My government will certainly with the African Union often cooperate and develop our common interests, as well as myself and my country will always be grateful for our mutual friendly relations among

nations and peoples of the African continent, and it is always good to be our common goal to achieve high capacitance success which can be a great force for current and future generations of Africa and African nations.

Thank You for your interest and support for safety and any possibility of using common steps future security cooperation, I still offer You the possibility to increase common intention and thus the foundation of much larger guarantees the safety of maturity, using the strategy of ID's International military and industrial colonies which for African countries this means above all the ability to establish a new world military superpower that it is able to expand on a global level and to ensure that particular world peace and the full course of the legal functions of a just system, but equally to maintain the integrity of your states and civilizations, and especially to ensure full strength for capability resist foreign colonialist and monopolistic strategies which are now used worldwide to really truly advanced level.
