---

**A leading Vero Beach plastic surgery center in Florida has launched a new website to showcase their new tattoo removal services with the goal to provide the fastest, safest and most pain free ink removal process on the Treasure Coast.**

**March 23, 2015 - VERO BEACH, Fla.** -- For the past 25 years plastic surgeon Dr. William Frazier has provided facelift, tummy tuck, breast augmentation and other cosmetic surgical procedures at Vero Cosmetic and Medispa in Vero Beach Florida. With the rise in popularity of tattoos and body ink and consequently the rise in "Tattoo Regret", Dr. Frazier and Vero Cosmetic and Medispa now provide tattoo removal services at their new website <http://www.TattooRemovalVero.com>.

To accomplish this task, Dr. Frazier uses the latest advancement in laser technology, the [PicoSure Laser by Cynosure](#). The PicoSure laser does not use heat as it uses mechanical light to break up the tattoo ink making it more effective in fewer treatments.

Pain management and pain avoidance is a top priority for Dr. Frazier.

Dr. Frazier addressed the concerns of those who wish to have tattoo removal in Florida by saying, "[Pain-free tattoo removal](#) is here. With local anesthesia injected to numb the tattooed area and also chilled air

to cool the skin, you can now enjoy quick, comfortable, and affordable sessions."

He went on to address additional concerns of the patient, "The laser works fast on difficult colors like blue, black and green. It also works on previously treated tattoos as you can anticipate four to six treatments to clear a tattoo, not twenty or more painful treatments."

For more information on pain free tattoo removal in Florida visit <http://www.TattooRemovalVero.com>

Videos of Dr. Frazier explaining the various services offered at Vero Cosmetic Surgery and Medispa can be found on his company Vimeo channel at <http://vimeo.com/VeroCosmeticSurgery>.
