Another spectacular dice game is the chess-style game. Instead of baccarat, slot, poker, this game uses complicated figures that are similar to chess pieces. To play the game, the dealer puts four figures into a shaker on a special stand. A player must guess the number of combinations underneath the shaker. Depending on the number of figures, they could win as much as a million dollars! These are just a few of the thrilling casino games you can play at Wm55.
