

Card Design Contest: Jury Criteria

Process of judging

- I. If there is a card that is against the rules, it automatically gains 0 points.
- II. You give 10 points to your favorite card, 9 points for the second and so on.
- III. Cards that are not featured in your top 10 list automatically gain 0 points.
- IV. Please give a reason for your rating of a card.
- V. You are allowed to rate less than 10 cards, but at least 5 cards.
- VI. Send your list per PM to me.
- VII. I will add up the score of the lists from all jury members.
- VIII. The 10 cards with the highest score will be featured in the survey thread.

Criteria

Name:

This is just a minor point, but a creative name is always positive and if it is related to the world map or the lore, it is even better. **(10%)**

Good example: Wizard of Ang'Mar (related to world map)

Wording:

Once more a minor point, but the card text should be equal to the Duelyst card wording. **(10%)**

Balance:

This is very important. The cards should be well-balanced. Please orientate on Golems for pure stats and subtract stats for abilities. **(40%)**

Creativity:

Balance is important, but it is not everything. Pure stats without abilities or cards we have already seen a bit different are just boring. **(40%)**

Please keep in mind that this is just a recommendation how to rate! Every jury member has the freedom to rate certain criteria higher than recommended here.
