

## QI Project Abstract for Resident Scholarship Day

---

*The Second QI Abstract Deadline: First Friday of Block 8*

---

- Use these guidelines and attached template to write your abstract for the Department of Family Medicine's annual Resident Scholarship Day.
  - The guideline tells you what is expected for each section
  - The template shows you how to format your abstract
    - If you do not follow directions, we will send your abstract back to you for revision.
- We will review your abstract and assign your presentation type on or before the **Second Friday of Block 9**.

**Max word count:** 1 page

*Guidelines – here are the sections of your abstract with descriptions of what should be written into them:*

**Title** – The title of your project

**Resident Authors** – Your name(s)

**Team:** The names of the clinic staff involved with your project

**Clinic Name:** The name of the clinic where your QI project took place

**Background:** Describe what brought about your QI project in your clinic (1-2 sentences)

**Aim Statement:** Write your project's aim statement in the proper format (1 sentence – for an example of a proper aim statement consult your QI Handbook)

### **PDSA Cycle 1:**

**Baseline Measure:** Write one sentence on how you collected your baseline measure and one sentence that details the results of your baseline measure (2 sentences).

**Intervention:** Write one sentence on your first PDSA cycle's intervention (1 sentence).

**Outcome Measure:** Write one sentence on your first PDSA cycle's outcome measure results (1 sentence).

### **PDSA Cycle 2/3/4...**

**Intervention:** Write one sentence on each of your subsequent PDSA cycle's intervention (1 sentence).

**Outcome Measure:** Write one sentence each of your subsequent PDSA cycle's outcome measure results (1 sentence).

**Conclusion:** Write a conclusion. Did you achieve your aim statement? What recommendations did you give your clinic? How can your clinic carry your project forward? (2-3 sentences)

*Template – use the specified font and font sizing for each section, use bolding where it is bolded in the template, max word count is 400 words:*

**Title (Calibri, bold size 16 font)**

Resident Names (list First name, Last name, Degree -- Calibri font size 14)

**Team:** (First name, Last name Calibri font size 14)

**Clinic Name:** Normal Calibri font, size 11. One space between paragraphs, single spacing

**Background:** Normal Calibri font, size 11. One space between paragraphs, single spacing

**Aim Statement:** Normal Calibri font, size 11. One space between paragraphs, single spacing

**PDSA Cycle 1:**

**Baseline Measure:** Normal Calibri font, size 11. One space between paragraphs, single spacing

**Intervention:** Normal Calibri font, size 11. One space between paragraphs, single spacing

**Outcome Measure:** Normal Calibri font, size 11. One space between paragraphs, single spacing

**PDSA Cycle 2/3/4...:**

**Intervention:** Normal Calibri font, size 11. One space between paragraphs, single spacing

**Outcome Measure:** Normal Calibri font, size 11. One space between paragraphs, single spacing

**Conclusion:** Normal Calibri font, size 11. One space between paragraphs, single spacing
