ENZA HOME BOOK TO THE MOST BEAUTIFUL HOUSES

EDITORIAL 2019

In the modern world where personal needs and lifestyles are changing rapidly, our living spaces, which have become a clear expression of our individuality and identity, are changing at the same speed. While the relationships established with the designs stand out, the stories derived from these relationships gain meaning. Accordingly, the living concepts that we present to our customers in a wide frame ranging from furniture to carpet and accessories have been changing with a new understanding that confirms that what is permanent is the style itself.

Decoration habits that tend to simplify and based mostly on functionality due to shrinking home spaces in recent years, are replaced by Enza Home's new season's liberating, creative and maximalist style codes where aesthetics is at the forefront. Inspired by more than one style, brand new material combinations bring sustainable designs to life with collections that express this change perfectly. A nature based modern sense of living creates urban forests where green is moved into the interior. Raw surfaces, bold colors, naturalness, warmth and tranquility become the focus of decoration.

In order to enrich our modern design world, which is an ultimate decoration guide with its innovative and stylish living concepts, with different perspectives we have brought 12 successful names together, who are pioneers in their own field, in Enza Home Book. Composed of architects and designers, 12 creative people from different disciplines have created stylized spaces in the light of their visions with Enza Home's new season furniture.

Stylish, comfortable and original life concepts of Enza Home, which transform the simple style codes of the modern world into timeless, sustainable and characterized setups with artisan touches, is now waiting for you inside the Enza Home Book pages.

2019 TEXTURE
SPECTACULAR AESTHETICS OF NATURE

In the new season designs, which focus on life styles close to nature, raw textures shaped with craftsman touches are becoming prominent. These rare materials of nature, which attract attention with their unique personality, create the fancy and stylish decoration setups nourished by modernism. Combining its superior fabric quality with eye-catching design details of chester style, **PIEDRA LIVING ROOM** emphasizes the maximalist attitude of the new season with its timeless elegance.

Forests of the City

Our most important need in the chaos of city life is a peaceful, calm atmosphere and style constructs that will make us live this atmosphere. Accordingly, Urban Jungle movement, which brings the vitality of nature to living spaces all year round, is on the agenda again with all its glory. Plants, of course, play the leading role in this trend.

Plants create eclectic natural setups by meeting with designs that emphasize different cultures and styles. Backed by organic materials, these serene and healing touches reveal striking visuals with bold colour contrasts.

2019 TREND SCOPE

INSPIRED BY NATURE WITH RICH DESIGN TOUCHES

GRAVITY PLUS Living Room p. 76

Modernism's simple and multifunctional style codes are regenerating a creative and free aesthetic understanding in the new season by the organic, sustainable and original design touches that express the human's relationship with nature. Bold colour applications combine with assertive iconic pieces to create dramatic setups, while soft and serene geometric lines bring a flawless design richness into living spaces by meeting textured and dimensional surfaces.

Enza Home 2019 collections, where the artisanship stands out more than ever with the use of natural materials that are came into the picture with a unique understanding Extendable from the past to the future, points to lifestyles close to nature with an effective visual richness. Strong materials referring to timelessness in decoration such as wood, marble, leather and velvet, create sophisticated designs with flashy metal finishes. Enza Home promises natural, flexible and free living spaces in the new season with a maximalist design approach defined by the unlimited touches of creativity.

SOFT MINIMAL Effect

In the new season, while interiors enrich with bold colours, multi-layered patterns and natural textures, minimalist designs reflecting calmness and simplicity stand out with flashy metal details. While gold and brass shades supported by creative forms take their place among the most effective metal finishes; shiny rose, brushed and satin applications are giving the designs a refined and luxurious effect. The understanding of natural, simple and functional design is enriched by the remarkable contrasts created by metals.

ASTORIA Living Room p. 44

SERRANO Carpet

Serrano Series, which combines natural viscose and acrylic brightness with tumbled patterns, draws attention with its modern style. Offering a high comfortable usage experience with 5 mm pile height, Serrano Series carpets create an off-line effect in living spaces with its beige, terra and dark grey colours. **p. 127**

CLARO Duvet Cover Set

Claro Duvet Cover, which comes to life with assertive colours, gives the bedrooms a powerful yet simple expression. www.yatasbedding.com

BASIC SERIES Lighting

With minimal lines and copper, brass and nickel metal colour options, Basic Series lighting creates simple, modern and stylish spaces with different form and colour alternatives. **p. 70, 71**

ASTORIA Sofa

A perfect example of the combination of colour and texture, the Astoria Living Room fascinates with its rich velvety texture. **p. 44**

PIEDRA Dressing Table

Piedra Dressing Table redefines modern decoration with its impressive marble pattern and rose coloured handles. **p. 310**

ASTORIA Chair p. 40

ASTORIA Sideboard

Astoria combines modern design with eye-catching details with the combination of milk grey lacquer and gold metal. **p. 40**

ode to timelessness

Reflecting the vitality and pure energy of water representing life, natural marble look-like surfaces continue to be used as a determining factor in many different styles with their fluid and elegant appearance. Expected to create surprising harmony in living spaces with bold colour usage and raw material combinations in the coming periods, this precious material turns aesthetic codes into a universal language in every field it is located.

Inspired by the natural and timeless aesthetics of serene waters, the luxurious marble details appear in effective and creative forms in the new season.

ICONIC DESIGNS

The Game Of Patterns

The concept of maximalist design, which defies the ordinary and narrowing borders, finds its bold expression in original designs. Sometimes with striking contrasts and sometimes with monochrome transitions, these creative design touches combine with textures respecting the nature to create a new aesthetic understanding. The combination of patterns enriched by the use of different colours brings an unusual dynamism to the living spaces. Free, elegant and dramatic setups that are shaped by the combination of patterns become an innovative approach, which eliminate the old rules.

DOLCE
Living Room

Dolce Living Room, which adds a stylish dynamism to the modern design line, combines spaces with an elegant aesthetic understanding with serene colour transitions. **p. 200**

VALENTE
ARMCHAIR

OTTAVIA PLUS
LIVING ROOM

Ottavia Plus Living Room, where the deep and mystical tones of the colour palette meets velvet fabrics with high aesthetics, creates fascinating decorations. **p. 86**

Luminous Details

METAL FINISHES

In the new season, while interiors enrich with bold colours, multi-layered patterns and natural textures, minimalist designs reflecting calmness and simplicity stand out with flashy metal details.

While gold and brass shades supported by creative forms take their place among the most effective metal finishes; shiny rose, brushed and satin applications are giving the designs a refined and luxurious effect. The understanding of natural, simple and functional design is enriched by the remarkable contrasts created by metals.

OTTAVIA
Sideboard

Combining serene dark green surfaces with striking gold and circular forms, the Ottavia Series fascinates with thoughtfully thought-out details.

p. 283

ANGEL
Sideboard

Combining the elegant effect of white with the serene touches of country style, Angel Sideboard creating a bright and noble atmosphere.
p. 46

ELEGANTE
Chest Of Drawers

Elegante Chest of drawers, which adds a sense of experience to the simple design line with its hand-painted surface, reflects the elegance of the past with its retro style.
p. 299

CORAL

CONTEMPORARY *Romantism*

Selected by Pantone colour experts as the colour of 2019, coral expresses all the positive emotions we need in the face of the dead ends of daily life with its energy that creates a feeling of lightness and full of life.

It creates a romantic atmosphere with pastel tone transitions while transforming the areas where it is used with positive effect. Coral takes the lead role of inspiring decorations along with bold and unusual design preferences of the new season.

FOLK Dining Room p. 60

SIMENA

Living Room

SIMENA Sofa creates a spacious atmosphere with its patterns inspired by nature's perfect floral forms and pillow design which has coral colour transitions.
p. 58

CLAY Pendant Lamp

By combining the coolness of the metal with the warm effect of earth tones, Clay becomes an ideal option for your home.
p. 70

FOLK Armchair

With its dynamic colour, Folk Armchair leaves a modern, classic and influential impression in living spaces.
p. 64

FOLK

Chest of
Drawers

Combining minimal and heavy-headed design with exclusive rose colour handles, Folk brings a flamboyant interpretation to modern design.
p. 274

MESH Coffee Table

The best examples of contemporary design are carried to spaces with geometric forms.
p. 177, 180

Green

BACK TO THE NATURE

Being one of the characteristic colours of the trend towards return to nature, which has recently risen, green continues to exist as an effective choice in decoration. With its energy containing peace, it reinforces the feeling of comfort in the house and creates powerful setups with its depth.

Being the spiritual colour of nature, which can blend perfectly with many different decoration styles, green brings the healing mood of nature to living spaces by meeting attractive designs in the new season.

Duvet Cover Set

Lukas Duvet Cover Set, which combines the aesthetics with quality of chenille yarn processed with jacquard weaving technique, attracts attention with its soft texture.

INFINITE LOVE

BLACK & WHITE

Noble, attractive and timeless... The perfect combination of black and white, which is indispensable of the monochrome style in fashion and decoration, also becomes the star of 2019 season with its inexhaustible charm. Emphasizing the unity of the opposites with their simple but powerful energies, black and white promise a unique visual wealth by coming together with bright metal details.

The infinite love of black and white, which adds a sophisticated touch to spaces, gives life to remarkable decorations.

CRYSTAL Sideboard p. 110

SOHO MOROCCO Carpet

p. 73

Crystal Fixed Table - New Crystal Wooden Leg Chair p. 110

ORLANDO Dining Room p. 146

Unique Aesthetics of Nature

In the deepening complexity of daily life accompanied by rapid technological developments in all areas, decoration trends are changing at the same speed. The return to nature trend, which emerges as a balancing response to this inevitable change, continues to manifest itself everywhere the decoration touches in the new season. The unchanging star of this positive trend, which defines itself with materials bearing the healing spirit of nature, is the wooden designs as always. Providing a relaxing feeling of belonging to the spaces it is used with its naturalness and warmth, wooden designs continue to create timeless and inspiring decorations by exhibiting harmonious and creative associations with all colours and patterns.

ORANGE

Lighting

Reflecting the warmth of the wood to its design, Orange Lighting adds an elegant warmth to living spaces with minimal design details.

VALENTE

Dressoire

Adding an elegant interpretation to its natural wooden look with its geometric bronze mirrors and stylish handle details, Valente Dressoire is a beautiful example of modern decoratio

ALESSA

Bookshelves

POMPOM

Carpet

Pompom Carpet, produced with inspiration from the excellent textures and patterns in nature, draws attention with its form obtained by using special twisting technique while adding warmth to the spaces with colour transitions.

GONG

Coffee Table

Circular lines meet with wood texture, special pattern embroidery, mirrored surface option.

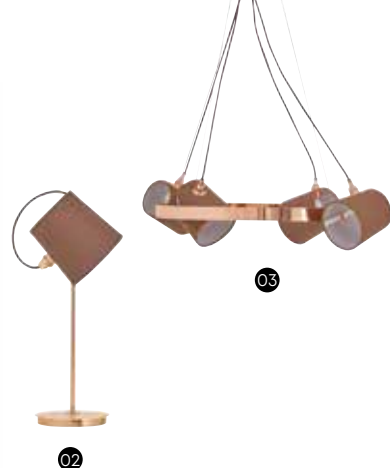

ALESSA

Chest of Drawers

With its natural oak look texture and leather handles special to the series, Alessa Chest of Drawers brings together the geometric wooden patterns applied with handwork in retro style.

2019 TEXTURE REFINED NEUTRAL PLACES

The finely processed natural textures redefine the contemporary decoration concept by meeting the design details representing the serenity of the old. This new style of life, in which wood plays the leading role and glorified by the simple and neutral energy of white, points to our deep connection with nature. Reflecting a sense of vitality with stylized warmth, **RATTAN SERIES** creates original, neutral and refined spaces.

FILE

Modern CLASSIC

MODERN CLASSICS OF 2019 COME INTO OUR LIVES WITH SOFT, FLUID AND CALM DESIGNS. THIS STRIKING TREND, WHICH COMES TO THE FORE WITH ITS AUTHENTIC COLOUR AND DESIGN DETAILS, CREATES UNIQUE SPACES DESIGNED WITH THE FUTURE IN MIND.

The combination of wood, marble, leather and velvet materials emphasizing the sense of comfort and belonging invite the aesthetic connotations of the past to our living spaces. The serene and elite tones combined with simple and soft lines reflect an innovative design approach, which also carries the rich traces of past experiences. Simple yet impressive design details open the doors to a timeless and fascinating decoration world.

MARCO PAOLELLI & LAURA DELFINA SARI

“Unique And Inviting Places”

Marco Paoelli

Product designer / MPA

Marco Paoelli and Sandro Meneghello, in addition to being product designers, are strategic consultants for industrial products. They founded Meneghello Paoelli Associati in Milan in 2007. Meneghello Paoelli Associati has partnered with Italian and foreign companies to create added value through product design. The method, the research, the lateral and emotional thinking are the tools with which we create added value and provide solutions through the industrial design, always side by side with the customer. As a testimony to this effort and the solidity of its approach, the studio has received numerous international recognitions, among which are ten Red Dot Design Awards, including one “Best of the Best”, seven Design Plus Awards, 3-Good Design Awards, five ADI Design Index Awards, 3-special mentions for the German Design Awards and five mentions at Young&Design Award.

Since 2017 MPA collaborates with REVERIA for contract and hospitality projects.

Laura Delfina Sari

Interior designer / REVERIA

Laura Delfina Sari is the art director and founder of REVERIA, a Milan based design studio focused on interior and styling for hotels, restaurants, retail stores and private homes. Graduated in Interior Design at IED Milano and then in Architecture in Venice, she spent over 10 years around Italy and Europe, concepting and designing ideas for interior, exhibit and product design solutions, before opening her own studio in 2013.

Since 2017 REVERIA collaborates with MPA for contract and hospitality projects.

What does it mean to design for you?

MP: In our mind Design is a solution. Every project has some need, customer needs, marketing needs, production needs and so on; what we aim is to provide the best needs solutions in terms of design process. Firstly, behind every project is a long and tireless process undertaken together with the companies, from the first brief to the final version of the product. Each company is a world unto itself, whose potential, technological and production abilities, and last but not least, commercial needs are studied in depth. Once this introduction is completed, we uses its particular approach to the project that also favors a certain form of “lateral thinking”, which brings the 2-creatives to develop each design project in an unconventional way, for example, transforming aesthetic stimulations or project solutions from environments completely external to the world of design in the strict sense

LS: For me design is a sense of style within a place or a product. It is a conversation between colours, materials, textures, geometry but also lighting, furniture and accessories. Having in mind the whole, I'm always looking for the unexpected detail, the vintage piece, the unusual fabric, plant or finishing. Things that create distinctness that differ from the common, that makes the difference but in harmony with the entire atmosphere.

When you were designing this place, what inspired you?

We live and work in Milano, the most important Italian city for design. Designing

this place we got inspired by the typical Milanese apartments: vintage feeling, tall and decorated ceilings, big windows. At the same time we worked in order to mix these feelings with new forms and materials, creating an unique yet welcoming interior.

How should we use the Piedra Dining Room and Piedra Living Room Set within decoration? And what are the essential components of it?

Piedra Collection put its bases on values such as luxury and trendy, since the main materials are elegant and sophisticated, such as leather, marble, copper, brass, brown mirror or the capitonnè finishing for the leather sofa, in order to reach a fine decoration in our houses. For sure we would suggest to use Piedra Collection in combination with pastel colours and natural materials, that are in contrast with the strong character of the Piedra Collection pieces.

What are the outstanding trends of 2019?

Defining a trend is always complex and misleading. The actual market doesn't have a single direction, but it seems divided into 2-antithetical currents. On one side we have the “normalization”, defined by collections with a simple and recognizable aesthetic, familiar, welcoming and enveloping. On the other we have the “exasperation”, the desire and the will to stand out and to emerge from the mass, to shout to the world “Hey, here we are and we are cool!”. We see it in all those collections that tend to exasperate some design aspects, chromatic and functional aspects, making a collection unique and special.

Marco Paoelli
DESIGNER / MPA

Laura Delfina Sari
INTERIOR DESIGNER / REVERIA

"In order to achieve a stylish decoration, the basis of the Piedra Series is based on luxury and fashion values. The collection has sophisticated and elegant details such as leather, marble, copper, brass, bronze mirror or quilted finish for leather seat. That's why we used the Piedra Collection with pastel colours and natural materials which create contrast to the strong character of the pieces in the Piedra Collection."

BEAUTY IN DETAILS

Revealing the high style of wood with the combination of white and rose colours, **FOLK Dining Room's** attractive marble pattern on the console combines functional details with a perfect elegance.

2019 DECORATION TIP

Feel the Power of Marble

If you use the marble which has a strong yet impressive style, in pastel tones, you can create spacious, stylish and modern living spaces.

DO NOT FORGET THE LIGHT

As a flexible design material in decoration with its warm and timeless effect, multi headed and rose coloured lightings, which are adaptable to many different decoration styles from retro to modern, reveal the most glamorous sense of belonging that influences the living spaces in the new decoration season.

FOLK Pendant Lamp

Being available in a wide range of colours, **FOLK** chairs can be used in many different ways in decoration. You can create distinctive contrasts with dark colours, especially the trend of the season.

FOLK TV UNIT, which brings a new look to the stylish houses with its modern design, completes the special white colour and marble pattern combination with rose colour handle design. It combines the most visible corner of your home with time-defying elegance with its TV bench and aesthetic top cabinet design that offers extra space for your decorative objects.

FOCUS **Shining**
Charm of
the House

When properly used, lighting designs with their ability to deliver us the desired effect in the decoration, are indispensable for a room no matter by what style it is decorated.

With the unlimited variety of forms and materials due to the changing trends, the pendant and floorlamps that come to the forefront in the new season, are ready to be the star of your decoration.

NEW

Light of glory

SIMENA Series, which creates a noble and refined effect with the unique harmony of black and gold colour, stands out with its curved cap design. It combines the powerful reflections of metal with contemporary spaces in 3 different designs: pendant lamp, lamp and floorlamp.

1. SIMENA Pendant Lamp, 2. SIMENA Lamp, 3. SIMENA Floorlamp

Bold and Spectacular

With its special pleat-looking cap, the **GAZELLE** Series offers an elegant and elegant atmosphere of the new season, creating an extraordinary and impressive atmosphere. With the brass metal finishes of Lamp, pendant lighting and floorlamp designs, it brings a distinguished design approach to the living spaces.

Modern Aesthetics

Combining the elegant harmony of glass and metal with its elegant drop form, **PIEDRA** Pendant completes the classic elegance of the series with its elite design. While capturing an unusual style with 7 ball white bulbs on its cap, it does not compromise its modern aesthetics.

1. PIEDRA Pendant Lamp, 2. PIEDRA Floorlamp

How to find the best lighting?

In a room, the decision of which floorlamp or pendant lamp should be used depends on physical conditions of the room as well as decoration style. It is important to choose lighting designs correctly according to both general decoration style and the needs of light in that space.

Here are some tips for choosing the right lighting that you need...

- You can use pendant lamp designs without any problem in large areas such as living rooms with standard or above standard height ceiling. You can easily eliminate the need of light in a stylish way with the pendant lamp that you choose based on the size of the room.

- Multi-pendant lamps that are being used especially over the tables are one of the most popular designs of the new season. The most important point of this implementation is to be aware of designs that are used together whether complementary to each other or not in terms of their colour, material and style.

- If you have small squared living space due to physical conditions for instance, you can use dimmer switch that allows you to control the intensity of light. Thereby, with a single lighting design you can create many different ambiances.
- Using different kind of lighting designs together, such as pendant and floorlamp, that meets the needs of light of the different angles of the room, will be an effective solution.
- Sometimes single pendant may be insufficient to meet the lighting needs of a room. In such cases, you can use floorlamps in different sizes at different point of the room alongside with the pendants. Thereby, not only you can expand your lighting options, also you can add elegant details to your decoration.
- Using floorlamps in rooms with low ceiling instead of pendants will prevent the low and depressive appearance. In addition, choosing a light design that is relaxing and eye friendly, will allow you to create a peaceful and calm ambiance.

DRAMATIC SETUPS

Bold, powerful and impressive...

Combining the dominant energies of colours with flashy contrasts, 'Colour Drama' trend creates the most ambitious designs of the new season. The multilayer design richness of dynamic colour transitions undermines the living spaces.

The eclectic touches, in which monotonous setups replaced by an extraordinary balance, reflect the original aesthetic preferences. The revitalized spaces supported by bright and sparkling materials create a high-energy atmosphere. The striking shades of the colour scale, which stimulate the imagination, give life to the most free style codes where strict rules no longer apply.

The New Attraction Center of Elegance and Comfort

With its contemporary design lines, **GRAVITY PLUS LIVING ROOM** brings elegance to the center of your life with special cushions designed for perfect pleasure and offering a privileged comfort; also with rich fabric and pillow applications that create an extraordinary appearance.

YALIN TAN

“Dominating Nature and Transparent Places”

DISCIPLINE
IS NOT A
DIRTY WORD
RON DORFF

Yalin Tan

INTERIOR DESIGNER / YALINTAN + PARTNERS

Yalin Tan was born in İzmir in 1969 and continued his education in Istanbul. After graduating from Bilkent University, Department of Interior and Environmental Design in 1992, he continued his individual and collaborative works for many years. Tan still continues to work under the name of YALINTAN + PARTNERS, which he founded in 2014 with a young team.

YALINTAN + PARTNERS provides interior design and application services to many domestic and foreign brands, institutions or individuals mainly on retail, office and residential projects.

In 2015, he founded TOO MANY DISCIPLINES, a multi-disciplinary brand solution partnership where he was

also creative director. The aim of TOO MANY DISCIPLINES is to provide creative brand solutions in the fields of market research / insight, branding, interior / architecture, advertising, exhibition / event, digital and social media with professionals from different disciplines.

Tan has many designs and interviews in local and foreign media, and has participated in universities and organizations as a guest designer. He has design awards in different categories and disciplines.

Interior Design Best of Year Awards Honorary Award, IF Communication Design Award, MOBSAD Best Place Award, İstinye Park Store Design Award and German Design Award nomination are some of them.

What does it mean to design for you?

Design means to draw something in my hand pencil since a very young age, these stories of everyone begins at a child age. I started just like this. My father Fikret Tan is interior designer also. The times in his office or on construction sites during my childhood were memorable and entertaining memories for me as well as they are the experiences and teachings that shaped my life. My design adventure, which first started by imitating my father, gradually matured with the time, then I started to return to myself, and it became my profession after a while.

When you were designing this place, what inspired you?

I started my space design first by imagining a structure that dominates the nature and where the relationship between interior and exterior is extremely transparent. In this space, I preferred the volume richness of the high ceiling in the name of strong space setup just like any designer would do. Rather than merely high ceilings, different angles in the ceiling breaks and parallel material transitions, texture differences, and colour uniformity were the design elements I considered. I think that the existing tissues and surfaces in the space can be perceived better with harmonic integrity between interior and exterior spaces and contrasts surfaces created in parallel to this.

How we should use Gravity Plus Living Room within decoration? And what are the essential components of it?

I think that Gravity is both comfortable and graceful with its contemporary design character and different size options. You can create a more comfortable and casual setup with lighter fabrics parallel to the dimensions of your space. Also you can move your living spaces to a more elegant dimension with heavier and more frequently textured fabrics. I think Gravity actually has a versatile character that will serve whatever imaginative space we can imagine with its complementary accessories and products. A sofa that is full and built, yet modest, that can carry modern or contemporary manners.

What are the outstanding trends of 2019?

Vibrant and bright colours will be more in the furniture now. We will see a lot of space setups in which pastel tones are still popular but blended with neon colours. Lantern-shaped lighting designs from different materials such as paper, fabric or glass will be used in many places. Floral patterned fabrics, wallpapers or accessories will be the motifs that we will encounter more.

Again, the hazeran and bamboo knits, which extend from the past to the present day, are settled into our lives with different techniques and colours. In short, I can say that very colourful and dynamic yet a nostalgic atmosphere is waiting for the users.

Yalin Tan
INTERIOR DESIGNER / YALINTAN + PARTNERS

"I think that Gravity is both comfortable and graceful with its contemporary design character and different size options. You can create a more comfortable and casual setup with lighter fabrics parallel to the dimensions of your space. Also you can move your living spaces to a more elegant dimension with heavier and more frequently textured fabrics.

ATILLA KUZU & LEVENT ÇIRPICI

“Harmony of Past
And Future”**What does it mean to design for you?**

We always find it suitable to approach design issues with caution. Because everything is referred to with design, named as design, and consumed too much like that, causes meaningless mediums that have become widespread under the title of “design”.

For us, the design is the extension of conformity to the purpose by a conceptual refinement in accordance with the spirit of time and place.

We can summarize it as the expression and the whole of habits that we repeat and continue to repeat unconditionally, which enable us to participate in life and settle in life outside of a profession.

When you were designing this place, what inspired you?

The space can be summarized as a photograph, in fact, about how the worlds of colour and products can come together in a little way through a large number of product groups.

How we should use Navona Dining Room within decoration? And what are the essential components of it?

The colour and wood tones of the product group can cause the product to be damped, especially in rooms with wooden parquet flooring. For this reason, we care about the fact that various tests such as carpet, lighting and mirror supporting the product are presented to the end use.

What are the outstanding trends of 2019?

With a limited demand from the customer, we cannot imagine that trends will have an impact on sales. Rather than trends, we would like to draw attention to people's efforts to customize almost every item, just like mobile phone cases. According to preferences, marble, glass, etc. patterned table on a buffet or the modification of the handles can be duplicated.

Levent Çirpici
ARCHITECT / ZOOM – TPU

He graduated from Mimar Sinan University Faculty of Architecture in 1989. In 1994, he established Zoom / TPU (Design and Application) company working on architectural and interior design projects for hospitals, hotels, shops, schools, offices and congress centers with his partner, interior designer Atilla Kuzu. In 2001, he was nominated for the prestigious Ağa Han Architecture Awards with the Figen-Servet Yazici home project. In 2009 and 2011, he became the finalist in the WAF Awards with Maslak Acibadem and Liv Ulus projects. In 2010, 2011 and 2015, he won the first prize of YAPI-TURKEYBUILD with its exhibition stand designs. In 2016, he won the Designer of the Year award with the Ozon Design team at EDIDA Awards organized by Elle Deco International Design Awards. (T50 Table). Çirpici, who is an instructor at Mimar Sinan University Architecture and Design studios, who frequently attends the workshops of various universities and is invited as a speaker, continues his education in Sociology at Istanbul University.

Atilla Kuzu
INTERIOR DESIGNER / ZOOM – TPU

He graduated from Marmara University, Department of Industrial Design, Department of Interior Design in 1987. In 1994, he founded Zoom / Tpu (Design Project Implementation) with his partner architect Levent Çirpici. In 2001, he was nominated for the prestigious Ağa Han Architecture Awards with Figen-Servet Yazici home project, and in 2009 and 2011 he was a finalist in the WAF Awards with Maslak Acibadem and Liv Ulus projects. In 2010, 2011 and 2015, he won the first prize of YAPI-TURKEYBUILD with its exhibition stand designs. In 2010, the 'Open' series designed for Intema received the "Best Kitchen Design of the Year" of Elle Deco International Awards and the "Angle" table designed for 888 firm, received the "Best Design" award of Design Turkey. Atilla Kuzu, who was selected as the 'Designer of the Year' by Elle Deco International Awards in 2011, received the first prize in the "Best Kitchen" category with "Fluido" which he designed for Intema in 2012. In 2015, he won the Red Dot Design Award in the concept furniture design category with his "Mantis" which he designed for Ozon Design, a Zoom Tpu brand. In 2016, he won the first prize in the lighting category with "Mantis" at the EDIDA Awards organized by Elle Deco International Design Awards. In the same year, together with the Ozon Design team, he won the Elle Deco "Designer of the Year" award. "Taklamakan" bench and "Barringer" Coffee Table designs were finalists at the International Furniture Design Fair in Japan. In addition to product designs, Kuzu, continues to focus mainly on interior and architectural projects.

Burçin Mercan Özgül

INTERIOR DESIGNER / VIZON INTERIOR
ARCHITECTURE AND CONSULTANCY

She was born in 1989 in Istanbul. In 2011, she graduated from Doğu University, Faculty of Art and Design, Department of Interior Design where she has studied on a scholarship. She took part in construction projects of 4 and 5 star hotels, luxury residences and store brands of branches in Turkey and abroad and also worked in design teams. She worked as an editor in various magazines. She participated in certificate programs in marketing departments of universities related to social media management and branding. She has been providing services to a wide range of individuals and institutions such as interior design, marketing, social media management and website designs at Vizon Interior Design and Consultancy, which she has founded with her husband Onur Özgül, for the last 4-years. She defines herself as curious, demanding and disciplined. She enjoys creating timeless, warm and welcoming atmosphere where people feel comfortable.

ENZA HOME GUEST

BURÇİN MERCAN ÖZGÜL

“Eclectic And Peacefull”

What does it mean to design for you?

Designing for me is to explore the unique nature of each projects, to create a reaction by combining equal touches to science and art with the wishes and future needs of my customers.

When you were designing this place, what inspired you?

When designing the space for my Enza Home Book project, I was inspired by the “bohemian” style of travelers, artists and writers who chose to lead an extraordinary life. Bohemian style allows you to create a place where you can reflect your own style with the freedom it gives you to use interesting objects, patterns and colours together from many parts of the world. In this way, I took care to embrace the volatile and carefree, comfortable and unusual in the face of aesthetic and modern sensibilities.

How we should use the Crystal Living Room and Dining Room within decoration? And what are the essential components of them?

Whenever you start a new interior design project, it's useful to think that the room you're working on is a blank canvas. When trying to reflect an eclectic look, the dose is slightly higher. Since design elements of this style are often eye-catching, a neutral background is required first to relieve the space. Neutral paint colours that immediately come to mind and can certainly be considered valid; like white, grey, black and brown. However, I would like to invite you to consider for an additional option; natural materials.

Forests, stones and eco-friendly fibers are seen as visually neutral elements, but they have enough built-in texture and variety to prevent the background from becoming boring. Consider using them as a natural parquet-stone on your floor, marble-wood

on your counter and handmade and painted wall ornaments made of wicker material or handmade ceramic objects, fine linen texture and non-iron curtains inviting daylight from your window to your room etc.

Regardless of styles, balance and symmetry are important principles of design. However, when there is too much visual stimulation in an area, it will become harder to follow. Balance and symmetry help our brain to simplify design. According to the psychology of Gestalt - a theory of thought that focuses on our perceptions of our brains as knowledge - our brains instinctively perceive design in its simplest form. Repeating identifiable models allows us to process the visual information of the room faster. As a result, we are more likely to find balanced areas that are aesthetically pleasing. In order to achieve this, you need to focus only on the inclusion of furniture parts and accessories that serve a very specific purpose. This allows your eyes to relax and focus only on the parts you add.

You will want to choose a colour that can be repeated at multiple points in your designed space. Consider using this colour on your textile products such as knee blanket, pillow, background curtain, wall murals and other accessories. If possible, try to find that colour in a variety of prints and patterns. This will help you stay loyal to your eclectic mix while gracefully immersing you into the space.

What are the outstanding trends of 2019?

Bohemian design has been a sincere and commanding, Mediterranean trend of the last few years. It is quite intriguing with the amount of freedom that it has. By mixing and matching, you have the chance to create a space design that expresses you in a defined style that you can literally imagine.

Burçin Mercan Özgül

INTERIOR DESIGNER / VIZON INTERIOR DESIGN AND CONSULTANCY

"When designing the space for Crystal Series, I was inspired by the "bohemian" style of travelers, artists and writers who chose to lead an extraordinary life. Bohemian style allows you to create a place where you can reflect your own style with the freedom it gives you to use interesting objects, patterns and colours together from many parts of the world. In this way, I took care to embrace the volatile and carefree, comfortable and unusual in the face of aesthetic and modern sensibilities."

FOCUS
CARPETS

Ground Aesthetics

Adding warmth and meaning to the space by referring to the sense of living, the carpets accompany the new season's original, flexible and eclectic attitude as a rich detail. Enza Home carpet collection, in which a unique design approach that combines quality and aesthetics shows itself in every detail, carries the strong style codes of the past to the spaces of the future following the pioneering decoration trends.

You can visit enzahome.com for colour and size information of carpet collection.

NEW

Extraordinary Modern

Having a fine and silky texture due to its special weaving technique, Martha Carpet attracts attention with its light and comfortable design. With its simple Scandinavian style, it adds an elegant and modern touch to the space and creates an unusual aesthetic with decolorized colour transitions.

Timeless Effect

MARSILYA CARPET, with its 900,000 strokes per square meter, presents an impressive design with its marble patterned surface and creating an elegant and timeless effect. It represents a sophisticated elegance with its bright and fine structure.

NEW

NEW

Natural Elegance

Providing heat insulation as well as matching with the new season where natural materials stand out with its 100% wool weaving resistant to fire and staining, long-lasting **NORTE** Carpet, presents a modern design enriched with naturalness with its linear patterns and comfortable structure.

Noble Textures...

Shining out with its soft, sound and thermal insulating 100% wool texture which is resistant to fire and stain, **PERLA** Carpet Collection glamourizes the living spaces with its eucotex certificated, unique quality and high comfort.

Sophisticated Elegancy...

Being one of the best examples of the contemporary designs in the new season which is captured by natural materials with its 100% wool texture quality and minimal style, **NOVA** Carpet Collection creates a sophisticated elegancy in the living spaces.

1. PERLA Carpet 2. NOVA Carpet

Unique Geometry

Combining 100% viscose texture with a combination of grey and blue colours, **ORFE** Carpet draws attention with its vivid and bright appearance. Also combining fluid abstract patterns with original geometric touches, it creates an elegant and elegant effect in spaces.

NEW

Modest Colours, Dynamic Lines

Adding a modern dynamism to the decoration with its elegant and simple geometric patterns, **NETHA** Carpet balances its design with a combination of calm coffee and beige colour. Preventing pile deterioration and dusting with its 100% polypropylene structure, NETHA Carpet stands out with its advantage of comfortable and long lasting usage.

NEW

Retro Touches To The Modernism...

Woven by cotton and polyester yarns, Mabel Carpet Collection reflects the elegance of the modern design with its calm and chic style. It brings the classic aesthetics of the past into the living spaces with its worn out appearance and fine texture, which provides six different colour alternatives.

MABEL Carpet Green

SOHO MOROCCO SERIES

Presenting high quality of design with 890.500 strokes per square meter, Soho Morocco Series makes an authentic remark on modernism with its traditional patterns. Soho Morocco Series in which silky viscose texture meets with 5 different colour options, is shining out with an elegant aesthetic style.

SOHO PATCHWORK SERIES

Combining its dynamic colours with patchwork patterns, which can go along with various kids of style, Soho Patchwork Series is shining out with its energetic style. Having a silky outlook Soho Patchwork carpets are complementing living spaces with a modern touch in 3 different colour options as red, green and orange.

SERRANO SERIES

Combining the brightness of the natural viscose and acrylic together with aging patterns, Serrano Series is attracting attention with its modern style. Presenting the high quality of comfort with the height of 5mm piles Serrano carpet collection is creating an extraordinary effect in the living spaces with beige, terra and dark grey colour alternatives.

FILE

PERFECT Imperfection

In the decoration trends of 2019, which focuses on the naturalness and warmth of living spaces, the cold, flawless places are replaced by the original and artisanal places that point to the perfection in our relationship with designs. The textured designs constructed with raw-looking organic materials that contain natural comfort replace the monotonous decoration concepts.

Authentic nuances created by unprocessed surfaces in decoration give a unique aesthetic understanding while redefining the concept of perfection by coming together with warm finishes such as cotton and felt. The craftsmanship touches, which maintain the value of the materials, represent a brand new decoration concept that points to perfect imperfection with natural and sustainable approach.

Alluringly Independent Style

NEW

Bringing a modern approach to country style, **RATTAN DINING ROOM** draws attention with its hazeran pattern and decorative profile application emphasizing the identity of the series on sideboard covers. It combines elegance and classiness in a privileged way with its special form of antique patina handles and profile framed natural mirror reflecting an original style.

ENZA HOME GUEST

ERBİL TUNABOYLU

“Natural Harmony”

What does it mean to design for you?

Design is a way of thinking and a view of life for me. The sense of being original and free in the sense of design means to pursue homogeneous impressions patiently, not to be afraid of thinking, smelling, touching and feeling. It means to look at the current problems from a perspective that no one has ever looked at, to take advantage of the opportunities provided by developing materials and technologies and to produce new solutions.

Design creates value by adding new products, structures, new services and new ways of doing business to our lives. For me, objects and structures are meaningful experiences, not just necessities.

When you were designing this place, what inspired you?

I imagined the place as a spacious and bright structure in the nature, located in French Riviera. The combination of textures, colours and materials combined with the romantic design of the Rattan Dining Room created a balanced combination in the space, which evokes a nostalgic and traditional structure in style. The balance of the space provided the users with an area where they can enjoy for a long time.

How we should use Rattan Dining Room within decoration? And what are the essential components of it?

Rattan Dining Room can adapt to different styles with its elegant and romantic design. It can balance the space in a masculine structure, while at the same time strengthening a simple structure with details of form and shape. The variety of colours and textures in the chair fabric, bronze tumbled metal products that can be used on the highboard and console, objects compatible with the structure, and a contrasting colour carpet that can be used under the white Rattan Dining Room Set will make the dining room set very prominent.

What are the outstanding trends of 2019?

With the recent development of the “design for everyone” philosophy, a large mass wants their homes to be unique and special. Therefore, they prefer unusual products in furniture shopping. On the other hand, we are all used to artificial and cold environments, especially people living in cities. Ironically, naturalness itself began to seem extraordinary. Therefore, designers and interior designers will direct their aims to nature. Therefore, in 2019, designers will prepare pieces that are adaptive to nature and functional at the same time.

Erbil Tunaboylu**DESIGNER / PLATFORM ARCHITECTURE & DESIGN**

Erbil Tunaboylu was born in 1985 in Istanbul. He graduated from Yeditepe University, Faculty of Fine Arts, Department of Industrial Design. During his university years, he founded the art and design studio where he designed sculptures, oil paintings and furniture for hotels with his 4-friends. After graduating from university, Erbil Tunaboylu left the art and design atelier which he has founded with his friends and started his graduate studies in Milan. After completing his master degree at Politecnico di Milano University, Faculty of Architecture, Design Management & Construction Technology Department, he worked as a designer at Autoban Architecture in Istanbul. In 2013, Erbil Tunaboylu founded Platform Architecture & Design, a company that provides services in many areas such as residences, offices, villas and hotels, and he still continues to work on collecting furniture and decoration products.

MERT CAN UZYILDIRIM & KEREM ÖZERLER & KUTAY YORULMAZ

“Strong And Timeless Designs”

What does it mean to design for you?

For Wangan, design is a phenomenon that has to incorporate the concepts of being innovative, intelligent, courageous and timeless. When designing a space, product or experience, we care about using materials and details that have never been tried, produced or encouraged. In our opinion, the thing that makes a design unique and valuable is its ability to move its users, viewers and industry forward and force them to move. We can change existing perceptions and systems as long as we can leave permanent traces.

When you were designing this place, what inspired you?

When designing the space, the most important issue was to filter the daylight in the most accurate way and to reflect it in the optimum way. We created a balanced space by combining the dominant clarity of white and black with the warm and pastel tones of marble and wood.

How we should use Netha Dining Room within decoration? And what are the essential components of it?

In our opinion, Netha Dining Room is a product that balances its simple design with its strong details, so the space where the product itself is used must be simple but effective. When we look at the design and space of the product as a whole, Netha Dining Room will reveal itself correctly in modest spaces that are stimulated with natural coloured materials, vivid colours and decorative products.

What are the outstanding trends of 2019?

As Wangan, the most important trend that has not changed for us is timelessness. Seeing that our designs are up-to-date and remarkable after many years is the subject that we focus on when we are working on design.

Mert Can Uzyildirim
INTERIOR DESIGNER / WANGAN

Kerem Özerler
INTERIOR DESIGNER / WANGAN

Kutay Yorulmaz
INTERIOR DESIGNER / WANGAN

"Built in a single-storey building in the garden, the fireplace where natural sandblasted textured stone is used, serves as a separator while serving the dining area and lounge area in front of glass. The fireplace, which comes out of the large glass opening in the ceiling, together with the large openings facing the garden, ensures that both areas receive optimum daylight. We created a balanced space by combining the dominant clarity of white and black with the warm and pastel tones of marble and wood."

Bringing its modern structure together with functional and aesthetic design details, **NETHA TV UNIT** is enchanting the decoration with its sophisticated sense of modern design. NETHA TV UNIT, in which wooden MDF frame application meets with bronze metal handle designs, is crowing its functionality with open and closed upper wall unit designs, which creates extra storage spaces.

COFFEE TABLES

CENTER OF DAYS

In addition to their functionality, being the most distinctive complement of decorations with a variety of designs, coffee tables stand out as a striking detail in the bold and eclectic decorations of the new season. Sometimes enriching decorative harmony and sometimes creating impressive contrasts, coffee tables are placed in the center of living spaces with simple yet free touches.

Drawing attention with its above-the-line designs and innovative style, Enza Home coffee table collection puts its signature under impressive combinations in the footsteps of season trends.

URBAN AND INDEPENDENT

The pioneering style codes that inspire the lively atmosphere of city life are found in living spaces as in almost all areas. Urban, inviting and inspiring decorative setups continue to define themselves by reflecting the unusual harmony of different aesthetic values.

Designed with high creativity and comfort, modular systems address all stages of daily life and emphasize functionality, which is an indispensable feature of contemporary designs. Different cultural styles create dynamic spaces by meeting natural and warm textures, while nostalgic design touches point to the strong effect of details on decoration.

Artisanal Touch of Design

Combining the minimal naturality of its oak layout with rich details, **ALESSA DINING ROOM** attracts attention with artisanal style in which design comes together with handcraft. It brings functionality together with handcraft by means of exclusively designed chairs, fixed and Extendable Table alternatives and elegant highboard that enlarges the storage sections.

LIVE TOPIC

Sleeping Pleasure On The Sofa

The sweetest sleep is the one that comes when relaxing or watching TV on a sofa. It is the sense of freedom that comes with a little rebellion, which is against the obligation of going to bed or sometimes it is a way of sleeping which gives more pleasure than sleeping in the bed.

Sometimes it is a hospitable alternative for a guest and sometimes it is the luxurious relaxing place for a tired body.

Functionality Focus on Comfort

Feeling of comfort is the only thing we seek at home for our bodies and mind, which wear out by the end of a hectic working day. And at this point, sofas are our best saviors, which are the center of comfort besides their strong impact on decoration.

TAYLOR 3-Seat Sofabed

Taylor sofa, which shines out with its abilities to turn into a bed and to create free spaces due to the armless design, is a stylish and functional comfort center especially in small spaces.

COSMO 2-Seat Sofabed

Liberating Design

We are going towards functional designs that create free spaces in the new season, in which we get rid of excess objects. Especially in small spaces, sofas that can turn into a bed are taking their places at the center of this liberating trend.

Feature of being a bed

COSMO Single Seat Sofabed

DIFFERENT SOFAS DIFFERENT COMFORT

Being the leading element of the decoration, sofas are the most commonly used things at home on the contrary to the other decoration elements. Therefore, the only criterion, which distinguishes them from one another, is their style. Here are 5 comfortable sofas that are distinguished from each other in terms of their style.

For module information of 2-Seat and Single Seat Sofas
www.enzahome.com

Puss in the Narrow Corners

With their advantage of combining the essential elements of comfort and maximum functionality, corner sofa sets are the best choice for small living spaces of our new age. Besides turning into a comfortable double size bed that allows you to have your friends over, a corner selected in accordance with the usage space, will maximize every square inch via taking the shape of the room. In addition, the corners with extra storage are the perfect storage space for excess objects and hence irreplaceable.

Personal Cocoons of the Sleep

Bedrooms, which are the correspondence of the peacefulness, comfort and warmth in the house, wherein all stress leaved behind, are also the center of regeneration of the body. Therefore, the ambiance of the bedroom should be cozy and it should make you feel safe. Bedrooms, wherein the personal choices and styles meet with the trends of the new season, are presenting the peaceful balance we are seeking for and personal choices with modern design details.

Babylike sleep with the right pillow and quilt

Choosing the right kind of pillow and quilt is the most important thing that increases the quality of sleep.

BRIGHT AND FRESH

Expanding Places With White

The importance of creating more spacious living spaces in which we feel free in the busy and crowded city life is increasing day by day. Reflecting the light and making the space look wider than it is, the white colour, which stands out with the advantage of being able to be used in harmony with all colours, plays a leading role in the decoration of the new season as an excellent answer to this need for expansion and freedom.

İLKAY ALA & DUYGU KARAKAŞ

“Balance of Comfort,
Luxury and Nature”**What does it mean to design for you?**

Design means innovation and originality for us. We believe that design should have an idea behind it and give the user a new perspective and a new experience. In this way, we think that a good design can connect with the user and that the timelessness that every designer wants to achieve can only occur as a result of this connection. It is important for us to interact with different visual art disciplines when designing products. Painting, cinema and graphic design are all an inspiration for us. We like to be lean in product design, and to achieve a striking visuality in simplicity is at the center of our design language.

When you were designing this place, what inspired you?

As part of the Enza Home Book project, we wanted to create a space that was warm, peaceful and at the same time refined. In doing so, we tried to stay in touch with nature. Although the comfort in the bedroom has always been at the forefront, we thought that a striking visuality would also make the user happy. When designing the room, we tried to combine comfort, luxury and nature in a good balance. While inviting nature from the large windows in the space, we wanted to make a strong green impact with the wall image and plants we used inside the room.

How we should use Piedra Bedroom within decoration? And what are the essential components of it?

Piedra Bedroom offers a convenient opportunity to use accessories such as copper and brass. Warmer and more energetic atmosphere can be achieved by balancing the dominant green tones in the furniture with feminine tones such as light bronze, pink and powder. In the bedroom we preferred lighting and pots with sculptural forms, thus we achieved a simple but striking visuals.

What are the outstanding trends of 2019?

We think that vintage-oriented artisan designs will come to the fore in lighting and this will add originality and aesthetic value to the spaces. Velvet fabrics, floral patterns, brass items will continue to be effective this year just like last year. We will begin to feel the warm tones of brass more intensely in every corner of the house, including accessories, bathroom and kitchen. We will feel the impact of sustainability in the new season decoration trends just like in recent years. The tendency of the users to choose the products that they will use in decoration for a longer period and which they can connect personally will increase.

FOCUS
Light of Sleep

Lamps, the irreplaceable elements of bedrooms, besides being a dim and relaxing light source for the general ambiance of the bedroom, are becoming one of the most important elements of the decoration in the way of new trends with their innovative materials. So what are the key points of choosing a lamp for bedrooms?

Pen Holder

USB input on lower table

1. Choose a lamp that will go well with the dominating colour of your bedroom.
If you want to underline the source of light in your bedroom, you should prefer remarkable colours. For more neutral effect, a lamp with a soft colour is ideal.

2. Shiny metals for a modern and effective ambiance.
Lamps, which take their place in the new season in a wide range of colours from copper red to silver, is adding a modern and stylish touch to living spaces.

3. Earth shades with warm and cozy effects
Lamps with dynamic earth shades are making the light to spread into the room with much softer and warmer effect.

4. Contemporary and outstanding ambiance with industrial designs
You can create an attractive ambiance by using trending industrial designs of the new season, in which natural wood and metal come together.

The indispensable pieces of bedrooms, chest of drawers show the best examples of functional aesthetics with different styles inspired by the natural and artisanship attitude of the new season.

What's Your Style?

Modern, classic, country, romantic, bold or traditional... Enza Home chest of drawers collection that addresses many different styles with unique designs takes its indispensable place in the creative decorations of the new season.

PIEDRA Chest of Drawers

Simple lines, eye-catching metal details... Piedra combines the impressive visuality of classical aesthetics with modernism.

MARENGO Chest of Drawers

Reflecting the natural and strong effect of wood in decoration, Marengo has a serene and noble style.

VALENTE Chest of Drawers

Bringing its elegant geometric design with the natural aesthetics of wood, Valente adds a warm and simple touch to the decoration.

SIMENA Chest of Drawers

Attracting attention with its stylish and curved design details, SIMENA is ideal for modern decorations inspired by the past.

ALESSA Chest of Drawers

Having glamorous touches of craftsmanship with geometric wooden design details, Alessa represents an artisan and timeless style.

FOLK Chest of Drawers

Completing its simple and noble design with exclusively designed gold handles, Folk adds a flamboyant approach to modern design.

RATTAN Chest of Drawers

Revealing its unique aesthetic with the application of hazeran patterns on drawer doors, Rattan is a stylish representative of country style.

ORLANDO Chest of Drawers

Emphasizing the elegant appearance of natural wood, Orlando represents the return to nature in decoration with exclusively designed raw-look handles.

ELEGANTE Chest of Drawers

Exclusive surface paint and masterful touches of hand work... Elegante redefines contemporary decoration with an artisan style that is exalted by naturality.

INNOVATIVE Hybrid Technologies

Offering a unique sleeping experience with its innovative and pioneering design quality since its foundation, **YATAŞ** offers seamless sleeping with **HYBRID SERIES** mattresses made up of various combinations of spring, visco, foam and fabric technologies which are suitable for every kind of body type and personal comfort needs by taking advantage of the latest technological developments. Usage of many different advanced technologies in the mattresses of **YATAŞ HYBRID SERIES**, helps to protect the spine's natural curves overnight while perfectly complementing the contemporary design world of **ENZA HOME** which promises a unique visuality, functionality and comfort. We examined 5 mattresses within the **HYBRID SERIES** collection of Yataş, number one mattress brand of Turkey, that offers a unique experience of sleeping where the mental and spiritual renewal needs of the body is fulfilled.

FIVE-Z MATTRESS

Produced by space technology, the 60 DNS visco elastic pads that are used on both surfaces of the mattress speed up blood circulation and end tired awakening. The 5-zone pocket spring system located at the center of the mattress provides special support to 5 different areas of the body which provides the custom fit to your body structure.

SEVEN-Z MATTRESS

While providing individual support to each region of the body with the natural latex layer and 7 zoned pocket spring structure, Seven Z Latex mattress dampens the body pressure and reduces the turning movements during sleep by providing a very comfortable sleep in less position with its flexible structure.

SMART TRACK MATTRESS

With the world's first memory-based spring system Memory Coil in the Smart Track mattress, your mattress gets more air and prevents unwanted springs. It fully responds to the convex points of the body such as head, neck, waist, and hip, and reacts instantly to body movements.

ZERO GRAVITY MATTRESS

The world's most advanced spring technology Wallaby is only in Yataş! Thanks to Wallaby springs with coil-within-coil technology, regardless your body profile and your habits of sleeping, Zero Gravity provides you the exclusive support and you do not feel the gravity while sleeping anymore.

SUPREME COMFORT MATTRESS

Coming to forefront with a hybrid of Visco elastic memory foam and micro pocket spring technology, Supreme Comfort has excellent pressure damping and support especially for the most sensitive area of the spine.

Head and Neck Pain

It prevents head and neck pain as well as tension in the neck muscles with its spine-friendly structure.

Waist and Spine Support

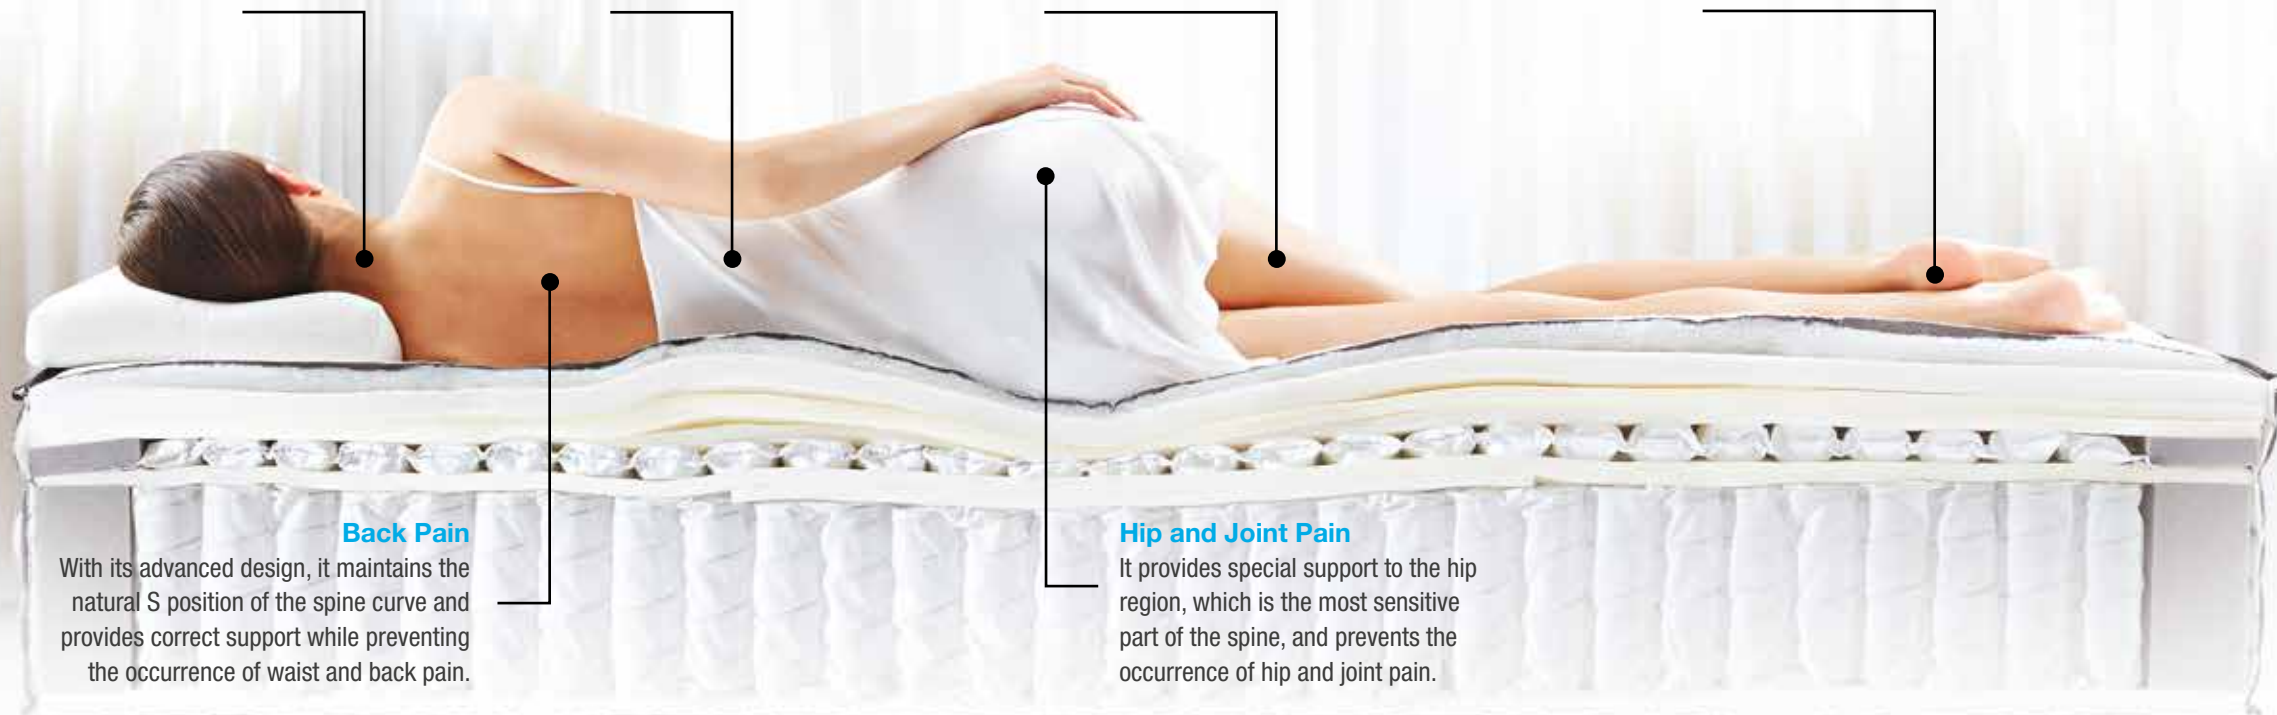

It maintains the body's natural spine curve and prevents specific spine distortions and low back pain by applying special support to each body type.

Muscle Protection

Thanks to the pressure it exerts on the body, it positively affects your sleep position and prevents stretching the muscles.

Circulation Problems

It adapts to body movements during sleep and has a positive effect on blood circulation with the effect of pressure.

Back Pain

With its advanced design, it maintains the natural S position of the spine curve and provides correct support while preventing the occurrence of waist and back pain.

Hip and Joint Pain

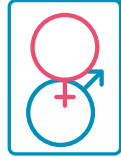

It provides special support to the hip region, which is the most sensitive part of the spine, and prevents the occurrence of hip and joint pain.

Find the best mattress for you easily with the
Perfect Mattress Search System

Unconscious and trial-and-error mattress choices affect sleep quality and human well-being. In order to prevent all these negativities, we have prepared Smart Match Mattress Finding Analysis with algorithms which are the result of detailed researches carried out by Yataş Sleeping Laboratories. The Smart Match application allows you to easily find the right mattress for yourself by evaluating your specific information and sleeping needs.

Gender

Even if the height and weight measurements are the same, the body structure, weight distribution and spine patterns of men and women are different. For this reason, although the mattresses are designed as unisex, the most accurate analysis is structured with the knowledge of gender.

Age

Age changes the need for support of the spine, independently of height, and weight.

Sleep Position

Mattresses have different adaptability according to sleeping position. Therefore, sleep position information is a very important parameter for mattress-body mapping.

Height - Weight

Stature changes the pressure applied to the mattress. It directly affects the support that the mattress gives to the spine. Weight is an important parameter that determines how much support the mattress should provide for the correct spinal position.

Pain Area (if any)

The pain felt during sleep decreases the quality of sleep, while the pain felt after sleep reduces the quality of life. To reduce pain, a body-compatible mattress should be selected.

Sweating Problem (if any)

Mattresses that absorb moisture from sweating and remove from the body, and dry up quickly and reduce the feeling of wetness, help to increase sleep quality.

Allergy Risk (if any)

If you feel nasal obstruction or pruritus irrespective of the season, you may have dust mite allergy. It is recommended that asthma patients choose mattress that provide protection against dust mites.

After you answer the questions in a complete and correct way, you will be ready to meet with Yataş sleep with the results that will be sent to your e-mail address.

Visit www.yatasbedding.com and discover the best mattress options for you with **Smart Match**.

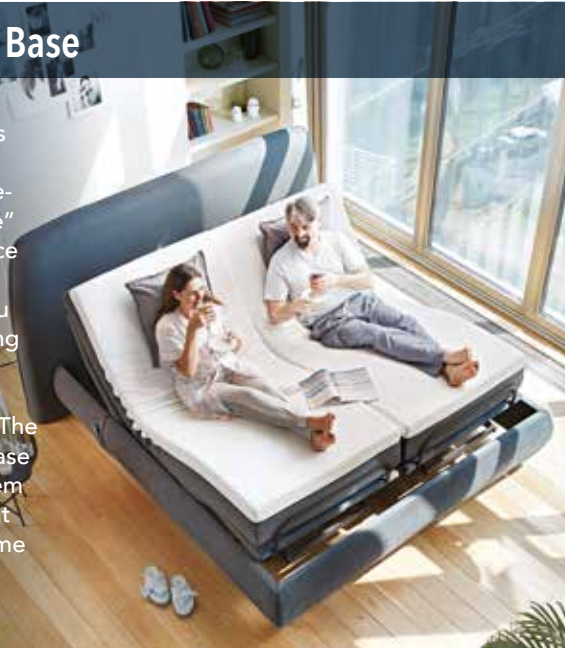

Technology of Two Spring Layers: Double Decker Spring

Double Decker Spring System contains two spring layers, where the lower DHT springs provide general spring and support, while the upper pocket springs increase comfort. This system makes the mattress adapt to the body contours and acts as a high pressure distribution. The springs, which are double-decked and aligned to the spine curve, offer excellent comfort for different body types. In this way, it allows even spouses of different weight and body structure to get the same support from the bed.

MOVE UP MASTER Base

“Technology that combines pleasure and comfort with sleep of your dreams Move-Up Master Adjustable Base” Get a whole new experience with the Move-Up Master Adjustable Base, where you can find the perfect sleeping experience and comfort using the most advanced technologies in the world. The Move-Up Master mobile base with its special motor system that can move at 5 different regions will be the new name of unique comfort.

AQUA NOVA Mattress

Aqua Nova mattress, which maintains its form for many years with the DHT spring system that is exclusive to Yataş, envelops your body with UltraWaist technology that provides special support to the waist and hips. It provides extra comfort with its double-sided smart sleeping pad in 2 different stiffnesses level. With Feran Ice® technology, the Aqua Nova mattress stabilizes your body temperature while you sleep, allowing you to sleep comfortably during the night.

RestOn Smart Sleep Tracker

We spend about a third of our lives sleeping; the rest depends on how our sleep hours have passed. RestOn Smart Sleep Tracker, the newest member of Yataş's new generation of sleep technologies that offers a unique sleeping experience, is designed to provide the best sleeping experience for you.

JUNO NEWBORN BABY MATTRESS

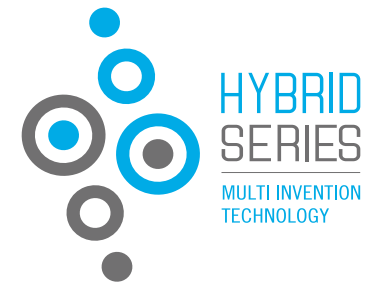

Juno Mattress, one of Yataş's newborn baby mattress collection, thanks to its high head area, helps to preserve the natural head shape while preventing reflux, one of the most important health problems of babies in the newborn period. The belly band that stands out in the design of Juno mattress provides a comfortable and safe environment for your baby from birth until it starts to rotate without interfering with the freedom of movement.

“New generation special spring design with double decker comfort”

**DOUBLE
DECKER**

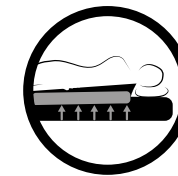

Double Decker

The Double Decker mattress offers a new generation of special spring design that gives your body double support, allowing you to instantly feel comfort during sleep.

Technology of Two Spring Layers: Double Decker Spring

Double Decker Spring System contains two spring layers, where the lower DHT springs provide general spring and support, while the upper pocket springs increase comfort. This system makes the mattress adapt to the body contours and acts as a high pressure distribution.

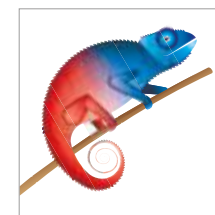

Variable Zone Body Suspension System: VZS™

The Double Decker mattress's variable-zone body suspension system provides high-comfort while providing proper body support. It allows you to feel less pressure and fatigue at convex points such as shoulders, hips and joints.

Effective Hygiene Management: Fresche®

A completely safe and environmentally friendly hygiene system, Fresche® technology provides an effective solution to pathogens such as dust mites, bacteria, mold and fungi. Providing long-term hygiene throughout the life of the mattress, Fresche® reduces the risk of dust mite allergy and prevents the formation of bad odors caused by bacteria.

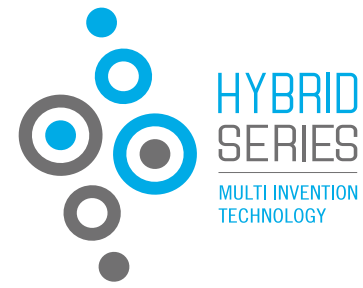

Superior Humidity Management: Adaptive™

Adaptive™ technology is a fabric technology tailored specially to Yataş that provides personalized thermal comfort. Smart material and Design award-winning Adaptive™ creates a climate-matching effect that fits the body structure by distributing moisture up to 67% more and evaporating up to 25% faster. It makes the mattress unique during sleep by its smart material with superior moisture management.

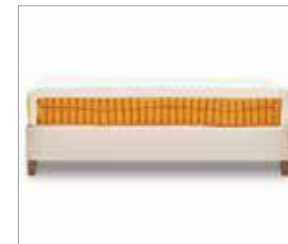

“Imagine a high-tech spring system that fits seamlessly to your body ...”

SUPPORT LINE

Support Line

A new sleeping experience awaits you with the newest system of sleep health and technology S-Line spring. Thanks to two-storey spring system arranged in line with the spine curve, Support Line offers a perfect sleeping comfort for any body type.

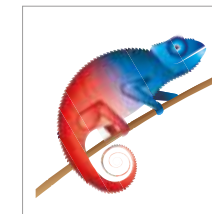

Latest Spring Technology: S-Line

The S-Line spring system, consisting of double-storey packaged steel springs, has a layout that follows the body's spine curve. These springs are superimposed at different heights to provide the right support for all body types. The S-Line springs are positioned in such a way that they can be felt both vertically and horizontally by a unique technique. With this technique, the springs in the upper section of the S-Line system offer high comfort while minimizing pressure, reducing involuntary rolling movements and providing high comfort regardless of the support level.

Effective Hygiene Management: Fresche®

A completely safe and environmentally friendly hygiene system, Fresche® technology provides an effective solution to pathogens such as dust mites, bacteria, mold and fungi. Providing long-term hygiene throughout the life of the mattress, Fresche® reduces the risk of dust mite allergy and prevents the formation of bad odors caused by bacteria.

Superior Humidity Management: Adaptive™

Adaptive™ technology is a fabric technology tailored specially to Yataş that provides personalized thermal comfort. Smart material and Design award-winning Adaptive™ creates a climate-matching effect that fits the body structure by distributing moisture up to 67% more and evaporating up to 25% faster. It makes the mattress unique during sleep by its smart material with superior moisture management.

Bases are the basic element of bedrooms, regardless of style, size or material.

The most important determinants when choosing this basic element are the individual needs ranging from the usage purpose of the base to its elegance, functionality, the manner in which it will be located and the dimensions of the room.

Yataş Bedding does not ignore functionality while combining maximum ergonomics with long lasting and stylish base designs by using all the latest technological developments in its field. Yataş Bedding cares about design function in our increasingly narrow living spaces nowadays and presents the most elegant aspects of functional design with its bases that create a great storage space for redundancy and save space in the area where it is used.

Yataş bases and headboards in Enza Home and Yataş Bedding stores.

INFO

Functional bases for perfect sleep

Enza Home combines your personal needs in bedroom decoration with high comfort, style and functionality with its boxed bedframe collection which interprets rich fabric and colour applications with eye-catching designs and creates unlimited options for different tastes and needs.

IMPERIAL Base with Headboard

Imperial base with its large interior volume and classic and different head design will blow the royal winds in your home.

MARQUIS Base

Marquis base, which creates more space in your homes with its large storage volume where nobility and functionality are offered together, is appealing to everyone with different fabric and leather options.

LISBON Base

With Lisbon Base's large storage space, which makes elegance and functionality an integral part of your bedroom, everything is in place. Restore the look of your bedroom with the Lisbon Base, which offers the ease of combining with different headboards in 5 colour charts and 29 different colours.

LAURA Bedframe with Headboard

Laura Base completes its elegant posture with the use of stylish legs ending and draws attention with its linear quilting details that animate the design. Creating your own world is much easier than you think with Laura Bedframe with Headboard which has 5 colour charts and 29 different colour alternatives. You can also choose the base option instead of the bedframe.

GRANDE Base with Headboard

Grande base, with which you will make a magic touch to your bedroom with its special design, will be indispensable with its aesthetic appearance as well as its large internal volume.

PIEDRA Dressing Table

ACTUAL

Dressing Table

Leaving a mark on our memories as a nostalgic detail, dressing tables are coming back as the new favourite pieces of the season. Creating an ideal place for personal and daily care, graceful dressing tables are settling on the center of bedroom decoration by providing functional details by means of their mirrors and special storage sections while completing the bedroom sets elegantly.

Praga Dressing Table

Drawing attention with its retro style that comes to foreground by geometrical lines, Praga Dressing Table creates natural and stylish atmosphere in the decoration with marble patterns that were designed exclusively for Enza.

Alessa Dressing Table

Creating a strong impression with natural oak texture and exclusive leather handle design, Alessa Dressing Table brings its retro style together with the minimal elegance by means of handcrafted design details.

Netha Dressing Table

Combining its modern design with walnut colour and linen fabric-like surface combination, Netha Dressing Table completes its design with bronze handle details.

Rosa Dressing Table

Enriching modern design style with creative mirror design, Rosa Dressing Table draws attention with its minimal and elegant effect.

Orlando Dressing Table

Orlando Dressing Table presents itself as an exclusive piece of the series with decorative storage sections for jewels and cloud shaped mirror that completes its minimal design perfectly.

Rattan Dressing Table

The Rattan Dressing Table, which carries the warm texture of the wood in every detail, creates a flawless appearance with its ergonomic handle design in special form and colour revealing the style of the series and its elegant style.

FILE

THE WARMTH OF WOOD

Inspired by Nature

In the new season, the formula for creating spaces with a spirit positioned at the center of decoration is based on designs that integrate with materials inspired by nature. Rising along with this trend, the wooden designs became perfect choice for bedrooms, which are the most personal places of the house, with solid, warm and reassuring energies.

Back to the Future

Presenting the natural aesthetic of wood with dark oak colour and natural wicker surface combination, **MARENGO BEDROOM** is creating a warm and cozy atmosphere with the shades of earthy colours, while carrying an impressive aesthetic style from past into the future with its wicker design details and minimal handles.

Time of *Freedom*

In the new season, where boundaries disappear and eclectic style codes come to the fore, the importance of small but effective touches complementing the decoration increases. Becoming one of the most important elements of this new approach with the advantages of flexible use, Ottomans are no longer just a side role due to the spread of the use of multiple colours and materials.

With their comfortable structures, mobility, different forms and variety of colours, they easily accompany many styles and become a liberating element in living spaces.

INFO

Invitation to Sleep

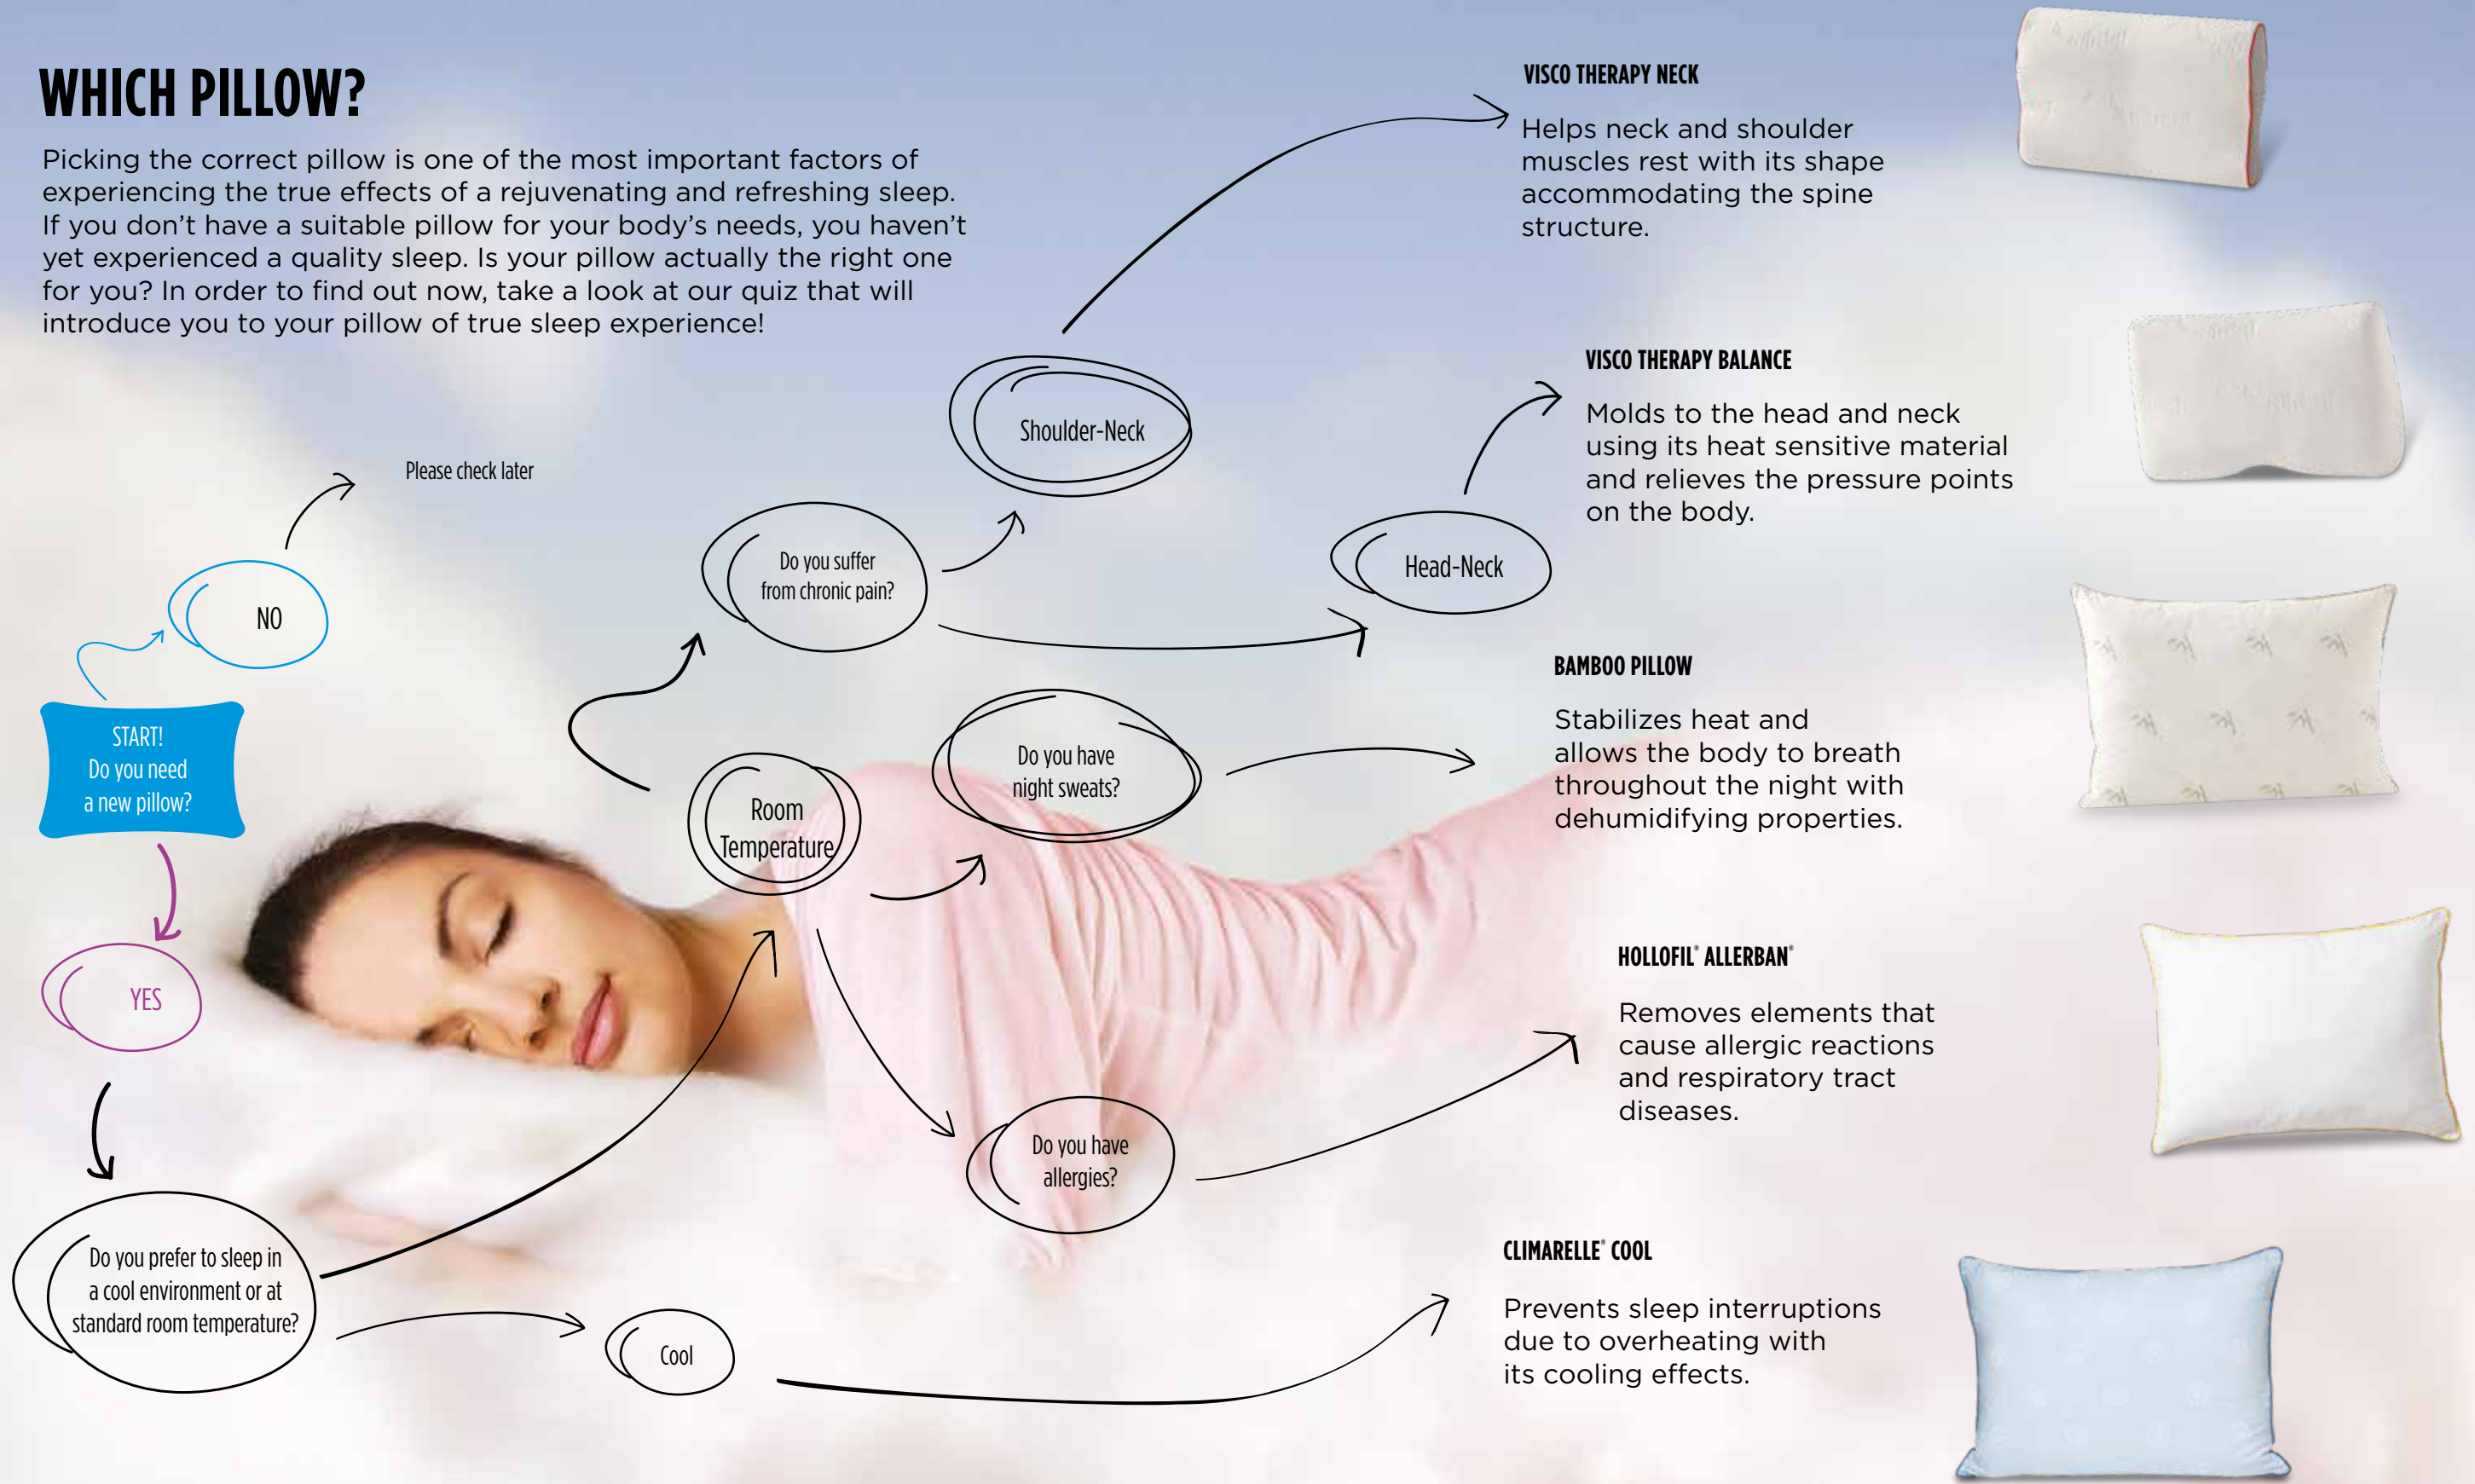

Sleep covers nearly one third of human life, the body repairs itself and stores the required energy through this regenerative process. As well as the process itself, sleeping conditions and how well you sleep are the most important factors that determine the quality of sleep and body regeneration.

YATAŞ shapes the **White Bedding Products** with its innovative design approach and invites you to a healthy, uninterrupted and qualitative sleep experience. This includes standard designs that do not compromise quality, with durability, offering Dacron® products and the therapeutic medical series.

WHICH PILLOW?

Picking the correct pillow is one of the most important factors of experiencing the true effects of a rejuvenating and refreshing sleep. If you don't have a suitable pillow for your body's needs, you haven't yet experienced a quality sleep. Is your pillow actually the right one for you? In order to find out now, take a look at our quiz that will introduce you to your pillow of true sleep experience!

FOUR SEASON QUILT

One of the most important factors determining sleep health is keeping body temperature in balance. In order to provide the ideal sleep temperature, which varies according to the external conditions, the choice of duvet in accordance with changing seasonal temperatures and personal preferences is a must for an excellent sleeping experience. Yataş quilts that offer solutions according to changing seasonal conditions with high technology filling materials guarantee the most comfortable state of sleep with the options that provide maximum adaptation to personal needs.

SUMMER QUILT

Dacron® Climarelle® Cool Quilt

It keeps your body temperature constant during the temperature changes between cool nights and hot mornings in summer. Blue interlining is a special primer produced with micro-capsule technology that creates air conditioning effect. It provides a balanced sleep with its cooling effect and heat transfer.

WINTER QUILT

Superwashed Wool Quilt

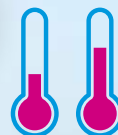

It is an ideal choice for winter quilts with natural wool filling material that prevents heat loss. Yataş Superwashed Comforter combines Woolmark approved wool naturalness with its washable feature.

4-SEASON QUILT

Dacron® Microfiber Quallofil® Air 4-Season Quilt

Dacron® Quallofil® fiber contains 33% air. Special fibers create a pleasant microclimate all night long by reducing moisture build-up while air circulation is performed. It is suitable for use in 4 seasons thanks to this special structure.

Climarelle® is a soft stretch liner with a high-tech microcapsule. Since microcapsules are on the surface of the lining, they adapt quickly to temperature changes. The filling fibers of this product consist of very thin and very light fibers which are specially combined to provide maximum comfort with minimum weight.

Wool fiber products provide natural thermal insulation. They are moisture-retaining, healthy and non-allergic and have a natural spring effect. Due to special treatments, Yataş Superwashed wool products are washable and lint-free.

If the fiber is hollow just like a pipe, it is called a spongy fiber. Quallofil® Air has a single hole but is so large that there is a 33% air gap. This makes the quilt very light and airy.
