HISTORICAL BACKGROUND (DISCUSS IMPORTANT PERSONS AND EVENTS ASSOCIATED WITH THIS STRUCTURE):
 The drive for a public library in Littleton began in the 1890s, with support from such groups as the Littleton volunteer firemen and the Woman's Club. In 1915, the citizens of Littleton voted to issue bonds to purchase land to construct a Carnegie Library. Much discussion ensued over the proper site for the library, with this location at the foot of Main Street finally purchased on 4 January 1916. The Carnegie Foundation provided an \$8,000 grant for construction of the building. Carnegie funded over 2,000 public libraries in towns throughout the United States. Littleton committed funds to hire a librarian and janitor for the building. In 1916, architect J.J.B. Benedict, who would four years later design the Town Hall, was selected to design the library after he agreed to reduce his fee. Apparently Benedict's original design was of a somewhat more elaborate and was rejected by the Carnegie Foundation as unsuitable. When the final design was approved, work began in September, and the cornerstone was laid on 14 November 1916. The building was completed in 1917 and served as the Littleton library until 1965, when the Edwin A. Bemis Library on S. Datura Street opened. The Littleton Woman's Club held its meetings in the basement of the library building. This building was remodeled in 1965-66, and housed the Littleton Police Department until 1977. Since then, a number of restaurants have operated in the building.
