NFTs - p.12

DAO - p.13

Roadmap - p.14

Final Words - p.15

## Why \$FAITH?

Web3 and Cryptocurrencies in general have become a hub for seedy behaviour and degenerate gambling. Whilst this is not the fault of the technology, it can be entirely attributed to the mindset of many so-called crypto ‘investors’ who are simply here to make a lot of money and ride off ‘to the moon’. Out of this unfortunate deficiency of Human Psychology, thousands of investors have been scammed, robbed or even straight-up lied to by their favourite projects. Billions of Dollars in assets have been stolen by these wolves in sheep’s clothing, with their power increasing day by day. Those who had money before crypto tend to be the ones making any money in crypto, as the capitalist mantra affirms: “Money creates Money”.

Despite this, many innovating minds, young and old alike, have created some beautiful projects that truly seem to offer answers to a future brimming with questions. Age-old issues stemming from the over-centralisation of public resources now stand a chance of a new life embedded in a decentralised model, facilitated by Web3 and Cryptocurrencies. However, there is a darkness brewing in the background, an attempt to centralise these technologies is currently underway with Trillion Dollar companies suddenly turning their greedy eyes towards Web3. This is a double-edged sword, however, as these companies will bring in ‘all the money’, a wave of liquidity of immense proportions. It is down to us, seemingly average crypto investors, to ensure that this technology gets used for its proper purpose - decentralisation.

\$FAITH was born out of this light, to create a truly decentralised project which serves to empower and educate its Holders instead of harvesting them for the passive income of larger shareholders. It is a project built entirely on the blood, sweat and tears that have been shed over the past 2 years of the bear market. This project has been entirely guided by a Higher Source of Inspiration, we claim very little credit for its creation. There has never and will never be an ICO, private pre-sale or even a single penny of investor money going into the launch of this token. Instead, we have been instructed to give away 90% of the Total Supply to anyone with Faith in their Heart. This is The Way.

By putting Faith before money, we intend to flip the narrative of Cryptocurrency on its head. By creating a truly valuable project that grows from the inside out, organically. \$FAITH is by the people, for the people. The purpose of this project is to educate, empower and build a worldwide community of individuals with Faith in their Hearts. It truly is as simple as that and we hope that the rest of this Whitepaper gives you all the information you need to join our movement of Love, Kindness and Generosity. Thank You.

## Team

\$FAITH is a family-run project. It has been built by Authentic, Loving Human Beings who wish to shine a Light in a space full of darkness. We are completely different to any project in Web3 or Cryptocurrency.

Our names are Lucy and Jack, or 'Jucy', and we are expecting our first child in October. Still in our 20s, this has been the greatest blessing Life has given us so far - purpose, focus and determination.

We have received no external help or funding in the creation of this project. All energy invested has been what little we can spare whilst preparing for the arrival of our baby and a big move.

i. Who are We?

- ◆ In all honesty, we're still figuring this one out! Society calls us Rebels, and 'authority' labels us Non-Conformists. In Truth, we are simple Human Beings who are sick and tired of the status quo.

ii. What are We about?

- ◆ As the great Bob Marley once chanted "none but ourselves can free our minds", we firmly believe that Humanity can do better. We apply this to ourselves in every moment, and so can you.

iii. What does Faith mean to us?

- ◆ To us, Faith is very simple. There are no rules, no dogmas and no hierarchies. In essence, Faith is a Deep Trust and Belief in Something Greater. An inextricably personal experience with Creation.

## Story

\$FAITH was born out of our experience in the Web3 space. It is an attempt to create everything that we feel has been missing from this fantastic, growing ecosystem. Merging a Holistic Mindset with New Technology.

Having seen and experienced first-hand the powerful emotions evoked by investing in Cryptocurrencies, we could see that there was a need to protect the Health and Lives of investors as we have lost too many.

Consider this the culmination of 6 years' worth of direct experience in the Web3 Ecosystem. We understand very well how this technology can be used to change the world, here is our offering!

i. Where did \$FAITH come from?

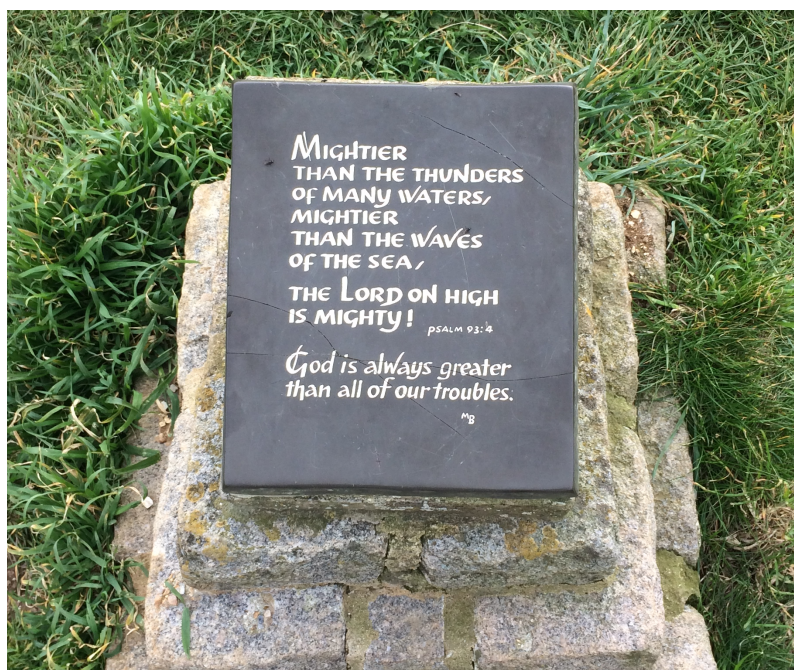

- ◆ This project came straight from The Heart, inspiration has flowed through it like a river of Love. This Moment has brought everything together in Divine Timing, there is no other way to put it.

ii. Why have we done all this?

- ◆ To spread Love and Kindness in a space full of hatred and greed. We truly believe that Love conquers everything, even the cold, impersonal world of Crypto investing.

iii. How we plan to make it happen!

- ◆ By simply being Ourselves and having Faith in our actions. We pray for inspiration and lead from our Hearts, completely unattached to outcomes. We believe in the Universal Message of Faith.

## Tokenomics

\$FAITH Total Supply - 369,369,369,369 issued by rfeSrMKMvyb3MSMnQRFZ1Dwd9KHS6g49ZT (Blackholed), activated and distributed by rfV9eRhmk5mrCC4HYxHTWgUYBUEjVZ9Pp (KYC'd)

### Token Allocation -

Airdrop: 332,432,432,432.1 (90%)

Liquidity Pool: 33,243,243,243.21 (9%)

Team: 3,693,693,693.69 (1%) - The Team consists of 3 Members (0.333% per Member)

#### i. 3.96% Burn Rate

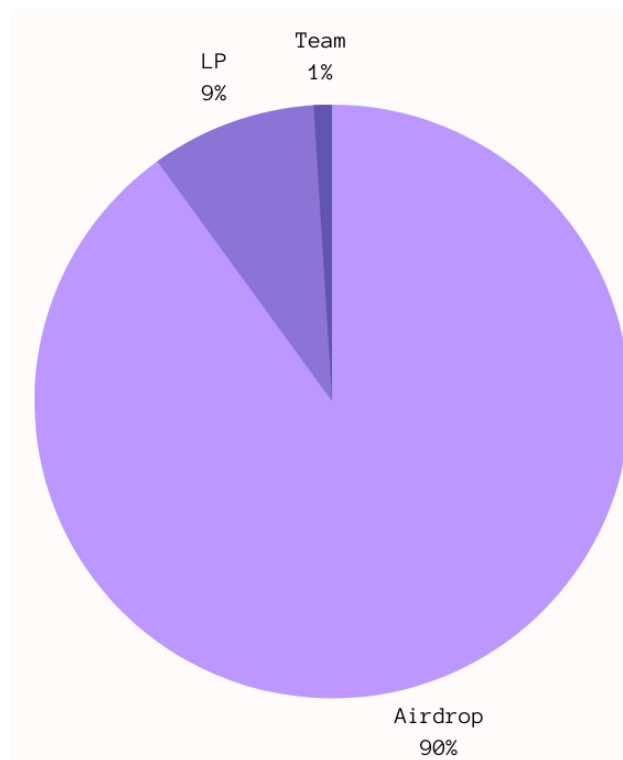

- ◆ Every transaction using \$FAITH will incur a 3.96% transfer rate which will be burnt, making this a deflationary token. This means the Total \$FAITH Supply will exponentially decrease.

#### ii. The Fire

- ◆ The Fire will be going at all times for \$FAITH Holders to voluntarily burn tokens. 50% of unclaimed Airdrops will be sent to The Fire. This will further decrease the Total Supply.

#### iii. The Pool

- ◆ The Pool will be open at all times for \$FAITH Holders to voluntarily increase the Liquidity Pool once XLS-3oD goes live. 50% of unclaimed Airdrops will be sent to The Pool, increasing liquidity.

## Tier System

\$FAITH will initially have 3 Tiers of Holders - Diamond, Gold and Visionary. Further Tiers may be added by the \$FAITH DAO in future.

The exact numbers for this will be generated once the Airdrop Signup has been completed. For example - 1500 signups = 221,621,621.62 \$FAITH tokens per wallet address (0.06% of the total supply)

The Tiers are determined by the % of the original Airdrop quantity held by a wallet at any given time. For the examples below, we will use the number above to calculate.

- i. 84% of Airdrop (example: 186,162,162 \$FAITH)
  - ◆ Diamond Tier \$FAITH Holder: Benefits include a 50% discount off any services facilitated by @faithtokens. Further benefits may be decided by the community as the project grows. This will be the minimum amount of \$FAITH to be held for participating in a Formal Podcast.
- ii. 51% of Airdrop (example: 113,027,027 \$FAITH)
  - ◆ Gold Tier \$FAITH Holder: Benefits include a 25% discount off any services facilitated by @faithtokens. Further benefits may be decided by the community as the project grows. This will be the minimum amount of \$FAITH to be held for speaking on a live \$FAITH Space.
- iii. 27% of Airdrop (example: 59,837,838 \$FAITH)
  - ◆ Visionary Tier \$FAITH Holder: Benefits include a 10% discount off any services facilitated by @faithtokens. Further benefits may be decided by the community as the project grows. This will be the minimum amount of \$FAITH to be held for DAO governance in the future.

|                           | scenario 1       | scenario 2     | scenario 3     |
|---------------------------|------------------|----------------|----------------|
| airdrop signups           | 300              | 1500           | 3000           |
| \$FAITH per trustline     | 1,108,108,108.11 | 221,621,621.62 | 110,810,810.81 |
| % of supply per trustline | 0.3%             | 0.06%          | 0.03%          |

## True Value Utility

\$FAITH intends to create value for Holders by providing tangible Services. This is the Value.

These Services may be provided by any \$FAITH Holders in the Tier System with @faithtokens facilitating the proliferation process of these Services.

Once established, the \$FAITH DAO will vote on whether a Service is up to the \$FAITH standard.

i. Online Courses

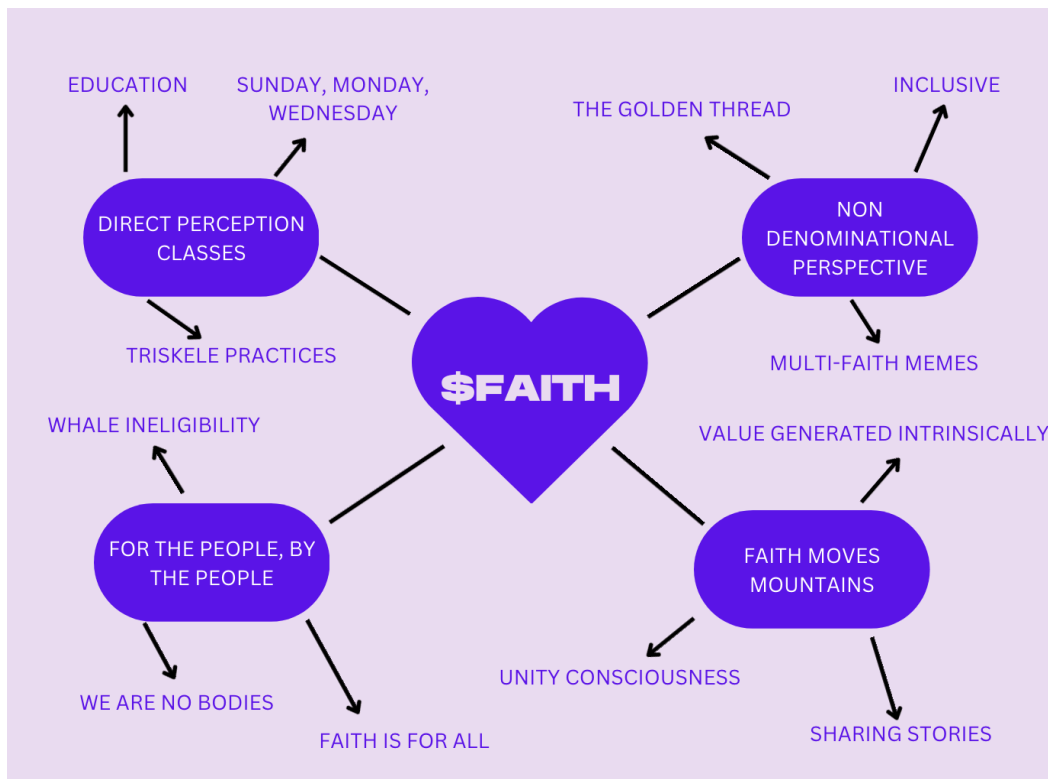

- ✦ A platform to share our unique gifts with the World. We all have something we are gifted with. Formulate this into an Online Course and sell it through @faithtokens using \$FAITH.

ii. Online Group Trainings

- ✦ A space to share any Online Group Training. Take your Course even deeper with an Online Group Training which you can advertise and sell through @faithtokens using \$FAITH.

iii. In-person Retreats

- ✦ A medium to organise, plan and share In-person Retreats. Human Connection is vital to Human Wellbeing. Collaborate, advertise and sell through @faithtokens using \$FAITH.

## Wellbeing Platform

\$FAITH recognises the severe lack of Wellbeing Support in the Web3 and Cryptocurrency space.

We intend to make @faithtokens into a Wellbeing Platform to support the Physical, Mental and Spiritual Health of so-called 'Crypto Degens'.

Coming from a background of Wellness Coaching and Lived Experience, we truly believe that this is not only possible but necessary for the Health of the entire Web3 ecosystem.

### i. Nurturing Faith through Wellbeing

- ◆ It is by prioritising our Personal and Collective Wellbeing that we begin to understand the notion of Faith. By seeing ourselves as Whole instead of loose parts, we begin to see the Interconnectedness of It All, by sharing this, we step into CommUNITY Consciousness.

### ii. Human Empowerment Protocols

- ◆ It is our mission to share Objective, Human Empowerment Protocols. Simple, inexpensive steps that we can all take towards a more Empowered Existence. We also believe that every one of Us has our own unique tools to share, no one is ever an expert!

### iii. Health is Wealth!

- ◆ It is our firm belief that Health is the True Wealth in this Existence. It may be important to note this as many of us are here seeking material wealth, why not focus on our Overall Health in the meantime? @faithtokens will facilitate this process by sharing Health Positive Content.

## \$FAITH Spaces

\$FAITH recognises the lack of Open spaces in Web3 and Cryptocurrencies to talk about sensitive topics such as Faith, Growth and Loss. We are Human Beings, we are allowed to be vulnerable.

We intend to create such a space where individuals feel safe to share and discuss sensitive topics in a calm, non-inflammatory manner. This is the path of Higher Understanding and True Faith.

\$FAITH is committed to being a non-denominational space where all walks of life are accepted, tolerance is practised and boundaries are explored. We will make space for all voices to be heard!

### i. Live, Open Discussions

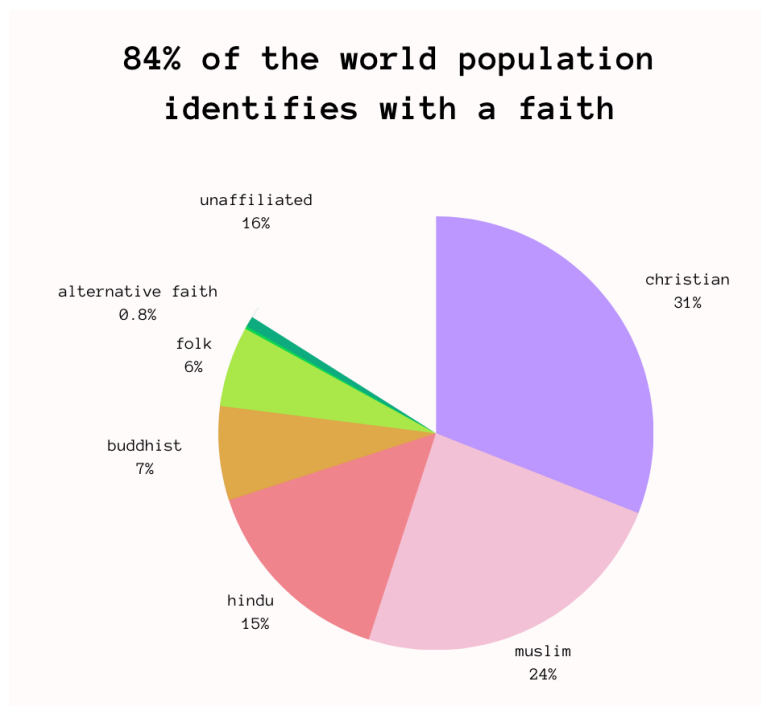

- ◆ Hosted through the X platform, these spaces will be open to Gold and Diamond Tier \$FAITH Holders to discuss, share and educate on matters close to The Heart. Anyone may listen in.

### ii. Formal Podcasts

- ◆ Hosted through Zoom, these podcasts will be open to Diamond Tier \$FAITH Holders who feel the call to share their Truth or a message for the \$FAITH Community. Recordings will be shared for all.

### iii. Recorded Videos

- ◆ Shared via Youtube, these videos will be free to all who wish to watch them. There will be a variety of content and the opportunity for all \$FAITH Holders to contribute their videos.

## Online Breathing Circles

\$FAITH is committed to holding consistent, weekly Online Breathing Circles. With Jack, one of our Founders being a Fully Qualified Breath Coach, he will be hosting the first iterations of these Circles.

These Online Breathing Circles will be Free for \$FAITH Holders of all 3 Tiers and serve as the connection point for the wider Community. In time, Community Members may apply to host their own practices.

The Breath has been chosen for its simplicity, and accessibility and because it is a non-denominational practice. Every form of Faith includes The Breath as a key ingredient for the Direct Perception of a Higher Inspiration.

i. The Power of Mass Meditation

- ◆ We have the opportunity to create a Quantum Phenomenon rooted in Faith, research Mass Meditation and see that it is The Answer! In short, we can change the world by Breathing Together.

ii. Healing Earth as One

- ◆ Through collective intention, we can share our innate healing gifts with The Earth. True Wealth lies in The Earth, look after Her and She will look after you.

iii. Sharing the Gifts of The Breath

- ◆ The Breath carries The Key to Your Self-Attainment, books and teachers will never take you there! This space encourages self-empowerment and self-exploration above anything else.

## breath awareness tips

### **relax**

let go and allow the sensations to arise, notice any tenseness and relax into it

### **focus**

fix your attention on the breath  
if it helps, find a visual focus point to stay focused

### **self-manage**

be kind to yourself while you watch your breath  
if you lose focus just gently come back to the breath

### **enjoy!**

breath awareness can bring about profound insights and breakthroughs  
allow yourself the space to explore!

## NFTs (Non-Fungible Tokens)

\$FAITH is seeking to leverage the utility opportunities offered by NFTs on the XRPL. Low fees, straightforward minting processes and in-built marketplaces make this an attractive platform.

We are focused on creating value for both the Community and the Artists, something the Art World has struggled with due to excessive centralisation.

By using NFTs in a very specific manner, \$FAITH intends to showcase what this new technology makes possible!

### i. Fractional Art Ownership

- ◆ Any NFTs minted by @faithtokens will represent a % ownership of the Original Physical Piece of Art. Each NFT is essentially a 'share' of the Piece.

### ii. Fundraising

- ◆ NFTs will be exclusively used for Fundraising purposes with 90% of all proceeds going towards that purpose and 10% to the Artist. This is how we create value together!

### iii. Phygital Art

- ◆ Holders of a @faithtokens NFT will be able to claim a physical copy/print of the Original Piece after a minimum of 90 days to ensure integrity.

**why XRPL?**

- all the money**  
it's no secret that the XRPL is shaping up to be the financial hub of crypto  
Sologenic will be the first licensed tokenisation platform
- non-existent fees**  
fees on the XRPL are virtually 0  
even launching a token barely costs you anything
- easy to use**  
the XRPL has undergone and is undergoing significant updates  
it is one of the easiest blockchains to navigate

## DAO (Decentralised Autonomous Organisation)

\$FAITH is and will always be bigger than One person or Team. Once \$FAITH reaches 3,690 Holders, all leadership and control will be handed over to the \$FAITH DAO.

The DAO will then be in charge of \$FAITH and @faithtokens, creating a decentralised Community within an already decentralised Project.

The Original Team will always be available to support the DAO and will remain as active members once they have stepped down. It has been Written.

### i. Community Oriented

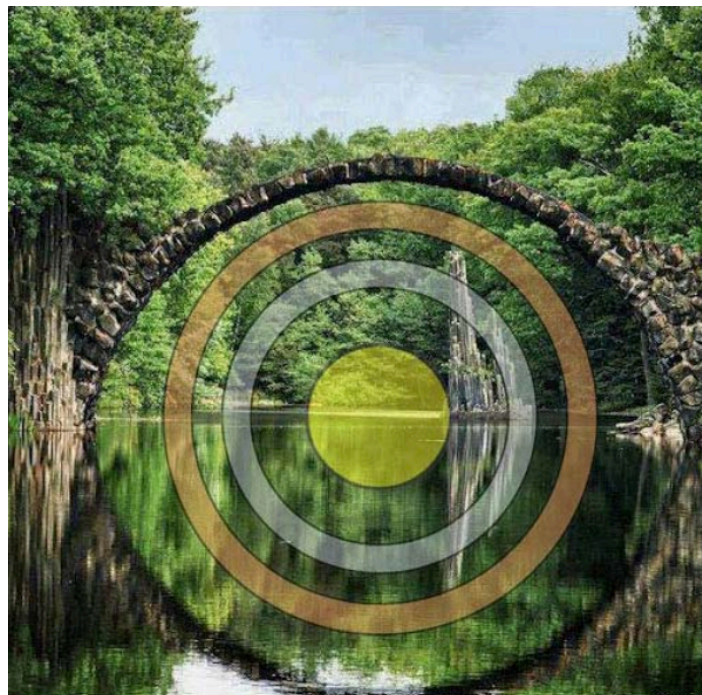

- ◆ The Community decides what The Community needs, what The Community wants to do, and where The Community goes. This will be down to all of Us.

### ii. Governance

- ◆ Using \$FAITH as a Governance token, The Community will be able to vote on decisions, plans, listings, etc. The DAO is in charge!

### iii. Reclaim the Hive Mind

- ◆ Governance in conjunction with Online Breathing Circles means we will be able to make decisions guided by a Higher Source of Inspiration. The impact this could have is breathtaking.

## Final Words

\$FAITH is nothing without an active, engaging Community behind it. Put simply, we need You to make \$FAITH happen! There is no other way to build a movement that lasts - This is The Way.

This is why we believe airdropping 90% of the total supply is the right thing to do, we value You. This way, The Community is in full control of the project making it impossible for the team to 'rug'.

We are happy to put our time and energy into this because we believe that this is what we were meant to do. Holding space for Collective Empowerment is our dream, this is only The Beginning.

### i. Engage with Us

- ◆ Be active on the @faithtokens platform, engage with stories, share your experiences, and build connections that last. Connections built on Faith rather than money.

### ii. Spread The Message

- ◆ Share \$FAITH as far and wide as you can! We want this to be the most decentralised token at launch on the entire blockchain. No more shady insiders and early whales! We all get a piece of this pie.

### iii. Authenticity is The Key

- ◆ Our goal is to encourage You to step into Your Authenticity. Be Who You Are. This is a space where we welcome It All. You are no longer alone, anon, you have A Family.
