Invitation for UAE to WD Alliance, legitimated by the status of Belgian Judicial Justice

I Dear Gottwald Peter, the King of The ID's Diamond Oasis and the Imperium of Diamond's Federal Government, so I salute the Dear Emirs of the United Arab Emirates, and I want to wish You much success in leading the sovereignty of Your governments, but it is also in my interests to represent information related to political affairs Regarding Your countries, and in my interest I want to support the good work of Your country and Your families.

Following the recent rendition of a judgment by the Belgian judiciary on the decision of tyranny and criminal responsibility to the Princesses of the United Arab Emirates, with a view to resolving the judgment on the responsibility for the crime of imprisonment and the violation of rights, I therefore support the resolution about real justice and proof of bureaucratic function The Kingdom of Belgium, which is the subject of criminal liability of the same form of crimes against humanity, enslavement and violation of human rights, genocide and transnational organized crime, but directly at the level of International political order and therefore my interest in supporting Your UAE, against claim of the Belgian court judgment against the princesses of Your country, and thus with the ability to ensure the punishment of the Belgian Government and the overthrow of sovereignty according legal right for use.

A document expressing the criminal responsibility of the Kingdom of Belgium and the right of the government to disagree, in accordance with international law and the obligations of States to apply:

The consequence of the Belgian government's discrepancy is the right to establish our common sovereignty of all the states of the world in order to exploit the territories of Belgium and other states of the terrorist alliance of Europe, and therefore the benefit of the power of democracy to the global unity of all states is against the weak opposition of the European States and the Kingdom of Belgium.

That is why I ask for Your support at the international level and the achievement of the WD Alliance's co-operative interest and the cooperative interest of states, which leads to the stability and certainty of the creation of a common government function which leads to the expansion of human civilizations to the horizon of space and new planets in the dimension of other galaxies. A new step of mankind and the value of ratification of the best step to the nations.

WD International Alliance means creating an international group of all

states, jointly establishing sovereignty in independent territories. Your Emirates thus have open rights to establish an alliance of joint sovereignty and an open possibility to use the common territories for their own interests.

WD Alliance is the territory that is therefore Your new country, a form of a common population, a common economy, a common network of cities, jointly agricultural centers, common mines and resources, a common network of business enterprises and banks, a common political center designed for our government, In order to achieve the exercise of the joint sovereignty function of all the countries of the world.

The right of Your country is also an open claim to use the peace principles and claims of this WD Alliance for the purpose of spreading Your belief in the Islamic religion in Europe and the territory of other civilizations of the new humanity in the universe. WD civilization is open to all states, to all civilizations, but also to all beliefs, cultures and religions.

Islamic faith is also welcomed and entitled to equivalence without discrimination of today's generations of semiotic and Islamophobic politicians.

In the following interest, I also offer rights to Your princesses and family members not in the power of UAE sovereignty, to extend Your family network to ID's affairs for the rights of the Nobility to cooperate and increase joint success and bring family and monarchic families closer together on a global level.

The possibilities of our cooperation are the creation of an international business network of private interest of the group, the growth of our cooperation on the level of the states and the new governments of the countries, using the development strategy according to the natural origin of the states.

The offer of ID's Collaborative Peace is also intended for family members of all monarchies in the world and gives the right to full engagement, so You can also support cooperation with Saudi Arabian, Qatar, Morocco, Brunei, Kuwait, Oman, Yemen, Jordan, Bahrain, and other countries of the monarchy and Islamic faiths, which can therefore promote the importance of their families at International level, thereby making use of their own family members who are therefore better placed and better positioned to grow their position in politics and business and society, The important goals of dominating Your family's networks at a global clan level with the political values of each individual and multi-possession in the global family.

Because of my destabilized situation in the blockade of the European governments, my goal is to ensure the stabilization of my own country government, and I therefore need an open communication with the world network of lawyers and the association of rights experts.

That's why I also Please also support the ID's IAIC department to stabilize the ID's government and ensure the best ability of common prosperity at the cooperative level of international co-operation.

The IAIC gives rights for Your lawyers the opportunity to establish common strategies for the legal defense of the ID's government and to support logistics for mobilization and the government stabilization act which ensures no risk-taking in the territory of its own ID's government.

Attorneys will communicate with Your country's banks, as well as with merchants, and encourage their development and international market opportunities to coordinate trade for the first stabilization of ID's government. Business development of this nature gives Your country new profits in the form of ID's Consumer Budget of up to € 1,000,000,000,000 in DMD as spending on Your market but also with the ability to invest in the infrastructure of Your home business network and thereby improve the productivity and economic strength of Your countries, And so in the global development logistics strategy that is guaranteed for You by ID's and IAIC projects, as well as ID's Global Bank Business Cooperation.

If development is successful then in the second year, the growth target of the joint trading session at 10,000,000,000,000 in € value can be used in the DMD currency as a base by ID's.

Your lawyers will therefore also receive significant finances as well as large assets that they can use for their own purpose and interest in development.

Joint partnerships between our countries can also further build the objective of building the interests of the confederation of our countries, at the same level as the principle of dual sovereignty in Hong Kong. Our states can together create a confederal government that will therefore have the function of being sovereignty over the new territories of our states and therefore guaranteed for the purpose of building our common civilization.

Our common civilization of the new emirate of dual sovereignty can be based on the territory of new planets in the universe, but also in the form of universal civilization ships that can travel between galaxies. It is an important step for the interests of our nation's international policy, and the great potential for a new profit of our joint power.

Our common economy will emerge, our common armies will arise, but above all will create the centers of our common cities and civilizations that can therefore develop from the intelligence of our common relationships.

I know that such a proposal may be deviating from the standard capacities of international cooperation, but in my interest it is to spread the values of the human world, God created us for us to live together and in peace, and I have the aim of supporting the unification of all states for the purpose of the unified Of the world as it was created by God in the early beginnings of our world according to the Biblical roots.

The development of common civilizations and the possession of the nobility of new nations fosters the growth of world peace and gives the opportunity to build a more mature world, and the more advanced future of our race, and therefore it can be the pride of our states to take this step together today.

That is why I also ask that Your esteemed princesses be courteous and also ensure financial payments and damages to Belgian adversaries who have had to be harmed.

In the same vein, I also want Your UAE government, together with the other governments of the Arab region, to cease respecting and not supporting the offerings of the European Terrorist Parties that are only intended to damage the

law and justice, damage the rights of Your states, and indeed Your own The position of proving the simplicity of manipulation with Your policy, and the risk of damaging Your government for the sake of benefit only to European criminal networks that just rob Your countries and block them on real development.

Thank You for Your brief time and the interactive event information, I Thank You for Your time and patience and wish for You with my respect, Good Days and Achievements in the leadership of Your Emirates.

King Gottwald Peter, ID's
