

Mid-Efficiency Gas FER Model Family Cross

Current Model	Last Call Date	Tier	AFUE	Blower Motor Type	Stages of Heat	Stages of Cool Compatibility
Select Model						

New Model	First Ship Date	Tier	AFUE	Blower Motor Type	Stages of Heat	Stages of Cool Compatibility

VCA = Communicating Variable Speed Constant Airflow, VCT = Variable Speed Constant Torque, FCT = Fixed Speeds Constant Torque
 Please choose current product from the dropdown menu highlighted in orange.
 Yellow indicates a difference from current model.

To see full list of SKUs, right click on tab and unhide details sheet.

s Furnace ss-Reference

Blower Insulation	Heat Input Range (btuh)	Dehumidification Compatibility	Thermostat

Blower Insulation	Heat Input Range (btuh)	Dehumidification Compatibility	Thermostat

Torque, PSC = Permanent Split Capacitor

Mid-E FER S

Current Model	Last Call	Tier	AFUE	Blower Motor Type	Stages of Heat
Select Model					

New Model	First Ship	Tier	AFUE	Blower Motor Type	Stages of Heat

VCA = Communicating Variable Speed Constant Airflow, VCT = Variable Speed Constant Torque, FCT = Fixed S
 Please choose current product from the dropdown menu highlighted in orange.
 Yellow indicates a difference from current model.

To see full list of SKUs, right click on tab and unhide details sheet.

Efficiency Gas Furnace SKU Cross-Reference

Stages of Cool Compatibility	Blower Insulation	High Heat Input (btuh)	Max Cooling (Ton)	Cabinet Width	Dehumidification Compatibility

Stages of Cool Compatibility	Blower Insulation	High Heat Input (btuh)	Max Cooling (Ton)	Cabinet Width	Dehumidification Compatibility

peeds Constant Torque, PSC = Permanent Split Capacitor
