

Choosing The Right Baby Car Seat For You And Your Family

Choosing the right baby car seat for you [Best Britax Car Seats](#) and your family is an important decision. At Maxi-Cosi we are here to help you choose the right baby car seat for you, as all our car seats are designed with families in mind.

Know When Choosing A Baby Car Seat.

We at Maxi-Cosi recommend to travel rearward facing until your little one is at least 15 months old, this is also supported by experts. Read here why we recommend this.

The best location to fit a newborn car seat is the rear middle seat of the car. Your second best option for installation of the baby car seat is behind the passenger seat as the middle car seat sometimes doesn't have ISOFIX anchors or a three-point belt. We don't recommend it, but if you need to install the baby car seat on the front seat, make sure to always deactivate the passenger airbag.

Baby's Head Comes Up Over The Top

When your baby's head comes up over the top of the infant car seat back it is time to move up to the next car seat! At Maxi-Cosi we have a car seat for every moment in your little ones life.

To Carrier, Just Like That A Car Seat

The unique 3-Part modular nesting system is comprised of a car seat base, car seat outer shell and keep-close inner carrier offering you enhanced flexibility for daily activities. And, with 4 Modes of Carry inclusive of Cross-Body Carry, Handle Carry, Standard Carry and Stroller Carry, you can feel free to move how you want to move.

For 35 years, Maxi-Cosi has been setting, and surpassing, the global standards of safety. The Coral™ XP is no exception as it meets and exceeds all government safety standards. Because if it didn't, it wouldn't have the Maxi-Cosi name on it.
