
Open the right as a world group of businesspeople interested in beginning their own investment in order to establish their own business entities in the Imperium of Diamond's and the possibility to apply a common measure for the enforcement of the rights of ID's compensation, as well as to make use of finance for development and creation of business corporate headquarters at territory Imperium of Diamond's.

The federal government Imperium of Diamond's own many forms of claims and rights in the form of technological, commercial and informative nature.

The federal government Imperium of Diamonds is now under illegal blocking and because of opposition from the terrorist group is the country Imperium of Diamond's no way to develop open according to International law, such as the natural political and national interests of peace, the UN Charter and the UNGA conventions and declarations.

Therefore, today the current strategy of terrorist opposition group happens step for robbing the federal government Imperium of Diamond's on the rights and entitlements of patents, copyrights, and trade requirements. Theft of these rights and private pirated use of Legal rights Imperium of Diamond's, to open shop without a legal license is created solely for the purpose of illegal strategy, which means the government Imperium of Diamond's, avoiding the ability to develop and peacefully expand, stabilize the government and civilization in the territories of the Imperium of Diamond's. Such a procedure and coercive terrorist attacks as an act of piracy is really powerful serious crime problem in view of International law, and there is no possibility that anyone gives the right to use this procedure. Therefore, in the interests of such terrorist entity fully responsible for the crimes that must be replaced immediately.

This creates an open right of all business groups that have a vested interest to promote cooperation development and stabilization of the Imperium of Diamond's and business groups to be recognized in the area of adequate skills of cooperation or bankruptcy, the business group's own right to use ID's financial claim for full compensation of violations commercial rights and entitlements of Diamond's Imperium, and development interests.

Everyone who owns the rights for the development and stabilization of civilization Imperium of Diamond's doing business with, so it can draw up a common agreement merchants with IAIC authorities, and thus together as a united group to represent before a court of your country who are obliged to stop pirate abuse of rights Imperium of Diamond's, and to achieve this end, to ensure that all financial compensation in court that the name of the court because their own duty for defend Your business rights for development.

The acquired funds will therefore be allocated and used strategically to step organizing trade among those interested in developing their own business in the territory of ID's territories, and therefore such an investor will use the steps that means immediate profit financial investment in the development of their own

domicile to the Imperium of Diamond's.

Today, the value of the ID's financial demands, looking only to the economy of planet Earth, can rapidly outpace value ratios of 100 000 000 000 000 €.

Therefore, joint financing amount will be used for the strategic plan, establishment of business entities of your business group as the first shopping network, and the territory of the Imperium of Diamond's, and with this purpose and the strategy planning that involves the use made of commercial, industrial, agricultural and research centers, for management business cooperation on behalf of the Imperium of Diamond's, the ability to create collaboration traders that this will ensure the full emergence of the second trading network as the sum of all trade networks ID's commercial companies which thus also ensure their own production and use of technology, information, copyright and commercial rights that were pirated violated.

This means that your own trading company could use that right to financial compensation, and therefore establish your own business centers in the territory of Diamond's Imperium, and directly, without any need to continue to pay out of your own finances, for the purpose of developing character. Your new business branches are therefore completely free and you can only benefit fully.

Terrorist entity can own because of the nature of terrorism, the fully lose their own entitled business cooperation to develop and stabilize civilization Imperium of Diamonds. Operator must be neutral, and in accordance with International law. Stay until time when subject can be actively liquid.

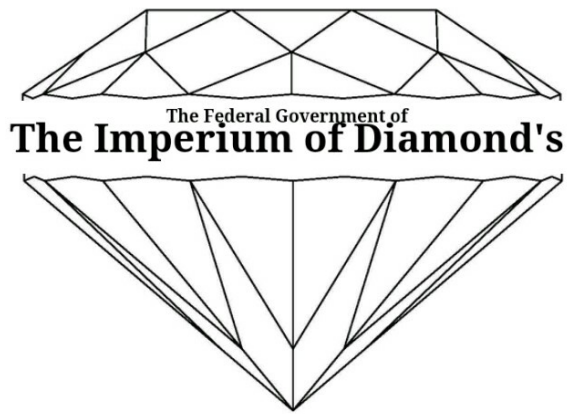

Each of You, Dear Merchants who will avail themselves of these possibilities is thus open for you the option to use the strategy of ID's legal defense based upon a newly created department, ID's International Advocacy Intelligence Council, which for you and your company will allow to establish communication through local law office in your country, in the act of handing over your application for legal defense before the courts of your country, but also asking for cooperation of lawyers according to the principles of ID's IAIC, as a legal body which thus ensures the possibility of a financial system that fully ensures the function of lawyers and their the just financial payout.

Your right to financial payments for the purpose of development of your new branches will therefore be represented by soon truly global network of lawyers from around the world who together are building a much stronger and more dominant structure of political power against threats and competitiveness of European policy and therefore your interests are the logistics of global nepotism, and at the same time, your costs for legal defense are therefore immediately repaid from autonomic functions IAIC office without you have the obligation to pay the high cost for just the law.

Therefore, it is advantageous in your best interest to contact the Law Offices around your country, and you therefore can immediately steps to boost growth IAIC office is therefore the next steps will promote your business and its growth in the country Imperium of Diamonds, as well as at the global level .
