Kratom is a herb that can have a number of different effects depending on the color and the strain. But generally speaking the “Red Vein” strain is for pain and relaxation. The 1836 “Red Bali” is the specific brand and strain I take. I find this REALLY helps me take the edge off before bed, especially after one of my heavy Squat or Bench sessions.

My colleagues and I from MSU-SESS visited UIC-CTE for global mobility program last August 2019. Though the main agendum of the week-long visit was for the signing of memorandum of undstanding betwen MSU-SESS and UIC-CTE, it went far beyond what I had imagined because to me it was more of a significant learning journey.

First, it's about their hospitality. The friendly and kind grins that CTE teachers wore upon our arrival manifested a very warm welcome which made us feel so comfortable on the first night. This experience proved that Filipinos are truly hospitable people.

Second, UIC-CTE offers a lot of degree program where curricular offer are designed to meet the needs of those who choose to become a teacher. The curricula are very well planned aside from considering the country's standards of education graduates, CTE of UIC graduates are globally ready.

I may have missed my internship due to the pandemic, but I know by heart that my experience would surely have been great one. I miss being at UIC and the City of Davao, Philipines. Definitely, I'm going to pay another visit just to meet the lecturers, especially from Physical Education Department.

Experiences are said to be great teachers. Truly, the week-long experiences were life-long lessons to us. It is within us how we turn experiences into knowledge. For me, UIC-CTE, is a life-time experience I would forever treasure as a Physical Education teacher.

Until then, Terima Kasih, UIC-CTE!
