

February 25, 2015

Dear Student:

Congratulations! You are almost finished with your high school education and are headed to great new life adventures! We're offering \$1000 to help you get started.

Since becoming President of Colorado Mountain College, one of my top priorities has been to help local students like you be successful. For some this means getting a solid general education for transfer. Others stay with us all four years to earn their bachelor's degree. Some students graduate from high school, earn a technical degree at CMC, and then go right to work in a rewarding career.

Whatever your goal, we want to remove any barriers to help you achieve it. Here are a few things we provide to help you along your way:

- **Instant Admission.** As a local high school senior, you are pre-approved for admission to CMC. Just fill out our application online or at one of our campuses.
- **Solid Academics & Intelligent Price.** Much of college financial aid these days is offered as student loans. These loans can weigh you down for years with debt, limiting your options in life. So we offer the lowest tuition in the state to help you stay out of debt and focused on your dreams.
- **Welcoming Staff.** You're not alone in this. We will help you through all the steps to start at CMC and go as far as you want. Get started by visiting your local campus.
- **\$1000 for your first year!** Because Colorado Mountain College can give you such a great start, we are offering the CMC President's Scholarship to pay more than half your tuition for the first year. You must apply to CMC and submit your FAFSA by March 31, 2015, then graduate high school by June 30, 2015. For more details or if you are not FAFSA eligible, go to: [www.coloradomtn.edu/Ready](http://www.coloradomtn.edu/Ready)
- **Ayuda en español:** [www.coloradomtn.edu/Listo](http://www.coloradomtn.edu/Listo)

Once again, congratulations on completing high school! All of us at Colorado Mountain College are here to help you reach new heights.

Sincerely,

Carrie Besnette Hauser, Ph.D.  
President & CEO

**P.S.** Please be sure to claim your \$1000 scholarship by the March 31 deadline. This will pay more than half of your first year's tuition at Colorado Mountain College!
