# **SUPER CATS WHITEPAPER**

**The purpose of this Super Cats Whitepaper is to educate the public on our vision, roadmap and strategy. Super Cats is decentralized and our mission is to use it to bring crypto to the average person. There are many rewards it offers too. Super Cats gives rewards in tokens (2%) automatic, which generates a lot of passive income for the holders. It has really cheap gas fees and because it is built on Binance Smart Chain it has a faster speed compared to dogecoin. Super Cats token is innovative and is going to push the conversation forward by making crypto more accessible. At the same time, by making use of it, users are going to be helping a good cause: assisting millions of cats worldwide.**

# WHAT IS SUPER CATS?

Super Cats is a decentralized and community driven meme token, built on the Binance Smart Chain. We believe that cats should be one of the pillars of meme tokens. Our goal is to unite all cat lovers in the crypto industry.
