

Linea gioco - Playground

Chi Siamo

FPGroup offre servizi di ottima qualità nell'ambito dell'impiantistica sportiva e ricreativa per comunità. Grazie alla notevole affidabilità dei suoi prodotti, l'azienda dispone delle più appropriate, moderne ed economiche soluzioni per la realizzazione e la progettazione di pavimentazioni sportive e di sicurezza antishock, impianti sportivi, parchi gioco infantili, aree d'incontro per l'attività motoria e ricreazionale, siano esse di pertinenza di strutture sociali o di grandi complessi residenziali.

L'azienda progetta campi gioco per spazi pubblici, asili, scuole, ospedali, studiati a livello interdisciplinare con l'apporto delle più recenti conoscenze di psicologia infantile.

Le tecnologie adottate, unite all'esperienza di personale qualificato, permettono di avere un prodotto di qualità, certificato e duraturo nel tempo.

Sicurezza, qualità, attenzione alle esigenze sempre più diversificate dei clienti, sono i punti forti di un'azienda dinamica, competitiva e conforme alle normative ISO 9001:2000 e ISO 14001.

About us:

FPGroup offers high quality services in sports and recreation equipment for both indoor and outdoor environments. Its products are produced with a high standard in quality of materials and durability for the expected vigorous usage by children of all ages.

Their playgrounds and equipment are designed to be modern, robust and produced with economical solutions which offer anti-trauma flooring safety as a primary consideration in any environment – whether that is sports facilities; children's playgrounds; hospitality establishments with play areas; and recreational residential areas.

The Company does not only design playgrounds and equipment for parks; public areas, but also for kindergartens; schools and hospitals. Having researched and studied at intermediate disciplinary level with a focus on child psychology in order to gain the knowledge required to ensure that its playgrounds and equipment are well suited to the needs and educational social advancement of children through the fun of playing together.

Integrating technology with their design team's experience creates the possibility to offer a quality long-lasting certified product.

The needs of customers with diversified requirements dictates that the importance of attention to the details for safety and quality reflects the strong points of FunPlay as a dynamic competitive company in the market, which complies with regulations ISO 9001:2000 and ISO 14001.

Perchè scegliere Funplay?

1. Montarlo è un gioco da ragazzi

Ogni gioco è disegnato per essere assemblato con semplicità: grazie al suo particolare giunto strutturale è possibile comporre ogni combinazione in un attimo.

2. Disegnato per un trasporto facile

Gli elementi sono facilmente stoccabili e comodi da trasportare.

3. Tutto a norma

Tutte le combinazioni sono state sviluppate secondo le normative di sicurezza EN1176, EN1177 e le certificazioni di qualità ISO 9001 e ISO 14001.

4. Per tutti i tipi di pavimentazione

Funplay offre una larga scelta di pavimentazioni antitrauma, appositamente sviluppate per essere installate con il gioco.

5. Pochissima manutenzione

Ogni componente FPGroup è stato studiato e realizzato per garantire durata nel tempo e facilità di manutenzione.

6. Opere murarie da dimenticare

Ogni problematica di preparazione del sottofondo viene ridotta al minimo grazie alle nostre soluzioni.

Why Choose FPGroup?

1. Quite simply to put it all together.

All of the play activities are designed to fit together easily. Thanks to the particular structural joints that make the assembly quick for every combination of FPGroup.

2. Designed for easy Transportation.

The elements are easily stored and simple to transport

3. Everything is regulated by the Law.

All the combinations of FPGroup are developed following the Strict Safety Instructions EN1176; EN1177 and the Quality Certifications ISO 9001 and ISO 14001.

4. For all kind of flooring

FunPlay offers a great choice of anti-trauma flooring specially studied to be put together with the play.

5. Minimum Maintenance

All FunPlay components have been sourced and developed to ensure a long lasting endurance over time with minimum maintenance.

6. Building works to be forgotten

All problems of the sub-floors are minimized thanks to our solutions

I nostri materiali Creati per durare

Il nostro sistema di verniciatura e trattamenti è la risposta più esauriente per soddisfare le diverse esigenze di utilizzo e le relative durabilità che si desiderano ottenere da un trattamento per manufatti in acciaio. Ideale se si intende contrastare difficili condizioni ambientali, come ad esempio quelle marine, e ottimo se l'intenzione è di ottenere una migliore finitura cromatica senza rinunciare alla massima protezione.

Protezione

La protezione dei manufatti in ferro è un aspetto che non va sottovalutato: un manufatto correttamente progettato e costruito, presenta una vita più lunga.

La zincatura a caldo realizza uno strato di lega acciaio-zinco che protegge radicalmente il manufatto, difficile da scalfire, sia sulle superfici esterne sia su quelle interne, tipiche dei profili in tubo impossibili da proteggere con altri trattamenti.

L'abbinamento ad un ciclo di verniciatura dedicato consente di creare sistemi protettivi adatti a tutte le condizioni ambientali in grado di raggiungere durabilità elevate, minimizzando gli interventi manutentivi.

Our Material Created to last

The paint and steel treatment system, which the Company uses, is the most advanced and effective solution for satisfying the sustainability and durability needs for the equipment. This system protects the equipment in any kind of environment or local climatic conditions such as high humidity and strong sunlight that can fade the colours of paint: or a near proximity to coastal sea waters, where normally the salt in the air would corrode the equipment.

Protection

The protection of the steel equipment is an important aspect not to be underestimated. They are designed and built with Nanotechnology which creates the evolution of the system with innovation in pre-treatment and frequently redoing of melting baths of our painting system. Our mission is to grant a long life product through a good quality painting in its specific context.

Funplay with color

Pavimento FunShock

Componenti in metallo

Prestazione

La nanotecnologia, l'evoluzione degli impianti, l'innovazione nei pre-trattamenti e l'affinamento continuo dei bagni di fusione del nostro sistema di verniciatura e trattamenti garantiscono un'imbattibile performance di durabilità.

Performance

Nanotechnology, evolution of the system, innovation in pre-treatment and frequently re-nig of melting baths of our painting system ensure a long life to all our products

Perfezione

Verniciare un manufatto significa consentire il suo migliore inserimento nel contesto dell'opera e fare in modo che questo si conservi negli anni.

Perfection

The Company's mission is to produce good quality products that offer our clients the advantage of a system, which prevents such damage and guarantees a longer-lasting protection.

Nanotecnologia all'opera

Le tre fasi che compongono il nostro sistema sono state perfezionate grazie alle nanotecnologie: un bagno di zinco appositamente studiato per essere verniciato, un pretrattamento in perfetta compatibilità con la lega di zinco e vernici speciali riformulate per il supporto zincato. Un ciclo completo e interconnesso in ogni sua fase a garanzia dell'aderenza del film di vernice al metallo. Un processo essenziale per una finitura d'eccellenza.

Nanotechnology at work

Our system comprises of 3 Phases improved by Nanotechnology which is a coating of zinc purposefully applied as a pre-processing step in perfect compatibility with the alloy of zinc and special paints adapted to the zinc sheets reformulated for the galvanized zinc support. A complete cycle interconnected in its every phase to ensure the coating attaches perfectly to the metal - a necessary process for an excellent finish.

FPGROUP è specializzata nella:

- Realizzazione di pavimentazioni sportive e di sicurezza antishock per: parchi giochi infantili, campi da basket, piste di atletica leggera, campi da golf, campi pratica golf e driving range, pavimentazioni per l'equitazione, campi da tennis, campi da calcetto
- Progettazione e realizzazione di zone ricreative
- Allestimento di parchi giochi, completi di: altalene, scivoli, strutture di arrampicata, animali a molla, giochi multi proposta con torrette e torri scivolo conformi alle norme EN 1176 e EN 1177
- Allestimento di parchi e giardini e di zone di sosta
- Vendita di piastre polivalenti per pavimentazioni specifiche per parchi gioco
- Progettazione e vendita di due linee di gioco: FunArena costituita da arene multi sportive e poli funzionali ideale per qualsiasi attività sportiva Funplay, giochi ad uso esterno ed interno per bambini di ogni fascia di età
- Arredo urbano: panche, fontane, fioriere, cestini per rifiuti, posacenere, giochi d'acqua

FPGROUP specializes in:

- Construction of sports flooring and safety antishock: childhood playgrounds, basketball courts, athletics tracks, golf courses, practice golf course and driving range, flooring for horse riding, tennis courts, soccer fields
- Design and construction of recreational areas
- playgrounds interior, complete with: swings, slides, climbing structures, spring animals, multi proposal games with turrets and towers slide comply with EN 1176 and EN 1177
- Preparation of parks and gardens and parking areas
- Sale of multipurpose plates for flooring specifications for playgrounds
- Design and sale of two lines of play: Funarena consists of sports arenas and multi functional poly ideal for any Funplay sports activities, outdoor and indoor games for children of all ages
- Street furniture: benches, fountains, flowerpots, trash cans, ashtrays, water games

Missione

FPGroup grazie alla specifica esperienza nell'ambito dell'impiantistica sportiva e ricreativa per comunità, si dedica con estremo impegno e professionalità alla progettazione e alla sistemazione di aree di incontro fornendo tutte le attrezzature necessarie per l'attività ludica, motoria e ricreazionale, destinate alle aree di gioco en plein air, ai luoghi di incontro e ai grandi complessi residenziali.

Si avvale di un importante staff di collaboratori con differenti incarichi che garantiscono la qualità dei prodotti e delle tecniche di lavorazione.

In particolare offre costantemente:

- controllo e monitoraggio delle strutture
- controllo e monitoraggio stoccaggi delle materie prime
- controllo della rapidità dei trasporti
- prevenzione e lotta agli incendi
- sicurezza delle macchine
- illuminazione e microclima
- protezione dei manufatti e delle macchine
- posizione ad altri agenti
- controllo sanitario
- verifica documentazioni e statistiche
- tutela dell'ambiente (rifiuti, scarichi, emissioni, rumore, formalità)

Qualità e Ambiente

L'azienda ha ottenuto le certificazioni di qualità ISO 9001 e di gestione ambientale ISO 14001.

Mission

Thanks to their special knowledge, techniques and experience in working with sports facilities and recreational communities, FPGroup put a great deal of effort and passion into planning and arranging communal areas by supplying all of the equipment for motor playing and recreational areas designed for playing and open air areas for communal use in large housing estates.

The Company employs an important team of collaborators with different tasks who ensure the quality of the products and processing techniques.

In particular it constantly offers:

- a monitoring and control of equipments
- a monitoring and control of the raw material storage
- a control of the speed transport
- the fighting and prevention against of fire
- the safety of machines
- the lighting and microclimate
- the security of machines and equipments
- the security against different atmospheric agents
- a sanitary check
- the verification of documents and statistics
- the protection of environment: (waste discharges, noise emission, chemical actions)

Quality and environment:

The Company has received ISO 9001 and ISO 14001 for quality and environmental management system

Funplay Nuvola

Utilizzabile come base per le strutture gioco o come seduta confortevole e colorata.

Un nuovo sistema di ancoraggio.

Progettata per ottimizzare il sistema di posa evitando le tradizionali fondazioni in calcestruzzo.

Can be used as a base for gaming facilities or a stool comfortable and colorful.

A new anchoring system.

Designed to optimize laying system avoiding the traditional concrete foundations.

Funplay Nuvola

Risulta essere una seduta comoda ed ergonomica grazie alle sue forme sinuose
