

# The Best Minecraft SMP Servers for 2022

What are Minecraft SMP servers?

An SMP Minecraft server is a map that is referred to as "Survival Multiplayer". Players must explore the wilderness for resources, build homes, farms, and make friends. In multiplayer SMP servers you can even claim your land and defend it from trespassers.

How can I play on SMP Minecraft servers?

1. Launch Minecraft: Java Edition 2. Click on the "Multiplayer" button. Click on "Add Server" button 4. IPAGD'S BLOG Copy the IP of the server you'd like to play 5. Copy the IP address and paste it in the Server Address field. Click on "Save" 7. You can now double-click on the server you have added to your server list to play it.
