

SPEEDYDOGE (SPEEDYDOGE)

SPEEDYDOGE's Mission SPEEDYDOGE is an international community-owned and driven DeFi project founded on the first principle of fairness. We believe that fair opportunity for individuals without discrimination is the best approach for us to succeed together. We focus on mutual benefit and work best when we share aligned goals and values. At the end of the day, our community wants the best for all of its members, and the community's shared interests come first.

SPEEDYDOGE's \$SPEEDYDOGE token is the cryptocurrency of the people! It was created to allow regular investors to invest in crypto and participate in a community they can trust with confidence while gaining passive income. \$SPEEDYDOGE is a fairly launched deflationary passive income token on the Binance Smart Chain. The community itself owns the coin and its development! We are growing our Marketing, Development, and Community teams to divide and conquer the complex community responsibility of managing and progressing the SPEEDYDOGE project.
