Nebido® provides testosterone to men whose testes do not produce enough testosterone. The injection is an intramuscularly administered depot preparation of testosterone undecanoate. Following intramuscular injection of testosterone undecanoate as an oily solution, the compound is gradually released from the depot and immediately cleaved by serum esterases into testosterone and undecanoic acid.

Make sure you SAVE this for your next ab workout, or if you are in need of a quick serotonin release!

Before you buy Nebido online from UK or consider use of Nebido testosterone injections, it's recommended that potential users visit the Bayer website in regard to how it's supposed to be used. Even in medical scenarios, side effects are possible.
> Do not prepare meals (or eat) when you are upset or stressed, because your liver and digestion are adversely affected by negative emotions and will not digest that meal efficiently
