Description. PROPRIME (Testosterone Propionate) 1000mg/ml 10ml vial is a modern and effective drug (steroid) with the same active substance. Among the effects contributing to the popularity of this steroid include such improvements as: ensuring quality growth of muscle, increasing muscle definition and hardness muscles, increase endurance of the athlete and, of course, increase power performance.

Ben je statisch planken ook zo zat? Probeer dan de twisting pistons. Dat is een bodyweight oefening waarbij je je core flink aan het werk zet. Maar dat niet alleen. Aangezien je in een plank positie ligt, moet je ook je schouderbladen actief uit elkaar houden. Daarbij zorgt de roterende beweging voor een enorme conditionele uitdaging. Deze oefening past perfect in een HIIT (high intensity interval training) trainingsschema. Of als je buikspiertraining flink wilt oppimpen door een conditioneel element toe te voegen.
