

Selection Method

At first you have to apply in our application form by e-mail.

We mainly consider your background and convenience time for the training. If we can set up a batch in your suitable time then we call you for registration. You have to pay during registration.

In every session we can allow only 5-7 participants for training. Maximum one session can be run per month. We will not start a session in your suitable time if we have less than 4 participants at that time. Therefore, it is easy for us if participants with similar background apply in a group at least four in number.
