In 1976, Jeffrey Wood created the INTACT Educational Foundation. He coined the word Intact, both as a name for his organization and as its goal, too. Intact America draws upon his positive perspective for its name.

 Were you asked? Did you say "yes"?

If not, then regardless of your age at the time, your body and your rights were violated.

This issue boils down to this simple concept. The rest is just a smokescreen.

Circumcision is outdated, unethical, harmful and WRONG. It's time we leave this barbaric ritual behind and leave America's baby boys alone!

The foreskin and eyes are both easily maimed sensory organs. Male genital mutilation (aka circumcision) removes 75% of the penis' sensitivity, making this poster a thought-provoking metaphor.

Circumcision doesn't just hurt babies, it also affects the men they become. Respect boys' rights to keep the bodies they're born with, and say NO to infant circumcision.

# Male Genital Mutilation Is Not Cute

We've all seen the circumcised penis "cutely" portrayed as a peeled banana or sharpened pencil. But these images are dismissive and patronizing. The reality is much worse. We think this sausage metaphor parallels the truth without showing an actual mutilated penis.

Lainie Fitzgerald It's funny how all these parents think their sons will "thank them one day" for having them circumcised. Ok, keep telling yourself that. Boys are realizing what was done to them, what was taken from them without their consent, and they aren't happy.
