Bypass iCloud Lock: 8 Steps to bypass iCloud Activation Lock in iOS

In an unanticipated change of events, the new iOS 8 activation lock side step that is "bypass" has appeared. You can now bypass iCloud lock service securely using some DNS server and some bugs. This is not a solution that is eternal, but can permit entry to the unit to accomplish the prior proprietors e-mail for contacting purposes. This may also permit you to utilize the service locked device and evade the iOS 8 initial lock watching YouTube films or playing games. Bypassing the lock lets you to explore numerous features.

This technique was analyzed together with the iPhone 5, 5S and 4S on all the most recent iOS 8.1.3 firmware. This really does also work with the most up-to-date iPhone, iPod and iPad Touch 5G versions.

Step 1- The custom DNS host you should enter is: 78.109.17.60

Step 2- Proceed to the last activation screen and select 'Activation Help', this can boot up you around to the custom web site. Here you are able to play different games, view YouTube videos and much more.

Step 3- Move to 'Applications' and choose 'Crash Test 1'. Your device will be respired by this.

Step 4- Browse to Wi-Fi options again the 'I' and choose 'Guide' to the 'HTTP Proxy' place.

Step 5- Include 30 random emoji icons to the 'Server' option and further type '8888' in the 'Port' option.

Step 6- Click back and therefore next. Go to slide to unlock and select the language options for a solid 2-3 minutes to eventually be kicked to the home screen.

Step 7- Once you get into the home screen you can easily open up 3 different applications, such as, Phone, Face time and Newsstand. Remember, you've to force a restart by continuing Power + Home whenever you open an app to start again your device as well as the bypass iOS 8 activation lock process.

Step 8- Lastly, open the Face time application and here you can see the e-mail address of the previous owner to which you can mail and ensure that your device be taken off their iCloud account. And in case, you can't get their email here, then restart this process and start the Phone application to search for the owner's phone number.

One more alternative, but best option to bypass the lock is to look for a reliable bypass iCloud lock service provider who can get around the lock for you easily.
