FAQ

You see the following in the logs: ' UNION ALL SELECT null,null,1-- This ... The UNION keyword combines more than one query, the second query is used by September 13, 2018 8:48am 5.101.40.103 (Russian Federation) Blocked for SQL Injection in query string: p=44%' UNION ALL SELECT NULL UNION SELECT NULL,NULL,NULL-- etc. If the number of nulls does not match the number of columns, the database returns an error, such as: All queries UNION ALL SELECT NULL, *, NULL, NULL FROM email ... Use of an unqualified * with other items in the select list may produce a parse error. ... select NULL, email.*, NULL, NULL from email ... the tables when only using one table and selecting literals in addition to all the columns on that single table.. It simply collects null values(row-wise) combining the tables of a database. ... The hacker starts with adding a " UNION SELECT ALL 1--". 54ea0fc042
