About Dynamic Aesthetic Clinic

Dynamic Aesthetic Clinic is a leading aesthetics clinic in Dubai that provides exceptional beauty, skincare and hair solutions for all. We offer personalized treatment plans that are designed to provide maximum results to all of our clients.

What is GFC treatment for hair?

GFC treatment for hair is a type of **Hair Restoration Therapy** that utilizes growth factor cells to nourish the hair follicles and promote hair health. These cells are extracted from the patient's own blood and injected into the scalp to help combat hair loss and promote growth.

How does GFC treatment work?

Step 1: Consultation

We begin with a one-to-one consultation to assess your hair goals and recommend the best treatment plan for you.

Step 2: Blood Collection

We collect a small sample of your blood and extract the GFCs using a special centrifuge machine.

Step 3: Injection

We inject the GFCs into your scalp where they work to promote hair growth and regeneration.

Benefits of GFC treatment for hair

Promotes Hair Regrowth

GFC treatment boosts the body's natural healing processes to promote hair growth and restore hair density

Safe and Non-Surgical

GFC treatment is a non-invasive procedure that requires no surgeries or cuts.

Stimulates Collagen

The procedure increases blood circulation and stimulates collagen production which improves hair's texture and structure

Minimal Downtime

You can resume your daily activities immediately after the treatment as it requires minimal downtime.

GFC treatment procedure at Dynamic Aesthetic Clinic

At Dynamic Aesthetic Clinic, we provide a comfortable and relaxing environment for all our patients. Our clinic uses the latest technology and techniques to provide effective results. Our expert team will assist you throughout your journey and ensure your safety at every stage of the treatment.

Frequently asked questions

Is the treatment painful?

The treatment is pain-free and requires minimal downtime

How long does the treatment take?

The treatment takes around 60-90 minutes, with no recovery time required

When will I see the results?

Results are visible after 3-4 treatments spaced 4-6 weeks apart.
