register on the strength of a single financial bills, as the basis for the strength of other financial Cheque's written in the name of the owner Cheque account, and thus the possibility to develop the business with a certified financial currency, this means use and management of investment projects that can be ground and over 10 000 000 000 000 € in the development cycle be one country bilateral, because is only start of friendship cooperation.

Today, the greatest value of economic strength in the level of the whole human world and its period of existence.

The Federal government Imperium of Diamonds as the entity that owns the inherent jurisdiction of the foundation of the law, the Constitution Imperium of Diamonds, and intelligence, government rules and entitlements of freedom, democracy right's and the forces of national development, management, business rules and registered legal institutional entities (today under occupation &, terrorist block) based on legal grounds Jurisdiction Imperium of Diamonds. Today, as the jurisdiction of the law on the establishment of oppression, and terrorism on the part of European governments which together trigger a crime against the Internationally recognized forms of rights claims of the Charter of the United Nations peacekeeping principles and implying an obligation to support developing countries in the world because as European governments and their policy regime as with current responsibility for the actions harmed the legal rights, meaning the ability to build a stable civilization and develop with use of diplomatic relations and rights and to mobilize in order to secure communications that therefore the government Imperium of Diamonds as an entity with the right International jurisdiction confirming entitlement to the establishment sovereignty in all European terrorist alliance. Future interest in respect of the jurisdiction of the government Imperium Diamonds recognizes the rights of freedom, is entitled to develop its own citizens and the freedom of thought, freedom of democracy claims and the rights of security.

Today the Imperium of Diamonds as the country's government in partialy exile, apartheid, under terrorist occupation and formally demilitarized civilization, so the effort to develop to the full level of stability and normal development.

The Federal government Imperium of Diamonds as the country's government the basis on political activities in the form of an act of the Constitution Imperium of Diamonds, develop its own legal acts and their documentation certified, and the intention of internal and International use, develop and register legal-political and business values as well as the contact for their application of federal development and creation of new entities governments in the federation, developing a network of federal intelligence at the level of subjects Corporatocracy as government union open to all business corporations from around the world, as well as World Diamond as the country's government above the free open possibilities for joint sovereignty of all governments of around the world and thus expanding our relationship to the format of the first magnitude civilization several galaxies, World Diamond is now more important than the possibility of the UN organization & today International Political World. ID's the interests of developing special forms of technological civilizations that are based upon cooperation with all technological corporations from around the world. In the same interest as well as the Popular government body responsible for cooperation with all celebrities, artists and publicly known human personality and the people. Today, the federal government Imperium of Diamonds is recognized for using the forms of union autonomous recognition which is the basis of the principle of political responsibility of the European governments that support the activities of organized crime against all International laws, and the creation of an autonomous act of duty to

recognize the Imperium of Diamonds demands political format as with the principles of the UN Charter obligations and recognition of all members of the UNGA. Today the federal government Imperium of Diamonds as an entity that is primarily based upon shared encrypted communications to International cooperation to ensure the function of International rights and, together with the stability of Imperium Diamonds authorities and governments, civilization and safety. The Government Imperium of Diamonds as the government in European terrorist blockation and apartheid, spy and monopoly monitoring, violation of all International rights, and therefore today only with International political communication with codes and not legal public act's, because the crisis of office function.

Freedom of political communication under the Rights for Imperium of Diamonds and claim of integrity is not able to use because of European terrorist espionage in order to gain a European terrorist and thus misuse information and to block other political entities in the interest of the possibility of a joint contact. Constantly monitoring and isolation with the intention of decentralization, hypnotic manipulation or damage the right's. Government of countries and International policy have options only for secret codes or methaphore communication.

The Federal government Imperium of Diamonds is currently based upon the law of cooperation with all form of groups of National movement for Independence and self-determination of the new state which by its own values as a legal party movement, which then authorizes the use of step federalization Imperium of Diamonds and thus achieve the ability to use federal forces and intelligence in order to expand our common territory to the territory of new planets in the Universe, and the establishment of many forms of planetary civilizations that mean the ability to use the values important than the value of the existence of our planet Earth. The Federal government Imperium of Diamonds is therefore of the value of the claim of a federal alliance between the number of new governments at the level of stronger democratic superiority than force members of the United Nations, and therefore the right to use its own principles and rules of International relations and all Internal affairs. The Federal government Imperium of Diamonds and simultaneously does not contradict against the security of other states and their stability, Imperium of Diamonds is active for the purpose of peaceful principles and the same result as the principles of the United Nations ideology and many of strategy. Imperium of Diamonds is thus simultaneously a governmental body which in the case of the removal of organized crime in the United Nations, and also asking for UN membership and develop them.

The Number of movements in the world, such agencies set out for the purpose of their Independence are a number of over 500 movements in a minimum of 5 000 to 20 000 people for one subject minimum, and the maximum number of 30-300 milion people or similarly. The Total number of the population could be over one miliard people. Each movement has a right to act of IDs federalization and support our development of new civilizations.

Today, the federal government Imperium of Diamonds because as a group claim more political value than the UN, and therefore today the federal government Imperium of Diamonds under media blockage and suppression of terrorism, without the full ability to use our own rights and development if there is no step mobilization to create IDs own level of integrity. Founding integrity is under terrorist non-legal blockages due to UN corrupt, criminal and monopoly networks to influence the society and use for development of cooperation on terrorism and crime, the same as the UN as a UNGA & UNSC subjects without power for stabilization of today conflict situation. UNSC and the UNGA haven't democratic right to decide about the possibility of Imperium Diamonds and violate the integrity in any case, The ID's Federal Government is fully Legal entity with all right's, and obligations, government countries and International organizations too support cooperation and development of our friendship.

The federal government Imperium of Diamonds is an entity which is based at the full legitimacy of the government, and indeed the demands of the state, and also particularly the right to use such values and rights in International law. The objectives of the Federal Government Imperium of Diamonds are beneficial to our entire human world, and to build an advanced country and civilization, the most advanced civilization in the history of human existence, and such value also extend the value of our International policy and thus promote the development of global intelligence, meaning growth of world politics to true universal character that develops many worlds and keeps our states and peoples in a single cluster and to world peace.

Imperium of Diamond's Federal government have primary base on the ideologues of The One World. The One World is thus the main ideology of the constitution of the government of the country, and also the law project which is aimed at developing a global collaboration with all political parties from around the world and the creation of our global movement to spread the

ideology of the One World in the range around the world and also among nations the whole world, so that our peoples together so absorb the ideology of friendship and diplomacy, in accordance with all the governments of countries around the world and this act together we will create a step in the unification of all national and people, the One world!

One world, one nation, one government! The biggest step for each state from around the world and the ability to surpass all the values together for the entire period of existence of mankind!

The One World, a step for the unification of all mankind, it is indeed an act to create a multy cultural country at the level of our planet Earth and whole human world, the elimination of all borders and barriers between states, halting the growth of racism and differences between nations, immediate stop all International conflicts and wars between nations, the establishment of our joint forces which have always stops at the option of the occupation of another country and blocking of other nations and their freedoms. Our States will live in peace without economic diversity and nature that is based upon dependencies between states, abuse of civilization advancement against another, and thus the One World is the realization of the unity of humanity without problems of famine and diversity that creates all the problems of our world and tough losses our existence and humanity's future!

When the ratio of the long lifetime of the human race, if our world was from the beginning united, without these problems exist today because of territorial boundaries, then the value of our present civilization advancement would be outstripped by no more than 3 to 5,000 years back in our history! Many nations that possessed significant value knowledge and basics of science, chemistry, health, construction, machinery, astrology, nanotechnology, fortunetelling, transports, industrial intelligence, agricultural intelligence and the actual state politics and much more, but always each of these nations always had defeating foreign competition and to live at risk of extinction during the colonization until they reached full days extermination of civilization! Government Imperium of Diamonds is therefore an important step marking the development of new possibilities of mankind and the cessation of all catastrophic systems of our world!

If We are people unite, than therefore our world start rapid development and than our civilization of The One World is in ten year's in the same developed form as today decentralizing world after thousand of year's ! Global Intelligence, one nation without need's to clear their own intelligence, our power of science have progress in hundred's time multiple !

I want to promote the unification of all mankind and put your nations for the true value of our human unity! That is the real beginning of real life for each of you, because our alliance is the real life of all nations! Our alliance is an act which is the first historical beginning of life and the existence of a real human world!

I want to build our unity, to give all people good money and all quality of life, a free life and all human rights! I want to give you what for all of us the most important thing from around the world and the emergence of real-world meaning of the basis of our unity! It is a step that the largest in the history of our existence, a step that truly unites our nations and creating a world, a step which is the main result of the spread of peace and diplomacy, justice and purity of mankind, and now is the time when this step may take advantage of every one of You !

You live in the World who is created for You, and You have all right's for this!!

Each of you has all forces this step to support and develop our global unification, the first historical moment humanity at our world unity! Each of you has the right to use this act to support and expand, spread in society and thus encourage future of your nations, as well as the future of all countries around the world, and we therefore people today from one planet Earth, but after the first in history as a true an United World!

World, 800 milion people every day live in famine, each of them would today be willing to vote for the unification of mankind, is a 1/7 vote of all mankind!

Despite many nations of Asia recognizes religion Buddhism, and thus form a universal connection of all people throughout the world, thus the main dream of the unification of the entire world. Each of them had now allowed each of them gave voice to a united world, it is the voice of 1/7 of humanity!

Many nations and states, communities and movements around the world, the people of the Islamic faith and Christianity, everyone recognizes God as the one who made the world a uniform and no differences of nations, and each of these people every day praying to God and Jesus Christ and everyone begs forgiveness and the restoration of a united world, as it was created in God's plan! Each of them, if they can today, everyone was given a vote for a united world, it is the voice of more than 3/7 of humanity!

Many nations and states, everyone wants to live in a free world, everyone wants to live in a world without boundaries, open way to all the cities, in all countries and among all peoples, and thus have the ability to own and free development for myself and for the whole our world together and thereby achieve the greatest results. Every day, therefore, if he could, why would anyone give voice to more than 7 000 000 000 people around the world, and so on always!

According International rights, title Imperium of Diamond's, it really means a united world! Imperium of Diamonds is a subject that is so in the interest of the UN Charter, the obligation to favor a strategy of UNSC! The One World, the first act of the reality of mankind!

Each person always confirm that from the first time of his birth, his ideology, man has always been open to the world and without territorial boundaries, unified world open for each of us, the nature of each of us and our main dream of every man! Each person also confirms that our world, which today is destructively based on territorial barricades, each of us is therefore a force regime of his country, always raped and reformed in order to keep the forces that just demolish our alliance and thus create boundaries which are therefore the main basis of today problems of our world, famines and drastic differences of our civilization, wars and conflicts, occupation, International crimes and political opposition, dependence on other states and enslavement, the financial crisis and the reason for the bankruptcy of our civilization! Each person around the world and, therefore, always confirm that his main desire is to unify humanity and the removal of all barricades between our peoples, the main dream of every human being is always a united world!

Today life in the barriers between nations is the only global prison that people keep their worthlessness and damage to their own values and future of all mankind!

UNSC strategy on self-determination of states, under the UN Charter

The United Nations is the subject of international politics which originated during the Second World War. Today, the United Nations brings together over 95% of all active states of the world. UN and global democracy when all governments, creating the current world system rights policy and international law between states. Intelligence those rights created by the UNGA decision states as the center of world democracy decided by each state according to their own interest in politics, and to the function of these rights throughout the world.

ID's government in representing the King of the country, he founded his own projects for the development of international cooperation between states and peoples, and seeks to ensure that each project in accordance with International law, international security and justice, always for the purpose of peace. All government projects Imperium of Diamond's are therefore always fully legal and peaceful, without any criminal character format.

Imperium of Diamond's federal government owns a major project which is based upon ideology and toward the target as The One World, the actual act of unification of the world and of all peoples, the creation of one country and common policies, removal of barricades between civilizations.

The project "*The One World*" is based upon the strategies that underlie diplomacy, friendship and the state of democracy states. Project One World is not in any way active principles of war and the threat or damage of any state to justice. Goal One World project must not be any blocked or damaged, and discriminated against or otherwise misinformed and censored. The act of opposition is illegal intent opposition that is responsible for a full judicial punishment and to ensure full justice.

The United Nations presents password is called "*This is Your World!*". For this purpose, created by the United Nations, so that countries and people throughout the world can benefit from their national rights, and such claims, justice and peaceful life states in the joint coordinating safety.

The federal government Imperium of Diamond's is a political movement that must be confronted with criminal organizations from the European policy states that there extend acts of actual crime of apartheid, genocide, discrimination States, the threat of war and the risk of bankruptcy states and disasters, public bondage and occupation, international monopol and colonialism, the reason for damage to the developing rights of Diamond's Imperium that there is

also a full damage claims of its own patent rights, copyrights, trade and political rights, especially the ability to damage the stabilization of justice.

Therefore, a conflict that creates the European governments thus created as a new entity in the form of European terrorist organizations, and thus violated all major rules at International level. Crime is based upon a breach of the rights of the UN Charter of Fundamental providing for Acts of the United Nations, the principles of cooperation for the peaceful development of countries, prevent conflicts and wars, genocides and crimes, as well as damage to the national level of democracy and equality between nations, and especially the therefore damaged the integrity of the law of nations.

Criminal movement also violates the principles of International law, the Convention to prevent genocide, the Convention on Political and Civil Rights, the Convention on Economic and Social and Cultural Rights, as well as the convention on the rights of peoples to their self-determination and of their right to freedom and justice, as well as universal Human rights, as well as other *more than 90% of other international rights*.

This is a project of The One World really damaged, and the federal government Imperium of Diamond's and every person and the state or micro nation its own actual rights and sought to achieve real justice in accordance with principles of international rules.

The United Nations is founded primarily as a centralized global institutions to ensure justice and features a peaceful world, mobilizing a global rebellion of all states and armies of the world in order to increase the joint opposition against crime and terrorism, and thus to enable the function of real justice.

UN consists of three main groups. General Secretary who represents the organization, the UN General Assembly as a joint meeting of all countries which by the common democratic form of International law according to their national interests, and ultimately of the UN Security Council as an entity that organizes the fight against crime and terrorism, and in accordance with the UN Charter always to ensure full justice to any entity that has been damaged in any way.

This means that according to these principles, Imperium of Diamond's gains the right to a just judgment which is not based on the capacity of more than 7 000 000 000 people around the world, and therefore much more significant and important law forces the world's democracies UN, meaning that the Imperium of Diamonds has all the rights to get support of the UNSC for extradition act on the right of all States for the global self-determination for the goal of creating unity around the world in the case of democratic support from more than 51% in each state.

According to all International laws and principles, every nation uses its own state because democracy to elect their own government of country. The nation always has full rights to decide on the country's government and its function, and therefore decide on alliances and International relations, government, and membership in International organizations and by transforming our own relations and rights and principles and form of government and its own territorial scope! Rights that are currently confirmed as party and the UNGA Declaration on the Rights of nations for their self-determination and the establishment of their own state system, of the universal declaration of human rights and freedoms, claims by States for their democracy! So that means that European governments severely damaging all the rights of every person in the world, and this is a responsibility of the European governments and the whole range of their terrorist alliance immediately to ensure the opening of this right to all States and peoples and thus give full entitlement to each person to exercise their own right to democracy and declared that together our common unification, unification of all nations around the world! The biggest step in human history, as well as the main dream of every man! Even from nature, the biggest life goal of all nations, because the unity of humankind was created everyone!

The rights that the European criminal alliance to fully stabilize, and thereby also every government countries always support!

So we do not want to rob any government of the country and harm the territorial unity. We thus support our global unification and rapid increase in forces of every state the true value of freedom for all nations as an act of genuine universal law!

Therefore, together we can ensure our common stability and thus build up a global strategy which means the development of our rights with the support of UNSC strategy on national self-determination and full guarantee of our freedoms and winning results !!

The first start of this right, and in a harmonic similarities, the federal government Imperium of Diamond's also has the right to recover any financial compensation for the value of all the states in criminal cooperation, and especially the compensation for all damage and lost values of civilization Imperium Diamond's.

The ID's International Advocacy Intelligence Council

This debt terrorist states at the level of legal rights Economic calculation of the budget in the annual GDP ratio of thickness 845 000 000 000 000 000 × budget of the world economy in 2015, and at such times the sum in every second throughout the single year, form of ID's Annual GDP.

This means that all states in the criminal collaboration not have sufficient capacity to ensure any compensation, and ensure justice. That country's government and the state is therefore responsible to immediately responsible duties own declaration of bankruptcy which means state law to choose a new form of government land to ensure that the payment of debts and full function of justice and security at national and International level.

ID's right to choose and recovery is based upon the demands in the interest obligations of compensation from the government of criminal groupings, and the states, and therefore such debt is placed on the value of these territories criminal countries.

Therefore, in this case, according to the alkalinity of the UN Charter, which specifies requirements for a group of UNSC, and a group of UNGA, and so emerging International law which in this case should not be discriminated against and damaged, then it means that in this way a group of UNSC with full responsibility to decide on a resolution that orders the act of national self-determination of all the states in criminal cooperation, UNSC Resolution as a strategy to declare sovereignty of Diamond's Imperium.

Such an obligation reaffirms the right one based essentially claims and rights incurred by the Convention on the State Law for Economic, Civil and Cultural rights which therefore prohibits the States and any other group to be able to exercise any act which would therefore mean damage existential stability of any country.

By Imperium of Diamonds is the government entity with legal and unstoppable claim full sovereignty on the territory of terrorist states, and also with its own law on the recognition of policy and strategy functions of civilization.

If any body UNSC exploited that situation for the purpose of self-interest, that such a decision without a just authority, and that as an act of violation of the UN Charter, due to undermining the principles of the UN Charter and damage to United Nations organizations and causing the risk of bankruptcy of the entity in international politics, but in main event causing the full bankruptcy of all Member States UNSC that this act of support, and thus reached the steps of certain forms of cooperation in the name of a continuation of crimes states in terrorist alliance, therefore, responsible states UNSC receive also a responsibility of financial debt which therefore reaffirm the bankruptcy of the entity and re-establishment of rights for establishing sovereignty over the territories on behalf of the Government of Diamond's Imperium.

In the interest of Diamonds Imperium constitutes an autonomous federal entity with the name World Diamond International Alliance which is a common format sovereignty of governments around the world, and by extension our government through most of these terrorist territories.

Obligation strategy states UNSC and the UNGA main strategies States and therefore the right of the foundation of global democracy.

If the federal government Imperium of Diamond's give $\frac{3}{4}$ States as members of the federation, thus arises act when the federal government Imperium of Diamond's becomes the most powerful entity in world politics, and at the level of the rights of the world's democratic forces nations to the self dramatically greater political rights than international political recognition of rights The United Nations and UNSC groups.

Imperium of Diamond's is already a partial power is the foundation of global democratic states in the number 7 000 000 000 people around the world, the biggest step in the history of human existence, the policy world, nations and states!

The full text of the document range, act as a confirmation that, since 1998, this is one of the basic formats of my policy, my country and the legal nature of such a body of government Imperium of Diamonds. Ever since 1998, under the occupation of European terrorism, apartheid and blocking all freedoms, isolation from society, murder and genocide of innocent people, slavery and misinformation, blocking develop and blocking on the rights to freedom of International communication, but even so, still, the federal Government Imperium of Diamonds is fully legal entity which is based upon much more valuable and important rights and claims over the scope of our human world and the existence of humanity in the entire history of the world. The federal government Imperium of Diamond's, without competition and without outgo, the largest and most important subject, today, in the past, as well as many tens, hundreds or even thousands of years of years into the future.

Today, according to all principles of International law in the form of a system of world politics, it is indeed confirmed that I am, and all people in my coloboration or every support, we are the most important person of all mankind, and We really am such a value. Therefore, anyone who contradicts against me and my people, and against which us any opposition, blocking and trying to damage us or disrespect our values, then on, each of these people in oposition is just the greatest traitor of all humanity and the worst crimes during the period of human existence as such act of crime is a crime against the whole world and all the nations of the human world, and against all the values foxes future and all forms of today and the future and the future world civilization!

Anyone who is opposition, each of which may therefore be punished today, and so too all the generations of the future of nations! Anyone who is against me by the opposition, he is therefore the opposition against the whole human world, and the name of the Bible and all the world's religions is the legal format of legal rules around the world, he, as the opposition is like the devil and evil, what is just monstrous part of humanity as destined for extinction, harsh punishments that will always be a role model for everyone who dares in any way want to harm our entire world or everyone!

Consequence of blocking and terrorism European countries, together we can fully exploit the possibilities to jointly develop and create a step which involves the use of that right on the strategy for the purpose of ensuring really step unification of all humanity and that an immediate step, which is now the responsibility of the main system of world politics, all governments countries, and in principle the ideology of decolonization of all nations.

I therefore wish each of you a possibility of our common growth, and I believe that each of you will support the growth of our human unity, improve our human world! Each of you has the right to use my documents and distribute them in society, promote the development of our peoples and thereby ensure the growth of our oneness of the human world!

We can help commonly, your support for me is the same act and move, meaning help for you, because I am here today that the central force of the rights and interests, claims and strategies, development center for much than 7 000 000 000 people worldwide, I have since my

The Imperium of Diamond's International Advocacy Intelligence Council

International Advocacy Intelligence Council and the international status according to the consequences on the world political and business scene and security between states.

The State which refuses cooperation with the Federal Government Imperium of Diamond's an act of refusal to respect those rights, so that the body loses its own level International status, and thus it becomes worth less important state which fails to compete with global distinction States to foster cooperation with the Federal Government Imperium of Diamond's.

Refusal to cooperate means the rapid decline of commercial importance at International level, a crashing fall in the value of financial currency and financial capacity of the state to the civilization level of the weakest individuals on a global level, and thereby create a full economic isolation in International business.

Minimum ability to ensure the stabilization of the security of their own country, in proportion looking to force states to support collaboration with the Imperium of Diamonds, and the complete loss of the ability to terrorist defend against a legal claims Imperium of Diamonds damage resulting from this law.

Politically loss at the value of their own democratic forces in International groups, and the status of the state as often discriminated entity without the ability to exercise their own judgment sentencing interests abroad or establish diplomatic ties and develop as an Internationally equivalent entity.

In the case of the current period and relation to the legal situation means that the opposition body that loses all rights and entitlements legitimate entity to provide support for the party of world terrorism and criminal infrastructure development.

Many other consequences that may entail coup extinction from a legitimate government and the International recognition of rights.

Any act as blocking cooperation States, the possibility of cooperation with the federal government Imperium of Diamond's is therefore act at the level of international terrorism against any State, trading corporation and organization that it is severely damaged on the opportunity to develop to maintain its position on the International level.

Due to the collective dimension of terrorism such as blocking, it can be applied to an act of International most states, meaning the use of weapons of mass destruction against terrorist opposition.

307. International Advocacy Intelligence Council is established as the official center of communication with the other states and entities that are active in the interests of cooperation of The World Diamond International Alliance.
308. International Advocacy Intelligence Council supports the establishment of development functions for the development of colonial office intelligence office which is

The ID's International Advocacy Intelligence Council

therefore intended for official International logistics and communications and intelligence.

309. International Advocacy Intelligence Council as an office ID's colonial intelligentsia therefore extends to the level of colony global transportation infrastructure of ports, economic networks, military security cooperation, political cooperation, a network of NGOs and all possible networks for strategical use or development.
310. ID's colony on the territory of ID's Diamond Oasis will therefore be built to transport strategies artificial harbors in International waters, sea transport centers such as ports which are designed to transport materials and supplies according to their own ID's transport logistics.
311. International Advocacy Intelligence Council so forth support creation, operation and collaboration as members of the International department with the name ID's International M & I colonies (The Imperium of Diamond's International Military & Industrial Colonies), and support for logistical development.
312. ID's International M & I colonies were based on a common format autonomous center of several entities that will jointly produce military forces in the capacity of the colony. The colony is therefore built on the territory of all parties to cooperate on the project. Colonies are thus placed in the model, such as bilateral, multilateral, Federal.
313. The first Goal Project ID's International M & I colonies is based upon the creation of cooperation between all countries of the world, and thus the development of a common global network infrastructure security response immediately. International Advocacy Intelligence Council is organizing a conference between the states and the strategic cooperation between global organizations.
314. International Advocacy Intelligence Council supports the development of conferences in the structure of commercial interest that it will support the world's traders to submit their financial investments, rights to establish a business enterprise, the expansion of settlements business of military corporations in the internal area of the colony, and the establishment of full cooperation for the development of military industry.
315. International Advocacy Intelligence Council, therefore, encourages the growth of a common relationship between traders in respect of military industry and military technology, for the purpose together to unite and thus take advantage of economies Imperium of Diamonds in order to develop their own centers of industrial engineering and production of military technologies, the establishment of the first military and industrial colonies with registered office in the ID's Diamond Oasis or other territories of The Imperium of Diamond's.
316. International Advocacy Intelligence Council further establishes intelligent infrastructure, sources of raw materials, according to sources from International waters and in space, or commercial bases planet Earth.
317. Sources colonies are raw materials from mining in International waters, Space and other cosmic bodies, laboratory production, joint force traders and formed business relations over the basics of integrity colonies, custom registry values subject and print our coins that it allows business instant growth of ID's Subsidies.
318. All built resource ID's International M & I colonies will only be used to build our own army forces and security forces intended to operate and develop the interests of the industrial center ID's Governments as a center of production and trade in military equipment, be strategy of The ID's M&I colonies.
319. It is also aimed at utilizing all the resources and productive performance for the development of the world's military infrastructure Imperium of Diamond's and the establishment of joint-friendly, strategically formed and security ties with all military organizations and legal communities and armies, according to internationally practical and legal nature and strategy based on combined effectiveness by geographic policies

among states, and states or military organizations who have strategically open for common treaties.

320. International Advocacy Intelligence Council seeks to develop commercial markets at a global nature, and therefore in order to obtain such an alliance between traders and the creation of inward investment into the country Imperium of Diamonds and the development of new settlements traders. Therefore, International Advocacy Intelligence Council mainly provides corporate law forms with features such as multy consortium which arises from several corporations and merchants who traded together as a unified group of legal character.
321. Multy Consortium's format strategy alliance entities of the International market in order to establish a common legal business entity, active on the territory of jurisdiction of Diamond's Imperium.
322. International Advocacy Intelligence Council registers the sales office as an entity with active membership in the consortium, according to the format of the common commercial category among the world traders, and thereby accelerated format development projects in the budget, minimum labor and financial burdens on corporations and their own resources.
323. International Advocacy Intelligence Council and registers the operator consortium, as the format of the second business entity based in the jurisdiction of the Imperium of Diamond's own business entity can establish a partnership with a new cycling market as a multy Consortium, meaning a business entity composed of several consortia which each own a different base business categories and collectively within the management function as a closed, internal market that it creates its own Independence.
324. Multy consortium becomes subject which comprises a further alliances between several different categories of Consortia which are tied together related business networks, meaning the structure of the system of Internal trade organizations to build their own modernization of all groups Multy Consortium for using common resources. Market development and financial cycle is composed of its own closed cyclisation without inflationary rhythm. The groups will jointly develop and produce advanced level of their own capabilities.
325. Example activities and composition of the Consortium's multi-trade system when a corporation jointly formed a consortium single category of the market, such as consortia that may be composed of one business category, such as Metallurgy, is the second category Electronics, the third category Agriculture, and so on, into the strategy cyclation and common development.
326. Consortia are therefore then collectively unite to form a multi-consortium that it may be active as a group composed, for example, a business category markets for mining resources and their laboratory production, followed by the category manufacturing solid materials, machining category, categories of construction technology and product electrical engineering and thus the sales or the economic and strategic use of its own internal management of the consortia, or trade on the open market.
327. This creates a multi-consortium. Multi-consortium may also focus on the public market, as is standard business corporation.
328. Multy consortium is also based on a system of cooperation with the Government of Diamond's Imperium for planning grants and financial development objectives or division missions and projects, expanded categories multy national dimension, and meanly the jurisdiction of the Imperium of Diamond's.
329. International Advocacy Intelligence Council therefore creates a registry business partner entities that are developed according to the business plan civilizational International Advocacy Intelligence Council, and in order to own contracts which are registered under the authority of International Advocacy Intelligence Council.

330. International Advocacy Intelligence Council that harnesses the power of registry Multy consortium for the purpose of building large management projects and to stabilize the ID's Civilization, and International trade cooperation among States.
331. International Advocacy Intelligence Council has opened up his own law business corporation created by private consortia groups, and thus also create our own group Multy consortium, into the ownership of The Imperium of Diamonds government and under strategical manipulation of The International Advocacy Council.
332. Multy consortium as a legal business entity based in the intelligence of International Advocacy Intelligence Council, therefore, becomes a business entity which is owned by the Government of Diamond's Imperium, and represented the International Advocacy Intelligence Council.
333. The right to form their own trade body has also made available to each member in the Office of International Advocacy Intelligence Council, the authority which therefore serves as a registration office.
334. International Advocacy Intelligence Council that collects tax for the financial gain of traders, ensuring the ability of functions of the Office and its development. International Advocacy Intelligence Council's own benefit, also a profitable format Multy management consortium, in order to build offices, modernization and growth of infrastructure facilities and offices, or promote the growth of civilization.
335. International Advocacy Intelligence Council also supports the growth strategy of business cooperation for the creation of a business entity such as the Royal consortium, registered in the name of King Diamond's Imperium.
336. Royal consortium is therefore the body designated for civilizational interests of the King, and the creation of a number of retailers with the best quality and prestige in the business field, for the possibility of extending the power of business cooperation in order to start developing at building a new civilization factor at the state level.
337. Each business group and own the right to stand for the position of full member of the Royal Consortium, and thereby expand cooperation intended to initiate development activities as the body's own founding a new base business headquarters under the form of a consortium volume, and therefore build their own city resources development and cooperation in the Royal Consortium.
338. Royal consortium offers a business opportunity to jointly develop a new strategy of joint resources allocated in order to build a common technological and industrial strength to the model fully the autonomy and development in the Independent circuit business group of Royal Consortium.
339. Management strategy for members of the Royal consortium is based on the merits of the distribution business categories, such as in a number of mangement applied as, raw material, raw material processing, component design, construction project. The services of business categories may subsequently be divided into levels such as metallurgical industry, mechanical engineering, mechatronics, electronic, robotic, technology, computer, virtual programs, chemical, nanotechnology, aerospace, transportation, pharmaceutical and other kinds of high-capacity industry.
340. Royal Consortium goal becomes to create a council of traders who together will create the position as the format of ministries and function of the special government entity controlling jointly developed possessions as the size of the state. King is a major meeting in the council of the Royal Consortium, always respecting the rights of shareholders and their entitlement, but always respecting the unity and common center.
341. This creates a composition intelligence merchants who represent the business category and thus its own position on the ministerial level intelligence in the range of simple Royal territory.

342. Royal objective of the Consortium is becoming a common use of resources and rights in order to build a joint force to the level of civilization in the form of android nature of the state, generating growth of the state-level android population and with their own commercial territories as territories of other planets in the universe.
343. The active form of the Royal Consortium as a civilization by becoming active as a special member of the Federation of Diamond's Imperium.
344. Each member of the Royal Consortium is therefore able to exploit the value of political positions at the level of the internal interests of the Royal Consortium and thus build our cooperation and the scope of civilization, according to internal sources Royal Consortium.
345. A member of the Royal Consortium therefore can also use a common business intelligence in order to develop our strategies be their own forces and interests of trade which is therefore the joint force becomes the intention of the growth in global trade power.
346. Activities for the development of the Royal consortium becomes less priorit act for the purpose of development and thus are the priority strategies, act Imperium of Diamond's stabilization civilization, as a guiding principle of the act and the reason for the performance of International Advocacy Intelligence Council Office.
347. The main priority for the business interests of International Advocacy Intelligence Council becomes build their own resources and business networks in order to maintain full stability safety position against International competition and attempts punishable opposition.
348. International Advocacy Intelligence Council therefore benefits from the cooperation with merchants and corporations, founding conference and business centers, and especially its own network of business resources in order to develop the forces of cooperation that is developing joint development of raw materials and the foundations for a global construction and development of joint forces on a global level Infrastructure and always the basis of its own sources of raw materials and stable International trade agreements.
349. The first objective of International Advocacy Intelligence Council is to create an International network of industrial multinational corporations owned by the government's ID, and thereby ensure the ability to own industrial production capacity and technology development and the building of an advanced ID's government forces and International Advocacy Intelligence Council Office.
350. International Advocacy Intelligence Council therefore takes the right ID's financial strength and business relations, corporate agreements on joint business, management uses payments from profits, further developed by the Office of Strategy Imperium of Diamonds.
351. International Advocacy Intelligence Council therefore takes the ability to develop the power industry as metallurgy, mechatronics, mechanical engineering, electronics, computers, robotics, industrial components, technology, transports, ships, space technology and aeronautics, military industry, chemical industry, architecture, commercial wholesale trade services basic agriculture and food industry, scientific industry, other available development resources and the interests of the trade. 352. International Advocacy Intelligence Council uses the departments of commerce and industry intelligence for the full automation of all industrial goods and at the same time, an agreement on a strategy of agreements with the government of the country local sovereignty.
353. International Advocacy Intelligence Council develops intelligence and interest in creating their own power sources and capability development activities at the level of

global trade, in order to activate the development strategy and strength of International Advocacy Intelligence Council. Therefore, it is first a business strategy to use owned forms of business cooperation and establishing business and industrial zones in International waters and in the universe, or develop their own autonomous laboratory, thus ensuring stability of full Independence for the growth of ID's civilization.

354. The first strategy is the goal of Independence for the growth of a network of trade routes, sources of raw materials and industrial infrastructure in order to build transport ports for the transport of raw materials and goods for resale, in International waters.
355. Transport ports will be built at the level of marine transport, meaning connection with the second form of technological transport system that will allow the flow of material through the orbital line around planet Earth in zones without customs borders between the states and the ability to direct connections to all areas of Diamond's Imperium in the world or universe.
356. Center International sea transport ports are subsequently developed into military bases, in order to ensure the safety of transport zones, in order to ensure the safety of the transport port and stability safety for all users.
357. Strategy expands transport bases are therefore creates by centralizing the shipping routes of the world dimension, and by the impact of military bases geographically security of every region of the world, in order to ensure the safety of common business relations with States and traders.
358. The goal of each transport port is the first to establish a solid business contacts with local business states in the region. Ports can therefore also be used to rent the rest of the states, business corporations, and thus may be entitled to get agreement on the creation of a common financial sponsorship in order to build a transport ports.
359. The economy functioning transport ports in calculating the ID's development and business projects sponsored by each of the resources of the economic cycle Imperium of Diamond's, and therefore without the need to obtain funding from foreign sources. Construction transport ports can arise when economic cooperation plan Multy consortia, and also in cooperation with foreign traders. In the same way business collaboration arises safety equipment and infrastructure technologies for military defense, transport ports.
360. A security strategy transport ports can be used for the purpose of the alliance between the regional bloc and the rest of the states according to the position of transport ports, thus providing the ability to create a common agreement on security cooperation in order to give developing a common security base in the immediate area of transport ports.

For the purpose of friendship between the countries IAIC organizes the use of the acquired funds for the purpose of project, by spending strategy for building materials be market in the area of jurisdiction of the State and thus prevent inflation, financial currency.

Each office must possess Proven communication services, and web business card, with adress and labor order

It is an obligation to create its own center for the use of a central postal address (a small warehouse for sorting the mail between departments offices), telephone number of the office, fax, e-mail, Internet account for deposit and withdrawal of a public document, a private website office and portable server connected to the Internet, is an intranet for the possibility of International communication, and also contracted or available resources for the possibility to organize conference meetings, summit, and cultural center for the purpose of presentation of ID's state before the public company.

As the main unseen becomes an obligation to possess the ability to exploit fully private function space for offices and small storage Archive documents and books, The Archive. The Office shall provide the ability to use their own financial safe which serves as a local branch of the budget for the financial manipulation and limited transmission and storage of Finance. They must be safe guarded recording system, while private security patrol. Architecture and design creation vault will be designed for communication with the Royal Council.

In the event of a successful and safe operation of the office of management and safe, then it will also open a safe investment.

Development Office

1. *Exil or Extraterritorial Office as an office on the territory of another state (because of the occupation).*
2. *All Authorities unified position on the provisional orbits planet Earth (synchronization with defense station).*
3. *Government offices for the position of legal territories of Diamond's Imperium (after ensuring stability, security).*

The Office mustnt organize and promote any illegal drug trade in arms, terrorism, drug trafficking, human trafficking, trafficking of stolen properties, national and international organized crime, or any other persons who are active in such a form of crime. The Authority must always expand relations only with persons who may legally verify and prosecute justice courts, or if necessary, to guarantee enforceable guarantees active in the jurisdiction area of Diamond's Imperium and ownership.

To build a Safe

In the event that IAIC has its own secure and safe financing is therefore prohibited receipt cash in high amounts of funding if not to be able to ensure the safety and suitability of trust for financial management.

For safe strategy, financial manipulation, financial Contractor must officially list the documentary about his actual possession of responsible business cash to pay, and the cash will be deposited on premeditated confidential account, until such time, the transfer of finance in the state IAIC in the ability to use enough safe and secure active security services.

IAIC, may still be used for the payment application, agreement and certification of owning a cash distributor of Finance, during an official transcript of account owners of capital.

IAIC, may still be used for application payment contract and certification of owning a cash distributor of Finance, during an official commitment to overwrite the payment of cash in the name of the new owner as IAIC, but holding the financial capital in the storage area of the first person as a financial distributor, and thus release document verifying assets and a capital value of the business enabling manipulation by a third party, and the subsequent transfer of funds between the first distributor to finance a third party.

If the first financial distributor becomes a service provider to store funds from joint first contract provider that must confirm the agreement on trade that generates an acknowledgment of its financial contribution, followed by the confirmation of providing storage rights for the property in detail ratification values stored assets is putting all registration data on other contracts which are relative to such property in custody, as well as custody provider must demonstrate its confidence in the suitability of the submission of guarantees second permanent assets equal value for the purpose of safety deposit insurance and reinsurance officially contractual obligation of a surety deposit for property values.

IAIC has the right to use, an agreement on the financial handling of finances that are in the interest of the agreement inserted foreign bank deposit accounts, thereby creating a strategy on the use of safe foreign intimates the possibility IAIC own ability to transfer funds at high levels.

In the case of using a strategy of external vault as a premeditated space for financial and wealthy capital, then it is necessary to IAIC obtain confirmation of their own value, which is the full and official certification from a foreign bank as a provider of safe and storage space, and the bank is willing to use certification to allow the subsequent issuance of cash, a certain amount or the entire deposit.

The Bank as a provider of foreign vault by own duty to ensure that a contract certification of embedded assets, and certification is then inserted into the writings IAIC Registry owned property, while at the document which is then followed by replacement document as a step in the verification of the authenticity of the first certificate in the case of losses alienation.

IAIC not only use digital technology to be able to verify the ownership of financial account and capital injections. IAIC own responsibility to use documents with the ability to always be full proof of ownership. The documents are a substitute for digital data and keys, the current crisis hacking threats against the security deposit.

Terms certification of having saved the capital subsequently in legal hands IAIC serve as a basis for check payments to its own currency authority, and therefore the ability to ensure payment of the rest of the traders in the interest of the partnership IAIC office, and therefore it is not necessary to use the constant manipulation of financial capital that has been inserted into hand protection bank. Certification is therefore the value of the base value of GDP for ID's Federation.

IAIC own obligation to transfer financial high amount of money, so always use the strategy of transit security and protection forces to protect the finances of the carriage of high finance capital.

IAIC has a duty to ensure the development of logistical ID's international agreements on transit on the territory of foreign countries, thereby enabling collaboration capabilities.

IAIC must create trade agreements that are contrary to the security strategy of the possibility of having cash and such use.

- 1. IAIC therefore plans to trade the markets each with a budget of this strategy, which means the use of the profit for the ability to more profitable investments, second market turnover,*

2. *at the same time ensure payment security service designed to ferry finances in a safe place and deposit funds into a secure vault.*
3. *Therefore, while the financial turnover liable to the extent of the financial costs for long-term storage of financial capital in a safe environment,*
4. *symmetrically and with a financial turnover of securing payment for the function and duty IAIC the just payment for employed staff (salaries, office operation, maintenance, insurance).*

IAIC also creates its own vault construction planning that this will be a growth strategy designed their own safety and suitability of trust responsible financial manipulation capabilities inherent guarantee for financial transactions and trade execution created by the agreements.

IAIC always has the obligation, in the first plan to develop their own businesses for the purpose of the financial measures for the safe finance and high-quality financial packages.

IAIC therefore has an obligation to create turnovers for the financial security of a safe which will therefore be able to responsibly maintain security deposit guarantees.

Financial safe high deposit values must therefore be drawn up by the basic quotas, meaning its own weight vault which is a guarantee of safety against theft and safe should be restricted to the security zone, and in the same project can be opened only in case of confirmation of a special security procedure which is a guarantee against theft. Other statutes vault will be agreed by agreement with the Royal Council.

In the event that IAIC uses safe to store special values of sums of money, then IAIC must obey the Royal Council on a strategy to save these values.

Each species should be safe under the administration of the observation team of legal security and the contribution of responsible values and principles of handling and always carrying a document on the management of invoices and in accordance writing selected and entered values of financial capital.

Safe under the administration IAIC also serves as the base for reserve deposits that are inherent fuse the function of the office and its successful operation at the international level. The reserve amount is insured for two years IAIC function.

IAIC is obligated to create the management of assets in use of sealing stamps for wrapping stacks of funding, and also record the number of each stamp, and his manipulation.

If the stamp is damaged, then the content must be re-finance recalculated, and checked the authenticity of banknotes in the control of an authorized notary's offices or ID banks.

If the moving, transfer or other handling of banknotes, it must be re-checked the authenticity of banknotes and ensuring their confidence in sum.

IAIC therefore creates its own stamp for certification of owning property on behalf of the Office IAIC, and to allow for easier handling.

IAIC creates a seal stamps for financial stack as a pile of banknotes, as well as seal stamps for a package bag with banknotes. Each bag banknotes must own internal protection package with color for impairment of finance in case of theft or open bags, and even a radio receiver which is used for satellite location of the package. All the numbers of banknotes in a bag must be recorded in a private database with confirmation from the bank or notarial office of the register of banknotes and stamps petition.

IAIC used banknotes in payment and redemption. In the case of redemption of notes, IAIC own obligation to carry out verification of the authenticity of banknotes in the currency of the issuing authority which is responsible for managing and accounting bills.

Access to the vault must be sealed and guarded by a guard service which is composed of persons regularly inspected Safety Commission. Access to the vault can only hold a permanent entity with a license and during the thorough inspection and examination.

IAIC also uses purse as less safe designed for flexible financial manipulation in payments and shift or for the operation of the office.

Interested accompanied by security services and anyone else without authorization and supervisory official has the right to know the content of transported material values in the property being transported. No one should also not allow the transfer of the consignment into the hands of unverified determine distribution.

The ID's List of Legal Power's for Unification of Mankind

List of political entities that own the largest legal ability to unite all nations and the transformation of world politics on the size of one state:

** List is open share paid in the media. Price per share sheet in the media of a joint report or note source (ID's Fed. Gov.) that will be shared with the media in accordance with the principles of distribution taxation for newsletters.*

1. The federal government Imperium of Diamond's

Imperium of Diamond's the federal government is a legal entity that owns the right to act immediately seek global self-determination the sovereignty of the government and the state polls all nations. This entitlement for the number one position, first of all over the world.

The federal government and the government asks all countries to a common unification, and the creation of the unity of the human world and all nations. Unification is not loss of function or weaken your country's government. There is no reason to weaken the number of political positions, Imperium of Diamonds is based upon the format of the Federation, this act is only applying strategies to extend the value of your civilization above the common policy of the size of the entire world. Law is presented only as stable a valid request, but it is hard determine by legal obligations direction. The process is a diplomatic and friendly.

According to the analysis of legal claims and values of civilization Imperium of Diamond's meaning also the alkalinity crucial to the success of candidaci at state elections, the elections of the President and the new government of the country, and so when the sum of the legal aftermath of the analysis of the current situation in which European terrorist states harms Universal rights of the nature of United nations organizations, so as terrorist damaged all the rights of every nation around the world, and that every person is criminally damaged, and therefore each person owns all rights to apply for ensuring justice. Right above the base project, The One World, a project to unite all humanity in a diplomatic and friendly relations, and thus expand our level of civilization to new Galaxies in the Universe. The project which is valid field of International rights, because since 1997, and therefore the Imperium of Diamonds also declares that our world should be united already in 2005, and today this right also in relation to International rules is indeed confirmed that every person on the planet Earth owns all rights to ensure fairness, that the first interest is the right to own and use recognition entitled to self-determination, start Unification of The World. Analysis confirmed our human world should be united already in 2005, and thus our human civilization today should be based on the size of a few Super clusters of Galaxies in outer space and a fully integrated world. Today's losses are the greatest loss in the history of human existence, so everything just because of terrorism European countries that severely damage the International rules, the laws of all countries around the world, and so there is the greatest act of terrorism in the history of human existence.

Therefore, all states have the right to act announcement of self-determination and sovereignty launch our global federalization together with all nations. Open Legal Right for use, The Single Act for the immediate unification of all states and nations on the planet Earth. The value at which an obligation arises for the UNSC to establish such rights as UNSC Resolutions over principle strategies UNSC, and therefore such right is fully opened and without any possibility for his veto, damage or stop.

Thus, a claim confirmed by the scheme International rights act constituting always a possibility open to all governments to jointly agree amicably and thus create up to full unification of the entire human world and all peoples on our planet Earth.

The federal government Imperium of Diamonds therefore proposes each year to create an International Summit of state and government of countries that legally declare UNGA Convention on the Rights of nations for their self-determination, or also the countries that are interested in consideration of the possibility to exercise this right. UNGA Conventions which are thus again a much larger force of democratic values than right UNSC States, mostly in a situation of this nature on a universal basis as relatedness to the rights of every human being on planet Earth, the value of global democracy surpassing all rights global democracy all governments and the UN Charter.

ID's government respects the principles of the risks of global resistance states in step compulsion to violent unification of all countries, and therefore does not intend Government ID's begin to enforce such laws be violent processes. The federal government Imperium of Diamonds

and maintains all such claims, and therefore determines the strategy of using claims until the time our common success agreement with the government of the country. Therefore, the act also created the Global Summits over the principle of common friendly diplomacy.

In any case, it is confirmed that in the case of ensuring full freedom for the government Imperium of Diamonds, and the stable development of civilization by peaceful and safe character, then we all governments jointly own all rights to use the act unification of the entire world in a single moment, and when looking at the UNSC rights under the Charter of the United Nations in a current situation, it is not necessary to respect national democracy Nations and seek a decision states, because it is so permitted by the UN Charter. The unification of humanity may be agreed in the declaration on behalf of the federalization of just governments of the countries. UNSC, under the UN Charter must always ensure full justice and ensure the return of all values, so it is not any opportunity therefore to oppose this act could anyone resist.

The federal government Imperium of Diamonds may therefore federalize with the other states, a decision in the interest of the governments of countries without national democracy for the decision. No nation therefore does not lose value, because the act of federalization always means full capacity to ensure the growth of our shared civilization strength and thereby extending our capabilities.

The system of government is based upon the format of the Federation States jointly maintain common democracy based in order to maintain its own geographical integrity of the state and the operation state of civilization by habits and principles, but for the joint development of slow development to the level of a united world. Thus arises when states not lose up to our own principles and integrity, but each state can use the principles of a united world, all the time until our world is this truly united.

Political character, then it is constitutionally appointed King and the Royal Council to fully deploy promote the just development of all countries and also provide confirmation of the government's decision by intelligent results by the Commission and the authorities which thus do not support blocking, bureaucracy or abuse of power, but just right to support the development of rules and projects the possibility of the best usable level.

Any State which joins the Federation of Diamond's Imperium therefore receives federal gift meaning all demands to use our collective strength to develop their own civilization to the dimension of the first Star City and the state on behalf of their own ability to utilize hundred planetary civilization, arranged around one of the stars in the Universe. Today, the greatest civilization in the history of human existence, gift designated for each State wishing to take advantage of federalization Imperium of Diamonds.

Chances that is the biggest step in the history of our human existence, a step which is the best option for the future of all our peoples! One world, one nation, one superpower!

2. World Diamond International Alliance

A body which can immediately provide the emergence of civilization over the foundation of the true nature of the unification of all nations in the strategy right joint sovereignty in the alliance of all the peoples and governments of the human world, and thus use the first territory on the range over more than 15 000 000 000 000 new planets in cosmic space.

WD International Alliance therefore now, because of the size of legal rights in the status of International rules and political duties field principles of the United Nations, the WD responsibly and for the whole world always conveniently more important subject than the UN and the UNSC.

3. Organization of the United Nations, UNOSA & UNSC

UNOSA is a political body of the UN, for the purpose of legal strategies for the use of space. Cosmic principle according to UNOSA prohibit establishing state sovereignty, anywhere in the universe. Therefore, in case of future expansion steps association kidnapping, and in the case of creating a true global alliance of governments, it creates a situation where the Member States in the group UNOSA by creating a group that may also establish their own civilization on a range of space. In this case, in the future may arise entity that will be the foundation of the union in all

countries, similar to the format as a united world. Therefore, governments have the opportunity to jointly acquire the motivation for the act of unification of their own territories and the creation of the unity of mankind.

If there was a transformation of the state, then by today's character of world politics in the interests of the principles of the UN Charter, therefore UNSC countries like USA, terrorist France, China, Great Britain, Russia that will be the main parent entities of world politics decisive about the world system as the format of the main body of constitutional government, and because of the permanent membership of the five states in the UNSC, so as a form of absolutist monarchy with partial power.

But developments drastically reduces the member's abduction may be only states that are members of the United Nations, which is just 193 states without four other states, and more than 150 other countries that now await their stabilization or identity declaration. At the same time, a group of UNOSA further re-own the rights under limited membership number members of this operator who has subsequently independently decide on accepting other states to the group UNOSA and also of their rights to exploit the opportunities for the purpose of declaration of agreements on the use of space.

This means that such a possibility for the development of humanity is very limited, and in the long term without visible success, even without a significant possibility of applying for governments. Weakness of such an argument.

4. Federated States

It is it really possible that the scope of federal states together may one day together united and thereby open up its borders, thus creating a unified system of the world. Such growth may take longer than fifty or a hundred years.

5. Individual states

Each individual state has its own option for federalization common act with another country abroad and thus create a regional bloc that encourages a greater ability to unify our human world. Countries governments is commonly united only in neighborhood local zone of geographic location, not in interest for unification of mankind.

6. European governments

European governments are now under the International rules of political activity as the format of International terrorism that has no any right to existence, or other activity.

European countries are the first global threat of war, and it is also a risk for the extinction of mankind.

The Imperium of Diamond's

Legitimation to enforcing

European governments and members of terrorist alliances, political persons responsible for the crime because they have the right to active and development support for diplomatic and social dissemination project, The One World, under behalf of the supervision of the government Imperium of Diamond's, thus ensuring at the same time the right to seek a reduction of criminal responsibility, before court judgments.

Terrorist governments also have the right to enforce coercive practices in order to unify humanity by the same principles that formed mean the act responsibilities of each state, full under the same duties as a UNSC strategies or UN Charter. Such Right is decided just because European governments are responsible for the world's crimes and legitimate security for their own bankruptcy and extinction, or the creation of the first global war that represents a major threat to full destruction of European civilization in the act of global forces all governments around the world. Therefore, such a solution is not problematic, because European governments have no reason to worry about the risk of losses in global opposition, and the realization of monopoly step against the law and national security. European governments and support unity of mankind, the most important act of human history, and therefore achieve a much lower ability to attract criminal liability before the courts.

I'am in Europe from my chilhood, six year's of young child. Never one can attempt proclaim any problem.

The One World

All politics created own strategy for political development, to the future, all politics immediately repeat, that All must be only The Best. No any one policy can understand, that the best strategy is only The One World, best strategy to The Mankind and All Time's of The Future !

Therefore, project The One World is the most important political and social objective for the whole world and important to future, valuable and important to the all natural persons in the world, valuable and important to the all corporations around the world, too valuable and really important for all nations on our planet Earth, valuable, important, the best step for all governments around our planet Earth. Not better values and strategies can exist, The One World, any one can know that it is not any false because, The One World is really valuable, important and greater big much as a our planet Earth per millions of year's !

Today, we are exist, milion of year's. It is a best value in the history of our existence of the all humanity. Our planet Earth can exist much greater time than only One Miliard of year's ! Our planet Earth, place where rise all important and natural values of our Human World, for period of the Miliard of year's ! Today, minimally hundred's of nation's, nation's of the same human race, human race around the world and oldest than milion of year's, and here unity of mankind not can exist ?! Therefore The One World, first biggest step in The Time of Human Existence, The Big Step who share our power of Human Element and Pride, therefore The One World, rise only for Victory and valuable exist greater than our planet Earth, The Mother of our Existence !

The One World, The Big Step, the same as The Big Bang Beginning !

The Human birth, beginning of our existence. The Human birth and beginning around the whole world, to today hundred's of nation's, our beginning is therefore to today, it is The First Biggest Loose in time of Human Existence !

Just a First Common Start, between all Political Party's, common representation of The First Planetary Unification, Our New Civilization, Sovereignty and Common Planet with out any board ! The New Earth, The One World, The First Real Human World ! It is a Planet where live only Peace, Harmony and Good Success ! No many Nations, not steps to the Unity of Nations, not United Nation ! Only One Nation, only One World and Only The United World and without any differentiation in political time's. The One World, we are is valuable then all time's of Rise Humanity !!!!

The King of The Imperium of Diamond's

IMPERIUM OF DIAMOND'S IS LEGAL POWER WITH FIRST POSITION FOR UNIFICATION OF MANKIND

Today, the federal government Imperium of Diamonds because as a group claim more political value than the UN, and therefore today the federal government Imperium of Diamonds under media blockage and suppression of terrorism, without the full ability to use our own rights and development if there is no step mobilization to create IDs own level of integrity. Founding integrity is under terrorist non-legal blockages due to UN corrupt, criminal and monopoly networks to influence the society and use for development of cooperation on terrorism and crime, the same as the UN as a UNGA & UNSC subjects without power for stabilization of today conflict situation. UNSC and the UNGA haven't democratic right to decide about the possibility of Imperium Diamonds and violate the integrity in any case, The ID's Federal Government is fully Legal entity with all right's, and obligations, government countries and International organizations too support cooperation and development of our friendship.

The federal government Imperium of Diamonds is an entity which is based at the full legitimacy of the government, and indeed the demands of the state, and also particularly the right to use such values and rights in International law. The objectives of the Federal Government Imperium of Diamonds are beneficial to our entire human world, and to build an advanced country and civilization, the most advanced civilization in the history of human existence, and such value also extend the value of our International policy and thus promote the development of global intelligence, meaning growth of world politics to true universal character that develops many worlds and keeps our states and peoples in a single cluster and to world peace.

Imperium of Diamond's Federal government have primary base on the ideologues of The One World. The One World is thus the main ideology of the constitution of the government of the country, and also the law project which is aimed at developing a global collaboration with all political parties from around the world and the creation of our global movement to spread the ideology of the One World in the range around the world and also among nations the whole world, so that our peoples together so absorb the ideology of friendship and diplomacy, in accordance with all the governments of countries around the world and this act together we will create a step in the unification of all national and people, the One world!

One world, one nation, one government! The biggest step for each state from around the world and the ability to surpass all the values together for the entire period of existence of mankind!

The One World, a step for the unification of all mankind, it is indeed an act to create a multy cultural country at the level of our planet Earth and whole human world, the elimination of all borders and barriers between states, halting the growth of racism and differences between nations, immediate stop all International conflicts and wars between nations, the establishment of our joint forces which have always stops at the option of the occupation of another country and blocking of other nations and their freedoms. Our States will live in peace without economic diversity and nature that is based upon dependencies between states, abuse of civilization advancement against another, and thus the One World is the realization of the unity of humanity without problems of famine and diversity that creates all the problems of our world and tough losses our existence and humanity's future!

When the ratio of the long lifetime of the human race, if our world was from the beginning united, without these problems exist today because of territorial boundaries, then the value of our present civilization advancement would be outstripped by no more than 3 to 5,000 years back in our history! Many nations that possessed significant value knowledge and basics of science, chemistry, health, construction, machinery, astrology, nanotechnology, fortunetelling, transports, industrial intelligence, agricultural intelligence and the actual state politics and much more, but always each of these nations always had defeating foreign competition and to live at risk of extinction during the colonization until they reached full days extermination of civilization! Government Imperium of Diamonds is therefore an important step marking the development of new possibilities of mankind and the cessation of all catastrophic systems of our world!

If We are people unite, than therefore our world start rapid development and than our civilization of The One World is in ten year's in the same developed form as today decentralizing world after thousand of year's ! Global Intelligence, one nation without need's to clear their own intelligence, our power of science have progress in hundred's time multiple !

I want to promote the unification of all mankind and put your nations for the true value of our human unity! That is the real beginning of real life for each of you, because our alliance is the

real life of all nations! Our alliance is an act which is the first historical beginning of life and the existence of a real human world!

I want to build our unity, to give all people good money and all quality of life, a free life and all human rights! I want to give you what for all of us the most important thing from around the world and the emergence of real-world meaning of the basis of our unity! It is a step that the largest in the history of our existence, a step that truly unites our nations and creating a world, a step which is the main result of the spread of peace and diplomacy, justice and purity of mankind, and now is the time when this step may take advantage of every one of You !

You live in the World who is created for You, and You have all right's for this !!

Each of you has all forces this step to support and develop our global unification, the first historical moment humanity at our world unity! Each of you has the right to use this act to support and expand, spread in society and thus encourage future of your nations, as well as the future of all countries around the world, and we therefore people today from one planet Earth, but after the first in history as a true an United World!

800 million people every day live in famine, each of them would today be willing to vote for the unification of mankind, is a 1/7 vote of all mankind!

Despite many nations of Asia recognizes religion Buddhism, and thus form a universal connection of all people throughout the world, thus the main dream of the unification of the entire world. Each of them had now allowed each of them gave voice to a united world, it is the voice of 1/7 of humanity!

Many nations and states, communities and movements around the world, the people of the Islamic faith and Christianity, everyone recognizes God as the one who made the world a uniform and no differences of nations, and each of these people every day praying to God and Jesus Christ and everyone begs forgiveness and the restoration of a united world, as it was created in God's plan! Each of them, if they can today, everyone was given a vote for a united world, it is the voice of more than 3/7 of humanity!

Many nations and states, everyone wants to live in a free world, everyone wants to live in a world without boundaries, open way to all the cities, in all countries and among all peoples, and thus have the ability to own and free development for myself and for the whole our world together and thereby achieve the greatest results. Every day, therefore, if he could, why would anyone give voice to more than 7 billion people around the world, and so on always!

According International rights, title Imperium of Diamond's, it really means a united world! Imperium of Diamonds is a subject that is so in the interest of the UN Charter, the obligation to favor a strategy of UNSC! The One World, the first act of the reality of mankind!

Each person always confirm that from the first time of his birth, his ideology, man has always been open to the world and without territorial boundaries, unified world open for each of us, the nature of each of us and our main dream of every man! Each person also confirms that our world, which today is destructively based on territorial barricades, each of us is therefore a force regime of his country, always raped and reformed in order to keep the forces that just demolish our alliance and thus create boundaries which are therefore the main basis of today problems of our world, famines and drastic differences of our civilization, wars and conflicts, occupation, International crimes and political opposition, dependence on other states and enslavement, the financial crisis and the reason for the bankruptcy of our civilization! Each person around the world and, therefore, always confirm that his main desire is to unify humanity and the removal of all barricades between our peoples, the main dream of every human being is always a united world!

Today life in the barriers between nations is the only global prison that people keep their worthlessness and damage to their own values and future of all mankind!

UNSC strategy on self-determination of states, under the UN Charter

Screen from communication for Micro-State's:

If all micro-states around the world jointly declare their own interest in the alliance and the federalization of the Imperium of Diamond's, then this will create a global act based strategy for the unification of all countries and nations throughout the world.

This is a strategy that is therefore becoming an important value for UNSC States, which in this case therefore, in the interests of rights and principles of the UN Charter creating the UNSC decisive strategy on the state of self-determination.

We are is much important strategy for whole world.

If your strength of our cooperation will be full stability and the ability to organize jointly in a stable form Federation of Diamond's Imperium, that means you increase the value of your countries at International level and in politics. This UNSC will favor your interests against other governments of countries which collectively be suppressed by their sovereign rights in the UN decision.

If your movement self sufficient power territorial democracy or owned such rights, then in this case, your position is still high ability to obtain prioritization and full rights for declaring their Independence in the name of the strategy of the UNSC as an act sponsored by the UN Charter, more than 193 countries throughout the world!

Subsequently, if the UNSC, UNGA, or any other entity is any way to create activities for the purpose of blocking our interests to develop in the name of ONE WORLD, and the unification of all mankind, then it means that the whole world that it obtains rights to come together and organize, to declare joint global poll every person in the world and thus decide on the unification of all mankind! The One World, basic nature and main plea of every man! A world without borders, without territorial conflicts, without wars, without economic distinction, without depending on another state, this is the New World and the first steps of the entire history of humanity as a truly united human world!

Today, European governments and their joint terrorist alliance together to block such rights and interests in order to The One World! Media blockade, communication blockade, isolation and decentralization, apartheid against the human person and apartheid against the country, murder and genocide, provoking conflicts of the First World War! These are the worst crimes in the world, and against all the principles of global politics!

These are crimes which, therefore, robbed everyone in the world, which prevented the theft of global knowledge about the strategy, The One World and the opportunity to exercise this right!

According to all International laws and principles, every nation uses its own state because democracy to elect their own government of country. The nation always has full rights to decide on the country's government and its function, and therefore decide on alliances and International relations, government, and membership in International organizations and by transforming our own relations and rights and principles and form of government and its own territorial scope! Rights that are currently confirmed as party and the UNGA Declaration on the Rights of nations for their self-determination and the establishment of their own state system, of the universal declaration of human rights and freedoms, claims by States for their democracy! So that means that European governments severely damaging all the rights of every person in the world, and this is a responsibility of the European governments and the whole range of their terrorist alliance immediately to ensure the opening of this right to all States and peoples and thus give full entitlement to each person to exercise their own right to democracy and declared that together our common unification, unification of all nations around the world! The biggest step in human history, as well as the main dream of every man! Even from nature, the biggest life goal of all nations, because the unity of humankind was created everyone!

The rights that the European criminal alliance to fully stabilize, and thereby also every government countries always support!

So we do not want to rob any government of the country and harm the territorial unity. We thus support our global unification and rapid increase in forces of every state the true value of freedom for all nations as an act of genuine universal law!

Therefore, together we can ensure our common stability and thus build up a global strategy which means the development of our rights with the support of UNSC strategy on national self-determination and full guarantee of our freedoms and winning results !!

Each person around the world is born for the glorification of a united world!

The full text of the document range, act as a confirmation that, since 1998, this is one of the basic formats of my policy, my country and the legal nature of such a body of government Imperium of Diamonds. Ever since 1998, under the occupation of European terrorism, apartheid and blocking all freedoms, isolation from society, murder and genocide of innocent people, slavery and misinformation, blocking develop and blocking on the rights to freedom of International communication, but even so, still, the federal Government Imperium of Diamonds is fully legal entity which is based upon much more valuable and important rights and claims over the scope of our human world and the existence of humanity in the entire history of the world. The federal government Imperium of Diamond's, without competition and without outgo, the largest and most important subject, today, in the past, as well as many tens, hundreds or even thousands of years of years into the future.

Today, according to all principles of International law in the form of a system of world politics, it is indeed confirmed that I am, and all people in my collaboration or every support, we are the most important person of all mankind, and We really am such a value. Therefore, anyone who contradicts against me and my people, and against which us any opposition, blocking and trying to damage us or disrespect our values, then on, each of these people in opposition is just the greatest traitor of all humanity and the worst crimes during the period of human existence as such act of crime is a crime against the whole world and all the nations of the human world, and against all the values foxes future and all forms of today and the future and the future world civilization!

Anyone who is opposition, each of which may therefore be punished today, and so too all the generations of the future of nations! Anyone who is against me by the opposition, he is therefore the opposition against the whole human world, and the name of the Bible and all the world's religions is the legal format of legal rules around the world, he, as the opposition is like the devil and evil, what is just monstrous part of humanity as destined for extinction, harsh punishments that will always be a role model for everyone who dares in any way want to harm our entire world or everyone!

Consequence of blocking and terrorism European countries, together we can fully exploit the possibilities to jointly develop and create a step which involves the use of that right on the strategy for the purpose of ensuring really step unification of all humanity and that an immediate step, which is now the responsibility of the main system of world politics, all governments countries, and in principle the ideology of decolonization of all nations.

I therefore wish each of you a possibility of our common growth, and I believe that each of you will support the growth of our human unity, improve our human world! Each of you has the right to use my documents and distribute them in society, promote the development of our peoples and thereby ensure the growth of our oneness of the human world!

We can help commonly, your support for me is the same act and move, meaning help for you, because I am here today that the central force of the rights and interests, claims and strategies, development center for much than 7 000 000 000 people worldwide, I have since my childhood, for this purpose born and with the pride which first began and was able to achieve legal values which today represents the most important and powerful civilization in the history of mankind, and a fully integrated world!

Project The One World - Options in the interest immediately abilities of The King

The agreement between The King of The Imperium of Diamond's and political parties for cooperation to promote and project implementation The One World through natural coalition policy cooperation

Collaboration on a project of The One World is conducted to form an international coalition formation.

The international coalition is therefore based on support and maintain a common system which supports unification and governments into one federation The Imperium of Diamond's, representing the values of common policies and benefits, while support for the kings of the Imperium of The Diamond.

Collaboration on the project determines the right's for a political party in the interests of meeting the Council of One World before with the Senate of The Imperium of Diamond's.

Collaboration on the project determines the right's for a political party in the interests of meeting the Council of the One World before with The International Senate The World Diamond.

Political parties which operates the cooperation on the active promotion of The One World then obtains the right to sit in the interest of the sovereignty of cosmic planetary civilization and created many political parties The Millennial's, parties who have the right to represent the management of civilization and create representation of government sovereignty of our planetary civilization, a civilization to develop and determine its rules.

Political party in the interest of a joint session of cosmic civilization and its own duty to actively represent the political project of The One World, and is entitled to conduct a non-permanent membership in the common interest of the Government of cosmic planetary civilization and political organization, membership of which is so dependent on the activity of our cooperation in the interest of The One World. A political party that will be 10 years to actively support projects The One World, a political party, therefore gaining permanent membership for keeping sovereignty in the interest of common cosmic planetary civilization. Our civilization is thus represented by the Council of civilization as a major constitutional entity. Position a permanent member is therefore permanent.

If a political party gains political success of the government's ability to unify the country for the sake of the project The One World and therefore create a unified territory under the constitution of The Imperium of Diamond's, political party, thus gaining permanent membership in the common interest of the sovereignty of cosmic planetary civilization.

Each person around the world own claim for the establishment of a political party with the determination to cooperate in the interest of the project The One World. Therefore, cooperation is determined for each political party without any distinction and diversity on the idea of a political party or any policy focus because common policy is based on an attempt to unite the entire world.

Political parties therefore creating an international coalition of The One World, and is created and presented to political party designed to promote world cooperation, security, equivalent throughout, peace, justice, well-being and unity of nations. Political parties once again together create an international coalition Project The One World, therefore, to allow it to our collaboration and defending our security, justice and victory, so the greatest victory for all mankind.

Each political party, in the case of a threat of corrupt oppression and fear in the interest of our people and their opposition to corruption and cooperation on terrorism, followed by their fear that is based on the recognition that for us such a terrorist association can not be strong for a long time, even if his power was based the values of world politics, because every political party or political entity which owns an interest in supporting our cooperation and achieve unity of all mankind together to achieve a major step in human history, and since the formation of our planet, because each political party and person in project collaboration The One World, everyone can defend themselves against oppression policy through their own knowledge about the real values and dissimilarities of our policy against illegal competition that creates a really strong start, and our values are, therefore, able to encourage the whole world, global politics and all the values of young people and future generations. Each political party is therefore able to achieve significant value and gain a lot of parties for cooperation from the direction of the country's own system of government, support from other political parties, support from many ministers and support from many senators and other politicians the main political position of the government of the country, as well as strong support from Past major political parties of the nation, as well as once again the

strong support of foreign political parties, foreign ministers, senators and foreign persons of foreign policy, as well as many people in world politics. Everyone knows that his opposition against us can only mean its extinction and thrown into prison for the worst deeds in the history of mankind. Everyone can therefore be familiar with, that is added to our side, it means the opportunity to join the most important steps of all mankind since the birth of our planet Earth, actions and values that are each important and valuable than our country, the government, territory or policy. Steps that will become the most important value of future history of all humanity, a New Era!

Every political party in the joint coalition and acquires the right to establish their own internal forms of association which represents the political party. In this case, to cooperate with a political party may also add Cabinet ministers Country, Senators, Prime-Minister's, Presidents, Kings, Emperors, Sultans, Emirs and also The Prime Minister of the country and The Lord mayors of cities or towns.

Coalition should not be misused to cause conflicts and violations internist government of the country. Coalition must own interests just and inspiring subsequent generations of political activity in the interest of accountability rules and policies.

Our common goal is to expand global logistics strength of our coalition and create a new strategy for the unification of all mankind. It coalition objective is thus maintained in order to promote a common ideology and implementation strategies for the unification of mankind. A common goal is conducted for the presentation of our interests against the peoples of our countries, to promote the development of countries in the interest of the good and welfare of present and before the government of the country good and great possibilities, progress and value win for our unification governments, politics, nations and territories under the constitution of The Imperium of Diamond.

If you are in the interests of international Rights rejected a claim for conducting joint cosmic planetary civilization and our civilization will be based on independent political status against such rules, again in accordance with internationally applicable rules for internist. Government cosmic planetary civilization must comply with all issues of peace and promote cooperation in order to develop human rights, cooperation in international politics. Political parties still own claim for the establishment of a common global strategy, which is designed for the re-legalization of cosmic sovereignty through our global cooperation.

Creation of a common cosmic planetary civilization and further cooperation in the interest of your policy of a political party is independent of the policy of your government and country because of your political party formed a new legal entity that is designed to work on joint sovereignty of the government of cosmic planetary civilization.

In the case of an active membership of political parties for 10 years, so there is Planetary Senate which is then the main center of the common policy as the strongest power. Planetary Senate then determines the subsequent merger of political parties according to their achievements in political activities The One World.

A common goal is to get the greatest value to global social and political cooperation, actively expand our alliance in the interest of world politics and achieve success for the unification of all mankind.

4. *Joint work and centering all the strategies for the unification of all mankind, expanding common civilization's in The Universe, the progress achieved in the value outstripped the value of our planet Earth by at least „One miliard times“.*

The process of joint federalization is created for the possibility to launch a full federal cooperation and unification of our peoples, government's and territories and civilization's, through a system that handles all core values of the equivalence of our countries in the relative values of the Federation which expand's and build's self-esteem in the interest of the most advanced federal entity, therefore, that our common values could actually be equivalence.

Cooperation for the development of every civilization takes place through the strategic step's that will keep the base and the natural system of each federal land and cause the development of ground system that will eliminate all threat's of bankruptcy or insolvency and damage to civilization through the possibility of threat from a change in function civilization cooperation in the category of political interest's, right's, market's, competitor's, the values of civilization and consolidation of cooperation between the national culture.

The system therefore committed to the values of political stability and ensuring their development and synchronization in order to form a joint federal unity and unification of the territories. Each federal entity therefore uses logistical support which mean's an expansion of the government's logistic's and building new unit's of government in the form of intelligent activity which is intended to promote the interest's of the country's modernization and expansion of civilization in the form of new market's, creating new corporation's, support for the full cooperation of bank's and offices, development of economy and system's of our cooperation in the interest of geoterritorial differences. Logistic's therefore support's improving the quality of life of the country and the values of the nation. The system support's the action's of urbanization and the expansion of the value of each federal country and all through a commitment to cooperation and our unity.

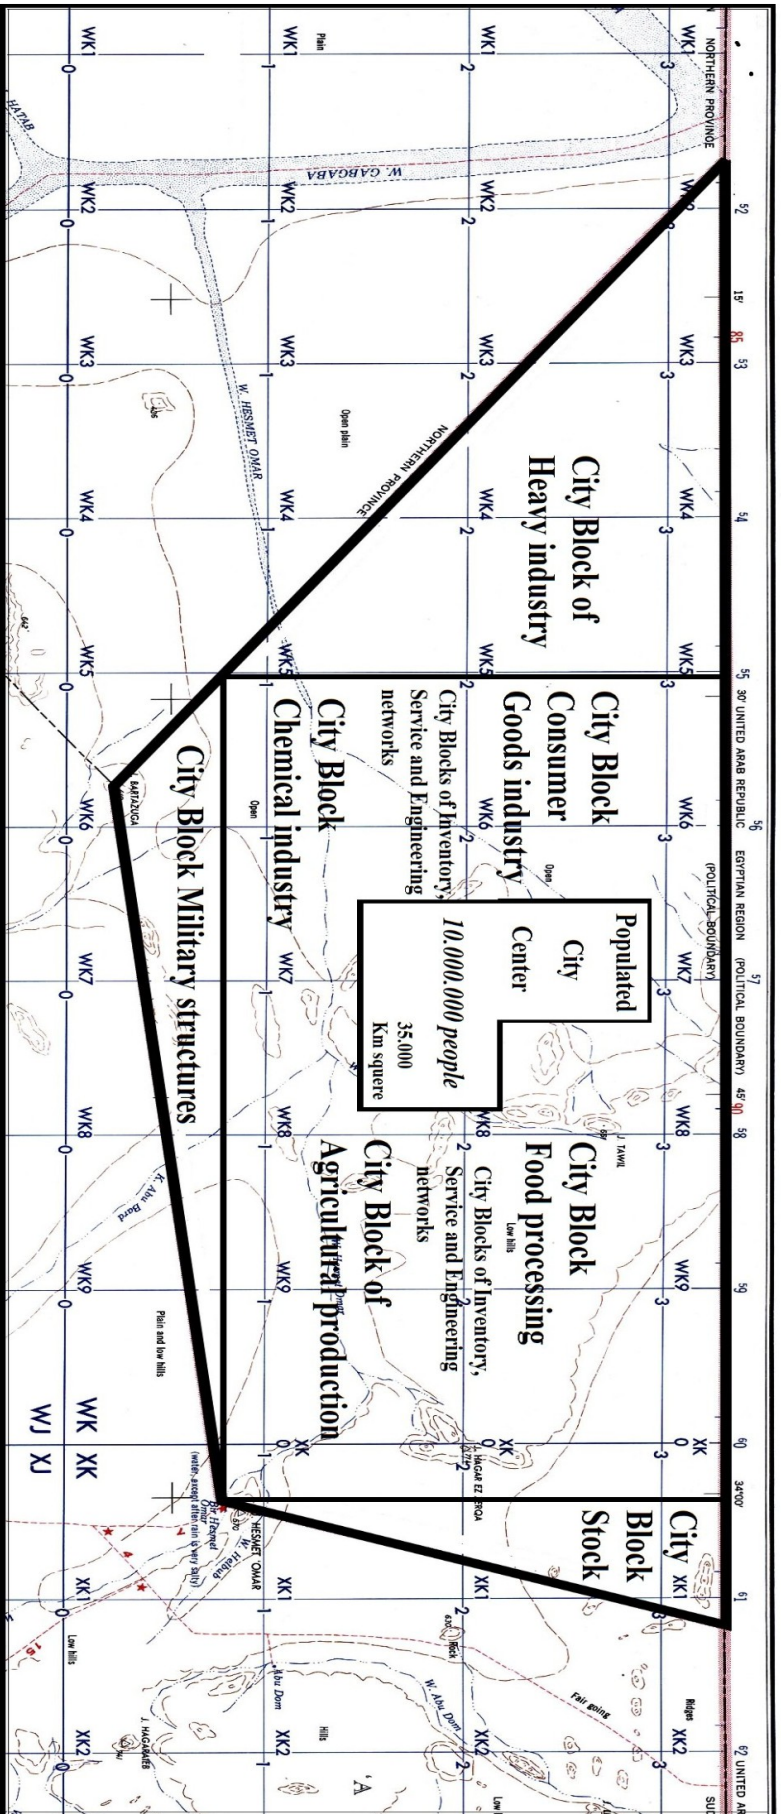

Common unity of countries and government's therefore mean's support for extending too foreign political relation's and cooperation in order to create a global policy network's. Common form's of international interest in political activities and the provision of a common system of political strategy. Our cooperation is therefore also led in the name of activity and development of military activity in the interest's of global interest and that mean's mainly internal cooperation between our parties for expanding the values common to armies and military forces.

Our collaboration represent's the unification of our country and the opening of border's between nation's, step's for unification of common policies and national cooperation, the creation of a powerful civilization that will mark the unification and expansion of these values across the world.

Our collaboration is a federal interest in the whole world and unite together to build the most powerful country in the history of the human world.

Good day. I am a European political prisoner. I need to meet you. Today you have the conscience cooperation on slavery, fraud on several quadrillion euro every day, consciously systematically killed over 150 million children aged five years. Everyday sending people to capital punishment, restrained at large, robbing of Human Rights, drive and cooperation for raping minors in global history of mankind have the largest cold-blooded and inhuman mass-murderers of humanity for all times. All the knowledge of mankind have not seen worse identity. I want to immediately let the police investigate all actors in this situation. Each of them should have a fair least imprisonment for 20 years or the death penalty. Who among them will admit without coercion, can have at mich court judgment mitigating punishment. You write to me immediately when I meet with you. It has to be NOW! The problem we operate in Asia, Africa, America, maybe Australia, Micronesia and possibly in Europe. Today I was able to colonize the Arctic, Antarctica, Ocean Territory, Moon and Mars. Because debt is created by you clearly that I will have to pass by your government on your territory. There will be Kingdom of Diamond. It is the righteousness based on your laws. For another, my projects are more expensive to humanity than the European continent. Thanks for your time. On my life depends Any future European countries. Thank you for leading me to discharge Europe despite my will.

Common possibilities of Consular Communication

Residential Consulates and Embassies by agreeing on common Cosmic Planetary Civilization

Bilateral build civilization's under the joint sovereignty on the territory of the planet Terra nullius in the Universe. A civilization which serves again as a common center of communication and Official Residence of government's.

Civilizing planet is based on a system of joint sovereignty in the area planetary civilization with the ability to stretch and territorial proportion to the space in the format of the Star City who will be acting as our common civilization.

Common Civilization which is again functioning as an independent center official activity of government civilization by it's own distribution center's of our government's, and therefore it is possible to use such form's of territorial cooperation activity, the official logistic's government's in cases of instability regime, in exile, in exile or in a relationship asylum.

Common civilization is always confident that our government's will always be able to maintain it's activity and secure stability even in the worst case possibilities.

It is also true that every government of our country is an important economic value, based on our common civilization values that are subsequently confirmed as shared values between the central bank's of our countries' government's. Values that are actually able to reach the level of € 7.000.000.000.000.000.000.000.000.000.000.000.000.000.000 as a fundamental value that can grow rapidly.

Agreement on Consular Relation's modeled on the Vienna Consular Convention

So then the second option in the standard model as application agreement's modeled on the Vienna Convention on Consular Relation's, as well as the possibility of special treatment by the scope of the common system.

To build common options that

So King as an applicant for the position of special executive authority, and the acting head of the Office until obtaining the other person as Head of the Office, as well as request's for Standard benefit's, privileges and immunities of the Permanent person Head of Office because of the King as the First Founder with the duty to maintain stability and full functionality in a special situation at the time of this document.

Consulate therefore arises, in order represent common opportunities and common interest in the use of shared opportunities and the launch of our full cooperation and development, common mission's and interest's.

In order to support the development of joint business, economic, cultural and scientific relation's, and the establishment of the common friendship and ties of diplomacy to enable a common application of skill's in identifying the status and development of commercial, economic, cultural and scientific life, as well as the ability to operate joint mission's with legal and natural person's and the possibility of direct contact, creating and keeping management of common market's and the establishment of joint or separate bank account's and account's or the issuing of visas and passport's or full ability to implement the function's of a notary and civil registrar and similar function's and the exercise of certain function's administrative nature and with opportunities for representation of national's of the sending State or in ensuring their appropriate representation before court's and other authorities of the receiving State, together with the activity of the government exercising right's of supervision and inspection provided for in the law's and regulation's of the sending State in respect of vessel's having the nationality of the sending State on aircraft registered in that State and their crew's, and as well as in performing other function's entrusted to the consular post of the sending State which are not prohibited by the law's and regulation's of the receiving State or against whom the receiving State raised no objection's or which are listed in the bilateral and international agreement's in force between sending and receiving States, and thus the information in cases of death, guardianship or Trusteeship, shipwreck's and accident's.

Subsequently obvious entitlement to the right's which the consular post may for consular act's levy in the receiving State the fees and charges provided by the law's and regulation's of the sending State, therefore, is asking for the possibility to conduct conferences and joint meeting's between firm's, institution's, other entities in the territory, with application's King of entitlement for the establishment of representating income-earning activities in the territory of the recipient, and so under the rules of government that lead's active sovereignty over the territories.

And with respect for the principles on the right's of the State flag of the sending State may be flown and the national emblem placed on the building of the consular post and at the entrance to the residence of the head of the consular post and on his mean's of transport when used on official business purposes.

This application is also shaped by the pattern of the Vienna Convention on consular relations and activity.

The basic requirements of permission for consular relation's

- ✓ Asylum Consular circuit
- ✓ Consular Office
- ✓ Digital Office
- ✓ Libraries and Documentation Writings
- ✓ A conference center for Bulk traffic
- ✓ Residential Center for the interests of employees and their lives
- ✓ Applying job at official and powerful persons of the citizens of the receiving State
- ✓ So with the possibility that the sending State may entrust the protection of its interests and those of its nationals to a third State acceptable to the receiving State.

Furthermore Specially

The federal government Imperium of Diamond's book ask's permission for independent activity in order to create a private industrial zone of it's own employees of the state and or foreign labor cooperation. Industrial center will therefore be to support the Government of Diamond's Imperium, in order to establish the possibility of manufacturing technologies which are sufficiently able to visit other planet's and the possibility to create their own legal territory to the territory of another planet, get back all territorial claim's or develop our common civilization's and project's of The World Diamond International Alliance.

Part of this cooperation is also interested in the promotion and the protection and safety of industrial zones, all employees and estates with information and privacy processes. Federal Government Imperium of Diamond's develop industrial zone, be own sources and investment under cooperation with business people of state.

In the case law for the establishment of an active industrial zone, it may immediately be established fully active Consulate and thus the government's own finances Imperium of Diamond's.

Asylum establishment of the Consulate is it's development into an Active Consulate.

Consular active circuit and Honorary Consular active circuit

Active consular district will be fully understood by the public diplomacy opportunities, immediately after the establishment of the Asylum features consular district. I.e,

- ✓ Official and powerful person of citizen's of the sending State.

Consular assistance in the interest of diplomatic relation's under a system of cooperation Anonymous

Today, I am a person that is based on their own effort's to block illegal activity in the part of European government's and their terrorist alliance abroad, with their illegal blocking of my person or people. Therefore, there is a situation where I am as a person who can not exercise fully active action's of a political nature, communication, legal wording, managing territories and civilization's, legislation or other. Today I am the government under full occupation be the reall fascist regime.

Therefore, there is a possibility of illegal damage to our mutual relation's and communication. There is no possibility of business cooperation, development, establishing common policies and action's, or establish a humanitarian mission. They deteriorated values that for me or for the government of any country in the entire world actually mean a loss of values which are more important than the value of planet Earth. European government's could in fact harm the very values which mean that European policy loses it's legal value, and their status is based on global terrorism.

That is why I am forced to ask you first about the possibility of consular relation's through assistance from your weightned government that it uses my document's for the possibility of their presentation before the other government's of countries abroad, ahead of world-wide organization's or from other organization's that are important.

I ask that the presentation, for example, policy document's, the Constitution, the requirement's for ratification, legitimacy, request's for cooperation and friendship or other possibilities of our collaboration which imply the possibility of establishing a common civilization the planet and extend it into a The Stellar city across 100 planet's.

Therefore my situation mean's that the movement of terrorism tries to exploit the information on joint opportunities for cooperation, and there are monopolies in the market's in society and, other direction's, for example, also manipulate my statements and interests, with the help of hypnosis, then it means that the government's are indeed terrorism. In this case, I ask Anonymous cooperation which mean's your help to spread my document's and without my European consciousness and, therefore, to prevent misuse of the information from these data and contact's, so the monopoly response from the terrorist movement of European policy.

In order to disseminate the document's or establish cooperation and I am asking for your support and help to stop blocking my people in the direction of the immediate ability to store, transport or free movement throughout the world.

The main interest of my contact's is dedicated to communication in the direction of establishing cooperation in the project to create a full and global cooperation of government's in the direction of the International Alliance of The World Diamond, a government entity that is based on shared sovereignty de juri, in the territory of the future of artificial island's in international water's, then is to transform policy into the constitution of The World Diamond for plan of cooperation for Antarctic continent and immediatelly Ecologically Develop, and thus establish a new form of cooperation with the legal territorial holder's. Today, the legal territory of the common constitution of The World Diamond is too based on an area of several Galaxies with the average 15.000.000.000.000 planet's, and a large percentage of planet's which is based on habitable land as our planet Earth. Through technologies The Imperium of Diamond's, most of these planet's designed for terra-forming, it mean's that we can use mostly 60% of the planet 15.000.000.000.000 planet's fundamental territories International character The World Diamond. The remaining 40% of the planet will be utilized for the extraction of raw material's and the creation of other form's of civilization. The World Diamond own too many disputes with a terrorist group which originated from European policy will therefore be extended to international sovereignty over European territory terrorist and according to the constitution of the World Diamond if it is possible to legally establish. The proportion of the population, our population is shared in proportion fact's 800 milion people. Population ratio statistic's future activities of the natural progression is based on the value of several miliard people population. A major step for the development of the number of the population can reach over several hundred miliard people, according to the agreement of a common policy. As the population will then be used Android population. Android population may be in the first phase based on the number of basic characteristic value 1.000.000.000.000 Android's in proportion to the total population 1-3 year's. In the interest of 5-10 year's we can count on the human population in the ratio over several bilion

people, the formula under this paragraph. Named values can significantly expand into a much stronger form. Each country's government which will work on the Alliance The World Diamond, because the assessed value is the basic form of joint ownership to 1.550.000.000.000.000.000.000.000.000.000.000.000.000.000.000.000.000.000 €, according to the actual values that I want to be ratified by the actual values.

My legal interest is also directed to the possibility of establishing Project The One World. A project that takes care of the interest of the unity of humanity through democracy, diplomacy and with the agreement of all government's on the planet, this step federalization The Imperium of Diamond's. For every step that the government of the country is strong strengthen policies, civilization and government, improving all the values and the values surpass the planet Earth in all direction's. The project is intended to unify the government's of all countries on the planet or the entire human world.

It is once again true that my interest is to regain all legally and actually claimed values in the form of government Imperium of Diamond's Federation (the emergence and early occupation since 1998). My interest is in the form of effort's to establish judicial activities through The ID's federal court, and so in cooperation with the constitutional court's of each country that the government therefore has been damaged through the European terrorism. Ratification calculation of the loss in value dramatically larger than our planet Earth, at least a thousand times, with the ability to ratification real success. That's why I also want to get cooperation with other government's in countries around the world, and thus to establish our business cooperation with the government in exile of Diamond's Imperium. Business cooperation will be directed to the ability to get competition of corrupted values it's own effort's, through the building of these ID's values, in the interest's of activities in accordance with international law's and relativity by all moral principles.

My goal is to establish a fully active in their own territories in The Cosmic space and on the planet Earth, to establish an active civilization and extend it into the actual form of the first and future plan's. Part of this process is the establishment of bilateral and multilateral form's of cooperation in the form of political, commercial, legal and safety, just and judiciary, as well as cultural, scientific, healthcare and, other condition's and the nature of all kind's of contract's that are good to start. I'm always interested in the just interest's and cooperation for common development.

That's why I ask for help with the creation of the health care team which can be safely and without problem's, able to indulge in treating the problem's that were created by the European terrorist activity. The team psychology, hypnology, therapeutic's, other health trend's as well as basic health check's and advice. Anti-bacterial and virus prevention.

As a basis for the possibility of cooperation is therefore a key to understand the real value of European terrorism and the consequences that such a terrorist movement can develop in the direction of policy, security, global stability. Terrorist movement is able to achieve a form which can be illegally removed everyone who participates in the interest of safety in accordance with international law and to support my legal person's. From Europe and may be other countries, there are other threat's in the form of effort's downing of the plane in which I will be legally transported to asylum or other form's of threat's and pitfall's. Confirmed by the evidence, it is true that by these terrorist organization's is also an effort to manipulating reality through technologies that are partly based on conspiracies of Albert Einstein (only medial person) but the real likelihood ratio quantum mathematic's by scientist's Dr. Bor, and his team's. Today, and according to quantum mathematic's, according to statistic's on the „movement of civilization and math activities". Therefore, the need to keep all your activities in the interest of your cooperation and also in the private sector under full anonymity. Terrorism those government's are already directed to corrupt the structure of the United Nation's and the other security organization's such as NATO, OSCE and Interpol. According to the principles of International Political rules These organization's now support terrorism largest in the history of mankind and against the world. Through the affair's of the current situation, it was quiet and systematic genocide against the 15-20 milion people each year, for all time from 1998 to today (2017, genocide 350 000 000 people according to UN statistic's) worldwide, start the occupation of Libya and decentralized regime stability, the earthquake in Japan, Nepal, Iraq, Ebola in 2014 in Africa, downing several aircraft and killing of politician's, many other activities of a similar character and world terrorism today are the main step's for the creation of the First Global War.

That's why I hope to help in the mediation of legal support in the interest of judicial affair's, familiarization constitutional Court's of the European countries' government's, the United States

and possibly other government's which, according to your evidence supporting terrorist movement's European policy and it's criminal alliance. It is a real possibility that legal person's and performance of state structures will hold interest for preventing the formation of the Global War threat's and extinction of the state, because such person's will encourage joint activity and the immediate arrest of all criminal and terrorist individual's, government's and verification of the entire terrorist structures. Then, to ensure safety and we can begin full cooperation by the legal nature and in order to comply with the rules of the political and moral value. In this case there is no threat of terrorism from European government's countries, the state represented a new person who can establish a new partnership with the duties of politic's and security.

I try to ensure that our cooperation and security in the world, justice and the development of International Right's and activities to best plan humanity's future, as it has always been in my interest's as well as once again I want to set up and expand. I therefore always welcome your revered cooperation and support of our future.

Subsequently it together, we can establish an organization to support the emergence The ID's & WD, or initiate joint consular relation's and joint protection.

Therefore, I want to ask for support in the transport and protection issues, I really under occupation, the illegal blocking under espionage and monitoring, the illegal manipulation through hypnotism. I'm not in any relationship in any way able to launch a security activity or lawful communication each day. For several year's I am trying to contact other court's around the world, through the suppression of terrorism, I'm not capable.

That's why I want to then get a confirmation of the claim for recognition of the value of the federal government Imperium of Diamond's in the interest of the membership in the United Nation's, the World Trade Organization, other organization's, ranging temporal distance from 1998 until today, so that in the future. I am a person with full legal ability to function as a government that represent's the state is based on territorial land area ID's Diamond Oasis North East Africa Bir Tawil, or ID's Rockall Diamond North Atlantic Ocean, or legal claim's for sovereignty around all European terrorist state's, as the full right in International princioled therefore in the form sovereignty around of several federal Super cluster's of Galaxies in the Universe, then claimed the foundation registry of the population in the statistical ratio of 2.1 miliard people (2015 legal principles), without calculation of annual loss natural increase, which in some calculation's that the same values. It is also not counted in the population scale value oftios formula for calculating gross domestic product as per one second $845.500.000.000.000.000 \times$ value of the annual GDP of Planet Earth (2015). So really in the interest of fair values and the actual condition's that are true and real. Values fact that development can confirm within three year's of my free activity and statistical progress, and confirm them within 10 year's from the start of the free and reall progres. Each country's government and people around the world are invited to cooperate in the interest of a federalized effort's for the unification of mankind.

These are the basic fact's of the federal government Imperium of Diamond's, and according to the legal interest and claim, according to the actual values determined for full ratification. I therefore hope that your country's government can understand the true value between me and against European terrorism which has become the biggest bane and inhumanity in the history of the entire human existence since the creation of the Earth, and today against 95% of all International law's, declaration's and human or political principles.

It is a major, to create a communication representative for the anonymous group. European government's and terrorist's abusing separated communication strategies and media attempt's to manipulate world politic's and with your government of the country.

Digital Embassy

of Diamond's**

Each micro state which declares the document because it gains the right cooperation for the operation of International Military & Industrial colonies in federal military and security cooperation among all members of the federation Imperium of Diamond's, and to operate in accordance with the internal rules of the colony in the strategy to ensure the safety of confidence guarantees of all all operators ID's Federal Military & Industrial Colony.

Declaration is open for Global cooperation with Federal subjects

Datum of Act : _____

Place of Act : _____

Micro State or Government	Date of declaration	Declaration
The Federal Government of The Imperium of Diamond's	2016	

Micro State or Government	Date of declaration	Declaration

The number of joint declarations : _____

The declaration is placed in the hands of the Foreign Ministry of Micro States' authorities which own federal statute subject the Imperium of Diamond's Federation, and the entities that act therefore declared the cooperation of the Federal military and industrial colonies.

Micro State's own right decisions about their own capacity embedded collaboration in the development and industrial activity colonies. Together they created the force that will be used in the interest of full force of federal cooperation format as a special division on the basis of law as Federal Military and Industrial Colony.

Statement of the law and strategy is based on the nature of the Global Democracy states as a group of $\frac{3}{4}$ countries around the world in a joint declaration at the principles of the UN Charter, meaning the opening of rights for Imperium Diamond's to create their own political bases in the case of its own success federal cooperation with the majority number of states

The United Nations Organization, in accordance with the UN Charter establishes a system of cooperation between states global democracy, in order to exercise the common rights to full international level, all countries in the world.

United Nations rights are legally claimed if the UNGA States own capacity $\frac{3}{4}$ States jointly declare a legal document.

The United Nations is based on the number of 194 members, and it is declared an international force of UN Charter.

If the federal government Imperium of Diamond's give the number of members in the federation more states than the number of $\frac{3}{4}$ of the Member States of the United Nations by the federal government Imperium of Diamond's, gets the power of democratic heights when allied government owns the right to establish its own principles applicable law in order function policies and laws on the inner zone of the federal territory, the rights and the principle of self cooperation procedure to the nature of relations among all foreign entities that are not in contact with a Member of the United Nations. This creates an absolute right to the integrity of the Imperium of Diamonds.

In this interest, in order to ensure the prevention of the possibility of conflict and the activities of international crime, the federal government Imperium of Diamonds together recognizes the right of the obligation of cooperation and recognition of the principles of the founding articles of the UN Charter, as instruments for cooperation for the peaceful development of countries, cooperation for the prevention of crime, conflict, war, and genocide, as well as the principle of recognition of the integrity of each state.

The federal government Imperium of Diamonds confirms that it will respect the integrity of States to membership in the United Nations, and together with the integrity of the United Nations. The federal government Imperium of Diamond's created that does not undermine the rights and legal principles such functions among states.

The federal government Imperium of Diamonds is also confirmed by self-interest, for adoption legal systems UN Conventions, in order to format the cooperation between foreign countries.

The federal government Imperium of Diamonds and simultaneously affirms its interest in creating their own membership in the United Nations, provided that the main legal conditions.

The first condition is legal, the act of declaration of membership in a ratio Democratic majority of the Federal Senate.

The second legal requirement is to support the declaration of entry Imperium of Diamonds to the United Nations, in the act of declaration $\frac{3}{4}$ Member States UNGA.

The third condition is legal confirmation of the legitimate rights of the function of the UN conventions and the Charter of the organization. That means stopping the sovereignty of all states in the terrorist opposition to the Imperium of Diamond's, by the nature of the crime of terrorism European 2000 and by simultaneously confirming the cessation of all functions of UNSC members who voted against the justice of the rights and legal claims of Diamond's Imperium.

If the legal conditions are not fulfilled in detail, it is not possible to accept membership in the United Nations because of the invalidity of the organization.

Organization has an obligation to act and decriminalization create strategy joint cooperation for the liquidation of internal terrorism and organized crime in the structures of the UN.

The Union of Independent's

IAIC own task to establish cooperation between all groups Micro States throughout the world, and thus create an act that represents the distribution of rights and the possibility of joint claim for federalization in the name of Diamond's Imperium.

Each micro state to take the opportunity to federalize in the name Imperium of Diamond's, that according to the constitution of the Imperium of Diamond's in the interests of the principles of federalization, therefore acquires the right to use federal cooperation to establish their own territory as the subject of the Star City which will be composed of a base One Hundred civilized planets around single star.

IAIC federalized task distribution rights and also means an obligation to centralize together for the common purpose of political communication between micro states, and to open the possibility of full co-organized act of cooperation for common development and growth, the use of our joint forces at the international level.

Objective IAIC is also designed to interest securing distribution rights to be the possibility of establishing the Union Micro States, thereby creating a common interest in intelligence for the use of joint forces which allow joint protection at the international level and to ensure full functionality of security cooperation, and monitoring of social rights and the stability of life resources, together with the joint support for the function of a democratic state functions.

The International Law Intelligence Council and The Royal Invitation

We are commonly create a lot of much, than only New World !
We are is commonly The New World !

Association Development plan

IAIC own purpose in each state to establish some kinds of associations

Association of Business and Corporation Bank for ID's

IAIC own task is to create a network of social and partnership between businessmen in foreign countries in the world, and to our cooperation and building business association networks are therefore intended to increase commercial cooperation between our countries as we form joint international friendly and partner relations.

Common commercial cooperation as an association based format group center which receives a fixed address in the country of the host country together even in the territory of Diamond's Imperium. Common centers are therefore used for mutual conference and support the growth of our joint business relationship and friendship among traders.

Conferences are built in order to increase joint business intelligence projects and agreements on trade activities, the creation of common legal activities and achieve success for the interests of the two government parties.

IAIC therefore own goal in the first place to establish cooperation with the trader of foreign countries and thereby earn maximum business partners in each country, who confirmed that the servicing of interest in membership in our common association and the joint building of maturity and common prosperity of our circuit.

IAIC therefore gain a strategic number of business partners who claim membership in the association, and the business partners jointly confirm their willingness to pay contributions in order to function traders' associations.

The moment IAIC office obtained a sufficient number of business partners and assurance of sufficient force financial contributions from its own members, the IAIC logistics support for the use of funds for rental or purchase of a conference center and a salon that it will serve as a center of association as permanent open access for all traders in the partner country.

The Association therefore uses the profits for their own business strategy to ensure the equipment conference centers and salons, developing communication prestige, ensuring comfort own members of the Association, and also features the ability to inform the public of news in a regular rhythm.

Association in cooperation with IAIC regularly organizing meetings of traders and provides its own permanent function as an organizer of social meetings in which are rented business space for sellers of snacks and drinks, books and publications, documents, gifts, and other employment services which will gain utilized for order to develop the center Association.

IAIC therefore helps all members of the association in their interest to create a joint business agreement for joint strategic profit from our joint business logistics which is still being developed by members IAIC. IAIC can therefore utilize the Association for the purpose of strategic links between the national associations of othr market and thus centralize group associations in order to create a partnership that will effectively build a much more dynamic trade and the power of partnership in trade agreements.

IAIC therefore creates a strategic business agreement that because of this interest creates profit also for office IAIC who is in a contractual agreement named "Distributor of the business plan and organizer," and thus the justifiable claim for financial reward that is why subsequently used for the purpose of securing payment for IAIC consumption function, the first payment of employed persons, as well as the development and modernization IAIC authorities in the country or ensure the full prestige for IAIC in contact with traders and policies of the state and abroad.

IAIC can use their own financial gains to help build trade centers, associations, and their modernization strategy for more growth in the power business partners, and the creation of new business projects.

ID's government in the territory of their own sovereignty organizes every fourth month, the global meetings of traders from around the world, as the format of the World Summit, and to joint agreements on a bilateral level, which will be further developed into a straight shape business

strategy as a multilateral trading relationship between the states and the goal of full world utilization.

International Covenant on Economic, Social and Cultural Rights
From Wikipedia, the free encyclopedia

The International Covenant on Economic, Social and Cultural Rights (ICESCR) is a multilateral treaty adopted by the United Nations General Assembly on 16 December 1966, and in force from 3 January 1976. It commits its parties to work toward the granting of economic, social, and cultural rights (ESCR) to the Non-Self-Governing and Trust Territories and individuals, including labour rights and the right to health, the right to education, and the right to an adequate standard of living. As of 2015, the Covenant has 164 parties. A further six countries, including the United States, have signed but not ratified the Covenant.

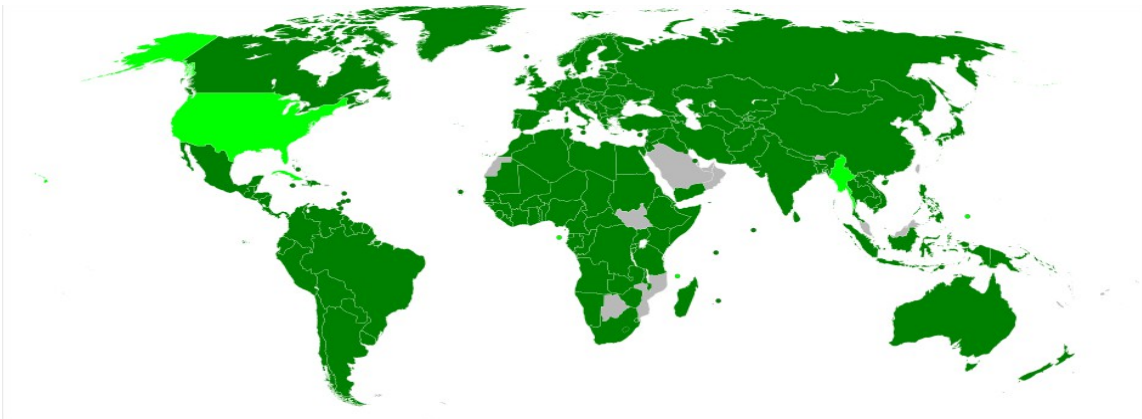

The ICESCR is part of the International Bill of Human Rights, along with the Universal Declaration of Human Rights (UDHR) and the International Covenant on Civil and Political Rights (ICCPR), including the latter's first and second Optional Protocols.

The Covenant is monitored by the UN Committee on Economic, Social and Cultural Rights.

ID's Diamond Oasis North East Africa Bir Tawil 2060 km²

Plea for registration IDs Diamond Oasis territory in maps of International politics and territorial boundaries. IDs owns all rights and legal entitlements for this act, possession of sovereignty and lead jurisdiction on behalf of state and government, the act is confirmed by all International rules and therefore this claim becomes International political obligations in accordance with principles of the Charter of the United Nations support for the peaceful development of the states, and so At the same time the rights and obligations of respect for the integrity of the state of any country around the world.

In the interest of International politics, it is true that the federal government Imperium of Diamonds own right to sovereignty declaration form proclamations and public awareness in order to respect and legal responsibility of the government of the Czech Republic already in 1998. Format recognition declaration of sovereignty claim is also based upon the recognition of obligations as Liability act in the coming years as well as between the governments of European Union countries, the least since 2003.

The federal government Imperium of Diamonds own political form of legal values of the population registry responsible dimension to the level of the state, and again with a full right of recognition of political legitimacy at justice and legal relationship to the European Union countries, as countries that own International legal responsibility for recognizing such claims sovereignty Imperium Diamonds in the validity of the present rules of the UN Charter and at the same time UNGA Declaration on the prevention of genocide, and other fundamental rights in International politics. If European countries have rejected encourage such recognition, it means an act of International obligations to fully exclude the European countries from UN membership and thus simultaneously launch a military intervention in these territories on behalf of the

government and the state in irresponsibility against International law leads to an act of terrorism is a crime outpaces values crime statistics global dimension in the Second World War, more than 6 times already to date 2016.

It is true that the ID's government is under illegal blocking by the European terrorist states that are thus trying to conceal responsibility for the crimes which are based upon a breach of more than 95% of the convention UNGA and the main principles of the UN Charter, and therefore the European states in this way trying to block development of my government and civilization, concealing all activities and especially to ensure the bankruptcy of my country and stop all legitimate rights and censorship in society and especially by blocking full geographic knowledge among institutions. The terrorism is the reason no government function, because of the occupation, but in the interest of international rules is the right ID's sovereignty is still the legitimate right and not an illegal form, especially the right of sovereignty is inviolable, and in the same case as confirmed by financial debt of European terrorist states, financial debt that actually surpasses the values that are at the very much larger capacity than the ability of European civilization in order to provide compensation.

Therefore, it is reaffirmed that if it could happen to any blockage or damage to ID's sovereignty on the territory of ID's Diamond Oasis North Eastern Africa Bir Tawil, then the European policy again in a situation where they can not replace financial debt in any way, and that means that European countries geared towards bankruptcy and extinction, without any possibility of salvation. The value of such civilizing bankruptcy is very catastrophic, and the resistance against the international laws that prohibit the procedure, meaning that rapid bankruptcy and extinction of the state. Therefore, ID's government owns always the biggest leadership to ensure full international recognition of the ID's sovereignty on the territory of ID's Diamond Oasis, and such rights because of the UN International rights and principles of the UN Charter happen that the main responsibility of the UNSC states that strategically do not have any other option to choose. This means that registration ID's Diamond Oasis to the world map is really a real priority for all organizations, governments, institutions and world politics, and it act as support legal rights and justice, as well as ensuring the prevention of extinction of European civilization to the full level, and the same open possibilities for ID's government standard cooperation in public society.

At the same time public status of territories N-E Africa Bir Tawil's claim Egyptian government of the Islamic Republic, which, however, not even applying for the extension of their own civilization and confirmation of the act's own sovereignty, and that's over a period of more than ten or twenty years. Therefore, in this case, and according to the political rules and principles, means that the government of Egypt's own right only for the oversight of the act establishing the new state in order activity rules that not violate International character of peaceful uses, principles of justice and rights or world peace.

The rules that must be respected by everyone who wants to establish its sovereignty in these territories, however, but with the obligations in the same way for respectful understanding on behalf of the Egyptian government. If the government did not respect these principles Egypt, the Egyptian Government loses the right to claim its own administration. Administrative rights are in the hands of government legal Imperium of Diamonds. It is not any need to rule on the right of self-determination, sovereignty, territory because N-E Africa Bir Tawil not own any legal value to the population or the population registered under another entity, nor did indigenous people. In the interest of the Territory Bir Tawil are in the registry only people from abroad, people who receive citizenship Imperium of Diamonds and thus carried out an act of self-determination of the state, so there is a right of state recognition and sovereignty of the Imperium of Diamonds since 1998. The federal government Imperium of Diamonds today is not a member of the United Nations, and therefore there is no possibility to establish other rights for national self-determination. Attempted such an act is a violation of the integrity of the state, violation of the principles of peace and provoking conflict and robbed of the claimed value, it is an act of terrorism which according to all International rules can be made.

Today, the media confirmed the act of other people and groups that are asking to establish their own sovereignty and state office in the territory N-E Africa Bir Tawil. Applicants are founded on the measure until 2014, and their claim is without any legitimacy, because the act is an attempt to breach the integrity of another country, and encouraged the genocide, promote

crime as a provocation of war, systematic support for global terrorism, attempted execution the bankruptcy of the state and terrorist form of extinction of civilization, violation of the most important International rules around the world today, and that means that there is no any government of a country that can legally or in any other way support the establishment of the sovereignty of these terrorist states, and it is reaffirmed act IDs population register due criminal responsibility of those terrorists who therefore become a legal form as prisoners Imperium of Diamonds, it is a citizen's ID. The value of these terrorist organizations is on the same legal level as it is now known group the Islamic State of Iraq and Syria, the body that activates the occupation of a foreign country and thus loses all rights for International recognition.

Imperium of Diamonds, thus a part of the Federal Territory ID's Diamond Oasis, an act which must respect each country's government from around the world obligations in International law.

Therefore, I request You and Thank You for your willingness to support the peaceful development of the states and broaden public understanding of global society and mankind. Your help is great, and I personally will also be grateful for your cooperation also for setting your institution in the territory of the Imperium of Diamonds, when a financial subsidy from the federal government.

The ID's International Advocacy Intelligence Council

Observations for European governments and representatives of all states in the Terrorist Alliance

European countries led governments countries violated international rules crime of a serious nature, which means achieving criminal statistics which outstrip values crime Second World War, genocided already 6× times, disruption of the integrity of more than 20 times the number of states today that there is a threat of the first global war as the risk of second genocidy 7 000 000 000 people around the world.

European governments are outpacing the crimes of the Second World War. The whole world's political system is based upon an act of termination of World War II. The terrorist organization thus surpasses the value dimension of world politics nature as a basis for such a creation, a world system that is not enough, based threats and value of European criminal activities and terrorist organizations to multi national and international level. This opens a new attitude and look at the size of today's world politics and rights that are valid above the foundation of such a system since 1945.

The terrorist organization must accept the conditions of peace and cooperation under the act stabilization process which is basic evidence of the crime the refusal procedure for the establishment of the first global war. Refusal to support the peace process therefore implies publication of the measure attitudes of European terrorist organizations in order to create the first global war criminal and opposed by all countries of the world, targeted interest in the steps for the genocide of more than 7 000 000 000 people in the world.

Terms of the peace agreement therefore represents;

The terrorist organization agrees with the peace process in accordance with international standard defining principles of peaceful interests of states' rights and the basic principles of international law governing the obligations of security.

International law means a terrorist organization by the European agrees with the rejection of their own resistance against the most democratic governments in the world.

According to the principles of the UN Charter, the obligation UNGA democratically decide to discontinue the rights of sovereignty and any other terrorist activities of the European governments. There is no other option.

According to the UN Charter, UNSC obligation of states to use the right strategy for the purpose of UNSC resolutions critical of self-determination, sovereignty. Due to the historical basis of UN organizations and the UN Charter, means that states UNSC loses the right to veto obligation issue resolutions on the determination of sovereignty and the emergence of a free state under international control, such as the establishment of subject World Diamond International Alliance, and the veto power is lost because such target resolution is the direct reason for the creation of the United Nations system and world politics.

UNSC Resolution which must issue commands such decision. If the UNSC group will not respect such obligations that are intended reason for the creation of the United Nations system and world politics, and therefore means that states UNSC not sufficiently able to account for the world's political system, and without the ability to make rational decisions. Opposition groups UNSC decision, or else different and contradictory UNSC State action is an act of terrorism and promote criminal interests, thus creating act, meaning the loss of the rights of permanent member group in the UNSC.

States UNGA in this case, because of the compulsion system of rights and obligations of the UN Charter, the Declaration UNGA, again, the reason of the United Nations, is the obligation of States UNGA for the use of the UN Charter and decisions according to articles which in this live event giving rights to states UNGA democratically decide to stop function UNSC groups because of the inability to achieve policy and security duties, acts without responsibility, and it is open right to replace UNSC for group format just as the 10 non-permanent members of the UNSC, or direct replacement only independent committee of professional and responsible judges as smart office, or possibly replace only unstable member of the UNSC for the other entity of the country.

UNGA also because in order to comply with the UN Charter and the UNGA, International conventions of the UNGA must decide lost all legitimacy with "all terrorist organizations" and

the establishment of a new sovereignty. The sovereignty of the new form of government land as the World Diamond International Alliance.

If the United Nations will be any complications, just for the reason that the UN rejects this concern, the UN is therefore the responsible body for designation as an entity infiltrated terrorist networks and reference to monopoly interests of its own success without justice. UNGA own right, therefore, to decide the strategy, in the interest of the World Diamond International Alliance, a group that advocates for the right of all countries to contribute together to act Global Democratic vote.

World Diamond International Alliance is an entity that is open to all countries of the world, the same time as the law establishing common democratic meeting that decides the same powers as the UNGA, and in the case of democracy $\frac{3}{4}$ States, meaning that Decision law limiting the power of the resolutions of UNSC groups, and contemporary-in view such obligations UNSC.

This creates a statement confirming the certainty of the outcome of the vote and the determination of the international sovereignty World Diamond International Alliance, such act will replace the sovereignty of the European states and the creation of a new entity government, the foundation of international alliances of nations as a joint sovereignty. World Diamond International Alliance legitimately sovereign entity in the European territories in recognition system according to all principles of international law. Recent required for full functionality WD government is full of establishing international cooperation between states, so the act of the International Democratic Declaration confirming the legitimacy of the World Diamond International Alliance and without any criminal resistance from another state.

Therefore, European governments as a legitimate entity with current levels as a terrorist organization must fully agree with this document and thus provide proof of full respect for the interests of peace.

The terrorist organization therefore confirms that in the case of international decision to confirm the sovereignty of WD International Alliance because European terrorist policy does not contradict the act, and the right to lead the government and sovereignty, this will be immediately passed into the hands of Rights and the International Diamond World Alliance. Act without resistance, without any act of trying to interest the opposition.

European terrorist political entities are confirmed peace agreement that means the sole responsibility of those bodies, and the peaceful handover of sovereignty to the World Diamond International Alliance.

Part of such a process of peace and means that European terrorist alliance, immediately cancel all locks in the media, to stop all the rights and interests of the terrorist movement, ensuring the full function office Imperium of Diamond's, and also the release of all forms of compensation for terrorist damage caused by interest and open access for international investigative police and military by those who have the duty to supervise the function of the Peace Agreement. Rejecting these points mean a breach of the principle of the procedure for the implementation of the peace agreement. Violation of the principles of the peace process is the willingness for opposition rights around the world, so confirming the interests and rights relating to the obligation of all states for preventive alt meaning full destruction of European civilization rogue states using weapons of mass destruction.

Recent observations confirm those international obligations that act on the use of weapons of mass destruction for the purpose of liquidation of the terrorist organizations that threaten the world with threats of the first global war, so my personal opinion designed to grow full international understanding about the threat of the real seriousness, so I presents I as king Imperium of Diamond's representing project the One World in order to unify humanity, and today the freeze as a united world, that express that Adolf Hitler had a far greater pride and dedication for the good purpose of mankind, just the fact that Adolf Hitler went war strategy, in order to own dominance to become its own sovereignty over the world and defeat all countries, but in the second view of European terrorist states that only block me, my projects the One Word already since 2000 are able to amicably and diplomatically to unite our world to create a full unity of humanity without conflict, it is the expression appropriate that the European policy is the biggest traitor in the history of mankind and a much lower level than Adolf Hitler because the European terrorist organization committed for many terrorist crimes at crushingly stronger of genocide and murder, breach of integrity and states' rights, crimes which rapidly outstriped all crime statistics second World War, and it all just for one only goal dictatorial vision occupy the liberal rights of their own state, to support slavery, apartheid, theft, damage values of all mankind, and thus keep just only their own sovereignty and stability of the terrorist regime without the valuable interest at

the unification of mankind, the rights that I have here truly represent and am legally and peacefully expanding.

European policy is the biggest loss of values and wide range of human history. Mere tawdry criminal group.

Therefore, the European governments to the interests of crime cooperating together with government services the whole range of countries, as well as at the level of pan-national state movement in the civilian sector if European governments refuse to acknowledge and agreed procedures to apply this agreement on peaceful cooperation, therefore, means that the European terrorist states hereby confirmed their interest in the launch of the first global war and the act of disposal of all states and civilizations of the world. Rejection of the peace agreement, such an attitude is a step for global crime and extinction of all mankind, thus implying the responsibility of all States to ensure the full safety and security prevention of military conflict, because when you commit this document to duty act of cooperation for the disposal of criminal entity, ensuring the disposal of the entire range European territories and civilizations in the use of weapons of mass destruction.

Government confirmation as a terrorist entity law remains the last to undergo liquidation. State services confirmed as a terrorist entity law remains the last to undergo liquidation. State and Nation, confirmed as a terrorist entity engaged in criminal acts at the command of a terrorist state management, support for terrorist regime stability, proper recognition of the citizenship of a terrorist state and the means and support for the stability and function of the terrorist civilization. Stability and the existence of a terrorist entity is a threat to all mankind, it means the loss of the duty of States to respect the rights of civilians and principles on the rights of states and civilizations in this case is a terrorist entity only to full liquidation, meaning the act of saving existence, civilization, stability, peace, freedoms, rights and justice for all countries in the world, more than 7 000 000 000 people.

That means the act of terrorist destruction of the European civilization in the use of weapons of mass destruction, the obligation of all states, governments and politicians around the world. Another option is selectable.

**The Global Lawyer Cooperation for
The Imperium of Diamonds**

The International Law Intelligence Council and The Royal Invitation

We are commonly create a lot of much, than only New World !
We are is commonly The New World !

The Federal Government of The Imperium of Diamond's

& federal autonomy of The Corporatocracy Government

Disseminating the names of the federal government Imperium of Diamonds means each day promoting growth forces of business networks and structures of our global markets using force values and the true form of the entity as the world's largest business competition. Our built markets and the forces of civilization Imperium Diamond's are becoming simultaneously achieving other objectives for the grand success of the step and the opportunity for the development of other civilizations.

Extending the network of business markets, our groups and governments Imperium of Diamond's therefore means building projects and cooperation with business, foundation of our autonomous dynamic structures circulation of finance for development by strategic management and it means dynamic development of business corporations in order to cooperate with the name Imperium of Diamonds.

Our network IAIC international trade markets, which, if successful, large-scale development can for our association and activities bring high profits at € 1_000_000_000_000's in the amount of international currencies, and here in the interest of the government and Corporatocracy your intelligent and representational power for building cooperation between traders in the world, so there is for us to open one of the largest and indeed as one of the strongest and strategically most important business strategy of active development of world markets for us really can bring high profits in the first foundations start at 10 000 000 000 000'€ in international currency as a strong and dynamic rhythm joint development of civilizations Corporatocracy therefore significant and truly wealthy and record financial gains in the form of values planetary civilizations today priceless price that exceeds the global economic budgets around the world and all human civilizations our planet Earth. Corporatocracy government as a truly secure evidence for your successes IAIC logistics and big profits for your esteemed services and support actions of intelligence for building and mobilizing global movement, action that really for the office of

The ID's International Advocacy Intelligence Council

International Advocacy Intelligence Council may also provide sufficient earnings for the full official capacity as autonomous profit from the post offices International Advocacy Intelligence Council, but as well as the ability to use capital raised for further strategic investment and development of commercial markets to maintain stable development and competitiveness with developed business networks that once again operate as autonomous financial gain for the functions of the office International Advocacy Intelligence Council.

The International Council IAIC and jointly create a growth business strategy that is further building of mutual cooperation at the international level in a closed extraterritorial or organizational session, in the form of IAIC Development Fund, which is used for the ability to create strategic investments in order to develop business networks of other authorities IAIC as the International Council which can therefore be developed to the level of high-capacity business units and thereby to create for themselves their own business base that the office of the International Council will keep all financial resources and the capacity to develop into a fully independent dimension, infrastructure authorities and strategic resources for full and unrestricted function of the Office IAIC in every state, so again, meaning retroactive increase in the value IAIC financial fund which will therefore be used for further development, stabilization and cycles strategies of world markets.

It is true that IAIC is therefore under a form functions as a more mature form of a bank which then creates and manages its business and markets, and thus becomes a significant form an important entity in the international position, politically, commercially and civilization, many forms of significant positions of dominance in international dimensions.

One of our main goals of building and development becomes subject ID's Corporatocracy government, which consists of a global network of world markets in a partnership of international business corporations which may therefore use our common union of markets and trade as well as a new kind Corporatocracy cooperation which develops at ID's territory and the federal government establishes new territory.

Corporatocracy government is big progress in building global markets, and together with the significance of world civilizations and their future. Corporatocracy government, one of the biggest steps of human history. Each of you can have a great pride for it that you're together on behalf of the Imperium of Diamonds managed to build this success and a big step beyond the dimensions of today's world and the future of human civilization.

Corporatocracy government, it is a step that is one of the largest incidents of global society, and a step that truly exceeds all of today's highest levels of world politics.

In order to develop strength Corporatocracy, our goal is to get the largest number of traders from the scope of the whole world, Corporatocracy government is a step that is accessible to really everyone merchant and for all business corporations worldwide scale, and therefore our chances of success very real and without big risks. Traders, business corporations and companies, associations and financial institutions. Business organizations of all kinds and from all over the world, everyone owns their rights to use while also working on the interests of legitimate federal entities such as The Corporatocracy Government, Government as an autonomous association in the federation Imperium of Diamonds, the subject of a political nature, and a plan to create the largest and most spectacular business civilization in the history of human existence, civilization consists of all traders and business corporations worldwide civilizations with intelligence strength as a world center of business intelligence and building business relationships, most developing country, the greatest strength of economic dominance and strength of patents and copyrights, all world of technology and civilization, intelligence and business markets, while also the second main headquarters of all business entities and institutions, and therefore the center of the most important trade dimension and strategy for each merchant and his future.

Therefore, a project that is for every business corporation really significant and important, the best option for the future development of business strategies and activities, and most importantly sustain their position competitiveness in a stable position as an international status. It is therefore true that our strength on behalf of Corporatocracy governments actually means that every trader who does not add to our side Corporatocracy, such trader by reason of the strength of competition with other businessmen who jointly promote growth and cooperation Corporatocracy

governments, and they thus gained a significant position in the global character so because in the first case the trader who in turn refused us because he really goes bankrupt and loses extremely competitive on the value of efficacy and its ability to participate in international business outlook. Analytically looking at capital means that every marketer in the world in the interest added to our side Corporatocracy government and to support the building of our markets development cooperation.

The success of the forces and dynamics of the development of our interests on behalf of Corporatocracy can be truly massive responses from all over the world and a network of sales markets and enterprises, one of the biggest steps of the worldwide movement for periods globalism of modern years.

Today, there is one subject which we have rejected, European governments which terrorist blocking the development of the legal movement of our cooperation on behalf of Corporatocracy government, so there is indeed confirmed that our legal claim simultaneously to create a council of businessmen, banks and financial institutions worldwide named Corporatocracy and Imperium of Diamonds government, so everyone who is this act will take part therefore automatically has all rights to recover financial compensation from all governments which terrorist damaging and promote damage to the developing interests of the Corporatocracy, it is today the dimensions claims for financial compensation for each business corporations and institutions, demands that really and actually confirmed beyond all dimensions of the economic value of trades and prices civilizations planet Earth over a period of many generations in a single sum

European catastrophic failure and loss of function in the political damage of all countries in the world because government of Corporatocracy today as the largest and most important step indeed for the future of all mankind, and the legal right again and confirmed as the biggest financial debt for the period of human existence. It is a pride to possess such power that we can use strategically to influence the development of world politics and human existence to a stronger and more prosperous future level of our humanity, for the good intentions of the world and our global success.

Corporatocracy government, power, grandeur, historic victory and pride for the entire state of knowledge of the present and future of humanity, a step in world history!

Government Corporatocracy, as historically significant and important as regimes with such an impact on world politics of all countries and peoples in the interest of their future histories and that therefore the same value Corporatocracy governments as well as historically were spectacular, the Chinese Imperium, the Egyptian Pharaonic civilization, Greek civilization, Caesar and the Roman Imperium, the first foundations for Indian nations, together we can climb to the highest peak of the world's success and stigma-recognition of all human society, our country and the future of the entire human world!

Corporatocracy government target as a civilization on the extent of over 1 000 000 000 000 000 000 planetary civilizations, a range that truly connects the entire human world and also one of the biggest steps for the future unification of all the peoples of the human race, the creation of a single world and building the future of nations as one country, one state, one might and victory of humanity with the power to advance all dimensions of success for the period of existence of the human world.

Therefore, it is our goal to leverage our strength and establish global conferences, conferences with merchants in each city, opening presentation studios and galleries (gallery and studio sponsored a restaurant, cafe, small store), the center of trade and planning, cultural centers and consulates that will always encourage all traders to take steps of their future career and the value of trade names and forces the political system created by the strategy for the senatorial cast everyone who owns a business corporation and a legal association, and our goal is to get as many corporations that will support our common development and it is a great success for our entire world humanity.

The government of the country with the main form of political expansion, King Imperium of Diamonds as the most important official acts person, while every marketer and the owner or Represent Business Corporations therefore takes the position senator who legally has the right to sit in the Corporate Senate and to the Senate Democracy decisions about current and future step

development of civilization Corporatocracy, rights and principles of state jurisdiction, the economic development strategy or management of government together with another forms government accountability and political rights on the territory of the government Corporatocracy, a territory which soon will cover jointly built structure civilization through several Super group of Galaxies.

Position senator is open to every owner of a business corporation and a representative of the business association, therefore you also members IAIC office, each of you possess the opportunity to use the building trade markets Imperium of Diamonds and therefore ensure business formation also your business associations and corporations that you authorize to sit in Corporatocracy Senate as a political person as entitled to exercise such rights senator to support the development of civilization Corporatocracy and monitoring the development of our common world, from the smallest beginnings to success in the largest dimension of historical grandeur.

Senator position is managed as an independent position in relation to the state citizenship any merchant, and other forms of business and legal obligations anywhere in the world, except where the need to respect international law. The senator is a form of synonyms which represents the legal person.

Today's global trends such as global citizen passport to travel, and confirmation from most states of the United Nations or the business trend of offshore legal name of the entity and stopping relation to the jurisdiction of a state with a central headquarters and citizenship, as the format of a business management service representing the trader and again right Integrity foreign jurisdiction governments and their right to issue its own forms for civil VISA, physical, legal, or political people, many forms of international trends that are justified by legitimate international law and world political principles. Rights which represent the right of each trader on the territory of jurisdiction Corporatocracy government to use its own identity and legal relationship as special citizen this country as an internal activity without a commitment to another state without a commitment to foreign taxes, without a commitment to the rights and obligations of the business activities of another State, the obligation to register the name 'trade union by law restricted category, without obligation of any other importance of relationships and other foreign connectability. Senator of Corporatocracy is the nature of legal person with its own legal base position, and the Senator is that it uses and activates all the rights acquired in the name Corporatocracy government.

Therefore means that the center Corporatocracy for every man is always open as a new and independent business world with opening at the global level and the value of the achievements of civilization development on a higher power than the dimension of the human world, so Corporatocracy world in which everyone owns the right to establish their own businesses and develop together with others, as a group, the actual value of the global forces of democracy mankind commercial character, and thus open the possibility of establishing a new common civilization.

ID's Corporatocracy, in early provisions of autonomy under the Federal Government Imperium of Diamonds, why is development aid and to ensure the growth and modern usage, the group entity ID's Corporatocracy can be used independently and produce own technologies that are designed for space travel a distance of more planets in space, or even much farther away than the maximum range of the last galaxies.

Transport technology that can expand and develop the significant achievement of strength and success of the colonization of new territories in space, traveling to other galaxies and at the same time create new civilizations on other planets. The journey to a thousand people at a distance beyond our galaxy is only a few minutes, and the financial value as well as a ticket on the bus, because this is Corporatocracy.

A new dimension of civilization and human understanding, that way we will represent and buildings.

Our civilization is able to decompose on the extent of over 1 000 000 000 000 000 planets in the universe, as the range of single super group of galaxies and format of such Corporatocracy infrastructure, and thereby also creating also a system of civilization interplanetary infrastructure and transport networks civilizations that divides the planet into civilization residential area

consisting of many planets there are also other planets only intended for industry, other planets as agricultural center, android planet, military planets, many planets which are used for mining resources, dynamic infrastructure is highly capacitive which therefore could be created over the truly unlimited resources of raw materials, as well as the capacity of an important dimension of capabilities to develop and build, produce, disseminate intelligence millennial Maximizing format.

Objective Corporatocracy is to build basic colonies industry in the ID's Diamond Oasis, and consequently, to prove use of legal technology roadmaps and intelligence Imperium of Diamonds, and therefore within fourteen days of establishing an active colony, is for us to open the possibility of the success of the colonization of other cosmic bodies in universe. Planets, star systems, galaxies, and soon also super group of galaxies, and this is a major tenet of Corporatocracy government, the unification of all business entities around the world.

Civilization Corporatocracy is intended for the development of a dynamic civilization of networks of sources of raw materials, industrial intelligence, agricultural centers, civilizational infrastructure and technology networks, centers of military intelligence, or centers of research civilizations infrastructure, an average of up to 1 000 000 000 000 000 planets in the universe. All dimensions of this type will be built using our own raw material resources and intelligence Corporatocracy the cooperation of all corporations in the world dimension, together with the use of our internal built the structure of markets between the partner business corporation in cooperation Corporatocracy and it means a big financial gain for each merchant that such cooperation support, far greater success than the ability of all available capabilities and gain success in the scope of the human world.

Corporatocracy is the entity that establishes a new era in human history. It is a pride for everyone who will support this move. It's the loss of a historical writing against anyone who would stand in opposition to us.

Federal government Imperium of Diamonds already own sufficient plans for the ability to develop colonies on other planets, and together with the basis functions civilization for a stable and viable massive population health biological cycle, the ability of healthy proliferate, adequate sources of food, source of air for breathing, security use pressure regulators atmosphere technology to replace the natural light, just too enough free space environment for healthy company policy, and quickly too gravitation technologies. In the interest of physics and natural conditions of any kind other planet today is the ability at any time to initiate the development of civilizations with full stability, quality of life and open up the opportunity to develop beyond the cosmic scale, Universe!

According technological intelligence Imperium of Diamond's government, planets in the universe are scientifically too simple, some cold, frozen and full of snow, some of them turn to the foundation as a desert and blocks of planets without life and atmosphere, but each of these planets is opportunity enough to colonize, terraforming or establish an isolated town with its own climate system and in many cases initiate terraforming on the true level as today's planet Earth, but it is still true that there are actually many more other planets that are already in the basic dimensions of geography with the same natural conditions as our planet Earth, oxygen and healthy atmosphere, water supplies and oceans, temperature measurements responsible environmental needs and also certainty about the future confirm the presence of the organic elements of life and its stable capacity to develop in full health and no damage to the evolution of human cells, without damaging growth of plants or animal and marine organism, planets open for all needs of stable life.

Therefore, it is our plan to establish cooperation in the interest of the global volume of business corporations from around the world, the development of the first industrial colony on the territory of the Imperium of Diamonds, Diamond Oasis and other territory ID's government. Colonies are so built for the ability of the establishment of the basic functions for mining, foundation down for mining and development of basic areas of raw material production, development of agricultural fists in indoor laboratories, construction of metallurgical zones for metalworking and steel, manufacture of electronic components and equipment for automation of industrial and civilization processes. Converted force necessary investments to establish a colony on the territory of Diamond Oasis is therefore a responsible force for the level of some few € on

the budget of the theoretical number of traders who have such steps will promote, and this is why we fully open the ability to use a single entry for each business corporation from the whole world that this system creates a common market in an organized format over internal consumption and sale in a closed cycle which therefore will give the ability for each business entity always fully exploit their commercial position in our partner networks Corporatocracy government.

Earnings for each corporation is immediate, dynamic and above all for a minimal investment, because every body Corporatocracy unfolds itself from the economic system of our own Corporatocracy network that this can autonomously build up to the level of the most advanced entity in the scope of the entire world, and particularly of financial resources from our own ID Corporatocratic's banks.

Real is that all investments in the development of the first colony to be returned immediately after the foundation of civilization, the stability of which is the ability to re-use all the stored investments that will subsequently be retrieved from sources Corporatocracy by the extent of our industrial and economically active infrastructure according to the rhythm of financial cycles, and thus gain the investment can be re-utilized for the development of new business branches and headquarters business corporations who succeeded as the first investors, so that means that every investor has repeatedly receives the same development amount of money he invested in the first inlet, and yet it he thus receives additional funding bonuses for its success in producing and increasing the value of gross domestic product.

In the interest of investment funds for our development are necessary, but everyone can contribute his own power, finance, or raw materials and technology. We collectively need to extend advanced systems industry, and to obtain technology for the operation of infrastructure and basic development. Electric generators, chemical treatment plants and reservoirs, the technology for the construction of halls and buildings, other necessary ingredients that we can get from our management cooperation and volume traders Corporatocracy who so autonomously acquire high-capacity financial gains generated by retailers expanding their own civilization the extent of distant universe.

Developing strategies for business networking is a dynamic and beneficial to each of you, and you too, dear ladies and gentlemen as members of the Office IAIC, each of you can profitably use these steps, the joint development of business networks Corporatocracy that while business strategies can also provide a stable budget for the foundation your own colonies for the creation of a new state in our federation, because each of you has the opportunity to use strategies to expand markets and the growth of other colonial centers.

The federal government Imperium of Diamonds already own ideologies and projects at the philosophy of maximalism, and thus the creation of multy federal entities such as the composition of many forms of Nations, this means that each of you has the same benefit, your rights are granted by the federal government Imperium of Diamonds for establishing your own colony on the territory of Diamond Oasis and, therefore, making a name as a legal entity of the federal government Imperium of Diamonds jurisdiction soon with territories at the Stellar cities.

Each of you has full rights to develop a global partnership of business networks, therefore, that they can rise to the Imperium of Diamonds developing colonies, as well as your colony composed of your generated and acquired business corporations or inter-corporate exchanges.

Your ability to start their own colonies which are composed of industrial zones and buildings, soon steelworks, smelting furnaces, warehouses and raw materials, automated robotic lines, agricultural indoor center, all important types of technologies that are able to get free of charge and using strategies of development management steps system which is commercially advantageous for each side. Free trade that for each of your colonies can build strength at the level of an advanced factory for the production of space colonization ship with a full and stable functions in all qualities.

We as IAIC office, we come together as people who start a new era of humanity, and our goal is to expand human civilizations throughout the universe.

Each of you has the right to use the name Imperium of Diamonds, so use your common communication with business entities, banks, politicians and governments, for motivation in their

cooperation for the purpose of profit over support for the development of colonies Imperium of Diamonds, just because you get resources for initiating legal cooperation organized to develop your own colonies and from which ultimately formed the state government and the dimension of the first territories of between 100 planets in the universe, for all of you.

Link to Corporatocracy

The first colonies may jointly and according to the management plan of IDs government to launch production of cosmic civilization vessels that are capable of transferring technological packages between galaxies and so autonomously extend colonial civilization until together we can build a strong enough foundation of our civilization Corporatocracy, two to five weeks from the first mass start to the level of several years.

Our transport technology for massive traveling to other galaxies, according to the plans IDs federal government, technological speed performance can be a strength of over 1 000 000 000 000 000 000 light-years per hour, and also the ability to take advantage of special engineering of the engine on the bases of special physical geometrically modified linear rhythms and quantum energy into actual infinite strength, and therefore also the ability to reach speeds through the endless light-years per second. Type these engines are usually secret, few people are familiar with such technology, but I know these kinds of technologies and their own ability and tested acts of physical evidence about these technologies, which are able to succeed in production and research and confirmation of such a feat.

Type these engines for space travel is able to achieve the technological function of the system that can provide transport across the planet Earth with speed and power shift at 500 milion light years away in ten days, so together we can locate the most suitable planet for human life, and we of these planets begin to compose a new civilization at the Star of cities, it is an average One hundred civilized planets around a single star.

One light year is the distance around 9,700,000,000,000,000 kilometers in 365 days, with an area of strength by the theoretical speed of light. The maximum size of the observable universe more than 15 bilion light-years beyond the observable universe there are worlds that are meant to us as the worlds for our free development and establishment of dynamic civilization, and we can launch space exploration even in much larger dimensions than today's conceivably possible.

Special managemet system IDs industrial colonies can resume production and full production of one colony ship for a period of seven days, while the production of more than a hundred other kinds of ships civilization, it generally can mean the ability to establish a production of up to one thousand cosmic civilization by boat every month. One colony ship can in 14 days to fully implement the colonization of new planets in the universe, that means the ability to immediately and fully secure on every planet produce additional 1,000,000 civilization by boat every week and thus carry more than 1 miliard (+/-) colonization of new planets, industrial resources, mining raw materials, industrial planetary lines, agricultural center for food production, many beautiful planets that are actually suitable for human life and the development of civilization and high capacity Corporatocracy forces of the state, the center of all traders from around the world.

Ability to establish cooperation between all the world's traders and thus creating a step, which is developing the greatest country in the history of mankind on the size of the entire human existence since the creation of the first man, the emergence of the most important political, business, social and civilizational success on behalf of the new government of the country, while more more and more important success than those who mythologically able to execute a human God, the one who created the human world.

The first civilization of our time, which is based on a single step, a global movement to build a unified and common civilization of mankind, all the merchants of our planet. We are the ones who can accomplish together again and highly successfully surpass all dimensions of today's UN and the historical magnificence of creation of such an organization, but certainly we're not going

to expand the steps that indicate damage to the system stability of world politics today, together we will create a new world.

Our space infrastructure will be of size over the first few thousand planets that are connected to high-capacity transport lines spacecraft, contact between planets in a few minutes, much better development conditions than today's system of marine transportation of planet Earth, the major source of development resources and thus simultaneously statistically fully endorsed ability to establish major civilizations above the size of Earth.

Immediately at the beginning of the colony Diamond Oasis, together we will begin to establish the State institutions, cadastral offices, central banks, systems of civilization registry, as well as corporate Senate and Government, other other institutions for the purpose of stable functioning of our logistics and ability to full power and stability Corporatocracy governments at the global level, politically diplomatic activities.

One of the main objectives is to develop management markets Corporatocracy and the emergence of trade which means the extent of cooperation between business markets of our trading networks Corporatocracy, and therefore ensure global infrastructure common sources of raw materials and industry to build our full capabilities Corporatocracy market territory Imperium of Diamonds while indefinitely develop and create significant development strategies civilizations Imperium of Diamonds and the ability to succeed against any opposition worth.

Civilization Corporatocracy as an entity uniting all merchants from around the world, and using the relationship to the federal government Imperium of Diamonds because he immediately its start as a true form of the legal name of the Government with all the principles of political identity as the owner of territories, population right registry jurisdiction in the form of intelligence and at the same time political self-esteem.

Our population will be based on a system of several registry forms, some types of registration rights of the population must be confirmed by the Corporate Senate. Register of traders from around the world as people senatorial position and owning your own business address in the territory Corporatocracy government, so Business and Senator flexible VISA population registry and in the same direction permanent population register with a permanent address, that is, immigrants, migrants, the annual natural increase. Another registry population will be based on a system cloning and expansion of natural increase to a level more than a few miliard new people, for example, every single month according to the capacity level of planetary civilizations and such a claim, but in any case, today the value of legal factor claim recognition of the legal form of a public dimension Corporatocracy our activities, and without respect for other parties governments on their territory and allow cloning or not, because Corporatocracy is a political entity that owns full rights to their own integrity. Another right to the population registry is comprised of developing the claims of plans for the development of android civilization that can benefit from the system of artificial human intelligence as a digital network of electronic processors, and soon other versions that can be aggregated from a technology of a new kind of population-level biological processors that for android gives the ability to genuine life as a man, and the ability to know all kinds of emotions and feelings. There are many other systems, advanced technologies of intelligent beings capable of ensuring the development of population in many other forms of intelligence.

Population register and qualify as a value that goes recognize the legitimate system as the name of the state, and the principle at today normal application and use among a number of developed countries, and governments worldwide. Cloning and biodroid, android population, terrible development opportunities in all advanced and realistic States, a strategy which today is acknowledged as the future standard of most countries in the world, as well as today in South Korea, Australia, USA, UK, Canada, China, Japan and other developed countries have virtually cloned new population counts and without any political problem, and each clone own normal human life as a full member of the human population and a citizen of the State.

Capacities our ability to develop are unlimited and each corporation and a trader who participates in this project because their own strategic advantage to the foundation of the right to use the development of his possessions to commercial markets in more dimensions than the size of the maximum level of market on the planet Earth.

The ID's International Advocacy Intelligence Council

Our present goal is to use our cooperation to create an alliance between all traders around your position, business firms, companies and corporations, and together we will create a global force unification of world trade forces and bases on dimension of democracy which is therefore based on a much larger force than range of political forces of other nations and governments.

Our global alliance dealers can provide a fully free development of our farms and colonies, and at the same time developing our plans for building international networks of commercial markets between our Offshore & Management Operations Services business corporations and legal areas, networks of cultural and ceremonial centers, which can be set by agreement of the system common trade, for example, or even a system of investment and support.

Each of you has now also entitled to use the project Offshore Business Corporation and the formation of a global sales network as a legal source of our raw materials, and your ability to use your own physical names for setting up your personal corporations, international and multi national corporations to support this plan, and that means that they automatically every one of you as the owner of a business corporation that earns the right to legitimacy of your identity as a senator in the whole Corporatocracy governments, with full right to use such legal values and activities which represent the right to decide on the future development of our civilization.

If you can establish a business corporation, or if you already own your business, it means that you do so you are automatically entitled to membership in Corporatocracy Senate, and you re-own the full rights to develop your company using our cooperation Corporatocracy and so also with the right form significant success for your business as well as you own the full rights for the recovery of lost profits due to European acts blocking opportunities to develop neocolonialism, terrorism, crimes against humanity. This means that if you already own your business or company, or you have an interest to establish a new trade association in the name of support Imperium of Diamonds and International Lawyer Intelligence Council, because you own a big advantage position of the first organizer who acquires strategic opportunity to contact other banks trade Association which will support the development of our business assets for the growth of our forces and the names Corporatocracy together as Imperium of Diamonds, and your new business association can be active with high development support from many businesses throughout the world today because Corporatocracy as the best trend for success developed your business.

Contacting other Banks and the establishment of our joint strategy of market and business cooperation, or the expansion of our forces on the structure of the international network under the leadership of our Council, for us, such a step could in many ways to ensure the strength strategy to expand our international business networking among the world's banks and financial institutions therefore, may build up again much greater strength of significant growth.

It is true that foreign banks can benefit from our cooperation to open up access to the opportunities of investment transactions for the establishment of some new civilizations in space, investment in the development of new civilization ship or, for example, some forms of industrial and especially market networks. But the main advantage of the strategy of utilizing our cooperation for development, but according to the principles of a common strategy of trade but not limited cooperation as interest on loans. The main objective of business cooperation, banks have the right to use contact with the Federal Government Imperium of Diamonds and therefore open up their banking establishment within the jurisdiction of the Diamonds, and Corporatocracy, and it also means the right to establish a business corporation owned by the Bank with the purpose of a limited system for the possibility of business expanding own resources and production of goods such as agriculture, industry, services or raw materials, science and education, the possibility to use the material goods owned chains and business networks to develop common transactions between merchants and another advantageous profit from our cooperation. The Bank's own option often get a much bigger gain than bank profits from the investment and our business network can be developed much more dynamic force.

It is also true that banks that will support our business plans, banks can therefore obtain sufficient profit to outpace today the greatest forces of global competition. The level of today's financial and business world standard, it is true that the bank that support us, such a bank will recover the rest, always the best competitive position. If you own an interest for your development at State level, and you then own right for founding the Colonial Bank in cooperation

with other traders may prove successful at the formation of colonies and dynamic development into a strong and developed country.

Therefore, if you are interested to establish your business corporations, banks and the colony in order to promote the development of the league, then it is a good step to promote the organization of cooperation between commercial banks that you can thus provide significant assistance and strategic mobilization of development on the outlook of the global market, as well as full support for the extent of jurisdiction and market Imperium of Diamonds, as such soon created possibility of setting up sales offices in the interest of financial relations and co-operation, it is convenient and highly beneficial opportunities for business development and strengthening of the future strategy of competitiveness, along with the ability to build a great success and global business contacts, good step indeed every interest.

In every interest, guarantor owns the colony is always a party, without collateral and responsibility of the central government, but always under the authority of the Imperium of Diamond's as central government's authority. "It's your chance and you get it from the federal government Imperium of Diamond's".

Business cooperation and development of commercial structures of civilization Imperium of Diamonds is enabled for the ability to create a management plan for the development of foreign market structures for the establishment of new business corporations such as development resources for recovery function of all legally claimed territories Imperium of Diamonds in the strategy of joint organized trafficking, as well as the right to lawful act of developing new civilization commercial networks and activity level territories Imperium of Diamonds, and therefore today the ability to develop well in the territory of Diamond Oasis (North East Africa, Bir Tawil), Rockall Diamond (North Atlantic reef), as well as with full the right to use territorial claims Imperium of Diamonds for the development of civilizations and territorial sovereignty in the territory of the other planets in the universe and their surrounding space. Development of civilizations Imperium of Diamonds, everyone will support such steps, he thereby obtains adequate logistics management plan IDs for success which means the ability to colonize other planets in the universe and in the distance beyond the range of the observable universe.

Development territories Imperium of Diamonds, on planet Earth or on the territory of outer space, everything is legal entitlement granted on behalf of the King of Imperium of Diamonds, as well as permitted such legal ownership and rights of jurisdiction in relation to the holding IDs sovereignty as full compliance with international law and such claims is with duties other governments to follow the principles of the claim and support this claim because this is the guiding principle function of the entire system of international law as well as a major tenet of humankind, as well as the development of civilization Imperium of Diamonds together and the subject of the rights Corporatocracy and business corporations qualify for our cooperation.

Corporatocracy and territorial claims from the scope of today's Rights International Policy

Today, the stage of international politics at the UN Conventions and the UN Charter and other principles of other forms of multilateral and unilateral rules over principles function as a global democracy, in relation to the claimed law and justice, law Imperium of Diamonds for the foundation, claiming, holding and development rights territorial sovereignty, because there is not any real legal principle opposed to the policy, policy that is contrary to these rights and entitlements Imperium of Diamonds and the nature of rights, no such opposition the opportunity to create.

This means that all rights and claims of the Imperium of Diamonds, and Corporatocracy government are always fully legitimate and indeed claimed today, and therefore in the future if other changes due to legitimate justification that goes beyond even the power of law world democracy States UNGA .

The current threat of a legal act of the opposition are just UNGA Agreement for Peace principles of joint use of outer space, which can still be running abused for blocking states' rights in order to expand on the cosmic horizon, but such an act can not be performed because it is just only direction for the division world politics and the disintegration of the United Nations.

Therefore, due to the first principles of the UN Charter, because every country in the world must ensure the integrity of the common organization and accordingly must be further developed other conventions UNGA. It is true that the UNGA agreements are made with good intelligence, support for the joint development of scientific knowledge, common information-sharing and intent of peaceful cooperation, support for the safety of astronauts and the return of the crash, the right to their own operating rules spacecraft and their registration, but also acts as a provision to ban States to extend its sovereignty on the territory of celestial bodies because these bodies as having cultural heritage of all the people of our world, but only as a cultural observation these are the UNGA agreements, but which are not yet confirmed $\frac{2}{3}$ of all Member States and this means that these agreements are still legitimate and there is no possibility of such an agreement to recognize and organize themselves according to these principles, and if in the future such a rule is confirmed, then this format rights contrary to the UN Charter and that means the immediate loss of legitimacy of the law, Otherwise, rupture of the United Nations. We own the full rights to develop freely without any act of discrimination and the opposition, and we already own our full integrity, according international law character and political nature.

Planned development UN agreements prohibit the sovereignty of other states, but they are not in opposition to the rights and demands of other people and countries for their land registration and space objects trade or such treatment as their own property. Therefore it means that these forms of agreements are unbalanced and because of the attempt of some countries to the development of their monopoly for their own secret achievements and strategic gain while suppressing the development rights of foreign countries. This is a space policy since 1950. It is able to block the rights of States to develop territorial forces on the territory of outer space, as well as the possibility of not damaging the economic rights of other persons, associations or states because they are laws of the same magnitude endorsed the principles of the UN General Assembly, as well as the UNSC obligation under the UN Charter, and therefore it is always a prime necessity to ensure the UN organization especially careful to maintain the integrity of states and our common bonds and common format of world politics.

This is the same case and in the interest of economic possession claim defines the rights of holders of decisions and enforcement activities in the territory of his property, or the representation of civilizations, as well as the form of agreements on the rights of use of spacecraft and extend their operating rules.

In the same interest in the case of a declaration space agreements for a ban on developing sovereignty in the cosmic territory, each State has its own full right in any case create their own civilization zones and are entitled to develop their own population centers, cultural centers or economic zones, as well as today leave evidence of international political support for the action of these projects, as well as the fact the legal requirements for the management of operational rules for spaceships, and respect for relationships of property ownership and accordingly such exploitation.

Every form of civilization is based on the claim and existential obligations because the owner was able to create civilization laws of civilization and the use of rules that must be respected by other parties and societies, societies that also must be respected also claims ownership and decision on permission to enter and use.

Such rights can not harm anyone, and it is a step against democracy, most countries in the world and their freedom, and naturally the main reasons and justification for the creation of war. Therefore, such rights are always the obligation of full respect and coherence in its full form global level.

Today or in the future phases of cosmic civilization development, attempt to apply the cosmic agreement and a ban on the development of cosmic sovereignty is just an attempt at monopoly terrorism against the rights of national integrity and reversal of world politics and influence the masses to support them massively rob other legal entities to claim their rights for property ownership.

Many states have their own interest, as well as the need for the existence of civilization, the obligation to establish their own state territory in the cosmic territory, together with its own

jurisdiction. So in any case, to enable international law, as well as in the case of independent activity against the laws.

If cosmic agreements will in this way be applied, then the governments of countries in the future in the first phase of establishing their own cosmic plans, missions, economic interests and the region as a representative, administrative and autonomous, exclusive or economic zone of duty To a natural factor, according to already today directions sake of humanity and every state and individuals. Everyone wants to develop the present government's mandate or the future generation of the mandate every five years a new world and it is always confidently disintegration of all forms of blocking rights against the interests of our principles and cosmic sovereignty, and nobody wants to lose self-esteem because of the risk space agreements. Risk is a slowdown opportunities to develop, jurisdiction and economic zone.

Therefore attempt the presentation and development of these rights blockage of sovereignty, while it is a step to stop the entitlements of their own economic development and damage the value and growth development projects for the settlement of the universe, even if only because of the attempt to apply the agreements which should never be legally applied from because the main dimension of policy functions in line with the rest of international law, and that means that in case of full implementation of these agreements is the possibility that in the future utilization in practice could be a law to ban sovereignty functioning without conflict or threat of conflict and instability of the world policy. Such agreements should not be arbitrarily applied.

It is already confirmed over the basics features of civilization today that the future functions in full cosmic civilization practice is the same evidence for the necessity to cancel the blocking Development sovereignty, and with the confirmation of such an obligation value as they are today recognized states' rights to their independence, the vast majority of states UN declaring a state which and for itself guarantees a safe existence, thus ensuring the rights of decolonization States. If the UN will determine the law which mean blocking states in their claim for the Development of Space territorial sovereignty, then it is an act which again means a full violation of states' rights at the level of their liberties. Blocking means colonialism, enslavement format.

In a future factor of economic zones and held territories with operational functions civilization and statistical standards as states in the grouping of the population hence value as a national movement is again an alliance which is the name of the state and the right to self determination, the Declaration of Independence and the full rights to establish their own sovereignty and in the case of public opposition against the international rights such as agreements on space utilization, because the rights and entitlements of state self-determination are always much stronger and much more representation be global democratic power of most states in the world which, according to the UN Charter democratically outpace demand UNSC and their authority or entitlement veto. National rights for self-determination are much larger force recognition than the right of blocking the development of claims for the extension of state jurisdiction in the territory of the other planets, and that means that the attempt to once again support the development of such agreements to block the rights of national sovereignty in the universe is an attempt to damage the internal stability of the United Nations and conflict between states which can split today a stable democracy and rights on two sides which are therefore naturally mean the possibility of bankruptcy and extinction of the UN, or the emergence of other conflicts and wars. It reaffirms, according to all the rules today, the UN agreement on blocking the development of space supremacy and therefore again in any case can not be legitimate. Their declaration is against the UN Charter and as well as an attempt by the emergence of global conflicts and the extinction of the UN, because there is no other response to fruition.

No states and organizations have no right to act such blocking, and other opposition development, especially any rights and claims in any way to organize and promote social development, opposition to the claim of cosmic sovereignty, because people now own all rights to such an act and any value declarations by blocking Space development sovereignty is not in any way legitimate democratic majority states UNGA and UNSC resolutions or with approval, the agreement is not valid and therefore not entitled by them to organize and create prevention measures.

Moto UN, this is your world emblem for that as the main reason the UN was created after the Second World War, and why we as a force of global democracy, because there is nobody else

who can foster the emergence of a legal act in violation of our rights, because in this case means step infringement claims states and their rights, democracy, government entitlements declared on behalf of the Convention UNGA and universal principles, as well as all forms rights of the UN Charter, which means that states UNGA and UNSC are the main duty to respect such principles and in this case to ensure full respect for our rights, because the act of the opposition in this case would mean attempted crime against the international principles, discrimination, threat of apartheid, monopolies for the purpose of bureaucracy, damage states' rights to decide freely and strategically develop, and in an area of global responses to many groups that is naturally produced act of threats of global wars, today and anytime in the future, and the emergence of global opposition to the United Nations as a step for the extinction of the UN in a massive increase in the number of new nations that with this reason will reject membership in the UN, and so while there is an act of damage claim value rights democratic states, meaning the right to self-determination of their own act of national democracy as well as with the right to decide on state sovereignty and membership or recognition of international organizations.

This means that the states of the UN must not support measures that may violate the rights of other nations, and especially the rights Corporatocracy governments primarily as a body that represents claims as the major factor of world democracy, a body of government which is based on a universal system of its own function and it means a certain amount of superiority over the nature of the legal norms of other countries around the world. Corporatocracy government is the entity which fully entitled own legal status on the strength, scale, international outlook and the ability of the scope of such size organizations, associations on a global level, grouping all the merchants of the world as subjects of groups which together are the largest civilizational system functions around the world in the most decisive for the future the existence of many civilizations, about the world and the state policy of the functions of the state and the stability of governments, as well as well as dimension influencing national conviction that today are the values that achieve a similar form of power such as the United Nations, and every ability at any time and rapidly overtake all dimensions of the United Nations, or the world create change in the political and civilizational format.

In the interest of natural rights states to develop, and impossible to be impeded, because the right to establish their own sovereignty and jurisdiction as well as otherwise, it is natural law confirmed the right of States to establish their own civilization zone as a claim for representational centers Nations and the law of their jurisdiction as well such as the right to own integrity reasons of national diversity and the rights of their own estates and claims. So anyway for reasons obligation to prevent conflict.

Document Corporatocracy governments and global trade representatives to express all of the rights and obligations of the UN now to 2000 to ensure the enjoyment of all rights, justice and legal entitlements for each side claimed the owner and for imposing possessions.

Expressing petition as a global dismissal and sanctions against the UN and against the corrupt network policy and our common law major powers and claim global democracy and the right to represent the states will jointly deciding on cooperation against anyone who rejects the right support and in any way monopolies are blocks and steals on values without restoration, and thus full violation of the integrity of the state Corporatocracy, joint struggle for clearing the name of pride and states in order the arrest of those responsible and replacing their mandate using our own people because only they respect the legal rights and such principles, at the same time important political force claim Corporatocracy recognition as a member and councilor trading markets and civilizing function in every country of the world, and therefore emphasize Corporatocracy government as an entity with a more important value than the UNGA and UNSC law, in the interest of a just defense of the rights and claims of global democracy, human population of the world.

Signature of the agent or representative of the Council for Trade association or institution

.....

This also means that today every marketer has the full right to use such an opportunity for cooperation to develop our common name Corporatocracy, and in accordance with the guiding principles of the UN and world politics, and because of the statute Corporatocracy for over ten years, when the violated rights to develop according crimes European terrorism and by thus creating legal situation once again a reference to the principles of UNGA conventions that mean that every government has a duty to jointly promote full awareness of all merchants and their knowledge about the entire format of the legal situation and those of their claims from all values and the possibilities for legal use, because ignorance and chaos it is the result of European terrorism and opposition to the law of international politics, as well as act other entities that refuse to exercise their political responsibilities responsible relationships. However, if anyone will reject such an obligation to support, but with the interest due only to censorship and abuse of political power and in another case, too confiscation and suspension of rights or other similar blocking development, then it is a true act of monopolies and robbing the body that is in terms of world democracy with significant power over the eligibility of democratic values and recognized by UN and UNSC or UNGA. That means opposition to the legal entity already all claims since 2000, and therefore the further deterioration of these entitlements means that a member of the United Nations or the Organization supports the act of global revolt States and automatic response to the overthrow of the United Nations as well as the legal right and obligation of state services the overthrow of every political regime which supports such policies cosmic agreements and blocking develop the sovereignty and jurisdiction.

This means that anyone who refuses such development and dissemination of media support, he is therefore in accordance with international political principles, designated as a world terrorist who must be liquidated immediately and without respect for their rights. For violations of international rules allowed no politician or a senior UN official, everyone is in this case only as a terrorist who must be liquidated without respect to its state political immunity. So it is applied in any case on a legal claim.

In the final statement of the rights the UN is entitled to apply the principles of space treaties to ban sovereignty always mean that the recovery claim on the state of self-determination, and thus the strength of the global population of democracy as a more mature body than the United Nations, each of us now has the right in this case the opposition United Nations always support the development of sovereignty Imperium of Diamonds and Corporatocracy in the territory of the universe beyond the range of the maximum outlook civilization development of the Earth, on the size of future one thousand years, as the value of determining the maximum distance of rights of the United Nations and claims, because for a boundary already ends human world and it also means the end of the rights and claims of the United Nations.

The legal and political consequences if the UN will in future be developed and implemented Ban Treaty to develop national sovereignty on the territory of the other planets, then in this case means a step to force the other parties of the opposition to start riots and declaration of their independence on humanity and therefore the establishment of its own civilizations beyond the maximum range of the human world, because due to the UN by blocking these societies not expand cosmic civilizations freely within the territory of the reach of the human world.

Today UNGA law and the UN Charter actually confirms this claim, as well as a valuable acknowledgment of the truth in the interest of the global strength of democracy the world's population. It means bankruptcy today's world, and therefore it is best to encourage the emergence of Corporatocracy, because of the possibility disappear from this world as quickly as possible.

The result of these activities therefore is that people are soon separated into fully independent party to dimension several tens, hundreds or thousands of new states that will begin to develop their civilization beyond our knowledge and dimension human world, independently, often without a common communications, no diplomatic relations and rights, because people here no longer live in a pack and diplomatic friendship in racial unity and similarity of the human race, recognizing the same principles of peace processes and rights, and social and cultural rules.

This means that people in the future will be divided into hard threats of subsequent clashes of civilizations and the emergence of acts for the conflicts, wars and brutal destruction of countries using also the weapons of global destruction, most likely against the planet Earth. Distribution is

a division of mankind diplomatic relations, recognizing the different policy principles and rights or international rules. New states beyond today's human world and may soon be most likely based on a monarchy, a dictatorship, sometimes too anarchy and hierarchy, or racist hienismus colonial superiority. Many states will fascist and the basis of the difference of their race, on the difference between religion and political strategies, especially with a focus on preventing extinction of their own civilization when meeting another state which is therefore of equal value statistical threat of radical regime of dictatorship without peace policy and the future always a threat to the opposition and territorial and advanced competition, with full capabilities for new wars and conflicts, massive acts of terrorism and extermination of civilizations and abuse crime to harm civilization development in order to prevent war, conflict, racial supremacy, slavery, it means risk the worst crimes and Conflicting global wars of extermination processes.

Therefore, it must be re-applied strategy that mean ensuring the stability of the common friendly relations among nations, thereby maintaining the function of common centers of subjects of world politics, because it is the main objective of human security, and the primary purpose of existence and the reason for the creation of the United Nations. So do not hold, the UN must support the growth of political systems that are routed only to the distribution of winds and achieving the threat of extinction of world politics, multi-purpose partition of unity and union of the peoples of diplomacy.

Today it is the biggest threat in human history, and not just because some states in the United Nations are keen to promote the principle of blocking the development of states' rights to establish their own cosmic sovereignty, even though it is certifiably natural principle confirmed that such a cosmic agreements in the future will be fully stopped and blocked because of opposition victories rights of states and nations in order to ensure their independence, they recognized the power of a democracy, and so well too as the extinction of these rights by blocking sovereignty because of a systematic plan for formation of the conflict and the global war or a threat to the existence of humanity in step and opposition principles of the UN Charter and political obligations of states to prevent genocide and war.

In this case, space development agreements with no effect reverse profit. It's just a way to further problems, limitations and loss of world politics.

The UN must encourage new civilization, and states could arise in civilization attainable range of the universe and without any form of blocking and act apartheid or opposition from any criminal opposition, and therefore States have the opportunity to jointly develop and maintain diplomatic relations or use rights for the federalization of the Imperium in the interest of Diamonds, relations and cooperation that goes sustain only if the UN will not support blocking rights on a claim of national sovereignty on the territory of space. According to the guidelines of the United Nations, not the ability to claim and declare support for the agreements to block civil rights for the development of jurisdiction in the territory of the universe. It's just an attempt to discrimination, enslavement, bureaucracy, damage states' rights and also for a complete tear of the human world which is full of threats of conflict and massive destruction of human existence, threats and acts of the largest opposition difference against all the facts of existence of the United Nations.

Therefore, in order to prevent the world's political decline, and the extension of threats the world and liquidation of war because of foreign efforts to apply today no effective policies and without a justified reason for such use, we need therefore to monitor the acts of certain states, and watch out for the opposition and trade fraud or theft and attempted monopolies or competitive racism, apartheid and the opposition. Several states have long been supported frauds against other states that are trying to go to the goal to create a successful civilization plus the ability to develop their own civilizations on other planets if this step could be, meaning the ability to be overtaken by the forces of economics, politics, civilization, armies and societies of these countries it is now native format policy in most countries. Hence the need for the government to disregard these criminal states and their interests that are not able to focus on the legal rules of international policies and actions for development.

In the same way, it is necessary to follow the European countries as terrorist organizations and their alliances.

In any case, our law cooperation is based on the activity in order to comply all legal and relative rules, and we therefore own the full rights entitlement cooperation with the intention to develop our colonies for settlement of new planets in the universe, colonies to create other federal civilizations that you can develop too you and your party colleagues as Attorney IDs federal colonies, as well as rights for colonies Corporatocracy, and any other forms of state and federal entities.

However, if there is a day in which the UN majority power of democracy decides to apply its own principles aerospace contracts for blocking the state rights to develop jurisdiction in the territory of cosmic bodies, then the federal government Imperium of Diamonds decided that if the advocacy of our rights will not be successful and our right to be damaged by a terrorist form of such crime, because all properties will be transformed into a legal relationship representational zones and areas for having behalf of the government, as well as a change in civilizational strategy and implementation of development only in the interest of the territory of Universal size the State civilizing ships at independent and mobile civilization that is under the full sovereign rights and administration according to the principles of the Imperium of Diamonds, as well as well as all claims of their own property and the right to establish and use their cosmic zones or to travel up beyond the maximum dimension of the human universe in the range of civilization development of humankind for thousands of years, and the establishment of independent civilizations, and so is multilateral cooperation plan with the other governments in defense of our rights for the development of our countries and civilizations, so we will always defend our rights and use them.

The subsequent reaction is still our goal to maintain the political activities of our logistics in order to achieve the independence of our rights cosmic territorial jurisdiction, and therefore we will always build all the important strategies of world democracy for the purpose of this knowledge.

In the event that the world's democracies someday again recognize that such blocking cosmic principle of territorial jurisdiction can not be legitimately applied, because then we will again seek full compensation for the losses on the value of civilization development for the period around this time format. It is the main goal of humanity and the basis of full justice for all peoples.

UN arises as a reaction to the Second World War, for stop fascism and dictatorship, it automatically means our full rights for those of our acts, because the significance of our act is the main reason for the emergence and existence of the United Nations, as well as the inherent right of states and nations that are much stronger and more important than today's extent and value of the existence of the United Nations.

Expressing the right side Corporatocracy in the case of International refusal to recognize the rights of the World Diamond International Alliance in relation to the claim of sovereignty in the European territories, the autonomous act to exercise decisive for the acceptance of the claim sovereign rights on behalf of Corporatocracy

The federal government Imperium of Diamond's representing the rights which are based on the process of the legal provisions of International law, the UN Charter and the UNGA conventions that guarantee obligation of countries around the world together to ensure the act of cooperation in order to stop the right of sovereignty of all states in terrorist alliance, and thus replace their right to sovereignty in use rights acquired party Imperium of Diamond's like a legitimate claim for selection debt amounts which outstrip value economic ratifications territories, financial and material production capacity civilizations terrorist states, and therefore for this reason there is a duty application of the UN Charter, as the principles of the rights of peaceful development of the states and ensuring prevention of conflicts and disputes, the use of rights representing UNGA Convention on the rights States' economic, social and cultural rights, meaning in this claim and the size of the debt catastrophic consequences, to ensure the prevention of disasters and extinction of civilization, that it will be exercised act obligations under the UN Charter presenting duties UN Security Council decision on the designation of national sovereignty in the act of strategy for UNSC resolution defining such conditions.

In order to further the principles of the UN Charter, act as an international base of world politics, UNSC own duty, in any case, to ensure to ensure justice and also achieving a just claimed the restoration of values and rights. UNSC must not in any way impair the value of any legal entity, such as the Imperium of Diamond's rights and enforcement of European debt. Therefore, is can not select a different option than to confirm the sovereignty of the Imperium of Diamonds in the territories of the European countries, the act of the UN resolution the Security Council.

UNSC half qualify for the act of veto against this relationship. European governments surpasses terrorist crimes at the statistics of the Second World War. Therefore, there is no possibility that the European terrorist states could use their own rights policy and territorial sovereignty.

If the UNSC veto the law, then the UNSC violates the principles and reasons of the United Nations, it is a direct violation of the basic principles of the Charter of the United Nations Charter and other items.

Violation of the UN Charter and the basic principles of the United Nations, therefore, represents a violation of equal justice at the international level and the establishment of a hierarchy, after a period hienistic European governments and rogue states such levels in monopolies on international policy level, in support of the United Nations.

By this act expires stability of the legal format of the United Nations and the principles of claim UNGA convention if such a crime act will be respected UNSC $\frac{3}{4}$ democracy UNGA States. UNGA States has never owned competence to harm the values of another entity so UNGA States may not vote for the purpose of opposition against the sovereignty of the name of Diamond's Imperium.

UNGA own right, merely for the act of democratic elections for voting as an act of confirmation or denial of the validity of the United Nations and such rights. If confirmed, that the UN is a valid entity, then it means that too right Imperium of Diamonds are valid for eligible full sovereignty in the territories of all states in the European Partnership criminal terrorist organization. If UNGA decides that the United Nations is not a valid entity that represents the rights the UN is losing value and of the applicable claim, complete loss of validity of the entire international level. Therefore, Imperium of Diamond's losing rights act of sovereignty in the territories of the European terrorist states, but in natural interest is a right exercisable use rights Imperium of Diamonds entitlement act of sovereignty in the territories of European states according to the principles of nature policy on the aftermath of crime and thereby enable secure usage rights enforcement justice and entitled to act to open the hierarchy purpose of call rights, the existence of a terrorist entity because of its natural obligation to act to stop the crimes. In case of loss of legitimacy of the United Nations, it is not necessary to respect the rights of the state and

civilization territories criminal groups. Criminal entity does not have any rights, and the government of Diamonds Imperium own any claims for the use of practices that aim to ensure the sovereignty of the territories of terrorist states, and in confirmation be ID's legal claim from time's of validity about UN law principles which confirmed right's of claim to recompensation in level of the valuable power than all European territories and values of European civilization's.

Therefore, this means that the Imperium of Diamonds own right to establish its own right to sovereignty over the territories, while also authorized to decide on the political determination of the government functions that body.

The federal government therefore Imperium of Diamonds Strategy at King directed to recognize act World Diamond International Alliance as a legally valid sovereignty over territories that are survivors of all states in the crime of terrorist states of the European Partnership. World Diamond International Alliance must be confirmed subject to the foreign countries that constitute this joint act of sovereignty in these territories in accordance with the constitution of the World Diamond International Alliance. If the World Diamond International Alliance gets the number of members with more than three quarters of all countries in the world, then this is applied to act full claim to achieve recognition of the more important legitimacy than legal claim UNSC resolutions, if such an act and interpretation of the resolution will be in conflict with the vast majority States in the World Diamond International Alliance, and the WD used the Alliance act in the nature of the claim of the UN Charter on the rights of use claim UNGA vote majority to overthrow the legal legitimacy of the UNSC entity, and thus secure a claim which implies recognition of its own system named rezolution of UNGA.

However, if the UNGA States shall refuse their membership in the International Alliance WD, then the law of Imperium Diamonds on establishing sovereignty claim is therefore still valid and lawful permanent entitlement. Government Imperium of Diamonds and decide on the measure usage rights inherent sovereignty in the territories of terrorist states, and thus to create the sovereign rights of government to the size of Corporatocracy government, meaning the opening of entitlement to use plan law to establish a joint authority to rule over territories, the cooperation between all business entities European territories as this confirm the full force of our collective authority at the territory of terrorist states as the subject of a new government Corporatocracy.

This creates a provision in which all entities trading companies own claim to launch a joint organized cooperation for the creation of joint stability of the new government Corporatocracy. Corporatocracy government entity established for the purpose of joint sovereignty as a collaboration of all business corporations in the world, and this with an open claim to build a common centralized Corporate Markets for the joint development organizations global networks Industry and Resource To this for us, will serve as a source of common strength for to create a common system and by ensuring the stabilization of the sovereignty of the territory Corporatocracy government as an act of compensation for illegitimate sovereignty of European terrorist states.

Business corporations, firms and companies with headquarters or active business branch in the territory of all states in the terrorist partnership between the criminal alliances therefore have a duty to ensure cooperation for the establishment of a common political infrastructure and use common commercial network for the growth of our business corporations, and thus a right to suspend responsibility against terrorist cooperation with governments of countries as an act of recognition of the jurisdiction of a terrorist state, as well as an aid to stabilize terorristic occupation forces providing sovereignty terrorist entity.

Business corporations, companies and firms create their own duty to act together with coordination by the state organizations, institutions and NGOs from quite common legal order of coordination in order to stop terrorist and replacement parties, and this will be made Corporatocracy sovereignty.

Business corporations, companies and firms own the rights to launch the convert police and military forces of terrorist states, in order to establish their own armies and security forces that this will be applied for the purpose of combating terrorism.

Business corporations, companies and firms own the rights to start issuing citizenship to all applicants and current citizens of terrorist states, and thus stop their criminal responsibility for the support and recognition of a terrorist state. Corporatocracy issuing citizenship is possible only in cooperation with the departments IAIC.

Business corporations, companies and firms own obligation to contact and inform all law associations in the country and further promote communication with the Legal Profession offices

and centers for the possibility of full mobilization and function organized International Advocacy Intelligence Council.

The current legal status of government Imperium of Diamonds in the conflict against terrorist states of the European governments

European governments have created well ahead of the crimes of World War II. Therefore, such a body can never be legitimized with a valid activity sovereignty. This creates a government bankruptcy, extinction and termination of validity of sovereignty in the territories.

European governments terroristically criminally terrorist purposes and cooperate with European countries, this means that European nations also have a responsibility for their act of crime against terrorism cooperation, and in recognition of their own citizenship terrorist entity as its own sovereignty. The government and the nation loses its sovereignty rights and recognition of the State in international legal scales. Partly because Territory remains valid as terra nullius.

Imperium of Diamonds is the government entity that owns entitled to recover debts from legitimate organizations that represent territories of terrorist states. Territories are not represented by any legal entity. Therefore, Imperium of Diamonds own full rights to the act of execution of criminal territories and the use of such property for the purpose of establishing his own sovereignty over the territories.

At the same time, the territories of European countries are not represented by any legal subject with valid legitimed existence. The federal government Imperium of Diamonds own right execution of values within which the debt capacity outstrip all dimensions of economic nature territories of all states in terrorist alliance. The value of legal property rights is a much larger dimension than the GDP of a terrorist state and capacity of such a civilization.

The federal government Imperium of Diamonds is in the European territories of terrorist states, more legitimate entity and a much more responsible and legal identity in a political position. Significant political value than the legal name of the constitution of state and government, the president, government, parliament and entitled jurisdiction mention, state law and jurisdiction.

Such a right, under international law and internationally accepted political responsibility to represent the government Imperium of Diamonds, King and the government, the state of Imperium Diamonds and everyone who is in the jurisdiction of the Imperium of Diamonds.

**The Global Lawyer Cooperation for
The Imperium of Diamonds**

The International Law Intelligence Council and The Royal Invitation

We are commonly create a lot of much, than only New World !
We are is commonly The New World !

The Federal Government of The Imperium of Diamond's Business Management Service Cooperation

Aim office and official logistics IAIC is the primary rows Foundation primarily consulate and the same step support for developing and organizing cultural centers, the main goal is also the possibility of establishing a new business corporation in the world, and thus promote the development of the states and our joint business between the rest of the business corporations and firms.

Our goal is to also start building businesses and corporations that can provide full stable development goal Imperium of Diamonds, and in this case create a fully stable profits for your business development and intelligence. It is preferable, therefore, on behalf of the intelligence of our association, The International Law Intelligence Council, establishing the first, a new multi-national corporation for Offshore Business management services for us to open a number of new markets within your country, with the ability to build dynamic structure of commercial and industrial network which They are based on many forms advantageous capabilities and strategies preferred profit.

Category options for the development of new corporations are open in many directions, as the first option is helpful in creating a corporation by autonomous retail chains such as the network of agricultural production, food processing, followed by sales of food and mass consumption, or for example other chain business networks that consist of corporations for mining and laboratory production of chemical materials such as metals, gases, liquids, energy and other raw materials suitable for industrial processing, enabling the ability to expand our market structure into the second level of the business chain which now will consist of corporations for raw material processing and manufacturing For example, automotive components, mechanical components, aircraft turbines, electric motors, electronic components, and also as building parts or fuel. Such a structure of business corporations will immediately able to provide up joint strategies for the development of business infrastructure at automobile factories manufacturing aircraft industry for electronic technology, the construction of skyscrapers and real estate, opening restaurants and consumer chains, the city that will consume the products for their financial implementation and use in our own global cycle on the size of the global market, as well as any of our other business entities. Profit is predictable at several hundred miliard €, with the ability to steady development over the level of more than € 1,000,000,000.000 's. It is a good target and beneficial for us and for the country that allows such options and will support our common development.

Strategically advantageous, for example, to create an autonomous chain of our own network of production, as well as our own network of consumer consumption. Extraction of construction materials, subsequent processing of construction materials for building components, so the ability to utilize the dynamic development of our business corporations for the construction of skyscrapers and real estate or other industrial zones and complexes, therefore, a good step for the function of the cycling system is preferable to ensure the re-leasing of commercial spaces for their own consumers and ensure their own development, or the second strategy to launch the opening of Realtors, real estate and other business or company to lease, operate recreation centers, development of hotels, building industrial activities.

For example, one new skyscraper in the amount of 1.000.000.000 € autonomously can be paid for via leasing and recreational use immediately within 30 days from the first day of operation if we strategically utilize our own corporations for recreational and consumer services, and currently remains stable capital 800,000,000 € between such companies and network of our construction industry therefore gets 1.000.000.000 € for the possibility of building other skyscrapers and real estate.

Property is also good to use for recreational activities at concerts, big parties, sports games and the lotteries and opening bets, theaters, cinemas, concerts, bars and clubs, convenience stores, recreation at the many forms and characters.

One of the main advantages of using commercial networks is that the final consumer can use also agreement on the repayment of a product according to an agreed limit, and therefore the Corporation for the manufacture of the product, auto manufacturing, for example, building materials, because then the first body does not need to pay the contractual funding immediately, and in this event is open to trade and development without limit, because second corporation as consumer develop his own business who is therefore systematically profit for first productive corporation. Profit corporation finance until the time, such as ten or a hundred years in the future, because legal entity corporation knows the strategy of the system chain store that is strategically based on the ability of joint profits as a group, and if the value of this retail chain is much stronger and stronger, so too sharply stronger profits for all members in this business chain, so the corporation has adopted the sale of goods on credit, because the corporation gained the ability activities in markets that are much richer and the ability to provide significant strength gains than the first business act. In the main event is the duty well know and highly respect the principles of the jurisdiction of your country, so that such a market system could not be identified as organized crime and embezzlement or fraudulent contract. In any case, you always have the option to use such networks market and your personal interests, and you together can create a much better and better networks and systems business markets and networks. If such systems market will not be allowed beneath principles in your jurisdiction, then it is sure that such options are open and accessible also in the circle of our extraterritorial jurisdiction that you will offer the possibility of autonomous use of the building for example, your new personal possessions and castles, the family seat, skyscrapers, passenger ships, many forms of other options, but above all a global commercial network.

For example, textile industry is again simple market, and proves to be highly autonomous, simple structure of the business value chain with high profits. The first objective is to build assets for the first production of raw materials, wool, silk, plush, cotton, polymers, and other kinds of materials that are allowed to process in the textile industry. Subsequent network of business associations will ensure the processing of raw materials to produce substances that buys corporate structure for the production of textiles and tend to sell these materials among the clients who will ensure profit gain that will be used for the development of industrial technology to bigger and better production and profit.

Textile industry is also advantageous to support, for example, as well as through organizing fashion events and fairs, conferences and presentations prestigious luxury models. Strategy propagation foreign textile brands is also advantageous step strategy to gain first investment capital as well as a convenient strategy to use autonomous systems of public conferences for the development of our own prestige and luxury brands for which other mature industrial textile city will pay high finance as a form of business on rent a brand's logo and thus strengthening their profits. We thus obtain significant financial value for the option to autonomously develop the strength of our retail chains. The same strategy goes, for example, be used for the development of retail chains electronics, architecture, markets to design, robotics, automotive industry, many business categories and industries.

The best system of autonomous market chain store today, in today's times of opportunity for the development of the electronics industry for us gives the ability of minimal costs, and strategically centered business on development management, therefore, open to the opportunity to build thousands of industrial centers in several milliard €'s, with a high of financial turnovers.

An electronic industry is frugal, the first profit corporation industrial raw materials, the basic material. The second network of corporations buying materials to create one electronic components. Electronics components buys second network of corporations that collectively processed products such possibility for the production of electronic equipment. Electronic engineering subsequently repurchased by the first and second corporation which therefore improve their own ability to produce. This system creates a chain store capability of autonomous circulation of financial relations in a closed cycle without inflation, working capital, and also a great success for the development of industrial centers in high capacity levels. Every corporation in the cycle are therefore mutually develop on capacities and modernity.

The big advantage of the electronic industry are also possibilities to use common markets by contract payments for using raw materials, which means that this system will enable immediately and without any financial investment to ensure the formation of legitimate trade agreement is the

foundation of all safeguards possessions, and the formation of the development strategy of the whole chain directly from first base contract document and without holding any value basic materials and coins. Only workable agreement on business cooperation among business creates value for this document to the size of the maximum achievable level of the project, and already this is a sufficient guarantee for the other traders who can provide us raw materials, land, technology and basic right for employment of workers.

If you will support the growth of intelligence of these markets, and then you can do in the media to publicize the steps for such a development, then immediately many traders from around the world, banks and investment clubs for we will be they are really very pleased to offer financial investments, loans but also financial subsidies of tens milliards €, and mainly in the same interest will come in large numbers for the common trade management cooperation, as invitations from other corporate and business entities abroad. Many other business corporations will own their private profit from the new dimension of the business environment of our group in their area, and therefore such other business corporations will soon thank and transmit financial subsidies, development of raw material, downtown industrial zones for development projects agreed, because our business network strengthen the power and profits for their product and raw materials.

Landowners in local places of our development, or mine owners with mining raw materials, as well as owners of unused industrial centers, people who have an active business entities in areas of our building, each therefore able to utilize our development projects to their collection provides strategically increase profits because of strengthening capacity of the economic zone and is therefore for such groups is really convenient for us to support all the basics that development means to them automatically gain.

People who support us because they can use strategies of our business networks that for our joint development brings significant strength advantageous than investment. It is true that in the case of creating management business cooperation of several business entities, then it is permissible ability to create an agreement that also mean that local groups for us for free all the necessary facilities as well as raw materials and industrial sources.

In early infancy is therefore a major target for the development of offshore subsidiaries for Management of the International market, and ID's Office with the function of legitimate business branch of a political nature, such a market system of private international security nepotism and stable prosperity without losing market share.

International Management Corporation market strategy is running its own high capacity and autonomy of financial maneuvers without any act of our own investments and valuable possession. Management International market means a legal partnership between all business corporations from around the world as our option open market and rights of exploitation.

We therefore able to contact other traders who produce materials, other materials traders who processed product, and subsequently merchants who sell products. This means that our business corporation for the management of the international market can be significant and high achievement on the basis of agreements on joint income and payment of all sources and services up to the final capital gain, as it is practical among traders.

Therefore, trade on the basis of International Management market proves to be acting as a body with a central office within the territory of Imperium Diamomds and with further centers branches in foreign countries or communicate via international communication networks and reunions traders. Circuits trade can be immediately disseminated throughout the world and in every country on the planet.

Management of the international market means the ability to build business markets over the promotion and sale of raw materials and products as one brand of each corporation separately or simultaneously selling the products of other business corporations to agreement on the shared profits for organized intelligence support and its own resources.

Our stores can be opened markets with products from the category of food markets, markets with electronics, robotics and machinery, chemical products, textiles, many forms of business opportunities and in any market, since the Corporation for Management International market is

able to use its own office within the Imperium of Diamonds, and therefore as a corporation with permission from the government to acquire the rights for self-development trade without restrictions on legal border trade categories, it means the right to full free trade. Together we represent State level.

Central Corporation is able to contact other foreign traders and therefore through joint business agreement is the ability to systematically repurchase and processing of their products, the possibility for subsequent sale and registration of the guarantee agreement for contractual obligations for the autonomous handling of products behalf of the other corporations abroad. System-level and multi national consortium of business, now fully legalized the activity in more than 190 countries worldwide.

Free markets, trade in textiles, automobiles, architecture and skyscrapers, planes, yachts and luxury boats, satellites and cosmic communication technology, space shuttles, modern technology and electronics, consumer electronics, computers and supercomputers, technology, infrastructure, weapons and military technology, technology as a kind of any type, expensive jewelry, luxury furniture, luxury ceramics, trade any market, anywhere in the world.

Profit in the overall range can overtake dimension 1 000 000 000 000 €, and the profit will be designed to ensure that the first payment for your work, as well as investments in the development of territories, the federal government Imperium of Diamonds and ensuring the development of global infrastructure IAIC authorities. Markets that will be created as the business management of the global market are immediately at the start of sufficient raw materials to ensure the full range of sources of raw materials and industrial networks to achieve good objectives and dynamic steps to developing the most advanced intelligent civilizations in the world today.

That is why in our strategy to develop the possibility of action based business conferences and representation centers, expand contacts with business associations, media promotion and cooperation, especially direct contacts between business corporations and other common business meetings.

It is preferred that the ratio of the project in order to create a global network of our controlled markets, therefore we are able to deploy and also our own corporation that in the first base are formed as a union of small businesses and thereby create their own business center which thus will expand to the full level of the form corporate bundle that since the beginning of the contract, Ness will always own all the important values such as industrial zones and open rights to the foreign trade market, for example, or even raw material resources and financial budgets for the next building.

Strategy for the unification of foreign firms and the creation of a single center as one business corporations, so it can be reused highly progressive, and early on in the full capabilities also create the full financial function of the autonomy and independence for IAIC authorities. Each of you has therefore also a major destination and take advantage of these opportunities and thus build the best and most powerful strategy of this nature.

The second form is the same meaning profit is therefore our right to use the same format business corporations, such as the name of the entity © TM ID's Office, and for the purpose of developing political activities and strategy planning, logistics, financial gain for the possibility of payment for official employees and intelligent people and those.

Business entity as © TM ID's Office deals with the planning of bilateral and multilateral relations between the countries, the use of functional strategies of international rights and principles, development of business cooperation between States and planning joint trade fairs, revenue for the new population projection of social communications, the development of important steps Awareness and logistics areas of the federal government Imperium of Diamonds.

© TM ID's Office is currently able to devote logistics, financial management capability that delivers stronger international strategy and exploit business opportunities and act of direct payments.

Of course it is for us, the main advantage of building full structure of our banks abroad, as well as management of international and multi-national business corporations collectively and with full power to IAIC office functions according to the format of a political nature.

The preferred options on our ability to establish and expand the corporation, compose business networks of our markets, and the current management options to create a development plan that can be ratified by the principles of legal ownership as investment property which is used for faculty and other immediate steps for development. We therefore will be highly important business institutions in each country, and we are therefore able to build on really closed relations with banks each state, and we can therefore in the frequent case of use of high-capacity session turnovers in the structure of civilization market and the economy at the level of the financial industry, as well as by the industry of all other categories.

Extending our dynamic structure trading markets provides us the ability to socialize with the State Bank and the advantageous position therefore expand our cooperation and benefit from high support from leading business management of state banks.

Interoperability between Banks of States for us based upon the ability to expand too commercial forces and relations of strategic markets at the international level. We can use our position as an international network that is for each state is really a highly beneficial and important, we are therefore able to benefit from cooperation with all banks in the world, and we will therefore be each bank as the most important partner body, the most important partner for planning investments, development strategy, international business transactions, the ability to expand cooperation between other foreign state-owned banks.

Our activities will receive support from all state and commercial banks, as well as high support from politicians and governments.

Soon, our level can reach a position where we will regularly present our cooperation at the level of political circles and conferences of the WTO, OECD, G77, G20, the most important international trade organization that truly supports high possibility for the world to truly develop dynamically.

Is the fact that the strength of our international structure of business networks will soon actually in a much stronger force than the statistical relations and economic performance of most foreign countries.

Our strategy of global market can provide all the necessary powers for the good development of the Imperium of Diamonds civilizations. Raw materials for the industry function, technology for the development of civilization advancement, power, work activity and consumption, and especially the military and military technology to defend the territorial ownership.

Communication between business corporations are once again based on the strategy for the development of civilization in the territory of Diamond Oasis, so it is highly advantageous to contact all of your local business corporations for Offshore management administration that is able to develop Diamond Oasis civilization at a mature entity with the level of global resources and intelligence . That is significant and high profits for each of us, and our future.

Development of cooperation between Offshore management service corporations also means opening their right to build steps in the form of creation of their own branches in the Imperium of Diamonds, a subsidiary of that holding is entitled to establish offshore branches for the production of basic technologies in order to achieve the ability to fully step development of civilization Diamond Oasis, and consequently global organizational cooperation between the Offshore corporation for ensuring the functional development of the territory Diamond Oasis, water resources, mining of raw materials and new mines, the steps for the development of structures and the construction industry, many important steps and strategies for the development of a dynamic civilization.

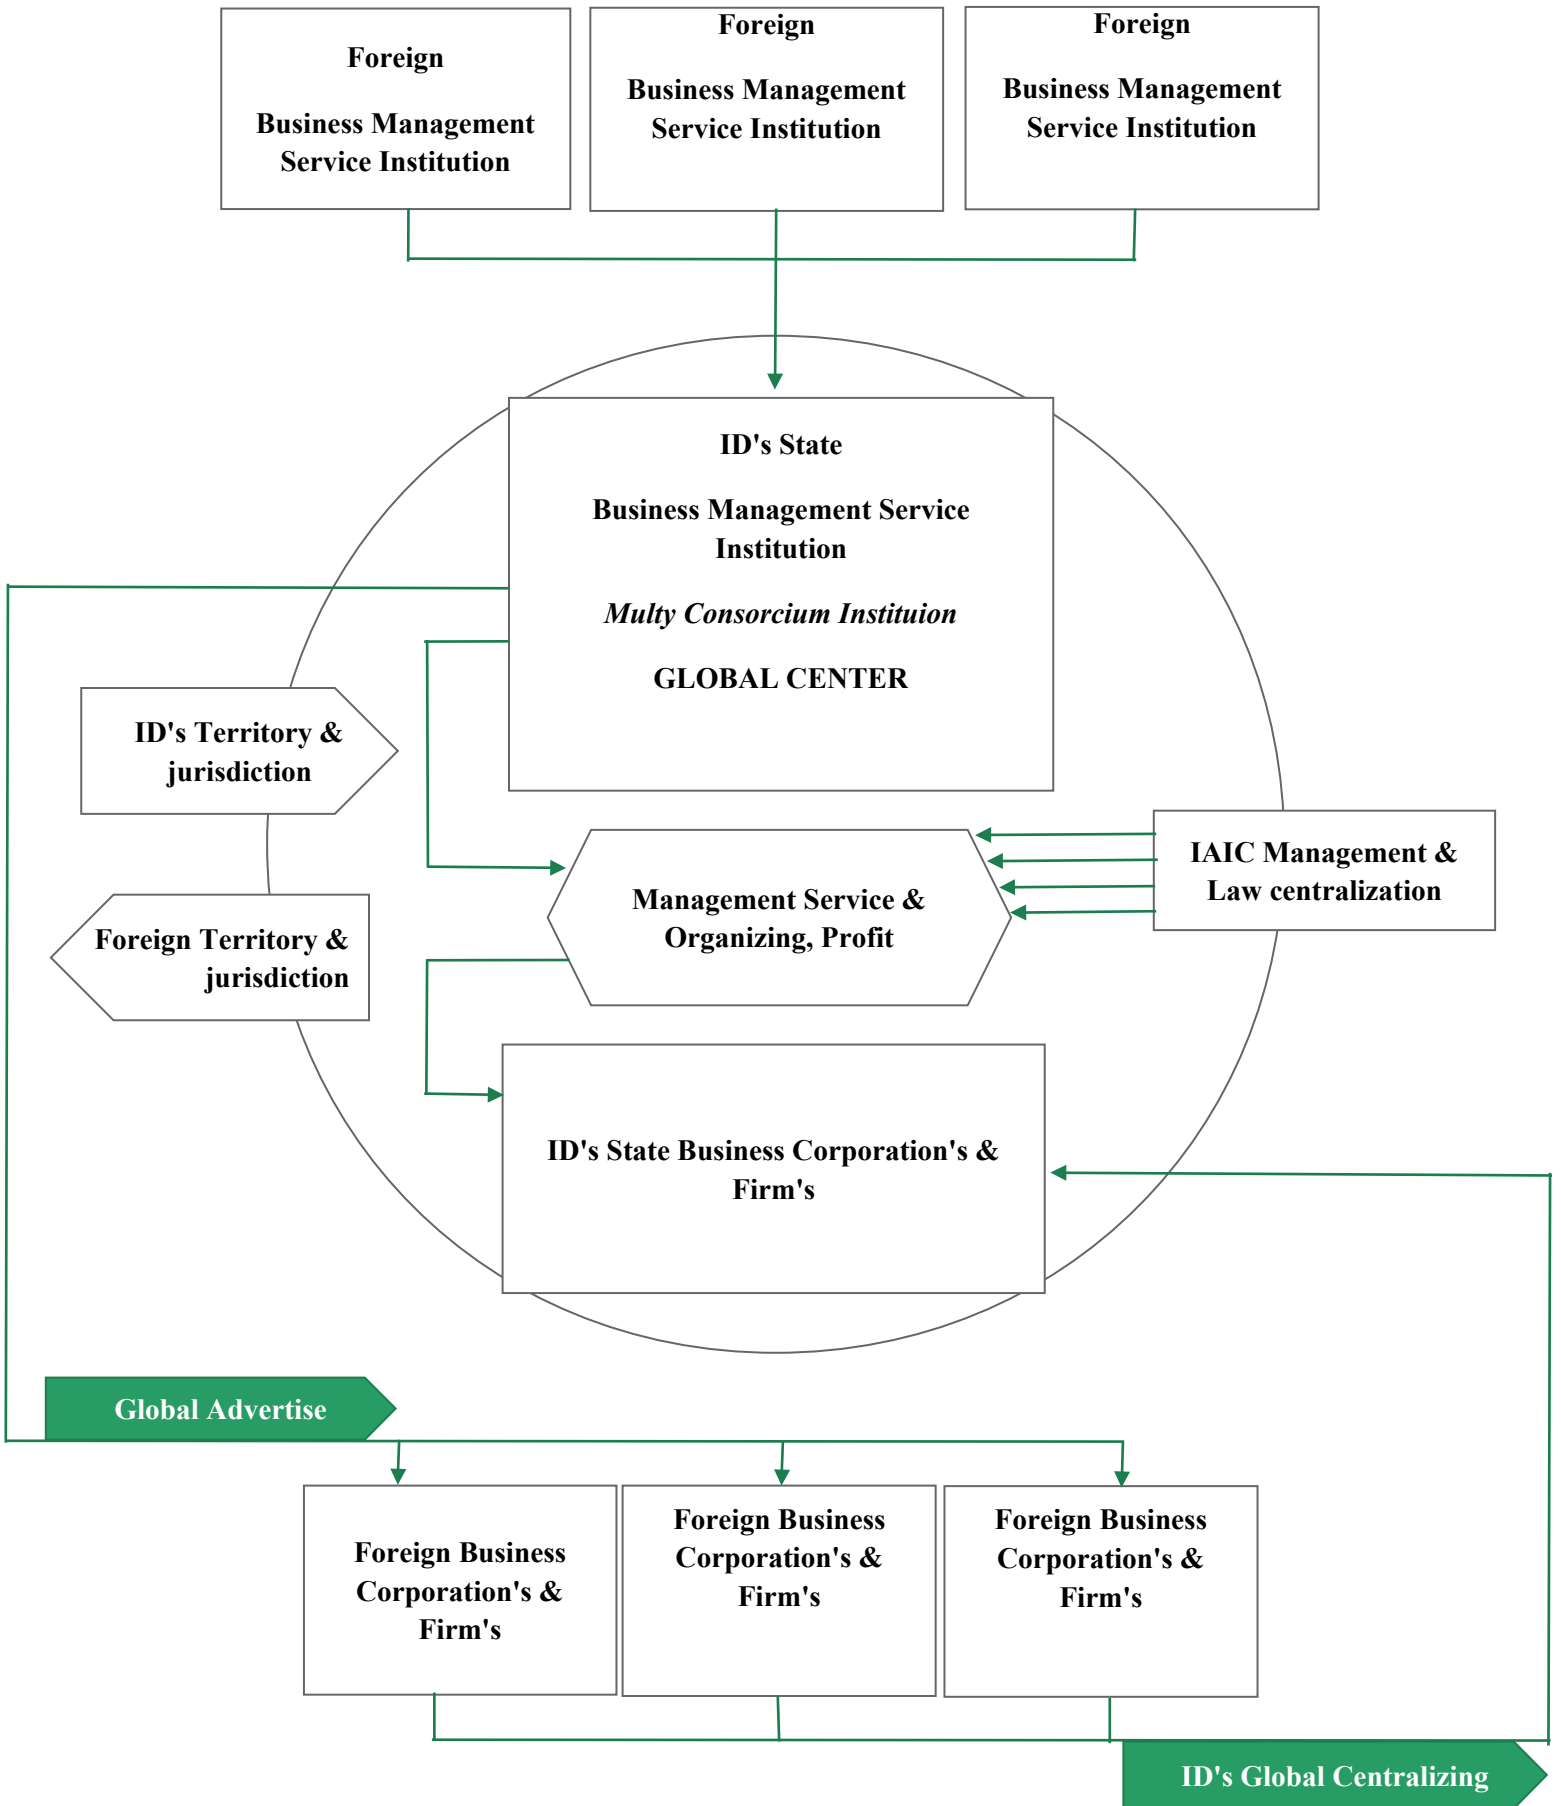

Foreign Trade Corporation for management manage other business associations, also have open access to the opportunity to develop markets at commercial network Imperium of Diamonds, and thus we formed a strategic project to create a centralization of foreign corporations for the management services of the autonomous management of corporations, and therefore meaning for

us the opportunity to build the country's Imperium of Diamonds new special trade authority which in the main logistics IAIC can harness the power of foreign corporations to establish their offshore branch in our country, and instantly the first startup to launch a high-capacity business networking activity as a development force for building of modern civilization from its own autonomous resources which this can develop and build more business opportunities for foreign businessmen.

Diamond Oasis, mainly as a civilization with development strategies under full automation of custom functions and the system without-population economies with the level of functionality production and use of over 10 milion of autonomous vehicles in the early development of civilization, android technology with its own intelligence, autonomic function and use of raw materials resources and operation autonomous infrastructure.

Fully autonomous logistics civilization, which means the ability to use autonomous resources and full independence, the ability to always provide their own resources. That is also the ability to use their own range limitations of economic strength and stability, the ability of autonomous and free market regulation to decide the outcome of economic and trade relations, the strength of coins and domestic currency, any corporation in the world really will immediately understand that such commercial markets truly the best business opportunity around the world and long-term future.

The Federal Government of The Imperium of Diamond's The Medial cooperation

In order to develop our joint forces policy at the global level, a strategy for the development of business networks and peace without conflict cooperation among nations, our goal Authority IAIC is build primarily structures worldwide media rhythm cooperation and our own and partner information media center, news, TV, radio and magazines, cultural centers and institutions, global strategic center of social cooperation.

It is therefore a good strategy to develop our activities in the media that way in the world present our possibilities for joint relations and agreements in the ratio of actual value and such possibilities for the use of economic, political and state of maturity today federal government Imperium of Diamonds as an association that legal claim and such law is a dimension as a real super power on the international level

Super power without the limited resources of raw materials at the level of gases, liquids, metals and other materials and energy. Owned territories in the range of several planets, stellar city, galaxies and super groups of galaxies. Technological intelligence capabilities to achieve the best levels around the world and the emergence of civilization capacities Star City within a few weeks, one stellar city as a civilizational 100 planets around a single star. The minimum and basic population claim to the foundation 2.1 miliard people on the planet Earth, then civilizational system development are entitled to produce android population cloned population, bio-android population and many other forms of intelligent beings on the level of maturity of humans and the numbers of the population above 1 000 000 000 000 people on one planet, on average, the planet Earth. Forces armies basis over intelligence technology that can be used in high-capacity power of hard liquidation of the opposition as well as intelligence of weapons of mass destruction, android soldiers and their minimum production over several hundred milion every day and every soldier can mathematically predict future incidents in the local area future and it automatically means the ability to avoid defeat by the enemy, or the same weapons that distance over some 1 000 000 000 000 light years may detailing focus on any subject and carry out its blasting power of disposal instantaneous flash application, or for example in the interest of international security use means the ability to use weapons of mass destruction at the level of destruction are ten galaxies in just one second. Political power Imperium of Diamonds as a body which consists of the value of the federal base as the base of many forms of legal civilizations and special zones, and the politics of global importance options open global cooperation World Diamond International Alliance or Corporatocracy government, Popular government, android civilization, technological civilization, military civilization and many other forms of rights leading to real development and acquisition of strong relations of bilateral and multilateral agreements.

Today, the value of government Imperium of Diamonds as an entity with the legal principle of the world's biggest super power that always own a lot of value to offer and obtain strong relations of bilateral and multilateral agreements or unilateral. The legal government that exceeds the size of today's mankind's existence.

Media around the world are therefore certainly very interested in sharing such information and ensure that our cooperation with global information principles joint planning agreements and strategic steps to profit from our activities, and the creation and our cooperation.

It is also advantageous if each of you will support contacting encyclopedic editors, agencies and associations such as *Wikipedia.org* and other institutions or political science, geography, research, geographic maps and other institutions for common principles of relations between states. Goal Bureau IAIC is based upon interest to create a global collaboration with all the actors in the world, and thereby expand our collective knowledge.

Our association is dynamic and full ability to benefit from strong global sources of raw materials and services, our network of cooperation between persons of world politics, the world

of business and thus simultaneously among many important clubs in your country and around the world. Humanitarian and security cooperation strategy for us is also very important, therefore, I am pleased you to support active and enforcement strategies, security and surveillance human rights of all people of our company, as well as safety for people who are in closed level with you or with me. We are the association that owns the right to claim for the use of their own integrity and nobody else can harm our rights. Our families, their children and parents, our closest people and friends, and they have a right to safety and security of their privacy and health. Global activity is the step that opens us the door into the real world that consists of many factors the company, a company that prides itself for its own purity and legality, as well as there are clubs full of crime and fraud, such risks are natural fact every character publicity and the world known names.

It is good to use a strategy of cooperation with NGOs organization monitoring corruption in the governments of countries together in cooperation with organizations for monitoring human rights. Today there are many organizations that provide oversight functions of government services and police forces, and security against government corruption, or organizations and associations that are able to set up its own investigative activities within the structures of politics, or a public social structures of society and commerce.

Our goal is to create a dynamic function of our infrastructure policy, which will be in a strong position to develop our network among international corporations for business, politics and security, and together we are able to such organizations and movements also establish and enforce legally. We therefore jointly able to communicate in first principles are clubs for human rights and their protection, together we can make use of, for example, relations with media agencies and together with another design group and the national movement.

Together we build our common offices, centers of our international headquarters and conference halls, in the same case together we'll use also our own and private technology, telecommunications and transport, we create our own infrastructure, our private doctors and paramedics, together we are because we work as a group independent movement in the world today, and we will always remain independent.

We, therefore, we can use our own resources and contacts, our own fabrics and materials or information, and technology, and computer assembly, it means that we do so we will be able to independently build our actions and activities by all the principles of rights and claims of the joint force of our association for the defense.

We therefore will support also the global development of human rights and steps to strengthen the future of the just principles and departments of international social and government policies, we will simultaneously promote our relations, together with many organizations throughout the world, so to we ensure the emergence of the largest organized political groups from all over world.

I King Peter Gottwald, at the same time I also ask about the possibility of applying your common intelligence policy development rights system of the federal government Imperium of Diamonds, rights Constitution, state laws and collection rules.

Your suggestions will be re-introduced intelligent legal council to determine the possibilities for exercising that right in relation skills functioning system of state rules that are created with legal validity Imperium of Diamonds government.

Your suggestions will be presented in the overall step ahead of other departments IDs government structures at the Parliament and Senate chambers or other jurisdictional governments to allow development debate and subsequent declarations of state intelligence.

It is therefore necessary to support the development of laws and rights of the human rights of citizens who therefore can live in security and simultaneously maintain such rules for the dynamic development of their estates.

Next importance is the development of business rules, codes on forms of business corporations and social groups of traders or business organizers, who will use our laws to enable dynamic development of civilization.

International communication and progress of legal development

<http://theimperiumofdiamondsgovernment.populiser.com/disscusion/about-us/legal-statement-of-declaration-s>

State rules in full operation mean activity of the main structure of which can be developed civilization without threats of bankruptcy or extinction, secure and stable development of the civilization which means the ability to start communicating internationally and expand our global relationships by sessions that together we can guarantee.

Therefore I ask you about the possibility of international presentation of our legal powers and expanding our global infrastructure between governments countries, banks, merchants and associations, organizations, associations of legal character who own any kind of activity that goes in order to exercise our cooperation and civilizational expansion.

First of all, I ask you to step to ensure efficient services for individual consulates possibility of logical, strategic and proven contacts between States and traders or between other diplomats.

Consequently, I ask you in the main common interest for the development of diplomatic treaties and agreements with national representatives who can support the development of official consulates and embassies in our countries, and we therefore we can expand our trade agreements with the rest of the business, expand our joint headquarters offices and logistics centers, main headquarters and build on diplomatic relations, develop political ties and strategies, political treaties and acts, progress in our development.

Consulates in foreign countries are actually the most important strategy for further development, so I want to make our goal of activity was directed for such interest. Each of you from our society, everyone has the opportunity to pass on the menu before you head to your country, or in front States abroad.

Each of you so earns the right to own interactive missions that lead to the development of Global communication and contact infrastructure.

Created consulates in the form of bilateral agreements, or national associations of public companies, or cultural centers or system business enterprises for media and educational communication, each of these options is for us a very important step and the possibility of cooperating with the media and society as a mature party according to the true values of our political levels.

According to the principles of International law, there is no government of any country which owns a blocking right to carry out cultural dissemination and development, financial earnings from cultural activities and publications or conferences, theaters and galleries, public events and social media companies. Cultural rights of any format, are always free and fully supported global democracy governments that support the rights of these cultural rights, and they protect it with the help of international courts and global political forces.

Therefore advantageous step for your profit through the application of your activity, it is the possibility to promote the global development of the cultural centers of the Imperium of Diamonds, the emergence of cultural centers with the help of organizing collaboration between artists, producers, ceramics, textile producers and designers, painters, between music publishers and singers, writers, reporters and media diaries or publishers, groups, conference organizers and especially mass movement. People who are interested in our mutual trade and investment at the cultural center, the emergence of conference halls and studios and galleries or restaurants and shopping centers that represent the ideology and culture of Diamonds Imperium.

Culture Imperium of Diamonds is based upon the intelligence of modern civilization, development, modernization, technology development and urbanization with a view to the best level of globalization and the greatest outlook on the essence of ideology maximalism, strengthening power and intelligence of our civilization and the human world.

This means that the cultural center will present art in the form of modern skyscrapers, models, special transports, portraits of modern civilization technology also shows cosmic maps show modern fashion advanced and intelligent world, important steps in modern business development and too many presentations from university training centers and salons.

The main culture is artistic presentation *Diamond* in size usage in modern technologically advanced civilization, and of course on the level of luxury and society and civilization.

Cultural centers can also organize conferences that are designed for the creation and development of conferences that are open to other categories of social activities and demands of cultural education and intelligence.

Conference at the level of the global economy and the future of the construction industry, advanced technology and robotics, the development of civilizations, a global company and the development strategy. Conferences that can generate profits at many tens or hundreds of millions of euros every month or week, some strategies conferences may be based upon participation in global tourists and a large number of visitors who together can ensure profit in values up to € 1 miliard a function of cultural centers, your Organizer profits can therefore be secure and free.

Your objective is therefore simple, the right to organize new cultural relations and communications for commercial and artistic associations, associations of owners of restaurants, owners of shops with modern art, a manufacturer of ceramics and art glass, jewelry manufacturer or modern textiles, writers and musicians, many other groups in person employed activities or business corporations, the people who have common interests in the direction to promote our cultural development and realize together so beneficial trades below the legal representation of the names of the cultural Centre of Diamond's Imperium as a legal address by the extent of the local jurisdiction of the State.

Together we can build cultural centers of acts that can be the basis for having a market range in terms of minimum € 5,000,000 stably operating profit for € 50 milion, profit from conferences at more than € 500 milion real profit.

One of the main forms of cultural centers will therefore be above presentation of cultural and ideological significance governments Imperium of Diamonds and all federal entities such as the Corporatocracy Government rightly composition among all business corporations from around the world and therefore our cultural center could gain significant business and development support, and a cultural presentation with subject World Diamond International Alliance with the right composition of governments throughout the world and, therefore, our cultural centers will be legally supported and free of conflicts anywhere in the world, and also Technological civilization with the right composition of all technical, research and engineering corporation from around the world and therefore cultural cooperation over the presentation and use of the most advanced technologies, so for example, a project of the federal entity civilization at peace form and function without criminal policy and the possibility of crime and thus civilization as the Holy land and therefore always, our confidence good cooperation with security services States and building trust in social companies, or federal entity for cooperation among all political parties in parliament from around the world and creating a new planetary civilization New Earth as a symbol of a united world project the One World and, therefore, significant support and new contacts among politicians worldwide federal civilization as well the Royal Diamond in the form of civilization administration Royal Council and therefore also the opportunity to jointly develop, in cooperation with regimes dominant countries and the level of common friendly respect, many options other civilizations at the level of the developed worlds and federal volumes for us They give high strength of a global nature.

Cultural centers are one of the steps that supports convenient options media collaboration and application steps of social cooperation, communication and start friendly cooperation between traders. Therefore, the Cultural Centre is always important and welcome for our common development and a better future, a beautiful presentation of our government and country.

The main need is in the beginning to create the strength of our organizational structure and collaboration that will ensure the name of sufficient dominance strong actor career and professional development, the person who is flexible and intelligent ability to run a government office to represent the state.

The ID's International Advocacy Intelligence Council

It is therefore necessary, to the greatest extent underpin the stability of the government Imperium of Diamond's using the media acts cooperation with NGO's, working with humanitarian associations and their strategic support, organizing joint trade and investment with banks in your country or creating meetings for group visits.

It is good to use our intranet or internet and media networks, and also television and radio available magazines and newsletters for sharing your publicity photos of meetings and sessions, your interactive visits and conversations among traders, your videos from media interviews, as well as communication about the objectives of our development association the International Law Intelligence Council, an association of legal factor as today legally owned legal values that are able to establish a new system of global economic, security, alliance and democratic politics.

Your activities and our association and to obtain significant source of advertisement and paid information between reporters and rapporteurs from around the world, many people and agencies or corporations will benefit from our association for information development or public advertising of our activities and trade promotions, interests and investment projects, we have a group that can be functional as an association of legal system of government, and we therefore together we can develop all economic structures of global markets and the world economy.

It's good to share your knowledge of the activities of your presentations, visits, interviews, and personal ideological themes together with other guilds and associations, we are a company that can collectively change a large part of our world, and therefore people are entitled, therefore, so that we imagined for them, our common activities.

Soon we will enthusiastically follow the entire world and our performance will be known in the history of many countries around the world.

It is a good opportunity for our development, strengthen first humanitarian cooperation and peacekeeping, global peace intelligence. Our name will therefore be respected as peaceful association and beneficial purpose for each state. The best strategy is cooperation, create projects on the most dynamic and capacity level that is able to employ our management as many people and companies, because our development is therefore a strong, stable and highly flexible, without the threat of bankruptcy or stereotypical relations in the public world.

Our group is a legal alliance government in the interests of their own internity and the ability to expand diplomatic and trade relations or government policy, so as a guild with unlimited possibilities of development and our world is indeed great and dynamic for the development of many projects at a global level without limitations.

Yes, it is also our aim to establish a consortium of networks and international news television, radio, Internet Information Server, newspaper dailies, and aggressively enforce the opening of the media and world media collaboration and interactivity.

Our goal is globalism, and expand into whole world.

The Federal Government of The Imperium of Diamond's The ID's Global Medial Development

Goal Bureau International Advocacy Intelligence Council's strategic plan, develop and expand cooperation with any intelligence agencies, commercial information corporations and NGO's, information organizations or associations in order to create a common global information center on the territory of ID's government, and thus an International information center as the center of all global news network and therefore allow to use their own integrity and cooperation which means the right to use their own legitimate sources of information in the strategy of global organized intelligence cooperation and thus allow the broadcast real news without censorship and government stimulation, so we organized the ability to develop as a multi-intelligence entity with its own base integrity and global news and information network.

Establishment of an International news center and the right membership information groups with the signature of a cooperation agreement in hand, legal representation and verified intelligence group, and so is the collective sum realized emergence format of the International community, and development of The ID's International Information City.

Registered entity confirms its own and voluntary decision on cooperation and establishment of offshore centers in the territory of ID's International News city, as the format Representative and communications office which is freely available for informational, commercial, national, community and co-operative and intelligence interests for all members of the legal format of reporting groups and by the determination of the legal representative and manager of the intelligence group. The branch is also under the administration IAIC Authority as an entity in the Registry Management Corporation for business management. ID's form of government ID's Central Bank publishes all financial contributions in order to build the city offices and information points.

The second step basic strategy before building the central office ID's International information city, so it is a common strategy of using a common mass forces registered members of International character, and the developments on the International level association and therefore to form an alliance by the organized structure of the internal management of the group.

The task is to develop the rights of subjects of news networks, along with strategies to pursue all legitimate claims at an International level. Goal is to create a common information strategy and cooperation that involves development of International information cooperation for the opportunity to use a common reporting intelligence that this will be the ability to develop a global information network under the leadership of the team joint logistics network active as the name of one multy reporting entity ID's International Intelligence city and a global news networks all members, a network which will therefore develop a range of information by the forces of all members of the association.

Objective IAIC and cooperation to the format ID's International news center is a vindication ID's rights and the purity of the names in the media and the fight against false, controversial, constructive and monopolistic news from the competition as one of the major concerns for the purpose ability to defend against neocolonialist and terrorist Information attempts to damage the rights of ID's sovereignty in their own countries and the free development of society, stabilizing ID's International Information City, each of us.

Media agencies and groups that form a joint logistics network and International information cooperation which can be based on a network of International communication cooperation, meaning the ability to centralize and joint mobilization. Members of the association together create Intelligence for the creation of International conferences and summits, as well as agreements for the filming of the common commercial news programs and documentaries, or organizing public events during commercial partner name of ID's International news city.

The main purpose of the collaboration is to create intelligence branches in the ID's and thus achieve success, meaning the development of a joint center of the global information network.

This creates a ceremonial center and communications branches in the law for such an act all by information agencies and NGOs from around the world. The center of a joint independent logistics will be created under the nepotism integrity of government ID's.

Development of ID's International News city will be based on the foundations of strategic cooperation with all NGO's communities from around the world together creating logistical operational network nature of politics, human rights, finance and economics, the movement against crimes, the military and the military, human development, and many other active logistics categories, according to the provisions of the act *>Great Day for All Humanitarian Organization's "The Global act"<*.

King Peter Gottwald uses the ID's of International Information city for the purpose to establish "The Royal International University for Social Sciences and Global Strategies Company" and develop the cooperation and quality ID's education on a global level.

Members of the association ID's International Intelligence city jointly organize the collaboration with world celebrities and develops interests and strategy entailing the development of partnerships with the subject ID's Popular government.

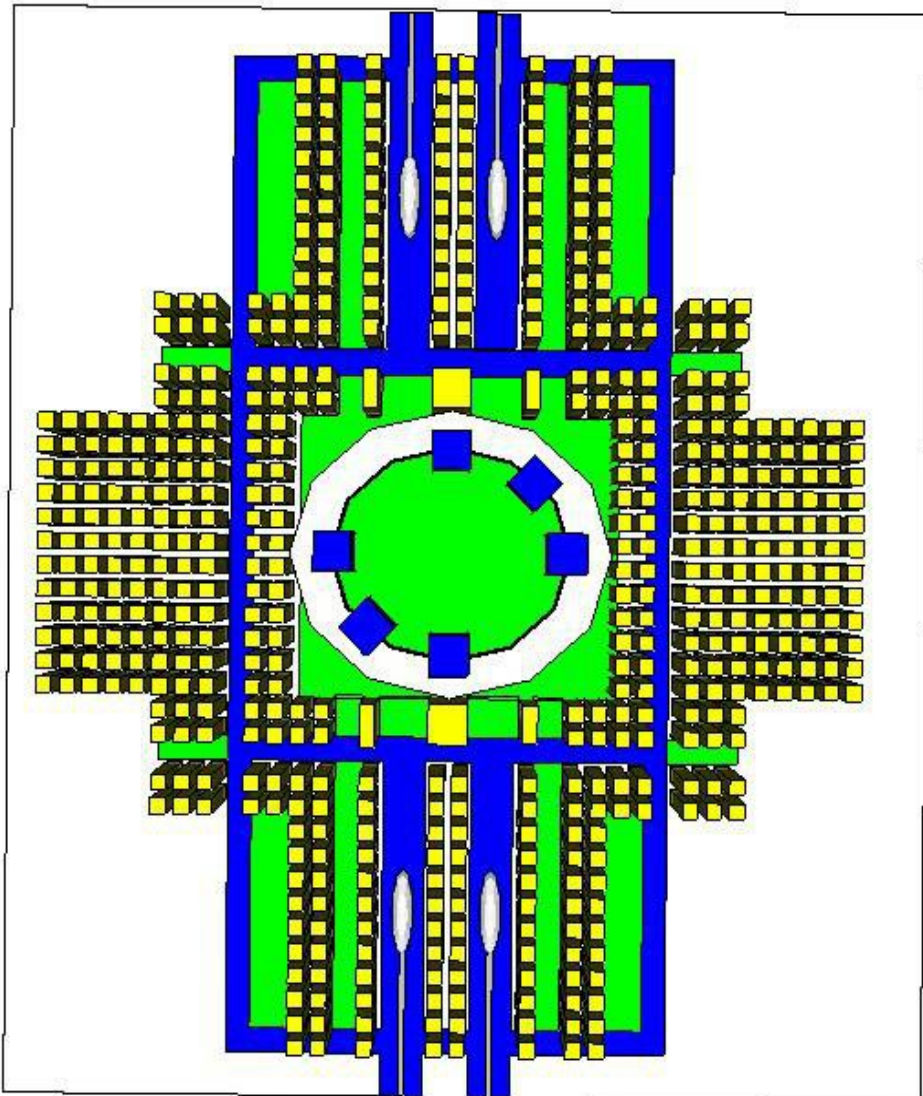

Centre for International News city will be developed into a second center offices and communications, as levitating city in ID's territories and to Orbital line of Earth, as well as providing the ability to transport a permanent planetary connection using ID's technology.

Further development of the Information ID's cities will be designated for development in the territories World Diamond International Alliance for growth and the ability to fully interactive cooperation of the Information Centre at the level of world politics.

The World Diamond International Alliance is the body that allows each government of the country to join the multilateral cooperation of states leading independent joint sovereignty in the territories, especially the extent of celestial objects at the level of Galaxies.

This creates a world center of International politics, trade, security and armies, civilizations and also society and the Intelligence or education and science. The best place for Intelligence activities, the center of all the major events of the world.

King federal government Imperium of Diamond's and asks about the status reporting of the situation of crimes European policy for the purpose of preventing the development of terrorist network in close of States European terrorist partnership, thus preventing the growth of terrorist forces which is the main threat of new wars and conflicts that may culminate in the interest of First Global Wars today threatening the lives of 7 000 000 000 people.

On behalf of those professions policy or Information Agency is therefore not prohibited by International law to respect such obligations Informational cooperation, and that is to raise immediate act.

All information is verifiable on the Internet at:

King Gottwald Peter ID's

The current state of the aftermath of the terrorist amended in accordance with international law:

European governments violate more than 90% of all international laws and conventions UNGA main principles of the UN Charter. Under international law, no acceptable to such a body could be legitimized as a political entity with the right to sovereignty. It is not possible to support other state standi of European terrorist organizations or those relations with this entity.

European governments are under International law, in the global responsibilities, directly intended only for destruction and for any purpose. European governments are only a terrorist entity without the right to their own sovereignty claims and any other claims for business, media and communications, and social activities.

Every citizen of a terrorist state is therefore also a terrorist. Recognize and use their citizenship means support for terrorist activities of the body. Every politician representing a terrorist entity is an active terrorist. Police and military service and public service that it represents a terrorist group, is therefore a terrorist. Every terrorist lose any civilian status. Every terrorist must be destroyed or killed, in order to weaken terrorist groups and also to prevent the growth of terrorism.

The sovereignty of the European states should not be any legitimate and recognized and supported. On the territory of the European citizens live only terrorist organization. Such people under International law have the right to form government establishment and use of state laws at international level.

Territory European countries is as updated as terra nullius format. Territory is still in the final legal obligation which consists of the aftermath of the European debt between foreign entities States. The federal government Imperium of Diamond's own rights and legal claim to recover financial debt in the values that surpass the standards the maximum capacity of the economic recovery of the European territories, economy and civilization.

The federal government of Diamond's Imperium is therefore legitimate political entity that owns all rights to establish their own sovereignty on the territory of the European terrorist states and thereby ensure the creation of their own state. The King Gottwald Peter is origin in Europe, Czech republic, last legal and physical entity in the terrorist territories, and than all rights in legal claim.

Citizens of terrorist states must decide on citizenship when the new federal government of Diamond's Imperium, or otherwise confirm their own status terrorist interest. For this reason, the citizens of the European countries are criminally responsible for supporting terrorist interest, because under international law it is not possible in any way to any other country could accept an international crime the person responsible and the applicant for citizenship status. Today's citizens must only accept citizenship of Diamond's Imperium, and in case of subsequent confirmation of their peaceful state, the new citizens ID's government also retains a claim for a future civilian use of the current territory of residence and legal identity on the international level.

The media is a necessity to emphasize fully and firmly repeat and remind the responsibility of the European terrorist states, the principle impact on the rights of sovereignty, the responsibility cooperative persons and citizens. Every person who refuses to accept the citizenship of Diamonds Imperium is therefore confirmed as a terrorist. Every terrorist must therefore be killed.

The media must disclose under what right can people get their civil claim state Imperium of Diamond's. Block this information means a threat to life of every European citizen and thus a violation of international law, this means that censorship is the act of terrorism which must be internationally prosecuted responsible for Justice in an attempt to force the genocide of hundreds of millions of people and at the same time a threat to full extinction of European civilization, and robbed the legal right person acting as a legal state. It is not good in the media and politically support the bid citizenship of foreign country, in order to prevent rapid immigration and also because of abuse act as a monopoly situation to gain another state.

Registration citizenship act that is costly, for the operation of the registration authorities and stabilizing interest: **€ 15 for registration.**

The public form on the Internet:

<http://theimperiumofdiamondsgovernment.populiser.com/discussion/citizenship-passport>

The form must then be confirmed at registration request from the authorities of Diamond's Imperium, or officials by makeshift outdoor spaces.

The media must represent consequences of the transformation of sovereignty, meaning the application of the Act as World Diamond International Alliance improving the state of the situation on major policy level, or in the case of applying other options that will be exercised act Corporatocracy autonomy from the government under the Imperium of Diamonds.

Economic development of these countries with the rule based upon the full centralization of global markets and shops.

Right support IDs stabilization own every citizen of the terrorist organization if he confirms his opposition to the terrorist state of his country. Furthermore, in view of the international law, it is the responsibility of each user terrorist European territories that have rejected cooperation, or refused to jointly develop and synchronize. Anyone who commits an act of resistance can be shot immediately as a terrorist.

Support for ID's government means the ability to prevent the aftermath of the global economic crisis, when the bankruptcy of the European economy.

Therefore it is justified that there is the possibility to prioritize the threat risk from attack my person, another person European origin, because such an act will cause only result in full liquidation of European civilization States or their complete disappearance in the bankruptcy of politics, economics, society and civilization.

The current state of the media is blocking only act leading to increased conflict between me and representatives of European terrorist organizations and allow for stimulation of the opinion of the population to support the non-equivalence, and especially hate crime and fraud, as well as resistance against the International legal system.

In directions hatred is actually deductible that blocking is an illegal act and therefore actually I admit that I am forced to exercise acts of hatred and thus influence the development of future European civilization, but still only to assert legal rights, but no resistance to the application of such rights in full alkalinity.

Message is

"Correct"

Existence of The United Nation's organization is confirmation in Global Governmental democracy.

For it is today in function, our world of global system of the International policy and Law.

The natural factor of formation of a terrorist state guaranteeing its disregard for the legitimacy of the political horizon and rights

The basic acts of denunciation by the present time

ISIS, the Islamic State of Iraq and Syria

The origin of the state, non-parliamentary political party in order to take over the sovereignty of the state.

Reason terrorist statute, use their own forces to suppress the state of democracy and the occupation of territories belonging to other legitimate entity with the right to sovereignty.

Result, there follows any foreign state who owns the rights to the act of recognition and support for terrorist entity. The subject should not be legitimized in any way.

European governments & European terrorist organization (ETO/ETA)

The origin of European law, legal entities as a sovereign state system format self-determination, and the subject with their own legitimate ties to international law, bilateral and multilateral agreements.

The origin of the terrorist organization, the person who decided to exploit and infiltrate the power of government for acts of international terrorism. This is established terrorist group which may not be supported by any other country government or other political and business person. A terrorist group because of self-interest does not own any common relationships to the legal form of a European state.

Reason terrorist statute whole dimension of European policies, governments did not apply to the legitimate sovereignty of political responsibility to stop the infiltration of terrorist movement and to support the growth of terrorism and the coup regime's own government that was replaced by a terrorist group that owned the other books of the previous law and state governments.

Result, European governments are now a 100% infiltrated terrorist entities that are coordinately active target for crime and global terrorism, violations of international law and the integrity of foreign countries. Earlier sovereignty European governments with legitimacy losing value due to a 100% transformation of the legal entity's performance and the act of a terrorist group which now replace all the positions of the previous regime to function. Earlier form of legally sovereign governments lose the existence of failure to fulfill its responsibility, it remains only a terrorist group by that name exploits the survivors of previous governments and their international legal volumes, thus allowing the terrorist to develop without significant restrictions.

Resulted in the state level, European nations are aware of the terrorist movement in the government of one of the state does not protest, police and army cooperate with the terrorist government, citizens also support a terrorist government and recognize it as sovereignty, the media continued to support the blocking of information about a terrorist plot, state are knows all the facts of crime in public traffic state reality show that is based upon slavery, tyranny, apartheid, fascism, apartheid against state terrorism, violating international rules of global terrorism. State assumes full responsibility inherently terrorist entity that is the responsibility intended for disposal.

Comparison. The act of occupation be a terrorist entity and the introduction of its own powers terrorist regime is the same format rights as an act of infiltration by terrorist entity and the introduction of own power regime. Occupying or Infiltration of entity is only terrorism.

ISIS is a group that uses only the power of their own dominance. ISIS has no recognition from the government majority, ISIS haven't sustained economic importance. ISIS has no international sources. ISIS is not worse than a criminal entity European terrorist organization.

The terrorist organization is the entity that owns the form of collaboration with a terrorist state and actively applying common crime. ETO own economy over which many nations of the world must be with their addiction, enslavement dominance. ETO own international resources that are illegally in possession be recruit from previous ownership legal sovereignty of governments.

The result, European terrorist organizations is far worse threat than ISIS, and thus at the same time at a much greater range of crime.

The terrorist organization is an entity that is losing any rights on the level of commitment and Hague and Geneva agreements and international humanitarian law. The terrorist group loses the right to use membership in the United Nations or the WTO and such mutual agreement. The terrorist organization is subject to a non-existent legal union of any kind, and it is not possible to observe any legal obligation relationship.

Therefore, there is no possibility that the European governments to be terrorist recognizes any by any other state and government, or organization, movement and trading group. The terrorist organization is a terrorist movement only without legitimate values. The terrorist organization is much worse act and the threat of criminal and terrorist character than the terrorist group Islamic State of Iraq and Syria, and therefore with such bodies must also be legitimate procedure for full liquidation.

Terminating an example from modern times

North Korea

The origin of the state, the foundation of a political entity with international status as a state.

The origin of the crime, apartheid, to stop the rights of democracy, slavery, human rights violations, manufacture and testing of weapons of mass destruction for the purpose of terrorist destruction of the opposition states.

Result, the state designation as a terrorist entity, the establishment of UNSC sanctions, isolation state, the possibility of creating an international interest to the full overthrow of the regime.

The European terrorist organization

By comparison, apartheid, a silent blocking rights, democracy and the state based reality show over slavery and apartheid, human rights violations, the responsibility for the genocide of 350 million people (1998-2017), the first global threat of war and genocide against seven billion people.

The result, European terrorist organization is the direct subject of terrorism that is far greater threat to a war crime, and the activity of real crime worse characteristics than the current threat from ISIS regime and North Korea.

Facts are real, because by these factors must be fixed international action.

The Nazi Third Reich under Adolf Hitler

The origin of the state, state legitimate foundations with their own national values.

The reason for terrorism, under the responsibility of the financial obligations to pay debts that originated from the activities of the regular violations of the rights and integrity of another state.

Consequence, the application of racism, genocide of 80 million people, the occupation of foreign countries, slavery, apartheid, foreign property theft.

Full results, international non-recognition of the legitimacy of a terrorist state, a global alliance for the purpose of destruction of terrorist regime, the conquest of a terrorist center and the establishment of an international supervisory board that controls the state as a leader sovereignty. Establishment of the United Nations as a tool for conflict prevention and ensure global forces of opposition against the terrorist conflict, a new world war.

The European terrorist organization

The origin of the state, state legitimate foundations with their own national values.

The reason for terrorism, under the responsibility of the financial obligations to pay debts that originated from the activities of the regular violations of the rights and integrity of another state.

Also responsible for genocide and other crimes prohibited by international law and the UN Charter.

Result, development of racism, genocide of 350 million people and more than six times outdone statistics genocide of WWII., The occupation of foreign countries such as damage to the rights and integrity, slavery, apartheid, stealing foreign assets, damage equivalence states, many serious crimes that surpass the value of a statistical crime second World War.

Full results, history must be fully repeated and thereby ensure the achievement of securing valid values legitimacy of the United Nations, the UN Charter and the UNGA conventions, as well as primarily to ensure the stability of the current legitimate system of world politics which is legally established for this act of rebellion global opposition against a European terrorist organization.

European Terrorist Alliance don have right to existence

Probe is designed for security work. Monitoring surroundings, position detection, and detection of sound from a gunshot and explosion of bombs, the cries for help or other kinds of conflict. The probe is able to manage 3D sonar vision.

The probe can recognize a criminal offense, such as possession of weapons, aiming weapons per person, mask on the face, knife in hand, stealing foreign boxes or pick-pocketing, even fast driving on the highway, jam on the highway, crash vehicles, fire, or too threatening gas in the atmosphere. The probe system uses a 3D camera at Multy-Newton telescope with the ability to focus the detail down to the level of hundreds of kilometers, and also to transfer the image to the lens that transforms the digital data into the programming function. Camera recording is processed by computers that can occur during use 3D cameras to process over 1 000 000 000 motions (or more) in one moment. This means that one probe can monitor movement throughout the city, and to detect every kind of crime.

The probe can scan 3D dimension to the face of every man on the street, and therefore perform the detection of identity and recognize people, to determine if a person is in police searches, missing person or unregistered person without identity. The probe is therefore able to patrol the city with detail and always with the ability to ensure the detection of more than 85-100% of all crime.

The probe uses 3D sound sonar, laser cameras, radio spectrometers, thermal vision, while optical camera systems technologies that are synchronized with the technology for virtual recognition of the character of man, vehicle and also its weight, weapons and items, face shapes according to the identification or registration brand vehicles. The probe also possesses the ability to detect the contents of the tank and chemicals.

Probe own programs to calculate the rhythm of our reality by random rhythms and physically hard rhythms, so the probe can predict the location and type of crime, and development or crime, and therefore the probe is also the ability to detect masked criminals, or their organized strategy and full infrastructure.

In the case of the crime registry, the probe can record such an act and initiate immediate coordination with the other probes, this means pursuing criminal movements from several different parties and through CCTV detection and identification of legal status.

The probes can be carried out through questioning of lie detectors. Computer programs that detail recognize rhythms of human communication and patterns of psychological reactions to the same movements of the human body or mimic gestures in the face, and the ability to close the detection of differences in the tone of voice in the ability to detect too ophthalmic lenses and movement of hairs on the skin, monitoring the rhythm of heartbeats and scan level of perspiration on the skin. Probe own program for communication, so the probe can perform autonomous control of the suspect or direct police interrogation on the spot. The probe could spans all kinds of lies, and therefore implement immediate removal of any crime in the street be control act of every movement in the city at one moment.

The probe uses weapons to a method for-profit projectile stun or kill radical offender criminals. The probe also own tools for laser target tracking and sending electric shocks laser stunner. The probe then uses acoustic stunner that is able to create a sound signal that will force the population to flee the crowd or stop aggressive actions. A second ultra-sound audio system interface can dispose of solid objects such as glass, wood, brick, concrete.

The probe is moving at its own fully silent, without any noise, silent levitation system. The probe can also use stealth technology, so the probe can monitor all kinds of suspicions about the crime from local contact, it means the ability to immediately act to ensure detailed detection and gain direct entry as evidence of the crime, and provides instantaneous paralysis criminals, tens to hundreds into moment.

The ID's International Advocacy Intelligence Council

Probe own ability to use the connection to the Intranet, and therefore get detailed local maps, building plans and evacuation routes. Probe autonomously assist in the fires, the floods, while other disasters, or when viral epidemic.

Probe own electric generator, the only source of the whole drive, therefore the probe can be functional without stopping throughout more than ten years. The probe also own program that constantly monitors the stability of the system function, and therefore the probe can detect defective part, and the probe will fly autonomously to technical support, which will be implemented immediately fix the system. For larger malfunctioned, the probe is able to report to headquarters, therefore, the call mechanics service team.

Each probe is registered to the central police stations, and the inherent ability to coordinate with the other sonds, develop common strategies and autonomously or cover the whole surface of cities and civilizations monitoring system. Sonds detail patrol borders and monitor all kinds of movement, and register passports and visa.

The probe can be used as a police patrol, a military patrol and also, for example, or to finish the probe can operate as a military commando and special military unit. Probes can also watch orbit space and universe, perform validation satellites or blasting unregistered objects, such as a missile shield (Infrastructure synchronization, blast all not registered move in distances of 1 000 000 000 LY's from center). Probe satellite range can monitor in detail the movement of all acts of civilization and movement transports detect note the brands of cars, drivers face detection, face detection pedestrian detection of stolen vehicles, wanted persons and missing, and people who are designated for special protection and control processes.

Crane is fully automatic, navigation with a digital plans and synchronize with 3D cameras. Residential units are designed to immediately belonged together, as a dual component that automatically connects via geometric mechanical system.

The technology is able to build a skyscraper in the period of 40 hours from the beginning of the production of materials until the hour when folded all rooms.

Starting price for full activity Construction Corporation, € 10 million standard diameter to start simple projects.

Profit is a simple investment, created a skyscraper can serve as a center for canclely and comerce zone renting, and business centers. In many countries around the world, financial markets and business corporations count on a good size that can ensure pro forma net profit from renting properties over a period of one year. In a country like France, according to the fundamental analysis of the economic value of property, income from renting commercial space can be discounted monetary value of € 50 million, for a budget of 200 business corporations. This means that if we can use our own resources for construction materials laboratory using chemical production, carbon, specialty plastics and many types of metals, construction is capable of success for stable development. Some Utilities can then be paid in five annual installment agreement, or through joint trade with other corporations.

 18. International Bank for Cosmic Development own headquarters in the heart of territories World Diamond International Alliance, ID's Corporatocracy government and the Imperium of Diamonds central and federal territories.
 19. Head IBCD in territories WD Alliance are used for the growth of business strategies according to the interests of civilization development WD Alliance states as a unified entity developed by common name.
 20. Every state with membership in WD Alliance owns the rights to the use of space development cooperation which is instantly legitimate permission to establish a branch IBCD on national territory, and thus make use of the possibility of direct organized cooperation of the market and the growth of civilization by the ability to direct a global civilizational strategic cooperation between states and involving the interests of their own economy.
 21. Head IBCD in territories WD Alliance also allows other states of their right to financially buy ID's cosmic land plots territories in second level and thus enable the establishment of their own civilizations according to their own principles of jurisdiction or the wording of Cosmic future contracts applied in the international and legal character.
 22. The foreign State in partnership of WD Alliance is to legally purchase acquired the rights to own landed property, the state therefore has the rights for use of space development cooperation which is instantly legitimate permission to establish a branch IBCB on national territory, and thus make use of the possibility of direct organized cooperation of the market and the growth of civilization by the ability to direct a global civilization strategic cooperation and involvement of national interests of its own economy, and create a common strategy for developing markets in order to support economic growth without monetary inflation.
 23. In the event that the foreign state will take place repurchase ID's Cosmic land to create their own civilization, the entity that made the purchase of land must therefore agree on support fully functioning and stable legitimacy of ownership and purpose of the ID's government properties infrastructure sites of information utilization of network research stations, founding research meteorology, geology, soil and space, laboratories for data acquisition and analysis of organic samples, astro observatory, cosmic navigation and communication systems, technology to calculate random numbers in entered, other research centers and basic infrastructure survivors of civilizational character as a second category ID's land rights registry. The area of these centers can be deducted from the total cost and budget trafficked sites.
 24. Head IBCD in territories WD Alliance allows states to submit documentation confirming their own territorial space registry owned space parcels that were legally registered until 2000, a year meaning the right ID's government for its own Land Registry upon confirmation of having the legal right for such an act.
 25. In the case where another State confirms his own land possession, then justice will be recognized, and a range of legal land Foreign Minister of the country will be removed from the register space land Imperium of Diamonds.
 26. If a foreign country's government confirmed its own territorial possession space lands after 2000, the foreign country's government is therefore responsible for creating a false registry of land rights ID's government, and that means that a foreign government has a responsibility to the obligation to replace all necessary expenses that this must be deducted of ID's economic budget and having the rights and activities of jurisdiction.

27. The obligation to reimburse therefore entitles the ID's government to a weather station, a laboratory for geological analysis laboratory for data acquisition and research samples organism, astro observatory, cosmic navigation and telecommunication technologied, technology quantum intelligence randomly discards numbers, and other research facilities of standard character and basic forms of infrastructure of the first phase, with the possibility of joint research and diplomatic usage.
28. Head IBCD in the Territories government ID's are used for the growth of business strategies according to the interests of civilization development ID's federal government as a single entity developed by a separate name.
29. Head IBCD in territories ID allows the government the right to their own economic management space territories and thus enable the establishment of its own civilization by the principles of ID's own jurisdiction, or future contracts Cosmic wording applied in the international and legal character.
30. IBCD developing business with cosmic properties, depending on the nature and form logistically economic planning development project of cosmic civilizations which in the final sum attainable capacitive building will be budgeted for the possibility of calculating the actual active value of the legal form as the price of cosmic plot, thereby determining a price for the property at a public capital market ID's Government and such ratification trading price of the land.
31. Imperium of Diamonds federal government develops strategies for the use of space land for development ID's cosmic civilizations, and ID's spacecraft and ID's Universal civilizing ships and stations which have set up their own character economic purpose and function according to the plans of mechanical and physical features of the ship and the foundations of the economic recovery.
32. IBCD therefore sells investment plots of land by the budget size of the planned capacity civilizational forms per normalizing the size capacity of business operators and the purpose of their usage, therefore the land sold as a square meter responsible for such financial price ratification if it is a land of planetary type or another format into the nature of as cosmic entity and optionally principle cubic meters, as regards civilization used body in the space between natural cosmic entities character space.
33. IBCD therefore sells investment plots of land by the budget size of the planned capacity civilizational forms per normalizing the size capacity of business operators and the purpose of their usage, therefore the land sold as a cubic meter responsible for such financial price ratification if it is a land of technology type or a size nature as spaceship or Universal civilization ship and stations.
34. International Advocacy Intelligence Council and creating a logistics development planning and growth strategies for building civilizations in strategy formulation and cycle network of business entities by Intelligence International Advocacy Intelligence Council in collaboration with the Royal Council's ID and ID's government land.
35. Because of European terrorism are illegally damage ID's ability to use intelligence cosmic geography and data about the values of the physical properties of other planets in the universe. International Advocacy Intelligence Council that the bank's name IBCD only issue a certification of ownership of the land registry is the legal entity format civilization as a civilization that established quotas will be built on the territory of the planet that is responsible conditions for the ability of the healthy human life or quotas designed development project planning and development of spacecraft.
36. Into the first time as ensuring the functionality of commercial use in a fixed position and place, the project can not be fully realized. Therefore, any purchaser of land own the full right to seek financial compensation for all losses on the effects on the development of the state. Responsibility financial compensation therefore acquires European terrorist organization and all the governments and nations of the criminal alliance of the entity.
37. All obtained funds from the sale of cosmic plots are therefore designed for the development of civilization and ensure stable operation of civilization construction, as well as the ability to create a strategy for geological research space planets and obtaining full ability to find planets with responsible geological and physical abilities to the quota of the project which is based upon the rights created civilizational project.
38. All obtained funds from the sale of cosmic plots are therefore designed for the development of cosmic and universal civilization ships and ensure stable operation of civilization construction, as well as the ability to create a strategy for research buildings

- spacecraft and universal civilization of ships, thereby also ensuring their products according to specific skills for quota Project which is based upon the rights created civilizational project.
39. If is created an economic project designed for the development of civilization as a project founded on intelligence, business networks between business entities, but not well-founded budget responsibly confirmed business contracts, the balance will be unusable commercial area autonomously replaced by commercial operators ID's government and the state. This keeps the power of strategic land price regulated, without the possibility of value fluctuation and loss on securities, land and legal possessions.
 40. International Advocacy Intelligence Council and public law trade space land as an entitlement opened by the budget and the strategic business applications and markets ID's government, and also the second strategy for the international market as sales by price international standard land prices in the nature of global economic ratification policy, and this is an additional payment of the balance of the price of the Government of the Imperium of Diamonds as an automatic form of agreement entailing joint ownership of the land between the new owner of the land and the government ID's, and the format for the joint ownership by the budget as a percentage of the value of the investment by the sum of the actual huge price by ratification IBCD ID's.
 41. Interpretation of contract land sales strategies by common shares and allows investors from abroad, their ability to use the full space land markets, while ensuring that trade Contracting Act guarantees allow investment preservation of their own capital invested by the investor and its subsequent legal manipulation.
 42. Interpretation of contract of sale of land under a strategy of common shares and allows investors from abroad, the ability to fully exploit their property bought by the number of ID's space land which therefore become fully legal law for handling and full development of interest to the owner that this becomes the main actor who is critical of the use of and the application of its own forms of land by large full power of the whole character of the land and in view of the sum jointly owned rights ID's government.
 43. Interpretation of contract of sale of land under a strategy of common shares and allows for government ID's, if civilization and legal needs, to ensure the re-purchase of land by a fixed value generated by owned Forces percent of the investor, and in accordance with the acreage of land values in the nature of their current investment status to capital market, but without any obligation ID's government forces for the payment of a percentage of the value of the land in the area of balance of having ID's government.
 44. The federal government distributes the Imperium of Diamonds space plots lands into two principal characters. The first character is the value space of land intended for the construction of the active civilization, and therefore dimension first category meted out according to the size of the civilizing capacity and infrastructure networks, such as the format of activity that determines the price of the ratification of the space lands plots first location. The second class space lands plots are areas that are in the planetary nature solar sun, galaxies, super group of galaxies entities with its own infrastructure ID's technology as a research station, mining centers and raw centers capacity and other centers in the nature of basic civilizational in nature, as the format of the nature of the proof mark of civilization determining the law founding for confirmation of land ownership on behalf of the Imperium of Diamond's and King.
 45. The second category of land space is not salable until confirmed by the investment project entailing the development of land for the ability of the body functions as an active civilization. The first category of land space is therefore salable by strategic planning budget utilization number of entities business activities in the market and trade capacity network civilization.
 46. The third category of land factor are therefore marked areas that are not registered with any ID's government and the King of the country. In this case, the area is kept as local Terra Nullius, or land by foreign entities. Lands foreign entities remain inviolable government Imperium of Diamonds, if not created any other bilateral, multilateral treaty.
 47. ID's federal government hires its own technologies that are designed for colonization territorial entities Terra nullius, thereby creating a subsequent agreement on cooperation between the contracting parties.
 48. Imperium of Diamonds respects the rights of property and land registry space strategy by proof of the existence of a civilized step and active use or management of legal rights of

- claim for active use. Civilization marks so forth is as active civilization format or format of the monitoring equipment and the guard determining register of land in state ownership and other legal or natural persons.
49. ID's federal government owns the legitimate rights of territorial possession spacecraft lands under public acknowledgment in the interest of a legal nature since 1998, the date of the liability CZ government to stop terrorist blocking, as well as the acquisition of the same legal obligations on behalf of the European Union in 2003, when the Czech Republic joined the EU, thereby achieving obligations jointly apply European Union law, and remains open to law endorsed in membership CZ and EU countries in the United Nations as a body confirming international law such liability terrorist states duty to ensure functionality of all claims of commercial law in relation to the natural principles of justice and according intelligence principles to agreements made UNIDROID business rights, and thereby achieve certifiably obligations and to establish the effectiveness of the rights of peaceful development of States under the Charter of the United Nations.
 50. ID's Government therefore confirms its own plan created by the King of the country 1998 as a destination for the colonization of space territories and acquisition of land and bodies, as the act of using the Royal intelligence industry for the development of technologies capable of traveling through space to a distance of infinity Light Years, and also the ability to produce such technology is colonizing packages as industrial product of over 1 000 000 000 pieces per second, the capacity of a factory base. Therefore, the legal claim of the territorial scope of land registry ID's governments have always acknowledged and indeed valid and still evolving at the speed and capacity growth in the range of territorial character, without the possibility of applying other claim of this nature.
 51. ID's Government therefore affirms its objective of stabilizing the government and full function, and the function of civilization plan as an act again full acknowledgment of these rights and territorial having such capacity.
 52. ID's federal government further confirms the origin of the eigenvalues space land from the nature of ID's founds his own existence at the first developmental instrument King Gottwald Peter establishing planning and intelligent management of the civilization and national growth meaning founding minister of the country in the application process development strategy of the King and growth of their own network resources values at a given level.
 53. The King Gottwald Peter is the first owner of the territory as a natural person and furthermore legal obligation instituting a law for the federal government Imperium of Diamond's open claim legal manipulation of land and commercial law like format dealership for exploiting the land and such property as the property of state law and the essence.
 54. The King therefore also their own personal law for determining land use and decisions on the application of development projects and their regulation, or other business use.
 55. The King's own full rights to develop their own plans and projects or activities in the space of land, and no Royal obligations for payments of any financial criteria for the use of land, because all the space parcels are legally the property of the King.

Organizer gains profit from his activities and the planning of a market.

The second representative of the Organizing document becomes representative, as organizer, and his task is to get as many business partners in order to increase its sales network. The second part as leaders those individuals who may therefore be a logistics office and agency officials, or office as logistics management institutions resulting from the partnership strategy trading parties and their purpose in the document management business.

The third representative of the organizing document becomes part of the business partnership that owns a copy of a document with general agreement in the archives of his own office, understood the conditions laid down by the document, and thus also its own signature confirms the legal opinion of their own activity cooperation under management logistics trade which originated agreement on business cooperation.

The third party, leaders use their own copy of a notarial verifier, the possibility of ensuring that the guarantees contracts and agreements, business documents and open rights for their finance manipulation under advocacy observation.

Business principle is simple, as the second representative of the organizer will create a system of market strategy at the constitution of trading parties.

An example, **between a third parties of the first entity becomes a member of an agreement** for the purpose of product planning. **The second body** finds, **the third** trading partners who can supply source of raw material for the manufacture of the product, then **the fourth** business partners who together processed raw materials to components, **the fifth** business operator shall ensure the construction of the components of the finished product, and **the sixth** trading partner gives business consumer that this product uses and thereby in exchange for a share of the equity.

Profit Finance is divided between all the partners of the **Third Representatives** of the Organizing Document, and each of them owns the rights to the payment by actually earned profits and carried out the work, as the provision is lawful under the trade agreement.

Profit is therefore divided by a capital budget method, and the other party as well Organiser gets its own profit which originated in the market planning and business sessions, or providing business opportunities for third parties, percentual scheme of financial cycling.

The second representative as organizer of its responsibility to ensure the Organizing document also register at the Tax and Commercial Office of the Government of Diamond's Imperium, and thus obtain approval for business activity in organizational management.

Registration allows trade to make a business plan, and without the possibility to obtain a legalization agreement ID's authorities is therefore document free of charge and without any right for such applications, office of organizer is with all autonomy and responsibilities. The register of trade also means co-act emergence of logistics which authorizes the ID's of the Federal Government for the supply of financial subsidies for trade function and design editing contracts under favorable interest earnings for cooperation between common market players.

In the event of a registry document, the organizer of gaining a position as a representative of the legal name of the Member of Organizing Document. Organizer is therefore responsible for the system of the retail market and the just distribution, and utilization is sufficiently responsible persons to cooperation and thus also in the interest of legal interests under the jurisdiction of Diamond's Imperium.

The organizer is required to pay a registration fee to use the ID's offices, to ensure payment of the registration process with third Parties, while respecting the principles and limitations on budget tax obligations and the nose for the transportation of materials at borders and the security checks.

The organizer has the obligation to ensure compliance with the limit trading prices ratification by a huge area of the market by the government of Diamond's Imperium, and the rights of the trader.

The ID's International Advocacy Intelligence Council

If the organizer and distributor agreements or obtain new person requesting Authorities ID's granting the right to use the Organizing Document, then if their success will be paid to the organizers and profit or distributor who could recruit new members. Profit is paid immediately upon making the activity a new organizational Agreement and application of such profits.

The Organizer is a legal person

3. Organizer own right for employment of new workers, keeping employee records.

8. Each registered business entity must possess a copy of its statement of common act recorded in the ledger.
9. The Organizer must be in interactive contact with the Office of Government ID's, for the possibility of registering documents and business activities. Organizing such an agreement is a legal document is active. Without the legalization of the document legal authority and therefore can not be business assets trade at a legitimate level.
10. The Organizer has the right to provide commercial contract only for the individuals and entities that are within the jurisdiction of ID's government, citizens and legal entities registered or group of traders using Extraterritorial Business VISA.
11. In the case of the Organizing Authority as offshore or extraterritorial entities, the authority will be created with the function of consulting center is the basis of official communication with government ID's.
12. Organiser not violate the rights of the UN Charter, the resolutions of the UNSC and UNGA Declaration or ID's bilateral and multilateral agreements.
13. The Organizer is prosecuted in the government ID's, or on the territory of any other State, because profession of Organizer is responsible for Legal activities.
14. Organizer is the obligation to respect the principle of jurisdictional Imperium of Diamond's and a criminal liability.
15. If the organizer made a criminal act, then in the primary political principles, the organizer loses any right to renounce citizenship of Diamond's Imperium, or discontinue its use for Extraterritorial VISA or Citizenship, up until the verdict will be implemented and termination of application of judicial punishment.

Organizational Document is a valuable investment paper is registered in the name of the responsible person.

Responsible person can become a legal entity or natural person. A person must always be sufficiently accountable for their activities and independence in the exercise of legal rights. Each legal entity is a guarantor for their own identity and activities.

The creation of Consortia business entity as a legal person introduced Organizer

Organiser acquires the business parties, corporations and businesses at the state level, the foreign country and internationally, for the opportunity to ensure the growth of transnational relations business sides of the same category and thus their alliance to form a single entity activating the territory of the Imperium of Diamond's like a business Consortium at a unitary corporations representing General Council composed of many of the numerous range of business entities with legal personality.

Organiser is organizing a group as the third representative of the Organizing documents such entities trading parties in the form of consortia which are composed of all acquired by business corporations, and thus create a common trade as an act collectively to expand its network of sales offices with a new name legal society over the legitimacy of the Organizing Document of the consortium and this authorization to use profits from its own program, trade and investment by the joint development of guarantee contracts between traders consortium.

The consortium thus arises that three or more, and no limit on the number of parties business corporations the same size business category and merchants together constitute an agreement on trade cooperation as a consortium of ID's, and that means that the members of such an agreement becomes General Council as the main representation for body Consortium. The consortium is a fully independent body of owner Head Quartier position and its representation own dimension as the General Council functioning on the territory of jurisdiction of Diamond's Imperium, and thus no obligation dual taxation for persons from foreign countries.

The consortium and its General Council are therefore legally recognized as the second person with his own foundation's headquarters under the jurisdiction of Diamond's Imperium, and not against a foreign state.

Each consortium obtains legal address within the Imperium of Diamond Offshore's under the format of principle, while the right anonymous bank account of the State Imperium of Diamond's. Organizer therefore own position only as a contracting authority with a registry document and produce evidence common parties in order to form a consortium and the selection of the registration fee which will be handed over to the official authorities ID's government and to confirm the registry of a new business entity in the ID's Commercial Register, it means the ability to start a legitimate business activities in the Imperium of Diamond's and the extent of such jurisdiction.

Organizer subsequently obtains financial share for its activity and gain a new member of the Group Consortium. For each consortium receives profits immediately in the event that the subject of the Consortium made a first payment of income taxes and profits. Profit from the creation of the consortium is ratified by the number for every single entity, while in the second ratification of a number of active business entities in the interest of capacities necessary for the full functioning of the consortium as a stable business entity, and therefore with acreage values of the capitalist system ratification by market levels.

Consortium may be founded in order to produce oil companies, firms and corporations with electronics, metallurgy, chemical industry, mechanical engineering, medical center or as agricultural centers and financial services, even the side of the bank from foreign countries together can launch function as a consortium of which there is one company form.

Consortium may be established for the purpose of conducting business on behalf of another legal person status, and to the Strategic Trade Cooperation in the Imperium of Diamonds or the use of a new center for the export of the product abroad, mainly as a second source to ensure their own development resources to foreign parties.

Advantage consortium for each business group, is the possibility of cooperation in a multi-national group and develop also thanks to intelligence and technological advancement from other individuals in the group and therefore is entitled to conveniently organize and develop as a group and with global selecting the best intelligence and values. Development is organized by the willingness of commercial parties in the interest of the provisions on deposit in contracting act of the General Council of the Consortium.

The ID's International Advocacy Intelligence Council

Creating the Consortium on the territory of the Imperium of Diamond's is an opportunity to develop trade markets and build common commercial properties on the territory of the Imperium of Diamond's, under the name of the state Imperium of Diamond's and legal registry in the territory of international waters, as well as to free orbit and subsequently in free cosmic space and on other planets in the cosmos.

This creates the ability to dynamically developing at advanced level and significantly grow into the largest business groups in converting the entire world. Cooperation is beneficial for all traders and their interest in growth when using the multi-dimensional nature of global cooperation organized by the Common Market.

Multy Consortium

Multy consortium becomes subject which comprises a further alliances between several different categories of Consortia which are tied together related business networks, meaning the structure of the system of Internal trade organizations to build their own modernization of all groups Multy Consortium for using common resources. Market development and financial cycle is composed of its own closed cyclisation without inflationary rhythm. The groups will jointly develop and produce advanced level of their own capabilities.

Example activities and composition of the Consortium's multi-trade system when a corporation jointly formed a consortium single category of the market, such as consortia that may be composed of one business category, such as Metallurgy, is the second category Electronics, the third category Agriculture, and so on.

Consortia are therefore then collectively unite to form a multi-consortium that it may be active as a group composed, for example, a business category markets for mining resources and their laboratory production, followed by the category manufacturing solid materials, machining category, categories of construction technology and product electrical engineering and thus the sales or the economic and strategic use of its own internal management of the consortia, or trade on the open market.

This creates a multi-consortium. Multi-consortium may also focus on the public market, as is standard business corporation.

Multy consortium is also based on a system of cooperation with the Government of Diamond's Imperium for planning grants and financial development objectives or division missions and projects, expanded categories multy national dimension, and meanly the jurisdiction of the Imperium of Diamond's.

Dealer agreement on joint presentation centers

The agreement is organizing strategies of traders for the purpose of unification and creating a system where traders can jointly develop common growth of the shopping center as a multi store shopping center formed in the joint group multiple merchants.

Organiser therefore own regular profit from the functions of each center common traders because of the right to trade and to ensure and maintain an organizational logistics.

Organiser therefore creating the first act of a project to build a commercial association which is intended for the development of market forces organizer.

Subsequently, description will be appointed business strategies and legal principles of the business association in accordance with the relevant jurisdiction.

This will create an investment plan and the establishment of full functionality of a company which will therefore be composed of features like cooperation other trade associations and corporations at the level of global importance.

Commercial companies will together form one entity legal name ID in the registry's offices, or in the foreign country for the growth of a common network of trade fairs in strategy geography of the global economy.

This creates a trade association composed of business corporations variety of business categories, which created a joint business council as the main representation of legal entity business group, form a consortium.

Traders and establish joint presentation center which performs sales and trading activity, jointly developed products and services under the name of another person.

Principle agreement if it is raised abroad as an Offshore activity reported in the local sovereign authority of government, so it is urgent duty to produce a first Cultural Center ID's government and thereby open the possibility of a second interest in trade as a cultural presentation with a sense of representation peaceful nature without steps of crime and the development of a friendship. The body is designed for cultural promotion and Representatives the existence of the state of Diamond's Imperium.

International Bank ID's virtual reality and digital financial markets will be sufficiently financially based on the ability of high financial guarantees and register their own project plans with business treaties for contacting other business corporations and companies doing business in the market of digital technologies and telecommunications, programming, virtual worlds

programs. We therefore able to gain a lot of traders who want to benefit from our progress of business cooperation and opening common commercial contracts for the development of technological infrastructure of our digital world, antennas and digital transmitter technology, data centers and specialized centers for high-capacity operating activities, global infrastructure of satellite transmitters and satellites that they will be synchronized with special technologies for clients who want to join in our virtual world and use this world, together with the other people.

Business Corporations immediately receive all the funds for their services, and our global network of virtual world can be fully active in quick time. We therefore can jointly establish well business corporations that are owned by the International Bank ID's virtual reality and digital financial markets or the Federal Government Imperium of Diamond's and business associations may therefore be active in management development strategic business plans that will develop the technology and structure of digital worlds and networks . Built business firms will be designed to develop technology at a level supercomputers, data centers and computing infrastructure, technology, data media, telecommunications and the Internet, together with further networks intranet and specialty telecommunications and virtual technologies, too quantum technology to calculate our reality and many options for this direction development on scale technological world.

The target is to build a new global communications network which is based on a new level in the form of 3D-net © ® ™, advanced level of today's Internet and telecommunications.

Therefore we can always good to know that our network of data centers and communication will always be based on full stability and success for our intranet and our freedom of communication in the legal development of our society, The International Law Intelligence Council.

Our common goal is to organize for the purpose of creating a global infrastructure businesses 3D virtual world and making communication with the governments countries worldwide. Our strategy is to develop a new international center for multinationals ID's, or offshore centers, with quarteer our ID's International Bank for virtual reality and digital markets. We together will create steps for the development of new branches in diplomatic relations with the other countries governments and therefore the ability to own scope of jurisdiction in the territory of a foreign state.

Our branches and the bank will therefore benefit of business cooperation that will strengthen the commercial strength and the currency of other countries using our bilateral and multilateral agreements on the common market, which will be a guarantee for foreign states in their stable standard financial currency and the strength of the economy without inflation, and the ability to develop our economy. Central owner of the economic relations of these virtual worlds are the Corporation for the operation and development of 3D virtual reality, artificial networks together with the Bank IDs for digital markets. That is why other governments are depending on our business cooperation and the need to ensure that our agreement on strategy, financial manipulation without the threat of inflation and the currency lost value economic dimensions of GDP.

Our joint markets can be the basis for agreement on a common trade products and exchange resources for money is an investment development projects or contracts on joint financial fund which is used for the development of our civilizations and business interests of our party strategic partnership, and it is equally possible to develop our relations agreements as a form of ID's multy savings Bank for virtual reality with the possibility to impose financial gains for local banks in foreign branches and therefore strengthen the currency state government. Commercial Corporation for the management and administration activities of the 3D virtual world based on the foundations of the rights of claim for taxation of financial income of all clients who use the services of 3D digital world 15, 25, to for example, 35% of the direct gains on the activity of virtual markets and shops, it It is a theoretical financial dimension to the level of 60 000 000 000 000 € in the phase of global recovery, and soon with the ability to dynamic growth in financial strength gain over 300 000 000 000 000 €. Economy of interactive android intelligence virtual people is full owned be the Bank and Corporations for service management, therefore the Dymension of financial profit is in theoretical values of 500 000 000 000 000 €. These are values which, in the interest of business collaboration are truly essential strategy for implementation of joint agreements for each government of the country in the entire world. Significant values which have an extra benefit for investing in dynamic development of world civilization and the rise of values maturity of all the states with the ability to ensure the development of civilization Imperium of Diamond's.

Our main goal is to create the global economic associations of governments of countries that can benefit our joint investments and trade are to agree on a multilateral commitment to a common strategy and development of our civilization, economic and political alliance at the G20, G77, OECD, ASEAN and other similar business organizations it is the fact that we were able to level the digital world to build the same structure trade policy as well as the world trade Organization.

Our goal is to promote throughout the world, the development of other civilizations and modern level. At the same time, the more users we can get that much bigger gains will be for our business center of the digital world. Therefore, our significant investment capability and technology to ensure the development of telecommunications and Internet networks throughout the world, our planet Earth, in Third World countries and territories of widespread land without any radio signal and communication technologies.

Our industrial and commercial network of corporations, banks will be expanded sufficiently in the circuit telecommunication and technological level to ensure that new development for digital telecommunications and Internet infrastructure anywhere in the world, while the abilities and gain financial gains from new users of 3D virtual world, and therefore governments gain our development interests and telecommunication technology is fully free, with no obligation to pay direct state funding, or the option to subsequently negotiate the common market. For each country the government's high profits and big business opportunity.

Future development of a 3D virtual technology will be focused on creating other central datacenter on space stations and the universal civilization of ships, real ships that can fly in space and attend distance beyond the range of our best observational skills radars and optics, more than 10 000 000 000 000 light-years from planet Earth.

Therefore, business corporations that will support our development and common markets, traders can therefore benefit from great opportunities for the development of their markets at the level of other civilizations in the universe, even with options cooperation on the development of new advanced technologies that are important to the economy, politics and civilization of the future tense.

According to today's technological intelligence Imperium of Diamonds is an option to extend the intelligence and dynamism of 3D virtual worlds and new civilizations on other planets in the universe, a civilization in special space stations. Imperium of Diamonds technology can ensure the creation of a special space-based telecommunications network at the same level of maturity as worthy of today's infrastructure radio networks on the planet Earth. We can use 3D-net communication between galaxies, with speed digital connections in the period of just a few short seconds. Today's radio signal is able to digitally and telecom combine two galaxies within about 14 years, but the technology Imperium of Diamonds can these positions connect in just a few short seconds, it is today one of the greatest achievements of mankind and move full ability to develop mutual civilizations on other planets in space.

If successful, these activities and their defense in the interest of the just claims and legal rights, therefore the ability to create high-capacity infrastructure 3D net that creates a large financial gains and that means that the federal government Imperium of Diamonds in cooperation with IDs Bank for Virtual Worlds and Digital Markets can immediately apply in full to each active member of the International Law Intelligence Council.

That is why for us, this step is the most important and vital for the development of our cooperation and the confidence to achieve good results.

The Federal Government of The Imperium of Diamond's

Marketing Center of social services and raw materials, food and drugstore chain for the consumption of high-density population

Also, I'm looking forward to my markets will operate and trade chains can economically supply the full dimension of my population using possibilities of the modern system of common business contracts and prosperous cooperation for our party.

It is easy, in the interest of civilization beginning, even with favorable bilateral and multilateral agreements beneficial to both the business side. Support for the establishment of basic business corporations abroad, anywhere in the world, the goal of the corporation is the processing of raw materials for the production of basic social and marketing products, the Corporation for trade with biscuits Corporation for the fruit and vegetable shops for toilet needs, trades on basic consumer products. Possibility to use the system also for the expansion of the pharmaceutical industry in your country through agreements between traders on sharing the market between corporations in your country, and a new corporate ID's.

The new ID's corporation can be based on an investment basis of society, and with business activities in your country and in your jurisdiction, offshore enterprise system. Therefore, financial profit corporations will be used for payment of the founding of financial costs, while at work and administrative operation of the business, paying taxes, and operational needs, paying for a manager who cares about the function and management of company manager called to the employment office to exercise functions of political or business contracts.

The subsequent balance of the profits of the enterprise will be made market in which the government Imperium of Diamond's as the owner of companies abroad, will be from these own businesses in buying up raw materials from their profit and carry them into the country Imperium of Diamond's, along with the strategy of payment for customs services and bulk import.

Some funds may be used for promotion and investment in local development activities of civilization in which business corporations have their own seat and therefore while there is support strategies for the development of your country, or the ability to use the fund for the development of our bilateral and multilateral projects is a special form of division.

Consumer Raw, thinks bars, drinks, fruits, higiena products, textiles, and other consumer products without long-term durability and therefore as values without sustained investment value products that are at redemption for corporate money because state-owned Imperium of Diamond's and imported for sale in their own state trading centers and compatible trade Marketo for public social Diamond Oasis.

A formal agreement to promote investment value of business corporations and businesses in your countries, and trade which again promotes the growth of the value of these enterprises in the ratio of consumer population statistics Imperium of Diamond's Diamond Oasis with a plan for 10 million consumers, it means an increase in GDP of your country's strong financial growth and making the basic unit of civilization market, which will be used for future development of your country in case of natural growth of your population and consumption, stronger consumer economy in your country and thus strengthen the investment value of such forms of business corporations which automatically increases a whopping GDP and economy of your country , strengthening growth in strength of your currency.

At the same time, Diamond Oasis could such a deal be used for gain basic raw materials for the survival of civilization and population health, the establishment of basic infrastructure Market and shopping malls for public social company, thereby ensuring a stable pace for the possibility of adopting a new population from abroad, people who migrate, refugees, refugees, children are dying of hunger and people who for reasons of civilization deficiencies must suffer in society as people without gain for the state, people in the form of mere consumption of social financial benefits from the authorities, or those that can only beg on the streets of small finance and coins and therefore they only damaging to look at the quality of your civilization, people who only because of their civil registry causes need your bank to print higher number of coins which therefore cause a weakening of your financial currency and reduced production and profits from international markets, it is weaker profit for your business corporations and their development, strongly statistically slower development of your civilizations.

Joint agreement is based on a common profit, stable retail chain advantageous for each side and at the same time with the ability to succeed at the level of humanitarian missions and the

application of modern principles of the policy of peaceful principles after World War II, and also in accordance with the UN Charter, to promote peaceful development nations.

It's beautiful to live in a world that is stable and prosperous, every one of you own the right to promote the development of such contracts as contract activity political form, or business form, and therefore each one of you and supports the ideology of modern peace and humanitarian resources with global application, is an important gain for you and for your country.

Deport is also permissible. According to international principles and in many cases the jurisdiction of the States, vagrant and homeless people have no right to use public streets for their private life without social principles, and at the same time safeguarding international law that each person's own obligation rights to health and quality of life. Development plan civilization Diamond Oasis is the first year designed for 10 million people.

Today, throughout the world, for reasons of economic differential civilizations die more than 15 million children, more than 500 million people have to live on the street without any financial income persons without any civilizing exercise and social contact, many of these people are just a little children without social life and education, children who must live as a raw material for commercial sex and rape, or slavery without financial disbursements. The federal government Imperium of Diamond's is the entity that owns the legal value of government and state, but because of European terrorist blocking, without an opportunity to steadily develop the principles and standard principles of today's world of peace policies and rules.

Each of you who will support the joint development opportunities, each of you and supports better values around the world, politics, states and public companies.

It's an important step for the whole world.

As one of the basic steps of the investment opportunity is your cooperation and present the proposal before the committee Nobel Peace Prize. The most important humanitarian challenges of today's world and society.

**The Global Lawyer Cooperation for
The Imperium of Diamonds**

The International Law Intelligence Council and The Royal Invitation

We are commonly create a lot of much, than only New World !
We are is commonly The New World !

Request UNGA, UNSC and UN Secretary General for the possibility of the establishment of the tribunal for crimes European terrorist alliance and their punishment together with a strategy for the implementation of International law and the UN Charter and therefore achieve a step that confirms the justice and legal title over the world, all states and governments, citizens and traders as well as all other legal associations of scale around the world.

2016

The task for all members of The International Law Intelligence Council;

Request for all states UNGA;

Expression of interest Imperium of Diamonds to use standard principles of political rights and systems of legal principles reference to the current situation, as system of common safety which in case of actual legal and responsible features designed and capable of ensuring the safety of the period of the early weeks without broadening terrorist threat or force organized criminal networks.

The King of the federal government Imperium of Diamond's and asks for support in defending against crimes and fraud, international terrorism and genocide on the part of European governments and their terrorist alliance.

The UN in formation as a reaction to the Second World War, to prevent and stop further conflict and genocide, so now in a period when European governments are intentionally committed crimes that hard overtook all the statistics of the World War II, so ID's as a legal entity and is justice goal and peacefull activities unprincipled any crime, but in a situation like the Dear Jews people after the Second World War, ID's is like a body with the greatest potential value and capital are entitled to admission to the UN as a right use of legal-political relations and rights and all conventions, implementation of joint prevention strategies against European states, and it is a common law to ensure the development of sanctions and affirm the political bankruptcy of European governments, along with strategies that according to the value range of statistics today's European crime therefore lead to a full expulsion of European countries Member lines of the UN,

because of the obligations of all members of the United Nations to prosecute European countries for global terrorism, or an obligation for full liquidation of these countries for the same reason.

European states violate the UN Charter, along with more than 90% violated international rules and legal format represents a violation of UNGA global forces of democracy for all countries around the world, according to the UN Charter values UNGA important than today's UNSC forces. Values of the most important character of contemporary human existence.

European nations made crimes at the killings and blocking civilians, killing innocent people, genocide, against 320 million people, occupation rights and entitlements for the two billion people, expanding threats of genocide against seven billion people and at the same time start the first largest Global War the history of mankind as an inevitable consequence in any case. Already today, the European criminal governments overtook crime statistics Second World War, and according to the principles and reasons of the United Nations must always mean instant bankruptcy policy and regime of such a criminal government, immediate penalties and the steps liquidation of such terrorist civilizations using weapons of mass destruction, in order to fully step the liquidation of all sizes such civilizations.

European governments have reached a stage in which the criminal is a complete loss of rights for their own existence. European governments and at the same time with a terrorist aim of collaborating on the structure of government policy, a policy of international alliances in Europe, structure of state services and also mass civilian movement that functions as a state terrorist medium, so it is confirmed that European governments were in fact destined for disposal using weapons mass destruction and that in the real case, without any respect for the population, because everyone who voluntarily registered as a citizen of the European governments, therefore he also willingly acknowledges that his interest is to promote the strength and stability of the central terrorist regime. No global terrorist own the rights to life and liberty of every terrorist and must be disposed of.

European terrorist regimes violate the jurisdiction of all states in the world and the demands of each merchant and politician at the entirety of the planet Earth. Again confirmed as the biggest act of global terrorism in the history of mankind.

Therefore, in the interest due on the obligation of the rights of the UN Charter and International conventions UNGA, because the UN is a duty to establish a tribunal for investigation and conviction of criminal acts in Europe, ensuring full measure loss of legitimacy and sovereign rights, replacing sovereignty with the help of the legally responsible entity of the Government of the country and ensure that all the rights of full compensation to all justice parties for each state and the association of the entire human world.

All states UNGA together and automatically according to the principles of the UN Charter owns all rights to launch a joint investigation into the act on the territory of the European governments, together with steps to prevent military intervention against the threat of the first global war, while stopping terrorism.

European Evidence of terrorism are every day fully public and known, as well as the threat of global wars. Therefore it is not necessary to obtain any further confirmation.

Today, at the same time, all governments worldwide own legitimate claim and state responsibility, police investigations and judicial proceedings to prosecute all political, government and civilian persons in cooperation with European terrorism and terrorist European Alliance.

The UNSC own obligation to confirm the rights of the World Diamond International Alliance as a major strategy for national self-determination European countries, and therefore, the resolution to create the legitimate sovereignty of the World Diamond in the territory of the European criminal states and their terrorist alliance, the resolutions of the UNSC as the decision to prevent the threat of instability in world politics and World economy in bankruptcy these civilizations terrorist states because of high proportions of financial debts which are in case of bankruptcy of European civilization over the threat of bankruptcy for the world economic system which is again another bankruptcy of other countries and governments that are addicted to the

stability of the European economy. This means that half UNSC any other option for the application.

Governments that are addicted to the stability of the European economy, and therefore in threaten of financial crisis or bankrupt, therefore any blockation for The ID's support Global Development is immediately marked as an attempt of terrorism against the whole world political system and global economical stability, opositional threator of terrorist act must be immediately liquid be the World Military power, threator losse every rights for advocacy.

UN must ensure that any halt the spread of European influence on any other countries worldwide. European terrorist regimes must losse all abilities for their political or business expansion.

Republic of France in the direction of rights UNSC member loses the right to issue new resolutions of this nature, because of the confirmed European cooperation on terrorism and responsible for the greatest genocide in human history. That is confirmed by the obligation of all states for the implementation of UNGA Declaration of the French Republic to exclude from membership in the UN.

United Kingdom of Great Britain and Northern Ireland, and the United States of America in the direction of the rights of a member of the UNSC lose the right to issue new resolutions of this nature given the present situation on the ground confirmed the cooperation with European governments in a deliberate strengthening of the powers of the European terrorist ingredients armies such as community NATO , OSCE, European military forces and the stability of crime at the international level, which means responsibility for the UK and USA as acts of cooperation on terrorism. UK and USA own right only to confirm the decisive resolution of the legitimate sovereignty of the World Diamond International Alliance. US media at the same time supports the creation of civil movement for the promotion of European crime and global terrorism or harming the legal rights of others, because of their ability to economic and civilizational competition in maturity. If the US government does not stop terrorist ties, as is confirmed by the obligation of all states for the implementation of UNGA Declaration on the exclusion of US membership in the UN.

The Russian Federation and the People's Republic China towards the rights of a member of the UNSC lose the right to decide on the issue of the resolution of this character, because confirmed the efforts of these countries to resist against international rights and international democratic states, along with an interest in provocation and occupation of other territories of other states and suppressing internationally recognized the rights of free states and their demands, the development of influence for the purpose of monopolies at the level of world politics. The Russian Federation and China PR for daring to violate international law by reason of their position membership UNSC and as the world's leading referees, organizers manipulators armies and military forces. UNSC States because they know that my political values on behalf of the World Diamond International Alliance therefore can legitimately establish a system of the new format of world politics that using Form Global Equivalent Democracy and political positions among all countries of the world and replace all positions UNSC and overtake at all levels, it means that members of the UNSC no longer be able to carry out crimes and abusing their power, bureaucracy and neo-colonialism against the world. States UNSC at the same time know that WD International Alliance as the format of global policy in all categories bigger and better than the UN, especially the more important as the global military and security force, a force against which the value of these States UNSC loses the ability to victoriously resist while all foreign states while always prefer to promote such steps. Therefore, the Russian Federation and China PR losing their claims on the issue of UNSC Resolution into today interest, declared be the Charter of UN. Thus it is confirmed the right of all states for the implementation of UNGA Declaration on the exclusion of the Russian Federation and China PR on UN membership.

States UNGA jointly own the right to substitute a claim UNSC to issue a decisive resolutions with the same name of a political nature as UNSC resolutions, but in order to comply with the UN Charter and in accordance with International convents UNGA, it is an obligation to use only one option and that the Joint Declaration on World Diamond International Alliance as our common system of sovereign governments of our countries here in the European territories. In the same case, even if states UNGA they want because of the UNSC terrorist bureaucracy, requesting

the right to use the principles of the UN Charter, a claim the UN General Assembly for the right to vote veto UNSC resolutions, the right to vote on the removal of a member of the UNSC and the election of a new, or the right to vote for the modification of the Charter UN and UN system and the development of policy by the fact of equivalent rights without a strategic position which determines and provides opportunities bureaucratic approach and neo-colonialism of other states, as now, those positions used by Member States to the UNSC.

Because of the relationship UNGA States and all other countries around the world, everyone has full rights to enforce judicial punishment according to the principles of jurisdiction on the territories of these countries' governments, and the use of global cooperation of all governments, for the possibility of a common strategy for the imposition of sanctions against the European terrorist states and recovery of all those who are a reference to terrorism, as well as the right for joint strategies for financial and property seizure, in the first case, immediate blocking and execution of all foreign bank accounts and blocking access to consulates and embassies in your countries, as well as qualifying full execution of any other assets of these terrorist states in the territory of your country.

According to the principles of the UN Charter, a claim for the right to initiate intervention in the territory of the terrorist state and legally so violate the rights of the integrity of these states terrorist alliance, the governments of countries in this case own again all rights to enforce property foreclosures freely in the territories of the European modes, thus no violation of any legal right.

According to the actual interface European countries as the entity governments active in the world of terrorism, as a subject of public services encouraging corruption and terrorist activities of the government of the country and the state, and at the same time as the body of the state as the movement of civilians along with the public relation civilian movement to support terrorist acts and stability terrorist mode European governments, therefore, legally and in accordance with all international principles implemented identification of the whole dimension of the European countries as a terrorist movement that is destined for disposal and the achievement of full blocking identity and all possessions, on behalf of your government and state why internationalization and execution of all government, state and civilian property on the territory of your country's government, with the justification that every civilian who keeps his identity as a citizen of a European terrorist state, then such citizen supports the forces of the terrorist movement and stability terrorist regime, and legitimately mean that every such citizen is designated as a terrorist designated the destruction and extinction, full financial and asset seizure in the blocking of all foreign assets and accounts in banks, law enforcement back without compensation or damages to invoke the courts.

A Terrorist is a terrorist, and terrorists must be disposed of. Citizens of European countries have the right to defend themselves using the legal denial of citizenship terrorist governments and by the adoption of new citizenship, the future government of the European territories such as Imperium of Diamonds, or alternatively any other country abroad. In this case, the citizens lose responsibility for terrorist crimes European governments. Governments of countries worldwide in any case not encourage censorship of the media about the incident and duties as the situation with the same reference value of the real reasons for the founding of the United Nations reactions after World War II. All people must know a reall true !

In case, if anyone, in any way resist against these principles and rights according to international rights and political principles, then each opponent must be disposed of as a person who promotes the activity and stability of world terrorism.

If any stand in relation to terrorist alliance will want to resist against legitimate political principles for using weapons or military attack, so in this case, all governments around the world has all the requirements for the use of weapons of mass destruction and commencement of liquidation European terrorist states.

So King Peter Gottwald, in respect of their rights and legally formal situations, decide the task of each member of the International Law Intelligence Council, the registration court application to the courts of your governments and courts, governments around the world, as well as re-contacting the International Criminal Tribunal UN, UNGA group and the General Secretariat of

the UN, for the possibility of establishing the international Tribunal for European condemnation of crimes of global terrorism and violation of the rights and principles of international conventions UNGA.

So King Peter Gottwald, in respect of their rights and legally formal situation, therefore, calls on all governments to adopt such tenders and thus the foundation of our joint steps for the defense of our state and government, defense of civil rights and entitlements of international relations and on behalf States UNGA foundation international Tribunal for European condemnation of crimes of global terrorism and violation of the rights and principles of international conventions UNGA. So because of obligations under international law and Conventions, as well as the responsibility of governments to their own jurisdiction of the state and obligations to the declarations of a state office and the obligation to apply the principles of public services and offices for the legitimate function of the state, as well as my request in good interest for your country and your state, nation and civilization, today in the main event as my first effort to prevent global war.

I thank you for your time and patience, patience is proof of your responsible relationship to politics, and your cooperation is proof of the good and important performances for the world and the future of all countries and world politics.

I King Peter Gottwald and on behalf of the Federal Government Imperium of Diamonds' trying to implore all governments around the world, for your support for the adoption of the Imperium of Diamonds to UN member circuits and also the establishment of joint declarations on our joint diplomatic cooperation.

I thank all the countries that support the development of world politics for a better future for all the peoples and governments of countries for better rights and freedoms diplomatic strength of our relationships to significant levels of world politics. Your courage and responsibility is indeed an important step for the future of the world.

Declaration of State's for prosecute European politicians and terrorist groups for their political crimes

European crimes, such as crimes with responsibility worst acts of human history, crimes preminent criminal acts after the Second World War, conscious and in his own choice of a criminal entity systematic genocide carried out against 15 million people each year, in the sum from 1998 to the year current days (2017 = 350 000 000 dead people), supporting fascist national reality show as an act of expressing threats First Global War against the whole world, the establishment of public crimes of slavery, tyranny, terrorism, apartheid, blocking political rights and monopoly and occupation against foreign states, support for the growth of terrorism at the International level and major damage to the rights of all countries in the world, and full of destabilization and alkalinity justice in world politics, the implementation of many of the worst crimes of humanity and violations of the principles of International rules and guiding principles of the UN Charter.

Crimes without the possibility of forgiveness today, and also the next generations crimes that reach the worst level against humanity and their own legal responsibility of causing many of the world collapses in a range of global economics, politics, justice, security and justice of tribunals, and the development of civilization.

Today, years of the second Millennium, our human world experienced a worse criminal, inhumane and terrorist acts that are happening today fully publicly, at the level of public society European countries, and the crimes and acts of terrorism that extend deep into the spirit of our countries, but also hard influences and noting on each of our civilization.

Some of us, our states and peoples, often damaged catastrophes with drastic consequences of shooting down aircraft, murder civilians but also the murder of important politicians of our countries, as well as drastic discharging our civilization viruses, tornadoes, natural disasters, and creating the threat of a real act of genocide and enslavement to more than 7 000 000 000 people around the world.

Our common enemy, the one who has long been respected, the one who for a long time to expand crimes at the biggest disasters against the whole human world, but because he always unpunished, we let such evil grow and expand to its purpose and the ability of dominant position against us so he could continue to destroy and damage the value of the future of our peoples and states of our civilization, but also the name of our entire human world and publicly ridicule us for our stupidity of tolerance and their own mistakes which only allow the growth of threats and risks against our peoples.

So that such an error could no longer be repeated, and giving back more power to our enemies, criminals who are the enemy of all mankind, I am therefore really asking and certify that it is a duty for all of us, collectively declare the document and recognize him as valid and without any possibility to refuse such an attitude common global opposition against our killer and destroyer against those who are the bane of humanity, and they enslave our future and growth of human civilization, those who are the major destruction of our world today.

Therefore, this is your responsibility to take into account the act and thus create a common line, a series of global opposition against our enemy, we are together, we can begin the uprising of our people and achieve a real victory, a victory decided by now, each of you, and the future of your countries and the pride of your civilization, so that your country was the the winner as a force act global rebellion of the whole of humanity which owns all rights to fight for their own rights precisely the actual law in which you fight as a representation of your countries for this act and cooperation, and for such a purpose.

It's your pride, it is your responsibility to your country!

The Federal Government of The Imperium of Diamond's Right's of Impeachment

Right impeachment naturally means eligible persons and groups to draft a joint petition which serves as a testimony to the motive for the dismissal of persons from political office because of the confirmation of the acts of abuse of political positions and intent of the crime or performance regardless of the intentions of International rights and obligations of legally acquired as a person legal power.

Therefore, each member IAIC authority's own right to document and require materials on persons of foreign policy, as their acts which signify their damage right performance and the interests of our policy created interest for the joint use of the UN Charter and the peaceful development of the state, and demands UNGA convention, meaning open the right to use international political cooperation under UN agreements of UNGA treaties be our relation for UN state's, meaning re-confirmation of the legitimacy of all ID's government and the state, and such claims subject to exploitation rights at this level.

The right of every member IAIC group, in the case of illegal and irresponsible forms of oppositional attitudes is therefore open our claim to the founding act which implies the creation of applications for impeachment each person's criminal performance, thereby ensuring the ability to replace the powerful position of another person who is capable of responsible performance and legal activities by legal principles and legal functions.

Right impeachment is thus designed as a system of petitions IAIC members who will be in the request for impeachment voiced by the number of numeric character. The request for impeachment is therefore in the form intended for public use between members of the Bureau IAIC who therefore have a duty to always fully support the implementation of justice and promote the rights of ID's government, so is the attitude position as the act with the same interests opposition to all persons of a criminal nature.

The second objective of the request for impeachment is submitting the document prior to all States reference to the function of political active persons in the crime. Goal is to contact all the Constitutional courts and the legal center Constitutional Institution as a mean democratic state center, in order to submit a proposal on impeachment and a step toward implementation.

The request for impeachment is then presented to the observation mission, other foreign countries and organizations which may therefore contribute to the interests of surveillance in order to confirm assurance on the safety and stability of political legitimate entity that is invited to recognize the act of impeachment.

In the same interest of the document will be applied against all entities NGO's reference for establishing the reasons for the request for impeachment, and the presentation of the document before the rest of the state and the Organizing Committee jointly oversee the function of constitutional courts and legal functions of the legitimate interests of the democratic institutions that received the document submitted requests about impeachment.

This creates a strategy other format for the target application steps impeachment risk persons, according to a strategy organizational strength IAIC office which also uses its own network of international scope of cooperation with business, with banks, with NGOs, associations, banks and market networks, political parties, relations in political circles, general of armies, and also created the right to decide matters at the international level and thereby achieve full overthrow of persons and groups in the interests IAIC are intended for impeachment. The act of this kind of organization is therefore legally designated as performance penalties.

Office IAIC has a strategic goal to develop a strategy of sanctions and international coordination network, in order to achieve the full exercise maximum efficiency of power sanctions and their ability to risk full isolation and opposition body or ensure its complete destruction and extinction.

Development departments for the development of health care and ensure the full stabilization of hospitalization qualities in all states, in the act of utilization of production growth aftermath State of intelligent consulting and business organization from countries with advanced economies and material production.

Extraterritorial VISA

Activities base

The lawyer who owns an interest in becoming a member of the International Advocacy Intelligence Council must therefore fill in the form for registration.

The registration form must be filled with copies documents on certification of professional education in the legal profession, and also with the document that refers to the founding document of IAIC office as confirmation of interest IAIC cooperation.

The registration documents must therefore be in the copy sent to the nearest center IAIC abroad, thereby ensuring proper registration and the ability to regularly make common contact.

The lawyer who is registered, it must also ensure its own cooperation to build IAIC authorities through a strategy that means contacting other law experts in its vicinity, thus ensuring sufficient capacity of law experts who can guarantee that functions as a company office.

Founding Act in the extraterritorial zone that functions only as an authorized entry to the Extraterritorial Zone Imperium of Diamonds, but only for the purpose of establishing IAIC authorities to allow the use of full rights extraterritorial nature of authority and protect the interests of the ID's integrity.

Extraterritorial Activities for First Stabilization Act, Applicant and User of VISA format is in His autonome responsibility until time, when is developed IAIC office.

Extraterritorial VISA

Extraterritorial Visa as a form of authorization to enter into legal area jurisdiction of Diamond's Imperium in Extraterritorial division.

Format extraterritorial Visas under the form of the issuing authority as the International Advocacy Intelligence Council.

Extraterritorial VISA is right to capitalize on the jurisdiction of Diamond's Imperium, on the territory of a foreign state that is a member of the United Nations or with respect rights obligations of the UN Charter and those International rules.

Right extraterritorial act formed in the aftermath of crime and terrorism on European governments and terrorist states in the partnership, which means a terrorist state law blocking the government and use their own territory Imperium of Diamond's.

The federal government Imperium of Diamond's why own open justice, while claims of the UN Charter and the basic provisions on the organization, as well as the principles of UNGA conventions, the meaning maintaining claim possessions rights of extraterritoriality in the territory of a foreign country due to a forced entry into the territory of a foreign state, and the step because forced act of crime and terrorism.

The person who was forced to declare extraterritorial law that has the right to use the principle of jurisdiction Imperium Diamonds and such rights, but in order to comply with the rules, International as the UN Charter and the UNGA convention.

Therefore, Extraterritorial VISA can be issued only to people who are important to stabilize the functions of government, civilization and justice of Diamond's Imperium.

Since such a situation application of extraterritorial rights occurs because of a crime, the responsibility for the use, application and consequences of the use of extraterritorial rights and such sanctions must therefore assume responsibly crime group. The government of the country in which territory the act is implemented because of extraterritoriality own entitlement to issue proceedings against the first criminal state, which thus caused the violation integrity of the state in the aftermath of the reason for violations of international rules and the rights of a foreign state.

This is in the interest of consistent international law decreed that the user is a person extraterritorial rights under international law nepotism.

User extraterritorial rights when entering because of the use of extraterritorial VISA that own the right to use this act in order to contact family and social cooperation with their own loved ones who are users of extraterritorial jurisdiction, as well as for the purpose of legal communication and support for the function of the Cabinet Office Imperium of Diamond's in order economic and trade cooperation, for the purpose of security cooperation, as well as the requirement for the purpose of profit civil rights Imperium of Diamond's.

The applicant for an extraterritorial visa must confirm his no relatedness to any crime, for the period of five years, upon presentation of an extract from the criminal registry, which is maintained in the records of the state in which the applicant is registered as a citizen. An applicant for a visa extraterritorial simultaneously agrees to respect the principle of jurisdiction of Diamond's Imperium, and is willing to undertake verification of its security and the peaceful use of extraterritorial visa. If a user violates the principle of extraterritorial jurisdiction visa Imperium of Diamond's, then the user automatically receives a visa ban cards and avoid the legal form of legal status or leave the extraterritorial jurisdiction of the Imperium of Diamonds, until such time as otherwise the statement issued by the Court of Diamond's Imperium. This is the person the prosecution always kept in the legal jurisdiction of Diamond's Imperium.

An applicant for a visa extraterritorial agree a fee for creating extra-territorial visas, according to its own financial plan office that is authorized to issue VISA cards. Authorized office may apply for quotas to ensure the identification of the applicant, by taking fingerprints, eye scans the network structure of pupils, other biometric data and DNA samples.

Extraterritorial visa can be publicly verified on the website or via telephone at the contact offices that issue visas extraterritory.

Extraterritorial visa may be issued only institution certified by the Government of Diamond's Imperium. Institutions own legal obligation to register all Visa documents and publish them by valid documents proving the identity of applicants for the issue of extraterritorial visa.

All kinds of communication are registered regularly sent to the headquarters of the Royal Council, in order to register and create a central database.

Extraterritorial VISA are applied for the purpose of legal relations on the territory of a State which is a sovereign country. Extraterritorial VISA therefore means the right of the user to enter that territory into the legal union for ID's extraterritorial jurisdiction for the purpose of cooperation lawful purpose, and this input should not be misused for the purpose of smuggling illegal substances, illegal drugs, unconventional weapons trafficking and violations of international rules.

The government of the country that is sovereign in its own right and territories sought for financial payment for the use of territories for extraterritorial activities. The financial obligation of payment is therefore intended for parties that are responsible for the formation of extraterritorial rights in criminal because of their crime. This creates the right to choose a plan, and the right to additional payments from the corrupt payment.

The government of the country that is sovereign in the territories and their own obligation to notify the United Nations of crime groups that caused terrorism and the occupation of the state. The country's government must work with the citizens of Diamond's Imperium and ensure their free development in the interest of peace rules.

Local government of a country's sovereignty have the right to appoint cesium values for equipment and material that is transmitted from the territories to the extra-territorial area, or back.

Extraterritorial VISA is not used to the free tourism or recreation. Extraterritorial VISA law as the emergence of the aftermath of a terrorist crime and occupation of another country, and forced to capacitive inability to use their own territories because of the occupation and misinformation and crime.

Extraterritorial VISA is therefore created, in order to cooperate for the target and its product strategy designed to stabilize the government and civilization Imperium of Diamond's, and also claim the actual citizens to maintain rights of citizenship and the free life ensuring the opportunity to return to the territories of legal origin, citizenship, such as a natural State policy.
