ACADEMY CULTURE

In today's modern game, adopting a winning mentality is essential for advancement, but it's important to recognize that there are highs and lows. Maintaining a positive yet inspiring club culture is crucial.

Both on and off the field, players are expected to align with our Academy Philosophy and Culture, which is non-negotiable. This ensures that they become positive influences among their peers, fostering a healthy and successful environment.

1. PROFESSIONALISM

Beyond the pitch, a professional lifestyle is key to unlocking your potential. We offer high-quality training, nutrition guidance, and mental well-being support to empower players to achieve their fullest potential.

ACADEMY CULTURE

2. LA FAMILIA ES TODO

We value the importance of family. We recognize that for many players, this might be their first time living away from home, possibly in a foreign country.

Creating a warm, friendly environment where players feel relaxed, free, and able to enjoy their football is paramount to us. Once you become a part of our family, you're a member for life, with support and contact available to you before, during, and after your time with us.

Our ultimate goal is for every player to leave with a smile, having had an unforgettable footballing experience.

3. EXCELLENCE

Excellence isn't just about winning; it's about giving your all, whether it's in training, on the field, or in life outside of sports. It's about pushing your limits, learning from every experience, and constantly striving for improvement.

ACADEMY CULTURE

4. INTEGRITY

In every game we play, in every training session we undertake, and in every interaction we have, integrity guides our actions. We believe that true victory is not just about the final score but about how we play the game. We play with honor, respect, and a commitment to fair play.

Integrity isn't just a value we uphold; it's a legacy we pass on to our athletes. We aim to instill in them the understanding that in sports and in life, integrity is the compass that guides them toward success and fulfillment.

5. GROWTH

A growth mindset refers to the belief that abilities, skills, and performance can be developed and improved over time through dedication, effort, learning, and perseverance.

Athletes with a growth mindset embrace challenges, see setbacks as opportunities for growth, and are motivated to continually push their limits.
