Download SCP mod for Minecraft PE: Get acquainted with strange locations, creatures, and objects!

SCP mod for MCPE

This abbreviation is interpreted as Secure, Include, Protect. It's a fictional organization. Its activities encompass the content of abnormal beings, places, phenomena, objects.

Normally, all of those objects are referred to as SCP objects in Minecraft Pocket Version

Creations

This addon provides both monsters and unusual individuals to Minecraft PE.

There are a lot of, so not all might be described.

SCP-682

It is short in peak however has a protracted body covered in blood. It has one million items of well being, making it virtually immortal in MCPE.

His strike alone is sufficient to inflict deadly injury, making his murder even tougher.

It is strongly recommended to try to assault with firearms.

SCP-1048

It's originally a friendly and harmless teddy bear in Minecraft PE. However, minecraft pixelspark servers is essential to observe the process.

After accumulating a sure variety of friends, SCP-1048 turns into a giant bear that won't thoughts killing the player.

Individuals

They are divided into a number of classes: D-class, researchers, scientists, defenders, rebels. Also, with this SCP addon in Minecraft Bedrock Version, 9-tailed foxes and their commander are added.

These creatures might be tamed with gold bars.

Generations

One other equally exciting a part of this SOP addon is the development. All three of them: the

muse, the camp of soldiers, and the bottom of Chaos.

For the SCP Addon to work in Minecraft PE, it is important to incorporate an experimental play mode in world settings.

SCP Unity

This mod adds plenty of content to MCPE from SCP Unity. As well as, a large number of mobs, items, and blocks have been carried out. For instance, SCP-174-U, SCP-066-U, SCP-772-U, and different weird creatures await you.

There can also be a wet floor plate in the Uniti SPC, colored barrels, and Lego blocks. Moreover, the addon developer added various footage with logos of the company.
