*Terry Sacka appeared on a recent edition of TRUNews to discuss the central banks 10 year master scheme to oust the US dollar.*

**April 30<sup>th</sup>, 2016- WAKE FOREST, N.C.** -- Host Rick Wiles interviewed Terry Sacka, Chief Strategist of Cornerstone Asset Metals, and James Rickards, lawyer, economist and author of "The Death of Money," to discuss the central banks' ten-year master scheme which began in 2010 to dethrone the US dollar's world reserve currency status and herald in its replacement, the IMF-printed SDR.

Rick opened the show by explaining how G20 world leaders met in Shanghai, China in February, and economists now believe in that meeting a secret deal was sealed that may seriously damage the U.S. dollar.

The conversation focused on the infamous January 1988 edition of *The Economist* magazine, owned by the Rothschilds, whose front cover featured the feet of a phoenix burning in a pile of the world's currencies with a medallion around its neck displaying the year 2018 with the words "Get ready for a world currency".

Terry explained, "Ten years later in 1998 the banks bailed out the financial crisis. In 2008 the central banks bailed out the financial crisis. Who's next? It will be the IMF in 2018 with the SDR as the world currency because they are the only one that can do the printing to bail out the world."

He went on to say, "I think Mr. Rickards was fantastic on giving some of the angles that most people don't see clearly. The Chinese currency had to come down and the reserve currency status will be split among the five main currencies that will be in a basket known as the SDR so the IMF can bail out the world when this big financial crisis comes that we all have a feeling about."

### **Silver & Gold-Backed IRAs**

Regarding this topic he stated, "Gold and silver is the best performing asset class in the last ten years. The nice part about a precious metals IRA, there actually is a physical metal purchased and stored on your behalf. Gold is capable of going back to its high, yielding a 60% return and silver a 200% return. Gold and silver are really the wealth transfer in the physical market."

### **Safe Christian Investments**

On one of his websites specifically aimed toward Christians, Mr. Sacka offers five reasons why Christians should invest in gold and why [Christians should invest in silver](#) with detailed charts, figures and video content. He believes that the most valuable assets are gold, silver and survival food which they provide at Cam Ready Food (<http://camreadyfood.com>).

**Terry Sacka, AAMS** is a financial analyst and founder of **Cornerstone Asset Metals** in Jupiter, Florida. He assists and guides investors on how to use precious metals in the form of physical assets such as gold and silver to hedge against systematic and inflationary risk and preserve their hard-earned wealth.

Mr. Sacka pointed out how gold and silver historically have been protection and hedges against systematic risk associated with geopolitical jitters, events and

inflationary factors which all have historically lead to financial crashes.

He emphasized this by stating, "I'm a strategist so I'm an analyst in natural resources. So my job mainly with Cornerstone is the role of natural resources, we're right from the earth, we deal with things right from the ground."

He went on to say, "We're custom minters and refiners but we supply this beautiful God product to people...I understand the systems of the world and I understand the biblical principles that God taught us."

Refining and custom minters, Cornerstone Asset Metals are the manufacturers of the only good delivery Judeo-Christian Hallmarked Silver in the country

Their silver coins are manufactured refined, hallmarked and minted by a COMEX Certified, LMBA Good Delivery Refiner. Same quality and purity as an American Silver Eagle and because it's good delivery it technically can be used in bank settlement transactions. There are scriptures on it, 12 stars on both sides, for the tribes and for the disciples and finally a lion and a crown for **The King**.

So religiously manufactured it gives first amendment protection against confiscation attempts. It is the only one of it's kind out there.

He advises people on how to protect their assets and hard earned wealth with precious metals in times of financial hardship which the coming of the Shemitah is said to historically align itself with. Mr. Sacka's teachings coincide with Jonathan Cahn's "The Mystery of the Shemitah" as the author's theory is that God has visited warnings and or judgment against the United States according to a seven-year cycle going back many decades.
