

# The Tabby's Star

The Tabby's Star was a bright star in the southern constellation Orion. It dimmed 10 times in the first year and continued to dim for centuries. Its light was dimming at irregular intervals. Its disappearance from view was explained by the fact that it was made of solid material. The spectral fingerprints revealed that it was likely a Dyson sphere. The spectral fingerprints also indicated that it was a solid object.

The SNS Dipstar collection consists of 150 colour options that are easy to apply and remove. These convenient powders can be purchased separately or in full sets. The SNS brand has won the hearts of over 60,000 professional readers of NAILPRO magazine. The SNS brand features the same benefits of the Dipstar dipping powders. So if you are in need of a dazzling new design for your salon, Dipstar is the answer.
