

# Statistics

71%

Of companies have fallen victims of cyberattacks

64%

Of surveyed CEOs say they could not stop an attack from a compromised software supplier

Around  
18k

Organisations across the globe fell victims to the SolarWinds supply chain attack

## ABOUT THE MASTERCLASS

Third-party cybersecurity is a critical element of **business continuity and trust relationships** with partners and clients. With more frequent and significant supply chain cyberattacks, third-party cybersecurity is becoming a growing concern for business leaders and regulators, imposing strict rules for **third-party security management**. This Masterclass focuses on **managing the risk, preparing, responding and recovering from supply chain cybersecurity attacks** in compliance with the relevant EU rules.

## ABOUT YOU

You are a **COO, compliance or contract manager, purchaser, supply chain specialist, (cyber)security professional, cybersecurity enthusiast**, or a **student** interested in expanding your knowledge in security management.

## BENEFITS

You will learn the best practices and get **Cyen's 7-step programme** on third-party cybersecurity risk management to implement in your organisation. You will understand the ever-evolving **cybersecurity** threat landscape, identify who is **accountable** and responsible for cybersecurity in the supply chain, and learn the essence of the **relevant EU rules**. You will acquire new skills in the digital domain and, upon a successful test, **receive a certificate** of completion.
