                           PROCEEDINGS
  (2)
               THE COURT:
                                           Counsel, good morning.
  (3)
               MS. GUTIERREZ:
                                                 Judge since the jury panels not here I do have ... !
       wrote some notes yesterday. There were two jurors out of the panel from yesterday I
  (4)
       would ask to be questioned. Theres one juror -- there was one juror -- let me see if I
  (6) can find her -- was concerned and came in response to -- your Honor questioned -- said
       well she was concerned about race and Asians. And then -- thats juror number 217 on
       page five. And you assured the juror you didnt want to -- she came up in response to
        question about or not theyd heard or read - -
(10)
               THE COURT:
                                          Right.
(11)
               MS. GUTIERREZ:
                                                 - or treasuration about it and you assured her
(12) that you would address that later. And although I do appreciate the way the court lumped
       questions together and did get to most of the issues that we asked, there really wasnt a
       direct question about race or Asians that would have afforded her an opportunity to
       answer that.
(16)
               THE COURT:
                                          Well actually there was but that was a part of a question
(17)
       which involved the fact setting - -
(18)
               MS. GUTIERREZ:
                                                 Right.
(19)
               THE COURT:
                                          -- in identifying your client and Ms. Lee. I accusely think
(20) I repeated the question emphasizing anything about that if it did, in fact, illicit some. But
       if you wish further question, I would - -
(22)
               MS. GUTIERREZ:
                                                 Well I would only because the only --
(23)
               THE COURT:
                                          At it you wish further questioning, we have only one
(24) rule here. Well actually we have many rules here. One of those rules is when I speak, no
      on else speaks. Thats not because in the judge and youre the lawyer. Thats just

(1) because somebody has to direct traffic, Mrs. Gutierrez. And since the governor made me
  (2) the traffic director in this particular room, I get to talk and everyone else listens. Now as I
      said, I will, if you want, re-question number 217. Now was there someone else?
              MS. GUTIERREZ:
 (4)
                                             Yes, you Horar, these another jury and that
 (5)
       juror is juror number 196.
 (6)
              THE COURT:
                                       And tell me about 196.
 (7)
              MS. GUTIERREZ:
                                             its on page four. She answered the hardship
       question and what I wrote down -- I wasnt quite clear of her answer but she said she was
 (9)
       mentally ill and I - -
              THE COURT:
(10)
                                       Yes. I believe I excused her this morning. I got a call
(11) from her therapist indicating that yes, she is mentally ill.
(12)
              MS. GUTIERREZ:
                                             Okay. Well then - -
              THE COURT:
                                       Is that Ms Walinski, is it?
              MS. GUTIERREZ:
(14)
                                             Bella Walinski, yes.
(15)
              THE COURT:
                                       Ms. Walinski was excused this morning.
(16)
              MS. GUTIERREZ:
                                             Okay.
(17)
              THE COURT:
                                       I will question 217 when she returns this afternoon. You
(18)
      could also indicate that we had some problems with the sexual relationship as well.
(19)
             MS. GUTIERREZ:
                                             Yes.
(20)
              THE COURT:
                                      I didnt agree with him, so I think you are correct and
(21)
      she is gone. Are there things that you all can stipulate to? You all had done so well
      yesterday on stipulating to the diary, I thought I saw a ray of hope there.
(23)
             MR. URICK:
                                     How about the identify of the victim?
             MS. GUTIERREZ:
(24)
                                             Yes, we could easily stipulate to that.
             MR. URICK:
(25)
                                    Admission of the Defendants cell phone?

of having you form a line along that side of the courtroom, and we'll take your answers up	
here in privacy at the bench. Again, listen to the entire question. It's in multiple parts and	
then I'll have your answer after you've heard the entire question. That question is have	
you or any close family member ever been the victim of a crime, convicted of a crime,	
served time for a crime, or have pending criminal charges? You or any close family	
member ever the victim of a crime, convicted of a crime have pending criminal charges, or	
spent time in the prison for a crime? That's the first part of the question. Now here's the	
second part. Listen to it, please. Mr. Syed is American born of Pakistani ancestry. He is	
a Moslem and a member of the mosque known as the Islamic Society of Baltimore located	
off Johnnycake Road in Baltimore County Ms Hae Min Lee was Korean American Mr.	
Syed and Ms. Lee were allegedly involved in an intimate sexual relationship. Because they	
were underage and unmarried, such a relationship was forbidden by their religions. Is	
there any juror who would be unable to reach a fair and impartial verdict because of those	
facts? I'll read it again. Mr. Syed is an American born of Pakistani ancestry. He is a	
Moslem and a member of the mosque known as the Islamic Society of Baltimore located	
off Johnnycake Road in Baltimore County. Ms. Hae Min Lee, the victim in this case, was	
Korean American. Mr. Syed and Ms. Lee were allegedly involved in an intimate sexual

here two days. MS. GUTIERREZ: Well many that's more of a reason why their being here today should ultimately count for something. THE COURT: It counts for something. MS. GUTIERREZ: That they get off. THE COURT: Yeah, I'm trying to get them off. MS. GUTIERREZ: Well one, I don't think that's fair and two. I don't think that's in line with what the Rules anticipate. THE COURT: No, the Rules anticipate that you have a pool from which you strike. MS. GUTIERREZ: That's correct, Judge, but you should not arbitrary and capricious. I've never heard of cutting the second panel ahead of the first panel. THE COURT: No, you don't have two panels. You You have one panel and I can start anywhere in the list I want to. Well I disagree with the court that the court can just MS. GUTIERREZ: start where it wants. I object for the record.

THE COURT: You. You have your objection for the record. Okay. Now any hardships from today's list?

MS. GUTIERREZ: Forty-nine She's taking care of foster care children. She was also a victim which nobody got caught. THE COURT: Any problem with 49 for hardships? Today's 49. MR. URICK: If we're going to grant it for that, we're going to grant it for almost everything.

THE COURT: She has asthmatics though She said that two of the foster children are asthmatics which is different. I mean. (indiscernible) to death last year.

I now know it to be serious. So 049, we're going to give a hardship on Zero-four-nine from today's list, please report the jury room on the second floor Zero-four-nine. MS. GUTIERREZ: Juror 266. This juror's just starting a new job. THE COURT: As a (indiscernible) assistant -- no I don't think so. MS. GUTIERREZ: I put a question mark against this -- being a diabetic myself I know that it can be - -

THE COURT: Which one?

MS. GUTIERREZ: It's 309. He's a diabetic. He seemed to be concerned.

THE COURT: Any objection of taking the medical problem out -- 309? Three-zero-nine out - - the diabetic. Three-zero-nine, please report to the jury assembly room on the second floor. Three-zero-nine. Okay,

And juror number 340 is taking care of her -MS. GUTIERREZ: THE COURT: Eighty-three year old aunt?

MS. GUTIERREZ: -- 83 year old aunt Didn't appear to have any coverage for that, particularly since this is going to be a long trial of some reasonable length.

THE COURT: Well I would be inclined to take -- akay | Tell you what. Any object to 340 who's taking care of the 83 year old aunt and 239 who recently lost his mother and father and is caring for the grandmother and brother.

MS. GUTIERREZ: Oh. yeah.

THE COURT: That strikes me as more - -MS. GUTIERREZ: What number was that, your Honor? THE COURT: Two-three-nine and three-four-zero. MS. GUTIERREZ: Two-three-nine.

Two-three-nine and three-four-zero. THE COURT: MS. GUTIERREZ: Well I would object to - -THE COURT: To?

MS. GUTIERREZ: The starving artist/musician - - two-three-nine would because what he said was that he should be out looking for a job, he's got his resume

THE COURT: But he said he was tending, though, his grandmother and father before he lost them

MS. GUTIERREZ: Well he didn't say - -THE COURT: Actually, you're right.

MS. GUTIERREZ: -- that. He's got his grandmother and he's got his

resume. THE COURT: I forgot he was a starving artist/musician I will take the 83 year old aunt. Three-four-zero, please return to the jury assembly room on two

Three-four-zero. MS. GUTIERREZ: And there were no other hardships that I really

noted down.

THE COURT: Okay. Now let me look at yesterday's hardships MR. URICK: We have a few more.

THE COURT: Sure.

MR. URICK: Zero-seven-zero I think is one who said she would not be paid if she didn't work.

THE COURT: Zero-seven-zero. She wants the money for the house Okay.

MS. GUTIERREZ: Yeah, I don't object to that

THE COURT: Okay. Zero-seven-zero Zero-seven-zero please report to the jury assembly room on two. Zero-seven-zero. Okay. MR. URICK: If I could have a few moments. I think there were some others like that. Number 176.

THE COURT: Yeah, the sole supporter of the household? MR. URICK: Yeah. If she doesn't work, she doesn't get paid THE COURT: Okay. One-seven-six. MS. GUTIERREZ: I don't object to that.

THE COURT: One-seven-six, please report to the jury assembly room on two. One-seven-six from today's list. Today's 176. MR. URICK: Two-eleven, I'd bring to your attention, is the one that has

to have that 15 week training program, but it's with Giant Food. I'm certain they would work with him on that.

MS. GUTIERREZ: Your Honor, I'd object to that. I don't - -THE COURT: I know he's going to get paid. MS. GUTIERREZ: Yeah, they'll just start him over again on the 15 week program.

THE COURT: I'd rather take out 325 - - the self employed person who's not going to get paid.

MS. GUTIERREZ: Three-twenty-five I thought we already struck. MS. MURPHY: We took that out.

THE COURT: Is 325 out?

MS. GUTIERREZ: Yeah, it's on my list. THE COURT: Very good. Very good. Anything else from today's list from the State?

CLERK: Acceptable to the State? MR. URICK: Acceptable. CLERK: Acceptable to the defense? MS. GUTIERREZ: Most respectfully challenge. CLERK: You. You can have a seat in the courtroom. THE COURT: Okay. Counsel, please approach. (Counsel and Defendant approach the bench and the following ensued:) THE COURT: Yes, sir? You. You asked to approach? MR. URICK: Yes. Your Honor, we make a motion to (indiscernible) specifically referring to the white males that have been struck to the jury. Most of them that have been struck by the defense have not answered a single question. THE COURT: Okay. Let's see. The defense has used 11 strikes. MS. GUTIERREZ: Ten. THE COURT: Eleven. The defense has used 11 strikes. Of that number - - four were white males, two were white females, one was a black male and four were black females. I'm not sure that the State has met its initial burden of demonstrating a pattern of racial strikes under Badson (phonetically). MR. URICK: The pattern is in the disproportionality of it. The panel is overwhelmingly made of black females and black males - - not white males. She struck

How many white males were there in the combined THE COURT: panel? What is the number?

MR. URICK: I don't know. But now we're done to death. THE COURT: No. we start by the number of white males in the panel. If you want to determine that there was a disproportionate number of them, strike --

URICK: There 23 out of 163 - -THE COURT: Okay. MR. URICK: -- jurors who are white males THE COURT: Okay -- 23 divided by -- what was the number? Onesixty-three, did you say? MR. URICK: Yeah THE COURT: Okay Very good White males representing 14% of the total and by 36% of the strikes, you have shown that there is a pattern. Okay. We now shift to the second stage and let us look at the reasons for strikes. Number 261. The Hopkins professor. MS. GUTIERREZ: Judge he clearly appeared that he didn't want to

serve. He was a victim of the burglary his sister and sister-in-law was raped. And looked

at both me and the Defendant both during the voir dire today when it came up and when

he was just called up to the - -

Page 123

THE COURT: I find that that reason is not protectual. Number 290 Leslie Loney (phonetically) - - the engineer MS. GUTIERREZ: Judge, Mr Loney came up -- and again that was when my client pulled my hand. It struck him later - I know that he was the sixth strike that we used because that juror stared at him - - like he said like he wanted to kill me We knew nothing else about that juror. I didn't know one way or the other. I let my client decide that.

THE COURT: Okay. I find that as non-protectual. Number 211 MR. GUTIERREZ: Two-eleven was the juror who clearly wants to be off. He's in training. He sought twice to get off for the 15 weeks in the Giant Food. He was paying particular attention, leaning against the wall. He clearly did not want to serve Again I consulted with my client regarding that strike.

THE COURT: Okay, I find that that is non-protectual Two-six-seven MS. GUTIERREZ: Two-six-seven, Judge, I believe was set on the first round. And, if the court notes, I circled 267 sitting in seat number 9 when I sat him based on both my observations of that juror - - I circled a total of 4 jurors when we first sat. I had struck - - prior to striking 267 - - all but the other three based on - - I believe he didn't answer any particular questions. It was his demeanor, his observations - - but I circled him immediately. When I do that, that's a filler with every intention to strike later knowing at that point I still have him. He sat - - I still have the (indiscernible) as I still do

THE COURT: I'm sorry. I haven't heard a reason yet. MS. GUTIERREZ: No, that it was based on his demeanor I circled his name when he sat - - when he was first sat and so I came back. I have - - if the court will note - - I circled four separate jurors. Juror 315 you sat in one. Juror sat in five - - 290. Juror 274 and juror 267. I have now struck all four or, as it turns out, the prosecutor

introduction to the trial so that you will be better able to perform your important duty of deciding the facts diligently and conscientiously. If they wish, both the State's attorney and the defense attorney may make opening statements. Opening statements are not evidence. They're only statements about what the lawyers expect the evidence to prove At times during the trial, objections will be made and I will rule on those objections. You should not concern yourself either with the objections made or my rulings on them. Those are purely legal matters. During the trial and during any recess, don't express any opinion about the case either among yourselves or to anyone else or - - don't discuss the case. even with your family members at home. Don't even allow yourself to over hear anyone discussing the case. Also because, as you might expect, there may be publicity about the case in the newspaper or the television or radio, I ask that you pay special attention not to listen to any of the news coverage of the case and not to read any story in the newspaper about the case. It's very, very important that you make your decision based only on what you see and hear actually inside this courtroom. So - - I find that the newspaper is depressing anyway -- so I hope you'll just take this as a holiday from the news for a while and just screen out that information. Now the next rule is a hard one for you to follow because you're all very polite people, but over the next few weeks don't have any contact outside of the courtroom with any of the lawyers or any of the witnesses or the Defendant in this case. I think you know how you would feel if you were the Defendant on trial and you saw somebody on the jury talking to someone on the prosecution side or a prosecution witness, or if you were one of the attorneys for the State and you saw someone on the jury talking to a defense attorney or to the Defendant. So it's very important not only that the case be fined fairly, but it must appear to everyone watching this process to be tried fairly as well. Don't research or investigate the case on your own Again, you've got to base your verdict entirely on the evidence that you see and hear in

the courtroom. Keep an open mind throughout the trial and at the end of the evidence I will explain to you the law that applies to this case. Again, you must completely disregard any newspaper, television or radio reports that you may have read, seen or heard concerning this case. Those reports are not evidence and you must not be influenced in any manner about the case from that publicity. So don't watch or listen to any television or radio broadcast. Don't read anything from any source about this case, about cnme in general, about criminal sentencing. If anything occurs contrary to these instructions. please write me a note as soon as possible. And again, don't discuss anything that you write in the note to me with any members of the jury. Again, don't discuss the case with anyone -- other jurors, courtroom personnel, friends and relatives, spectators and reporters. No discussion at all. Avoid all contact with the parties, witnesses and lawyers If anyone tries to discuss this case with you or anything questionable happens, please write me a note as soon as possible and, again, don't discuss it with any of your jurgs -members. For the next few weeks, we're going to try to create a little vacuum for you and we want you to focus, again, on this trial for the next few weeks and not to let anything in that might affect your decision other than what you see and hear actually inside this courtroom. Does the State have an opening statement?

MR. URICK: Yes it does, your Honor.

THE COURT: Yes, sir.

MR. URICK: May it please the court -- counsel Madam forelady. ladies and gentlemen of the jury, good afternoon. JURY: Good afternoon.

(OPENING STATEMENT BY MR. URICK)

MR. URICK: As Judge Quarles told you, my name is Kevin Unck. My co-counsel's name is Kathleen Murphy. We're assistant State's attorneys. We're hired by

Page 134

Patricia Jessamee (phonetically), the State's attorney for Baltimore City, to prosecute criminal cases in Baltimore City. We're 2 of approximately 140 attorneys who appear every day in the various criminal courts in Baltimore City trying cases. On behalf of Mrs. Jessamee and the State's Attorney's Office, I want to thank you for the process you've gone through - - some of you for two days - - of being selected for this jury and the process that you're going to go through during the course of this trial. We appreciate the fact that you come in to do this civic duty and we want to thank you in advance. We would also like to remind you, as the Judge has and will, that this is going to be a rather long trial that's due based on the evidence and I would ask you to listen very carefully to all of it and make your decision at the end of this case. At this point, I get to give you an opening statement which is sort of like a preview of coming -- sort of coming attraction that you see at the movie where you see a couple minute trailer of what the movie itself is going to be. You're going to hear a lot of evidence in this case and it's all going to boil down to very simple evidence. On January 13 of this year, which was a Wednesday, a Baltimore - - a University of Baltimore - - I believe she was - - student by the name of Jennifer Pusateri went to call a friend of hers by the name of Jay Wilds This call occurred at approximately 7:06 or 7:09 in the evening. Jay had paged her a short time before and she was returning the page. The number that he had left for her to call was this number --(443) 253-9023. That number was the number to a cell phone. The Defendant's cell phone, in this case. Jenn Pusateri called that number The Defendant answered She asked for her friend, Jay. The Defendant said "he can't come to the phone right now We're busy. He'll call you back." And hung up. At the time that that call was made, the Defendant was standing in Lincoln Park burying the body of his girlfnend. Hae Min Lee You're going to hear how Hae Min Lee and the Defendant were students together at Woodlawn High School. They had been for years. They're in the honor program

ACCUSCRIBES TRANSCRIPTION SERVICE (410) 367-3838 FAX: (410) 367-3883

Page 135

Woodlawn, as many of your probably know, is a magnet school where the honors program students go They met there. They'd known each other for awhile In their junior year, they began going together, and both of them loved each other very much and both sacrificed for the other. The Defendant sacrificed things that were very dear to him -- his religious values and the way that his family looked at him. The Defendant is a Moslem. In that faith, premarital -- dating is not allowed and premarital sex is absolutely forbidden. He had to sacrifice those values to go with Hae Min Lee. His family - - which was a Moslem family - - wanted him to live by Moslem values, and he sacrificed there too In essence, he made his life a lie so that he could have this woman and it caused problems for him. You will hear how, at the homecoming dance in their senior year in fall of 1998 the Defendant went to the homecoming with his girlfriend, Hae Lee The Defendant's parents appeared - - and you're going to hear from Lynette Woodley, the principal at Woodlawn, about how the parents of the Defendant pulled him out of the dance and were creating such a scene that she had to ask them to separate - - to break it up because they were causing a lot of disturbance. You're going to hear from Hae Lee that she was very very aware of the problems that this was causing for the Defendant. We're going to include here her diary in which in her own words she will tell you - - you're going to get a lot more but it's going to run something like this, which is from her diary. This is approximately July 16th of 1998 continued at 12 pm. "He went to Texas with his father for some Moslem convention thing. He called me on the 17th, Friday, twice at 1 30 and at 8 30 p.m. with calling cards. Isn't he sweet? I keep crying over the phone because I miss him so much. Then he went into a whole explanation of the purpose of the trip to Dallas. He told me that his religion means life to him and he hates it when he sees someone purposely going against it. He tried to remain a faithful Moslem all his life, but he fell in love with me which is a great sin. But he told me there is no way he will ever leave me

ACCUSCRIBES TRANSCRIPTION SERVICE (410) 367-3838 FAX: (410) 367-3883

Page 136

because he can't imagine a life without me. Then he said that one day he would have to choose between me and his religion. This is exactly what Savik (phonetically) was talking about. Hove him so much and when it comes down to choosing, I'm going to let him go his own way. If you have to deny yourself a part of you for love then that's not good 1 really couldn't care less since my religion means shit to me but to him, his religion guides his life. It's the world to him and I hate the fact that I'm the cause of a sin no matter what he says." The Defendant sacrificed -- made a lie of his life. But Hae Lee sacrificed too She loved the Defendant so much that she saw it was wrong for him to be in this relationship with her and she sacrificed. She loved him so much she was willing to let him go because that was best for him and it was not easy for her. Shortly after the homecoming dance, they broke up one time. She was in love. She couldn't stay away from him. They got back together. She finally got her strength together towards this November/December and broke it off for good, started a new life for herself, started dating a new person at that time. But still deeply loved the Defendant, but sacrificed the selfish love that she felt - - the need to be with him - - for the unselfish love of doing what was best for him - - letting him go. The Defendant did not realize the sacrifice that she made - - did not realize that what she had done was an act of love. The Defendant got caught up in his honor. The facts will show that at that point he felt betrayed, publicly humiliated, and enraged. He set out to kill Hae Min Lee. You're going to hear from Jay Wilds who knew the Defendant because his girlfriend. Stephanie McPherson, went to school with the Defendant and Hae Lee, and occasionally they double dated. You're going to hear how the night before, the Defendant called him, said let's go shopping or I want you to take my car tomorrow. So the next morning, the Defendant skips out of school, meets up with Jay Wilds, gives him the car, and at that time says I'm going to kill Hae. Jay - - thinking this is just male posing - - said yeah, yeah, yeah, took the car. left

(1) Well after the day went by -- in the afternoon about 2:30, 2:40, he gets a page -- and he's (2) got the Defendant's car, he's got the Defendant's cell phone. He gets a page to meet the Defendant at the Best Buy. He meets the Defendant there. The Defendant has Hae Min (3) Lee's car and says look I did it, pops the trunk, there's the body of Hae Lee. At that (4) point, Jay Wilds is totally shocked and stays in a state of shock. When the Defendant asks (5) (6) him to help him get rid of the body, he helps him. That's how later - - 7.06, 7:09, they're (7) in Lincoln Park. You're going to see certain exhibits. One of the most important is this (8) one which is the Defendant's cell phone records. These are the calls that were made to and from the Defendant's cell phone on January 13th of 1999. And you'll find out that (10) calls that are dialed on the phone, they keep a record of the number that is dialed, but for incoming calls - - you probably have cell phones, you've probably seen this on your own (11) records - - the numbers not (indiscernible), just the fact that it's incoming. Well we've got (13) two calls at 7:09 and 7:16 - - both very brief ones. And with cell phones - - as you're probably aware - - they're made through radio waves where the companies put up towers (15) -- communication towers -- that cover a certain geographic area. These are called cell sites. Most towers have three sides - - an A, B, C side. And a phone that is in a particular area will lock on to the tower that the - - that is dominating the cell site, and the call will (17)go through there, and they can record the cell site. Both of these cell calls at 7 09 and (15) 7:16 were made in L689B which is a cell site where the telephone communications pole is (19) at 2121 Windsor Garden Lane. You're going to see another exhibit which is a map of cell sites and how they correspond to the City, and you're going to see that 689 - . the cell - . covers Lincoln Park. That both of those calls were made from the Lincoln Park cell site. (23) And you're going to hear how the body was buried and recovered from Lincoln Park. 1241 The Defendant answered his phone twice in Lincoln Park while he's burying the body (25) You're going to hear that information. You're going to see the cell phone records.

of you - - were chosen to sit in judgment of your fellow crizen. It is a process that has (1) (2) been evolving, unlike the rest of the world, for almost 700 years to end up with ordinary (3) citizens who stand up before the very citizen whose charge they undertake. I don't thank (4) you for enduring that grueling process. It is your obligation as citizens whether you wish (5) to be here or not. And it has been written that to sit as a juror is the highest of obligations (6) that any of us can aspire to as citizens other than to live law abiding lives. As the Judge told you, throughout the trial and at the end of the trial he acts as an umpire. He will rule (7) on objections. And at the end, before you are asked to decide, he will instruct you on (8) what the law is around this case and these charges. The trial is not like a movie. So the (10) little trailers that you might be used to that Mr. Urick referred to, not only should be of no (11)help, you should put them out of your mind. Because this isn't a sales event trying to entice you to get you to come in and buy a ticket to see that movie. And they way that those trailers are designed to highlight certain things in them so that you will come and plunk down your money so that you can find out what the end of the movie is. A murder case and a murder trial are among the saddest things that can occur. A murder trial itself is about the grief that occurs when a fellow citizen is murdered - - whose life is snuffed out. All of it is ugly. One of the things that the Judge will at the end of the case -- and many of you were asked during the voir dire process. That word means in french means to speak the truth. You were asked to speak the truth. You took an oath to speak the truth. Every witness who comes in this courtroom will sit in that chair and take an oath to speak the truth. But you jurors were asked to speak the truth about your own lives and your own experiences, and what you know and what you heard about anything so that a fellow citizen, as the Judge will tell you, is presumed innocent - - is wrapped in a cloak of innocence that starts now and will remain unless - - not until - - the word is unless - - you are persuaded by a burden that's the highest in our country's laws to persuade you with

You're going to see this map and have it explained to you. After they buried the body, they went over to Edgewood Road, which is off Edmondson a couple blocks in and a few blocks down - - it's a couple blocks from Wilkens. They left Hae Lee's car in an apartment complex parking lot there. Then they drove up Edmondson back to Woodlawn in the Defendant's car now. And you're going to see that there are two calls that immediately follow the Lincoln Park ones. One is L653A, one is L653C, and they have off a tower on North Apple Avenue and that's right here You You can actually follow the progress of the Defendant's car leaving Hae Lee's, going Edmondson Avenue. The earlier car being on the east side of the Apple Avenue tower. The later one being on the west side as they're driving on Edmondson back to Woodlawn. You're going to hear how in the car there was a map -- one of these ADC map books. Out of that map a page was torn. That page was the map of Lincoln Park - the part of the City that included Lincoln Park. That map was recovered slightly waded up behind the driver's -- behind the passenger's - - in the rear seat floor behind the passenger's side Exactly the place where someone who is sitting in the driver's seat using it to direct himself -- after he was through with it, would lean over - - naturally his arm would go behind the passenger seat -- and put on the floor there. You're going to hear how the map that that page was torn out of has the Defendant's fingerprint on it. You're going to hear the testimony of Jay Wilds and you're going to see the cell phone information. At the end of this case, we're going to come back and be able to argue this for you and, at that time, I'm going to ask you to come back with a guilty finding for first degree premeditated murder by the Defendant of the victim, Hae Min Lee. Thank you very much. THE COURT:

Ms. Gutierrez? (OPENING STATEMENT BY MS. GUTIERREZ) MS. GUTIERREZ: It was a grueling process by which all of you -- 17

their evidence. That is their job - - their obligation to do - - is to persuade you of that In addition to being very sad, you must by necessity learn some things about these young people that otherwise you might not care about. I speak to you about them because I believe they are important - - that you understand the context of these things. Adnan Masud Syed is an American citizen. He was born in this country like most American citizens. He happens to have been born of Pakistani extraction. His parents are American citizens by choice. For those of you -- you may or may not know some of the history of Pakistan, which is a country that was formed in the Arab world in the tip of the land mass called Asia. (Indiscernible) is in the northwest corner of what was once India. After India broke and got its independence from Great Britain after years of colonial rule. And Pakistan was formed because, within India, hundreds of years of settlements from Hindus and Moslems could not get along and subsequently Pakistan broke off. Those of you who are old enough - - not all of you are - - I barely remember the news reels of the Moslems going one way and the Hindus going the other trying to keep peace in a region that has not endured an abiding peace for more than 60 years. And at some point, many Pakistanis - - the bulk of whom were Moslem, but not all - - the bulk of whom were Moslem - many of them came to this country to seek peace and economic opportunity. They escaped their own county and escaped to opportunity for their children after decades of war. And they came to this country as immigrants much like over 300 years. Not all but many of our peoples' ancestors came as immigrants. They brought with them their religion - - Islam. They brought with them their own language in addition to the Arabic of Islam from their - - the dialect that was spoken by their people. And they brought their customs and way of life. And when they got here, most of them - - like all the rest of us -- had children. And they formed communities as Moslems and as Pakistanis. They formed a community centered around a mosque that is called the Islamic Society. It is located

right on the far side of Security Square Mall. If you went on the top of Security Square Mall, there's a road that borders -- it is Rolling Road. And if you follow Rolling Road over and under 695, you'd take a left on Johnnycake Road. And shortly after you'd take a left, you'd have to take another left and you would be essentially following 695. And there on the right hand side on a huge track of land that's barely visible - - if you didn't know it was there, you'd go right past it. It is edged by pure residential neighborhoods on one side and by 695 on the other, but if you happen to know where it is. You go in, it is fenced and the mosque is in there which is a building. And recently, much later than Adnan's majority - - he's now 18 - - there is an addition to the mosque which is a building of worship. Islam is a religion. In the United States, there are less than 10 million Moslems. But in our United States, we recognize all religions with the same belief and protection. On the rest of the world, Islam is a major religious force for people in many different countries - - Arabic, Asian - - but all over the world Moslems live. It is a monophystic (phonetically) meaning they believe in a single god and they believe in a way of life. And most of their value system is not very different than those of the other major religions of the world. They're based on the Judaic ethic or the Christian ethic. One god-- belief about the quality of life - - that your life is beyond yourself and your life is beyond your own self gratification and satisfaction. That you are do - - to do good deeds, think good thoughts, live a good life, speak to those and care for those less fortunate. And one of the marks of Islam all over the world - - across countries, across races - - is that they pray five times a day. They operate on a different calendar year then the Gregorian calendar of most Christian religions or the Judaic calender which doesn't recognize - other than as a dividing point - - the birth of Christ that is the basis of most Christian calendars And in the Islamic calendar, which runs approximately 12 months - - but on a different system - - there is one month that the Islamic calendar use as a sacred month of

Page 142

renewal and discipline, and a call to the faithful Islamic to come together and do certain things to remind them of the discipline of their faith It is a month called Ramadan It's first day this year, in the Christian calendar that our City and State and Nation follow, it starts today. It is a holy month that puts on Islamic, wherever they are, special obligations. It requires people to fast and, unlike Christian fasting, it forbids the faithful to not only not eat but to not drink, not pass water, to teach themselves for a month the discipline required to live a good life. Well just like others of other faiths came to this shore, and they bring their language, and their customs, and their religion, and their tenants, and the values of life. So did the Moslems of Pakistan. Many hundreds of families of which came long before 18 years ago when Adnan was born. They settled here, and they took over a mosque that has been in existence for a long time, and they took it over as a community. And they strained to teach their children their Pakistani customs, their Pakistani language dialects, a way of life, a way of food, a way of growing up, a way of striving for things. Just like every other group of immigrants. They followed the law. They sent their children to public schools. Today next to the mosque building at the Islamic Society off of Johnnycake Road, in addition to the house of worship where the faithful of Islam gather - - and particularly during Ramadan - - five times a day to pray according to the book of their religion - - the Curin (phonebcally) - - to pray and open their souls and their hearts to the discipline of the words of Mohammed, they now have a school and in that school they seek to send their children and they seek as a community to have all of their children go. And just like everything else in life, they've had to struggle to raise the money to build a school, to fund it, to have educated and certified teachers there so that they might teach their children what they need to grow and flower as members of this society consistent with their Islamic beliefs Adnan and his older brother and his younger brother, like many of the hundreds and hundreds of families, however, did

Page 143

not have that to take advantage of. He went to public school through the primary years, then the middle years, and ended up at Woodlawn. And just like you must know from you own knowledge and study of history, every immigrant group who has come to these shores has struggled to assimilate, to learn how to function day to day to learn a new language, to learn different ways of looking at things, to learn a different culture, different things to eat, different ways to buy, different economies on all levels. And wanted $\cdot\cdot$ and have always wanted over generations - - better lives for their children. That's why they came. Their young children, as you might expect - - just like many other immigrant communities - - learned quicker than the adults. The adults related to each other as adults through the mosque some times several times a day. Most of the Pakistani Moslems were well educated and skilled, and they brought that. And they wanted their children not assimilated because, as strict Islams, they believed that the Islamic faith meant that they should transfer that to their children so that their children would grow up with the same abiding faith that they, for generations, have lived their lives by. In the very same way, every parent transfers to their children their beliefs about how life should be lived. That's important. What value is as to certain things - - how do you grow up, what do you look for, with whom do you mate. Now Islam is a very strict religion about certain things. But make no mistake, there is not a religion that is recognized or practiced on these shores that does not stand for the same things. There is not a single active religion that condones as a matter of (indiscernible) sex between unmarried under age children. But for generations of human beings, a millennia back and more millennia since then, young people have ended up pushing the bars of life further and further. Young people have always gone beyond their parents. Some become and some remain as strict as their parents were. Some embrace those parental values, and religion, and styles of life. But not all do. And there's nothing different about the impact of that flow of knowledge, and

ACCUSCRIBES TRANSCRIPTION SERVICE (410) 367-3838 FAX: (410) 367-3883

Page 144

behavior, and choice of lifestyles in this community - - the Pakistani Islamic community - that has ever happened any where in this City, in this Nation - - among Catholics, among Jews, among Eastern Europeans, among Italians, among Greeks. Notwithstanding parents' attempts to keep their ethnic, religious, moral, cultural lives alive for their children. Because of what modern life is, children of all places, particularly in public schools, have mixed with each other. Children end up in different places, often times, than their parents. The hope of the mosque in building the school is to prevent the impact on their children in what they view as the outside world, and every year they add a grade so that there is a fundamental Islamic school system where they can keep their children away from the evilness of a world that they interact with but they know does violence (inaudible). That is a world that Adnan Syed came from. And that friction certainly caused him friction. Now Adnan - - and you will learn this from everyone - - his friends, from the teacher, from the friends of Hae Lee herself. Adnan was a young man who was liked by everyone. He was a leader. He was a scholar. He was an athlete. He was a leader when he was in junior high. Everybody wanted to be Adnan's friend. He was outspoken. He was smart. He was quick. He was disciplined. And he viewed himself up until the middle - - a little past the middle - - of his junior year as a strict, fundamental Moslem, as a good Moslem. And in his way of life, and his family culture, and in the culture of the mosque where he went every day almost every day of his life until he was accused of this murder. In his junior year at Woodlawn, most of his class from middle school went with him - - he went into Woodlawn and because he was a scholar, he was in he gifted and talented program. And those kids, who came from not just from his middle school - - Johnnycake - - but other middle schools. Woodlawn is a big, big high school in Baltimore County. He had classes with other gifted and talented students. Now one of the persons with whom he attended class in middle school is a girl by the name of

Stephanie McPherson and she was also a scholar and an athlete. One of the things you (1) (2) will learn when you look at this group of Woodlawn kids, Hae Min Lee, whose murder brings us here - - Adnan, Stephanie, others' names that you will learn - - it is among the (3) most diverse group of kids you would ever meet or see any where - - racially, culturally, (4) languages, religion. But those divisions, that divide adults and have always divided adults (5) every where, didn't seem to impact on the kids. The kids grew up with that diversity and 161 never questioned it. And they based their ability to make friends that would last a lifetime (3) based on how they saw and interacted with other people. Stephanie McPherson, who also (9) ended up at Woodlawn, and Adnan - - notwithstanding their differences of race - -Stephanie McPherson is an African American girl - - their differences of gender their (11) differences of religion - - they became among the closest of friends and, in fact, junior year (12) and the junior prom. Adnan was elected the prince of the group and Stephanie McPherson was elected the princess. No surprise to anybody. Everybody in that school - - teachers (34) and students alike - - like them both. They were both gifted and talented, bright, (15) disciplined, young people who did the right thing, who did their homework, who engaged in class whatever it be - - calculus or physics or English lit. They were bright, exciting, young people. Their teachers thought so. They thought as much of each other. Up until the middle of junior year, Adnan viewed himself as a strict Moslem although he - - like (19) most of the young people from the mosque with whom he saw and interacted every day at the mosque at the nightly prayers because the mosque, like most good religions, know that they must keep their young people close. So they had things at the mosque for young people to do. They had athletic leagues. They had basketball courts They had young people's activities that went on every night to involve the young people like Adnan in their (23) 102 activities. And up until the time he was a junior, Adnan regarded himself as a strictly. 151 fundamental Moslem and unlike the rest of his crowd, he didn't believe in things like 361

Page 146

dating. If he were to date anybody, it would have been Stephanie but she was his best friend and accepted. He viewed himself as a strict, fundamental Moslem, so they never dated. And all the other girls would look at Adnan, and he was cute, and liked, but he was off limits to everybody because he was a Moslem. And because they'd existed around him all of his life, nobody challenged him. They accepted that's what he was, that's what he did, that's what his life was about and they never pushed. In junior year, back to Woodlawn came a young woman who you will see was also a gifted and talented scholar athlete. She was Hae Min Lee. She is of Korean extraction and, although her religion did not play a daily basis impact on her life in the way that Adnan's did, she grew up - - her formative years - - in Korea and then came to this country And her mother, with whom she lived, tried to be pretty strict with her and tried to insist, if she was going to date, that Hae Min Lee had to bring her dates home. She had to meet the boy, know from whence he came, as most good mothers would do and want (:naudible) Hae Min Lee was a little bit more connected with main stream culture and when she came back - - she was here and then left. She and her mother went to California where they lived with a man that Hae Min Lee called her dad although he was not. And when Hae Min Lee disappeared on January 13th, most people thought that that was where she went, to be with the person she referred to as her dad. And why was that? Because she had talked about it. She had talked about her deteriorating relationship with her mother and had always said she would go off and live with her father. It turns out, afterwards, that all those thought that was her father in California were wrong. He wasn't There's no blood relationship at all. But she had grown up with him and thought of him as her father. She wasn't intending to delude anyone. But the first thought that came in everyone's mind that knew Hae Lee was she left to go to her dad's. That's what she had said. She had reported to teachers and friends alike different difficulties, perhaps in retrospect minor difficulties, but to a teenage

ACCUSCRIBES TRANSCRIPTION SERVICE (410) 367-3838 FAX: (410) 367-3883

Page 147

girl - - she had reported them as if they were major difficulties and so nobody was surprised on the 13th. Except that on the 13th, within minutes of her not showing up at a place where she was expected, not only did her family report her missing, but the Baltimore County Police opened up - - something they've never done before - - an immediate investigation as to a missing persons that there (inaudible). And among things that were done that very evening was that Hae Min Lee's younger brother - I believe it's her younger brother - - Young Lee read her diary And you will see all the entries in her diary - - and this should give you pause. It is a sad thing to have to the read the diary of the young person whose life has been snuffed out. But in that diary on the next to last page entered - - the last entry is on January 12th and on January 12th, she talks about how she is in love with a boy, or rather a man, of a name of Don. And on the page before the last entry, she writes on the page over and over and over again, like teenage girls are wont to do, his name - - Don, Don, Don, Don - - a hundred times or more on a single page And at the top of that page is written in her handwriting a number. And that number turns out to be Adnan's cell phone. Several days before the day that Hae Min Lee disappeared Adnan Syed asked one of the elders in the church to assist him in getting a cell phone And you will hear from that elder that he had done that with other young men and one of the reasons is that, because they were under 18, they really couldn't get it themselves and for many of them, like Adnan, their parents didn't deal on a day to day basis with daily Baltimore life. They wouldn't go and didn't go because their lives didn't connect with mails or cell phones stores or those things. And many young men in the mosque would turn to other elders who had more regular dealings with real life and understood better sometimes the needs of young growing men who were really torn about the call of their religion, and the strictness of it, and what they learned every day from going to high school with other young Americans who came from different places but who they had

ACCUSCRIBES TRANSCRIPTION SERVICE (410) 367-3838 FAX: (410) 367-3883

Page 148

known and interacted with for a decade of their whole lives. And several days before Adnan had gotten the phone, it turns out - - and you will hear - - that mostly Adnan, who previously had a pager, wanted the cell phone because he wanted the cell phone because he wanted an easier way to connect with young girls. Adnan, as you will hear - - not all but many, at least, some young men of the mosque notwithstanding their heart felt commitment to Islamic tenance and their clear understanding that their parents did not approve and their clear understanding that they were not to date, that dating - - any unchaperoned visitation between girls and boys was not permitted. Although there was no prohibition between a Moslem marrying someone from another faith. But there were prescribed rituals to men and women, and the postponement of dating - - of the dating ritual that really is an enormous phenomena of America - - not to any other cultural in the world - - as to how young people - - boys and girls - - awaken to each other and date - what ever that means - - earlier and earlier, and how it's more and more important at a younger and younger age. You'll hear from most of the young men of the mosque that Adnan fit into the same category. He was a later bloomer than any of them. Most of the young men his age - - not all, but many - - had already succumbed and had decided on their own. Whether it is right or wrong it not up to you and this jury but your knowing it is important. Adnan was a late bloomer and came to it late. But that he began to do what most of the other young men in the mosque did, they sort of secretly dated. All of a sudden they discovered girls. They discovered sexual urges. They discovered sex. And they all sought to engage in it. And because their lives were for a great deal - - again not all, but most - - lived outside of their parents' scrutiny any time they were outside of the mosque, even though they were there almost every single night participating in the prayers of the community or participating in the activities of the young people. Most of the ones you'll here about pertain to the young men because in Islam, the men and the women are

separated and kept separate except for certain prescribed activities. That's what they believe in. Again, it's not your call to decide whether that's right or wrong. In the middle of junior year which would have been the spring of 1998, Hae Lee - - who had come back from California into this group of gifted, exciting, young people - - came in right at the time when Adnan succumbed to what were to him natural urges. And he and Hae Lee sort of hit it off. Unlike Adnan, Hae Lee had already - - like most of the young people who surrounded these two - - unlike Adnan who was still a virgin and had never engaged in sexual activity. Very unusual for a 17 year old boy from a major metropolitan area. No matter what we think of it, it's what our young people do and it's not very different what young people have always done. Perhaps some of you when you were that age. Adnan responded to Hae Lee. She was a beautiful, and exciting, and bright, and disciplined. young girl. And they could only conduct their relationship in secret. Not just because of Adnan's religion but because of her own strict mother who would not allow her to date randomly or anyone. So they did. But of course the only people to whom it was a secret were Adnan's parents and Hae Lee's family. Everyone else knew it. All the kids in school every day - - they saw each other every single day. Five GT classes a day and they passed love notes to each other, and Hae Lee - -

THE COURT: How much longer will you be, Ms. Gutierrez?

MS. GUTIERREZ: Another 15, 20 minutes, Judge.

THE COURT: Fifteen at most.

MS. GUTIERREZ: Thank you. And Hae Min Lee would pass notes and pass around her diary. Everybody read her diary. She didn't write in it every day, as you'll see. The one notation that is missing -- Mr. Unck referred to -- was this homecoming dance that occurred in the fall. In the spring -- and there is no mention of this homecoming dance or what happened at it. You. You will hear about it. If was an

important event for both of them. But not so important to a young girl who recorded all other of her feelings of undying love for Adnan, and who recorded all the troubles young people have when their breaking their own vows to their own family. Not just Adnan herself. Her lying to her family. From the spring - - the junior prom where they went together and, you'll see from the pictures, they made a beautiful couple. They were both beautiful, exciting young people. You'll follow that throughout the summer they remained each other's best friends. Everyone around them would know their ups and downs. You'll see from her diary how very jealous Hae Lee was The least little thing she would regard as Adnan flirting with someone else or paying attention to someone else. She was a jealous young girl who, when she couldn't handle it, would do something that she refers to a recess in their relationship for hours, for days, for weeks - let's take a recess. Linsist on a recess. You. You know exactly what the word means. Let's take a break. It would be arbitrary and capricious, and you'll see from the diary just how arbitrary and capricious she was. But she proclaimed her love for Adnan. And it continued notwithstanding the pressures as it began to get out, as most things can't be hidden get out. And Adnan's parents and family became concerned that he broke his trust with Moslem and that they would have to intervene. And they attempted to intervene by reminding him and doing in the Moslem faith what is called advising him, reminding him of his colligations as a Moslem because that's how fundamental Islam is handled and treated in this country Notwithstanding (inaudible) Islamic societies elsewhere In America it's evolved (inaudible). Throughout the fall, Hae Min Lee and Adnan went back and forth - - break up, back together. You'll see from her diary, even as she's beginning to respond to a man - - not a child - - by the name of Donald Cliendienst that she wrestles with herself because she's really not prepared to give him up. You. You will hear in this trial, that on the day that she disappeared and the few days thereafter, that everyone who was asked on that day

or within the next week all described yes they broke up, that they were good with it. that they loved each other, that everybody knew that Adnan knew of her new lover - - because that's what he was - - had met him, had been up to there, and that teachers even described the two of them as the best of friends. Adnan wasn't asked until later - - the first time he was really asked about what he did on the 13th of January was on the 25th of January and there was a follow up call on the 25th of January, Hae Min Lee's body had not been found On the 25th, he was called by a Baltimore County detective in a follow up to the missing persons investigation and he said oh yeah, I remember, the next two days were snow days -- which you'll hear they were -- the 14th and 15th were snow days. And you'll hear that the following Monday was a scheduled holiday. It's Martin Luther King's birthday. And he said - - when asked what he did that afternoon, he said I went to track. Now at track. they don't keep - - there is no sign in on a daily basis of what students go and because then, just like it would be now (inaudible) months run, it is a little bit different this year -the 13th was at the tail end - - it's the high holy days. Something we would apply to the month of Ramadan from (inaudible). And on the 14th of January, Adnan along with a handful of other young men, some of whom also went to Woodlawn, led a prayer in the holy month of Ramadan. It was a big deal for the young men to lead the congregation in prayer and so for the days prior to that Adnan, as one of the young men leading the prayer, practiced and recalled that, and recalled that that afternoon, 15 minutes after school ended up until past dark - - because he ran for the indoor track team - - went to track practice, although he could have been excused because, as Moslem, the regulations of the school would have been to excuse his participation because he was fasting from water and food from sunrise to sunset as a good Moslem (inaudible). You. You will hear that Adnan's first recollection (inaudible) and you will hear that he was a disciplined athlete who seldom missed and at the next meet of the Woodlawn indoor track team.

medaled in his relay. He wasn't just a sometimes athlete. He practiced. He didn't take advantage of the excuse that he could've used because that was the first and only time he was asked to focus on it. And others who might remember all of his whereabouts also were not asked until much, much later. But what they will be able to tell you is that they would have noticed his absence. They didn't (inaudible) because it was Ramadan at the general prayer that was conducted at the mosque every single day of the entire month of Ramadan which went (inaudible). The only person who puts Adnan (inaudible) doing anything, burying her body, being at (indiscernible) is a person by the name of Jay Wilds Jay Wilds went to Woodlawn High School several years before Adnan and before Hae, but he hung out. He was different. And Adnan, and Hae, and Stephanie, and other names you will hear -- Aisha, and Terry, and Chaud -- he was different than they were. He wasn't a scholar. He wasn't an athlete. He wasn't disciplined or serious about anything But for some reason late in the junior year of Adnan, Hae and Stephanie, Jay Wilds took up with Stephanie.

THE COURT: Five minutes, Ms. Gutierrez.
MS. GUTIERREZ: Yes, your Honor. Stephanie was since gone on to college, like almost all these young people were expected to do. Jay and Stephanie became an item. And because they became an item, Jay was accepted by Stephanie's friends, like Adnan and Aisha and (inaudible) and everyone else. Now Jay was different from them not only in that he wasn't going on to college, he worked at PetSmart -- which will become important to you -- and he works at an adult video club -- it's a porn video club. He dealt a little bit of drugs on the side, and he'd deal drugs to some of these young people -- who, not surprisingly, in addition to experimenting with sex -- they were all late bloomers -- were experimenting with drugs. And Jay was accepted into the group. He also didn't have his own car -- not then, not now. But ordinarily on a daily basis, he'd

separated and kept separate except for certain prescribed activities. That's what they believe in. Again, it's not your call to decide whether that's right or wrong. In the middle of junior year which would have been the spring of 1998, Hae Lee - - who had come back from California into this group of gifted, exciting, young people - - came in right at the time when Adnan succumbed to what were to him natural urges. And he and Hae Lee sort of hit it off. Unlike Adnan, Hae Lee had already - - like most of the young people who surrounded these two - - unlike Adnan who was still a virgin and had never engaged in sexual activity. Very unusual for a 17 year old boy from a major metropolitan area. No matter what we think of it, it's what our young people do and it's not very different what young people have always done. Perhaps some of you when you were that age. Adnan responded to Hae Lee. She was a beautiful, and exciting, and bright, and disciplined. young girl. And they could only conduct their relationship in secret. Not just because of Adnan's religion but because of her own strict mother who would not allow her to date randomly or anyone. So they did. But of course the only people to whom it was a secret were Adnan's parents and Hae Lee's family. Everyone else knew it. All the kids in school every day - - they saw each other every single day. Five GT classes a day and they passed love notes to each other, and Hae Lee - -

You. You know exactly what the word means Let's take a break. It would be arbitrary and capricious, and you'll see from the diary just how arbitrary and capricious she was. But she proclaimed her love for Adnan. And it continued notwithstanding the

pressures as it began to get out, as most things can't be hidden get out. And Adnan's parents and family became concerned that he broke his trust with Moslem, and that they would have to intervene. And they attempted to intervene by reminding him and doing in the Moslem faith what is called advising him, reminding him of his obligations as a Moslem because that's how fundamental Islam is handled and treated in this country. Notwithstanding (inaudible) Islamic societies elsewhere In America, it's evolved (inaudible). Throughout the fall, Hae Min Lee and Adnan went back and forth - - break up, back together. You'll see from her diary, even as she's beginning to respond to a man -- not a child -- by the name of Donald Cliendienst that she wrestles with herself because

she's really not prepared to give him up. You. You will hear in this trial, that on the day

that she disappeared and the few days thereafter, that everyone who was asked on that day

or within the next week all described yes they broke up, that they were good with it, that they loved each other, that everybody knew that Adnan knew of her new lover - - because that's what he was - - had met him, had been up to there, and that teachers even described the two of them as the best of friends. Adnan wasn't asked until later - - the first time he was really asked about what he did on the 13th of January was on the 25th of January and there was a follow up call on the 25th of January, Hae Min Lee's body had not been found. On the 25th, he was called by a Baltimore County detective in a follow up to the missing persons investigation and he said oh yeah, I remember, the next two days were snow days - - which you'll hear they were - - the 14th and 15th were snow days. And you'll hear that the following Monday was a scheduled holiday. It's Martin Luther King's birthday And he said - - when asked what he did that afternoon, he said I went to track. Now at track, they don't keep -- there is no sign in on a daily basis of what students go and because then, just like it would be now (inaudible) months run, it is a little bit different this year -the 13th was at the tail end - - it's the high holy days. Something we would apply to the month of Ramadan from (inaudible). And on the 14th of January, Adnan along with a handful of other young men, some of whom also went to Woodlawn, led a prayer in the holy month of Ramadan. It was a big deal for the young men to lead the congregation in prayer and so for the days prior to that Adnan, as one of the young men leading the prayer, practiced and recalled that, and recalled that that afternoon, 15 minutes after school ended up until past dark -- because he ran for the indoor track team -- went to track practice, although he could have been excused because, as Moslem, the regulations of the school would have been to excuse his participation because he was fasting from or and food from sunrise to sunset as a good Moslem (inaudible). You. You will hear Trank Tris procellection (inaudible) and you will hear that he was a disciplined at the next meet of the Woodlawn indoor track team.

But what they will be able to tell you is that they absence. They didn't (inaudible) because it was Ramadan at the is conducted at the mosque every single day of the entire month of it (inaudible). The only person who puts Adnan (inaudible) doing er body, being at (indiscernible) is a person by the name of Jay Wilds. would borrow one of the kid's cars. Stephanie's his girlfriend, mostly she'd give him a (2) car. These were not rich kids, but they worked hard. Their parents worked hard. They (3) were thought to be deserving of it and many of them had their own cars. Adnan had his own car. And on the 13th was not the first day Jay borrowed Adnan's car - - he'd (4) (5) borrowed it before and he brought it back. But one thing you will notice from the list --(6) you'll hear witness testify to is that there are calls on that day, like the one that was described to you from Jennifer Pusateri, that do not appear on any other day. There all (7) calls related to Jay Wilds. (Inaudible). They never called before. They never called after. (9) You. You can, from those cell phone records, understand that the cell phone was in the car and Jay Wilds was in the car. But it is only Jay Wilds that puts Adnan in that car at the (10) same time. We hope to take you to Lincoln Park so that you can see with your own eyes (11) (12) the desolateness of Franklintown Road, and the distance and the difficulty of the terrain (13) that this Jay Wilds, apart from this group of kids, describes watching a bunal 127 feet off (14) from the center of the road into terrain that, back then, was never ever ordinanly traveled (15) and could not be gotten to easily or readily. THE COURT: One minute, Ms. Gutierrez.

Ms. GUTIERREZ: There is much else that I'd like to discuss with you and it is not my choice to end now. I've spent the time with you on things that may not be important because I think that they will become important. Judging a person's life and who they are is one that you are called to do. When Hae Min Lee disappeared no one thought of Adnan. No one even suggested Adnan. Was he the former boyfnend? Yes All persons -- her family, her brother, all of their friends, all of the teachers describe yeah, they'd had this hot and heavy thing, they were still friends, they still saw each other every day. You'll hear that Adnan was in and out of Hae's car. She only had use of a car, not every day.

THE COURT: Please wrap up, Ms Gutierrez.

MS. GUTIERREZ: He was in and out of her car on a daily basis for the
10 months from the time they became lovers in early April up until the very end of
December. And all they got in her car (inaudible) hairs discovered on her body and the
discovery of her body is so bizarre, you will understand why the person that discovered it
was treated as a suspect in her murder both initially and for awhile. Because it doesn't
make any sense unless you are looking for something back there in the woods of Lincoln
Park (inaudible). All I can do is leave you with Adnan in your charge and ask you to live
up to your oath of listening with an open mind, presuming Adnan innocent of what he's
charged, and remembering what he has been and what he has (inaudible).

THE COURT: Thank you. Ladies and gentlemen of the jury, we've reached the end of our first day. I'll ask you to come in tomorrow afternoon between 1 and 1:30 and go to room 239 to get paid. Although you're writing that on that book, please tear that sheet out because I'll ask you to leave the books here and the pencils here Between 1 and 1:30 to get paid, and then afterwards come here and report to your jury room upstairs. Now if you will go upstairs to the jury room unbl we release you, we will see you tomorrow afternoon. Please return to your jury room. Upstairs please. Please go upstairs.

(Jury was excused from the courtroom 17:44)

THE COURT: Counsel, there will be a 30 minute limit on closing arguments and, at the close of business on Monday. I will evaluate whether to impose a 45 minute limitation on examinations and cross examinations of witnesses. Good evening (Court and jury retired for the evening 17, 45)
