CP950
CARDSTOCK PRINTER

CP950 Cardstock & Packaging Printer

Print directly on packaging and thicker media

The CP950 Cardstock & Packaging Printer is built with Memjet's Sirius print engine, featuring a stationary printhead for ultimate speed, quality, and reliability. The printhead can be raised or lowered, allowing for printing on a range of porous and inkjet-coated media substrates of varying thickness and width.

Key Features

✓ **Industry-leading ink cost**

✓ **Print speed of 12 inches/second**

✓ **Variable data capability**

✓ **Adjustable printhead height**

Powered by **memjet** ®

The Memjet stationary printhead has revolutionized the industry
