

the Protest against the U.S.A. government, department's of Media and cooperative agencies or people

Europe, France, Strasbourg
27. 08. 2010

Good day to the Policy of the U.S.A.,

my name is Peter, the King of the Imperium of Diamond's federal government, today the government under terrorist occupation and blockade. Occupation and crimes of European policy, governments and state's, occupation and terrorism who is based on criminal values of confirmed statistics who outstrip all criminal powers of the Second World War in global dimension.

Today is confirmed genocide of 320.000.000 people, this is the act who rapidly outstrip the most biggest genocides in human history, and rapidly worse than genocides of Adolf Hitler's fascist regime and occupation of foreign countries.

Today is occupied and disinforming more than 2.100.000.000 people around the world. Much than 7.000.000.000 people is in threaten of their life, safety and peace. Today is active the conflict's who mean a beginning of the first Global War 2000, the war in all countries and all around the world.

Today, the European terrorist countries damage the legal right's, claims and too jurisdiction of every country, and all around the world. Damaging of financial values today really rapidly outstrip all values of planet Earth and from time of a beginning. Every one who support Europe or not - prevent against it, he is a responsible.

My Question is, why in your country the U.S.A., is repeatedly and every day produced the musical form of informational codes who in many time centralize to my person, the informations about the cultures, fun, standard activities, or informations who is to today normally known, and meanly information's who is not to the support of today real situational problems all around the world and their prevention.

the Media of U.S.A. like only ridicule my name, support of stability for European terrorist policy and their illegal activities. the U.S.A. Media is too abuse to attempt of foreign country and populational ideology change, attempt to manipulation with political affairs and damage the integrity of countries, potential attempts to abuse for fraud's and spy.

the European states is real form of most biggest and global terrorism against the whole world, threaten of the first Global War! the first Biggest Problem in History of the whole world!!!... and your activities is only medial codes about nothing important, about the only ridiculed of names to another important people, abuse of secret and personal information's of people and their social life, and life of another people in their zone.

I am a man who have interest for Political affairs, peaceful interest's, moral presentation's and society, intelligent development and man who have an integrity.

Not any young boy's and adolescent's music or songs with a full of cocaine and drugs, crazy and psychopatis style of people, fucking Bitches and fucking bitches repeat every where, and a sex.

The U.S.A. government is a member of the United Nation organization with legal position of the UNSC member, therefore with such duties and responsibilities.

The main duty for U.S.A. is stop all connect with European terrorist states and therefore full start of the Security actions into European terrorist structures.

U.S.A. government have also obligation to share the "real informations" in the U.S.A. State media, because the U.S.A. Nation have a full right to know it.

Every people all around the world is under threaten against their safety, peace and lives, every one of them is stolen about money who is valuable than today U.S.A. economic civilization. The Blockage of media is Global terrorism, and if under media blockage is public only your provocation's as a integrity damage, social information abuse, disingled of another names, than is really true that your country is in this case as only terrorist subject who is directed only for liquidation.

If do you are like send to me, some of any information, than please you are can contact me personally or speak me it in the message. I am a man who is not for your duty, and I am a man who is under Global Legal Political Principles really very much important than the U.S.A. state and I can be too really very much powerful, than I am very glad if do you can Respected it.

If your Government of the U.S.A. have interest to our common political relation's, than you are can contact me too normally, and not be the public media where people only abuse it, disingled me or threaten to another people.

Today, If you like share to me, mathematically shifted information's in the music, than you must too accept that everything is for me very different, and people block my knowledge, I am dismanipulated.

Only one option what I can have as any reaction, is a brutal hatred and aggressive importance for brutal liquidation of every dimension of U.S.A.

Therefore, I am a really glad, if you can stop provocation, and than herefore start a civilizational intelligent and diplomatic cooperation. Your provocation is only support for terrorist groups!

You can coopered normally, my interest's is open some of culture centers, some of offshore corporation's, and I am **LO INTEREST!** for all of your information about program's for Global Reality manipulation and fraud's.

Thank you very much,

The King Peter Gottwald

P. Gottwald
