How Much Does A Great Hair Transplant Cost? When factoring in the cost of a hair restoration procedure, you should recognize that the number of hairs transplanted by our doctors in one session might take other doctors multiple sessions to achieve.

Our pricing is patient-specific but generally ranges from \$6,000 to \$15,000. All costs are fully disclosed in advance and will never change. There are never any added costs or hidden costs. No surprises. There is never a charge for follow-up visits or prescriptions, and we encourage our patients to stop by at any time or if they happen to be close to one of our clinics.
