MONTH 18

The immune system is made up of special organs, cells and chemicals that fight infection (microbes). The main parts of the immune system are: white blood cells, antibodies, the complement system, the lymphatic system, the spleen, the thymus, and the bone marrow. These are the parts of your immune system that actively fight infection.

Primo For Weight Loss: Primobolan, or Primo as it is known in the bodybuilding community, is one of the safest steroids on the black market today. As it is very well tolerated amongst steroid users from all walks of life. If you want to bulk up and build muscle, primo isn't for those of you looking to pack 50 pounds of muscle onto your frames.

Vandaag had ik de keus kunnen maken om weer om 6 uur buiten te staan voor de training, of een uurtje langer blijven liggen en dus een uurtje langer energie opdoen. Aangezien de training er eentje op lage intensiteit was, hoefde ik niet lang na te denken. Ik stond om 7 uur buiten, en heb heerlijk rustig in het zonnetje met een verfrissend briesje gelopen vanochtend! Fijne dag vandaag! ☺♂
