

Nintendo Announces the Top 15 Most-Downloaded Switch Games in January 2022 (Europe)

The Top 5 aren't shocking in any way. Why is the song so low in the top 5?

Stardew Valley is a beast. I'm curious to know how many millions it's sold on Switch to date? It's undoubtedly one of the most popular indie games ever.

Just to clarify I don't believe this applies to Fortnite.

@OorWullie It's actually the top-selling indie game to date. It sold over 10 million copies across all platforms by January, 2020.

@TheFullAndy It's still an amazing video game! Plus, MINECRAFT is older than smash.

I don't think Smash is as big in Europe as it is America and Japan.

@BTB20 minecraft surely must be the biggest indie game or did it cease to be indie when it was purchased by Microsoft

I'm hoping the reason Cyber Shadow missed this list is because it released so late in the month of March. Absolutely an amazing game that shines despite the crowded retro market.

@Tandy255 It's half the number of boards as Mario Party 1 on the N64, which had 8. It's a shame it did so well, especially considering. It won't encourage developers to do more the next time around.
