

What Happened?[About Decadence of Asian Empire]

As you know we didnt fighting for 1 week and will not.but why?

You will teach them.All of them.According to Thailand of course...

I dont know where should i start. Let's start Swe-Tur war .

This war is about swe's server winner idea and 2 stupid president leave onion why ? cuz turkey wont give WU to Poland to attack Rom.. (reason: Turkey can not trust Poland) about bosnia or Podrinaj he is really noob.They can delete serbia and mkd or others. But i said he is noob.

Anyway, if bosnia and Turkey didnt leave onion, sweden will try to kick them.For attack Turkey and hold Thailand's regions ☺

Next is of course Norway..

<http://prntscr.com/dcco87>

norway didnt leave onion on game page. Because they know this (one of agent ;) Who is ? yellow ad blue ! ☺)

<http://prntscr.com/dccp1f>

he wont it,because Norway will be ally to destroy Empire of Asia☺ nice idea

<http://prnt.sc/dccqk9> <http://prnt.sc/dccr1c> this plan didnt do. Because norway didnt leave us and we could not trust sweden so we didnt too.

Next Iran

Yeah we had good relations with iran since begin of server. I never trust Trasor. Idk why i did it just i didnt trust.

Reason of War is iran figted againts ireland and of course this [url= <http://prnt.sc/cxv22d>]ss [/url]

I think they heard from their agents we didnt have big q5 wep stock. And now they know q5 weps is not enough ☺.

My opinion about this war;

It was mistake. Because we didnt had ally againts sweden and make enemy for us its just stupid idea but how can i know we have some traitors? Anyway we conquered iran and Sweden (shadow) dont like this cuz we will had 90+ regions and its to much for catch ☺

<http://prntscr.com/dcd25w> about it :)

yeah now time of big war TH-SWE.Let's see who is traitor, Who is loyal.

<http://prntscr.com/dcd6mc>

yes everywhere...

I heard something agints us from Poland.Sweden will create new ally Iran-Greece-Sweden-Norway and Poland . Seems nice ☺ they can be op alliance :D. And of course it is not betray cuz sweden did not attack us XD.

<http://i.hizliresim.com/GPEaYN.png>

<http://prnt.sc/dcdfdd> bonus :)

Estonia and Critical ☹

He said me i will be with onion. And we made some plans againts sweden and their ally. Estonia will dow norway to help uk at day 121. Critical made referandum and decide support sweden ☺ nice. What a betray!

Romania and Bogis

Yeah one of traitor bogis and romania ☺ nice one and maybe the best betray for us. I know bogis in other servers like primera,europa,antica and maxima. So i trusted him easily. Mistake. Too more mistake... he didnt help us and we must fight againt swe-norway and iran with nobody :D 1 v 3. We was winning...

Serbia and [srpski_ratnik](#)

We conquered sweden's bridge and serbia started fight againts us so DenizGezmis foughted in bosnia rw and banned at t2 by ratnik...[Reason: stealing from org XDXDXD (i will give more info about this)]. It is just coincidence XD.

Brazil , Alhadas , SOul

One of best country ☺. One of best ally. Always help us in our battles. Big Thanks from my heart :P

United Kingdom and kpp99

Yeah one of best ally too.idk should i say about UK. Kpp99 <3

Albania

A lot of Albanian player helped us too(more than Turks except us) They are really good guys but they love bh :/ always make overkill in our rws. Thanks to Qody , The GOD [not skifteri xD], besmiri , _monster_

the LAST Thailand crew and Turkey

Yeah Thailand. Little country on the World ☺. Who would have guessed at day1 ? I think anybody ☺

It was the best server for me. Big thanks to all my friends. Famehsen , Intruder , DenizGezmis , Vamper , The Dark Passenger , brom5 , monarch (always afk ☺) and more ... This guys is Founder of Thailand and im first and last cp ☺ it is a big honour for me .

My country Turkey , i had a lot of Turk enemy. But its just a game. I dont care who hate me. I care just who love/like me. ☺ many Turks helped us and they will be traitor XD Special thanks to She, ulolo, lazkopat, libaris. Thanks my friends ...

Future of Turkey;

Some guys or gays (idk its their choose) want to take Turkey org pw ☺

For what? Why u need a wiped country's org? Why u give gold to vote yes on impeach XD Because they know we didnt use all of Turkey's stock. And they know Turkey can have nice stock :D. I just want to say "thiefs". Its enough ☺

<http://prntscr.com/dcep72> <http://prntscr.com/dcepae> <http://prntscr.com/dceppz>
